The Girl Who Wrote Loneliness: A Novel Kyung-Sook Shin 2015-09-15 The highly anticipated release of the most personal novel by Kyung-Sook Shin, who first burst on to the literary scene with the New York Times bestseller, *Please Look After Mom*. Homesick and alone, a teen-aged girl has just arrived in Seoul to work in a factory. Her family, still in the countryside, is too impoverished to keep sending her to school, so she works long, sun-less days on a stereo-assembly line, struggling through night school every evening in order to achieve her dream of becoming a writer. Korea's brightest literary star sets this complex and nuanced coming-of-age story against the backdrop of Korea's industrial sweatshops of the 1970's and takes on the extreme exploitation, oppression, and urbanization that helped catapult Korea's economy out of the ashes of war. But it was girls like Shin's heroine who formed the bottom of Seoul's rapidly changing social hierarchy, forgotten and ignored. Richly autobiographical, *The Girl Who Wrote Loneliness* lays bare the conflict and confusion Shin faces as she confronts her past and the sweeping social change of the past half-century. Cited in Korea as one of the most important literary novels of the decade, this novel cements Shin's legacy as one of the most insightful and exciting writers of her generation.

The Christian Sky Mark Edward Dodson 2004 Why live under a pagan sky? For thousands of years, humankind has dwelled under a dome of stars that have been grouped and identified according to ancient superstitions. Today, the official star constellations pay homage to the pagan gods and goddesses of a dark and chaotic world, a world before Christ, and yet these are the constellations that scouting groups and school children all around the world have been encouraged to learn for hundreds of years. Now, for the first time, the sky has been mapped in accordance with easy-to-find star patterns that tell the stories of the Christian faith. No telescope required. No sophisticated instruments needed. After presenting a few simple but very effective techniques for finding your way through the sky at night, the author takes you on a tour of the Christian constellations. Using new constellations inspired by stories from the Bible, you will be able to locate stars, planets, star clusters, and galaxies during any time of the night and at any time of the year. If you have ever wanted to know more about God's grandest creation but have never felt comfortable learning about ancient pagan idols, then this book will provide you with a healthy fresh start.

Living the Sky Ray A. Williamson 1987 Imagine the North American Indians as astronomers carefully watching the heavens, charting the sun through the seasons, or counting the sunrises between successive lunar phases. Then imagine them establishing observational sites and codified systems to pass their knowledge down through the centuries and continually refine it. A few years ago such images would have been abruptly dismissed. Today we are wiser. *Living the Sky* describes the exciting archaeoastronomical discoveries in the United States in recent decades. Using history, science, and direct observation, Ray A. Williamson transports the reader into the sky world of the Indians. We visit the Bighorn Medicine Wheel, sit with a Zuni sun priest on the winter solstice, join explorers at the rites of the Hopis and the Navajos, and trek to Chaco Canyon to make direct on-site observations of celestial events.

From the Stars in the Sky to the Fish in the Sea Kai Cheng Thom 2017-10-16 In the magical time between night and day, when both the sun and the moon are in the sky, a child is born in a little blue house on a hill. And Miu Lan is not just any child, but one who can change into any shape they can imagine. The only problem is they can't decide what to be: A boy or a girl? A bird or a fish? A flower or a shooting star? At school, though, they must endure inquisitive looks and difficult questions from the other children, and they have trouble finding friends who will accept them for who they are. But they find comfort in the loving arms of their mother, who always offers them the same loving refrain: "whatever you dream of / i believe you can be / from the stars in the sky to the fish in the sea." In this captivating, beautifully imagined picture book about gender, identity, and the acceptance of the differences between us, Miu Lan faces many questions about who they are and who they may be. But one thing's for sure: no matter what this child becomes, their mother will love them just the same. Kai Cheng Thom is a writer, performance artist, and psychotherapist in Toronto. Her first poetry book, *a Place Called No Homeland*, was published in 2017. Kai Yun Ching is a community-based organizer, educator, and illustrator in Montreal. Wai-Yant Li is a ceramics artist and illustrator in Montreal.

Under a Dark Summer Sky Vanessa Lafaye 2015-06-09 *Under a Dark Summer Sky* is a stunning debut novel, at once a love story set in a time of great turmoil and a vivid depiction of a major natural disaster. Florida, 1935. In Heron Key, relationships are as tangled as the swamp's mangrove roots. It's been eighteen long years since Henry went away to war. Still, Missy has waited, cleaning the Kincaids' house and counting the stars. Now he's back, but she barely recognizes the desperate, destitute veteran he's become — unsure of his future, ashamed of his past. When a white woman is found beaten nearly to death after the Fourth of July barbecue, suspicion falls on him immediately. As tensions rise in the small community, the barometer starts to plummet — a massive hurricane is on its way. Based on real historical events, *Under a Dark Summer Sky* evokes what happens when people, sweating under the weight of their pasts, are tested to the absolute limits of their endurance.

