Language Teacher Agency Jian Tao 2021-10-31 This Element aims to elucidate the concept of language teacher agency by exploring the 'what' question, offering major conceptualisations of agency and explaining how they shape the way we approach teacher agency. The authors then continue with the 'why' question, and elaborate on the reasons that language teacher agency matters, based on a discussion of the varied purposes of teacher agency at multiple levels. They also acknowledge that teacher agency does not operate alone, and discuss how it intersects with such concepts as teacher identity, emotion, belief and knowledge. Based on this, they identify ways to promote teacher agency through making changes to contexts and/or actors. They then introduce the concept of collective agency and propose a multi-layered model based on an illustrative study. The Element ends with a call for a trans-perspective on understanding language teacher agency so as to facilitate the professional development of language teachers.

The Glassblower Petra Durst-Benning 2014-10-07 In the village of Lauscha in Germany, things have been done the same way for centuries. The men blow the glass, and the women decorate and pack it. But when Joost Steinmann passes away unexpectedly one September night, his three daughters must learn to fend for themselves. While feisty Johanna takes a practical approach to looking for work, Ruth follows her heart, aiming to catch the eye of a handsome young villager. But it is dreamy, quiet Marie who has always been the most captivated by the magic—and sparkling possibilities—of the craft of glassblowing. As the spirited sisters work together to forge a brighter future for themselves on their own terms, they learn not only how to thrive in a man's world, but how to remain true to themselves—and their hearts—in the process.

Every Day Is for the Thief Teju Cole 2015-03-03 NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY DWIGHT GARNER, THE NEW YORK TIMES • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY San Francisco Chronicle | NPR | The Root | The Telegraph | The Globe and Mail NATIONAL BESTSELLER • FINALIST, PHILLIS WHEATLEY BOOK AWARD • TEJU COLE WAS NAMED ONE OF THE MOST INFLUENTIAL AFRICANS OF THE YEAR BY NEW AFRICAN MAGAZINE For readers of Chimamanda Ngozi Adichie and Michael Ondaatje, *Every Day Is for the Thief* is a wholly original work of fiction by Teju Cole, whose critically acclaimed debut, *Open City*, was the winner of the PEN/Hemingway Award and a finalist for the National Book Critics Circle Award, and was named one of the best books of the year by more than twenty publications. Fifteen years is a long time to be away from home. It feels longer still because I left under a cloud. A young Nigerian living in New York City goes home to Lagos for a short visit, finding a city both familiar and strange. In a city dense with story, the unnamed narrator moves through a mosaic of life, hoping to find inspiration for his own. He witnesses the “yahoo yahoo” diligently perpetrating email frauds from an Internet café, longs after a mysterious woman reading on a public bus who disembarks and disappears into a bookless crowd, and recalls the tragic fate of an eleven-year-old boy accused of stealing at a local market. Along the way, the man reconnects with old friends, a former girlfriend, and extended family, taps into the energies of Lagos life—creative, malevolent, ambiguous—and slowly begins to reconcile the profound changes that have taken place in his country and

the truth about himself. In spare, precise prose that sees humanity everywhere, interwoven with original photos by the author, *Every Day Is for the Thief*—originally published in Nigeria in 2007—is a wholly original work of fiction. This revised and updated edition is the first version of this unique book to be made available outside Africa. You’ve never read a book like *Every Day Is for the Thief* because no one writes like Teju Cole. Praise for *Every Day Is for the Thief* “A luminous rumination on storytelling and place, exile and return . . . extraordinary.”—*San Francisco Chronicle* “Cole is following in a long tradition of writerly walkers who, in the tradition of Baudelaire, make their way through urban spaces on foot and take their time doing so. Like Alfred Kazin, Joseph Mitchell, J. M. Coetzee, and W. G. Sebald (with whom he is often compared), Cole adds to the literature in his own zeitgeisty fashion.”—*The Boston Globe*

Don't Call Me Ishmael Michael Bauer 2012-01-01 By the time ninth grade begins, Ishmael Leseur knows it won't be long before Barry Bagsley, the class bully, says, "Ishmael? What kind of wussy-crap name is that?" Ishmael's perfected the art of making himself virtually invisible. But all that changes when James Scobie joins the class. Unlike Ishmael, James has no sense of fear - he claims it was removed during an operation. Now nothing will stop James and Ishmael from taking on bullies, bugs and *Moby Dick*, in the toughest, weirdest, most embarrassingly awful - and the best - year of their lives.

Homo Ludens Johan Huizinga 1971-06-01 An essential reference for all game designers, this 1938 classic is “a fascinating account of ‘man the player’ and the contribution of play to civilization” (Harper’s) In this classic evaluation of play that has become a “must-read” for those in game design, Dutch philosopher Johan Huizinga defines play as the central activity in flourishing societies. Like civilization, play requires structure and participants willing to create within limits. Starting with Plato, Huizinga traces the contribution of *Homo Ludens*, or “man the player” through Medieval Times, the Renaissance, and into our modern civilization. Huizinga defines play against a rich theoretical background, using cross-cultural examples from the humanities, business, and politics. *Homo Ludens* defines play for generations to come.

