*Critical Explorations of Young Adult Literature* Victor Malo-Juvera 2019-12-06 Recognizing the determination of a canon as an ongoing process of discussion and debate, which helps us to better understand the concept of meaningful and important literature, this edited collection turns a critical spotlight on young adult literature (YAL) to explore some of the most read, taught, and discussed books of our time. By considering the unique criteria which might underpin the classification of a YAL canon, this text raises critical questions of what it means to define canonicity and designate certain books as belonging to the YAL canon. Moving beyond ideas of what is taught or featured in textbooks, the volume emphasizes the role of adolescents' choice, the influence of popular culture, and above all the multiplicity of ways in which literature might be interpreted and reflected in the lives of young readers. Chapters examine an array of texts through varied critical lenses, offer detailed literary analyses and divergent interpretations, and consider how themes might be explored in pedagogical contexts. By articulating the ways in which teachers and young readers may have traditionally interpreted YAL, this volume will extend debate on canonicity and counter dominant narratives that posit YAL texts as undeserving of canonical status. This text will be of great interest to graduate and postgraduate students, academics, professionals, and libraries in the field of young adult literature, fiction literacy, children's literacy and feminist studies.

**Jerry Spinelli's Outsiders and its Relevance in Children's Literature** Jessica Narloch 2012-03-02 Seminar paper from the year 2006 in the subject American Studies - Literature, grade: 1.3, University of Duisburg-Essen, language: English, abstract: The main aim of children's literature is to be readable for young people, to be amusing, exciting, to have a good story and to make readers enjoy it. Some books do not only fulfill this aim but also have a message. Young children should learn something important by reading those books. Those books are relevant for children's literature because the children enjoy learning when the story is good and interesting. But what makes a book a relevant book? Is it only the message, only the story, the characters or all of

those? This essay will show if Jerry Spinelli's books *Stargirl*, *Loser* and *Wrinker* do have a relevance in children's literature and why by characterizing the protagonists and by finding out what Spinelli's messages are. Those three books have been chosen because the protagonists are outsiders and therefore the books are of comparable topics.

In her writing, *Stargirl* mixes memories of her bittersweet time in Mica, Arizona, with involvements with new people in her life. Two introductory chapters are followed by five chapters that each cover a different genre: Chapter 3, Informational Books; Chapter 4, Fiction; Chapter 5, Biography, Autobiography, and Memoir; Chapter 6, Poetry; and Chapter 7, How-to and Hands-on Books. Each genre chapter consists of four parts: Part 1: Discusses the genre and how content area teachers can use books within that genre to further content learning and enhance literacy skills. Crossing Textual Boundaries in International Children's Literature Lance Weldy 2011-01-18 "As the first part of the title indicates, my interest in looking at intertextuality and transformation still maintains a prominent place throughout this book as well. If we believe that 'no text is an island,' then we will understand that the relationships between and within texts across the years become a fascinating place for academic inquiry. I included the word 'boundaries' into the title because we never get tired of voicing our opinions about texts which traverse relegated boundaries, such as genre or medium. Not only am I interested in discussing what these changes across boundaries mean socially, historically, and culturally, but also what they mean geographically,

which accounts for the second part of my title. "I am very excited that this book will be placing even more emphasis on children's literature in an international scene than my first book did, in the sense that I have added more scholars on an international level. I hesitate to list the nationalities of all of the contributors here because quite a few have themselves crossed international boundaries in different ways, by either studying abroad or finding permanent residency in foreign countries. Nevertheless, the writers have lived extensively in or identify as being from Australia, Canada, England, Finland, Germany, Greece, Iceland, Ireland, Israel, Norway, Spain, Sweden, Turkey, the United States of America, and Wales." –Introduction