Under a Summer Sky Nan Rossiter 2014-04-29 New York Times bestselling author Nan Rossiter transports readers to Cape Cod with a warm, compelling story of family, new beginnings, and finding the courage to love honestly and well. . . The old Cape Cod house that Laney Coleman shares with her minister husband Noah and their five boys is usually brimming with cheerful chaos. There's nothing fancy about the ancient kitchen or the wooden floors scuffed by the constant parade of activity and the clicking claws of their two Labrador retrievers. It's a place to savor the sea breeze wafting through the windows, or sip coffee on the porch before another hectic day begins. This summer, life promises to be even busier than usual, because Noah's younger brother, Micah, wants to hold his upcoming wedding on their property. Though thrilled that Micah has found happiness after past heartache, Laney is apprehensive about having her home turned upside down. She has other concerns too—her youngest son is being bullied at school, and Noah's father is not the robust patriarch he once was, in mind or body.

As the bride and groom's large, close-knit families gather, there will be joyful celebration but also unexpected sorrows and revelations, and a chance to store up a lifetime of memories during the fleeting, precious days of summer. . . Praise for the novels of Nan Rossiter "A gripping story of three sisters, of love lost and found and a family's journey from grief to triumph. Clouds in a Summer Sky Peter Maughan 2019-07-25 Welcome to Batch Magna, a place where anything might happen. And often does... Life in an old steam boat deep in the Welsh Borders holds numerous charms, but the Commander's wife Priny is suffering from arthritis, a condition not at all improved by their water-based lifestyle. The couple take up an offer from Humphrey, the squire of Batch Hall, of a straight swap: their boat, the Batch Castle, for one of the Masters' Cottages facing their beloved river. The Castle is restored to river-worthiness and starts plying successfully as the Cluny Steamboat Company to Shrewsbury and back. As a result it takes a good deal of profit away from a taxi firm in a local border town, much to the displeasure of the firm's English owner, Sidney Acton. Enlisting the aid of two corrupt Welsh councillors, Acton plots against the new venture. Only time will tell if his sabotage attempts will bear fruit or blow up in his face... What readers are saying about *The Batch Magna Chronicles* series: "An enchanting mixture of *The Wind in The Willows* and *The Darling Buds of May*. An England that doesn't exist but surely should." "Reading this book was like sitting down for a nice long chat with an old friend. I loved reading the Welsh village descriptions; it felt like coming home. ... I eagerly await the next instalment of the Batch Magna crew!" "I first got this book out of the local library, and then brought a copy - I wanted to read it again and again. It's a treasure, a smashing read, funny and beautifully written." "These books are such fun, darkly comic and full of great characters. ... Batch Magna is a place I would love to find, and the river sounds idyllic." "Hurrah for Batch Magna, Humphrey and friends." "I loved this book. It's lyrical and very amusing, with all the charm of an old Ealing comedy. ... More please Mr Maughan!" "What an amazing writer! I have never found any descriptive writing that has gripped me so much before." "A thoroughly enjoyable read. ... Is there another Batch Magna book on the way, please? Such a wonderfully descriptive bucolic and warmly 'human' story with echoes of the *Darling Buds of May*." "A wonderful, funny, well-crafted escape from everyday life. If you love writing that absorbs you into the landscape you will love this book. Every sense was satisfied with the author's beautiful descriptions of the Marches. Escape from the tarmac, concrete and relentlessness of life with this stunning book. Thank you Mr Maughan." "I absolutely loved this book and all the characters became so real to me, I just couldn't put it down."

Finding a Million-Star Hotel Bob Mizon 2016-07-04 Bob Mizon, one of the world's best known campaigners against the veil of light pollution that has taken away the starry sky from most of the world's population, takes readers to a hundred places in the UK and the USA where the wonders of the night sky might still be enjoyed in perfect or near-perfect night skies. Visiting small hotels and simple campsites, and savoring vast dark-sky reserves where the night sky is actively protected, The Million-Star Hotel celebrates the black skies of yesteryear - which may become a reality for more and more of us as modern technology reins in lighting and puts it only where needed. How can you prepare for your stay beneath the stars? What astronomy can you do during the daytime? What kind of equipment will you need? Questions such as these are answered, and if town dwellers return inspired - and, Bob hopes, also inspired to look with fresh eyes at their own local lighting - there is enough information here for them to equip themselves for some urban astronomy too.

The first time Lyla Savoie Kenney found love—boundless, passionate love—it wasn't with a person but a place. She found deep-rooted endearment there, and in keeping with tradition, it caused her first real heartbreak too. Fifteen years later, now a widowed mother with a child of her own, Begoa's Point is reopening its doors. Lyla is surprised when she is abruptly moved off the waiting list and given a reservation at the camp, but even more surprising is what she finds when she arrives. Weston Accardi, the first boy Lyla ever gave her heart to, is the proud new owner of the Begoa's property. He has changed—and not just because a prosthetic leg now exists where a natural limb once did. He is no longer the carefree rebel he used to be but has grown into a responsible businessman. Their past, however, refuses to remain such, cycling back to smother the fire they've tried so hard to rebuild since her arrival to the reopened campground.