Third language acquisition Camilla Bardel This book deals with the phenomenon of third language (L3) acquisition. As a research field, L3 acquisition is established as a branch of multilingualism that is concerned with how multilinguals learn additional languages and the role that their multilingual background plays in the process of language learning. The volume points out some current directions in this particular research area with a number of studies that reveal the complexity of multilingual language learning and its typical variation and dynamics. The eight studies gathered in the book represent a wide range of theoretical positions and offer empirical evidence from learners belonging to different age groups, and with varying levels of proficiency in the target language, as well as in other non-native languages belonging to the learner's repertoire. Diverse linguistic phenomena and language combinations are viewed from a perspective where all previously acquired languages have a potential role to play in the process of learning a new language. In the six empirical studies, contexts of language learning in school or at university level constitute the main outlet for data collection. These studies involve several language backgrounds and language combinations and focus on various linguistic features. The specific target languages in the empirical studies are English, French and Italian. The volume also includes two theoretical chapters. The first one conceptualizes and describes the different types of multilingual language learning investigated in the volume: i) third or additional language learning by learners who are bilinguals from an early age, and ii) third or additional language learning by people who have previous experience of one or more non-native languages learned after the critical period. In particular, issues related to the roles played by age and proficiency in multilingual acquisition are discussed. The other theoretical chapter conceptualizes the grammatical category of aspect, reviewing previous studies on second and third language acquisition of aspect. Different models for L3 learning and their relevance and implications for representations of aspect and for potential differences in the processing of second and third language acquisition are also examined in this chapter. As a whole, the book presents current research into third or additional language learning by young learners or adults, considering some of the most important factors for the complex process of multilingual language learning: the age of onset of the additional language and that of previously acquired languages, social and affective factors, instruction, language proficiency and literacy, the typology of the background languages and the role they play in shaping syntax, lexicon, and other components of a L3. The idea for this book emanates from the symposium Multilingualism, language proficiency and age, organized by Camilla Bardel and Laura

Sánchez at Stockholm University, Department of Language Education, in December 2016.

But now the livelihood of the town of Lauscha, Germany--known around the world as the "paradise of glass"--is in danger. The local glassworks is about to be sold, and rumor has it the buyer wants to make changes that will challenge glassblowing tradition. Wanda, the daughter of the middle Steinmann sister, is freshly arrived from America and engaged to an ambitious local glassblower. Yet as soon as the bold young woman learns of the impending sale, she decides to do as her mother and aunts did--cast aside her expected role in order to save the day. With the help of a handsome bank clerk, she will take a daring risk with the villagers' hard-earned money. Just like glass, though, love and commerce are fragile, and what begins as their last hope may just end in shattered dreams.

Academic Writing Eija Ventola 1996-03-15 Writing is crucial to the academic world. It is the main mode of communication among scientists and scholars and also a means for students for obtaining their degrees. The papers in this volume highlight the intercultural, generic and textual complexities of academic writing. Comparisons are made between various traditions of academic writing in different cultures and contexts and the studies combine linguistic analyses with analyses of the social settings in which academic writing takes place and is acquired. The common denominator for the papers is writing in English and attention is given to native-English writers' and non-native writers' problems in different disciplines. The articles in the book introduce a variety of methodological approaches for analyses and search for better teaching methods and ways of improving the syllabi of writing curricula. The book as a whole illustrates how linguists strive for new research methods and practical applications in applied linguistics.

A Practical Guide for Translators Geoffrey Samuelsson-Brown 2010-03-24 This is the fifth revised edition of the best-selling *A Practical Guide for Translators*. It looks at the profession of translator on the basis of developments over the last few years and encourages both practitioners and buyers of translation services to view translation as a highly-qualified, skilled profession and not just a cost-led word mill. The book is intended principally for those who have little or no practical experience of translation in a commercial environment. It offers comprehensive advice on all aspects relevant to the would-be translator and, whilst intended mainly for those who wish to go freelance, it is also relevant to the staff translator as a guide to organisation of work and time. Advice is given on how to set up as a translator, from the purchase of equipment to the acquisition of clients. The process of translation is discussed from initial enquiry to delivery of the finished product. Hints are given on how to assess requirements, how to charge for work, how to research and use source material, and how to present the finished product. Guidance is given on where to obtain further advice and professional contacts. This revised edition updates practices in the translation profession and considers the impact of web-based translation offerings. Industry and commerce rely heavily on the skills of the human translator and his ability to make intellectual decisions that is, as yet, beyond the capacity of computer-aided translation.
