*Creative Clinical Teaching in the Health Professions* Sherri Melrose 2021-08-30 For healthcare professionals, clinical education is foundational to the learning process. However, balancing safe patient care with supportive learning opportunities for students can be challenging for instructors and the complex social context of clinical learning environments makes intentional teaching approaches essential. Clinical instructors require advanced teaching knowledge and skills as learners are often carrying out interventions on real people in unpredictable environments. *Creative Clinical Teaching in the Health Professions* is an indispensable guide for educators in the health professions. Interspersed with creative strategies and notes from the field by clinical teachers who offer practical suggestions, this volume equips healthcare educators with sound pedagogical theory. The authors focus on the importance of personal philosophies, resilience, and professional socialization while evaluating the current practices in clinical learning environments from technology to assessment and evaluation. This book provides instructors with the tools to influence both student success and the quality of care provided by future practitioners.

**Introduction to Psychology** Charles Stangor 2014 "This book is designed to help students organize their thinking about psychology at a conceptual level. The focus on behaviour and empiricism has produced a text that is better organized, has fewer chapters, and is somewhat shorter than many of the leading books. The beginning of each section includes learning objectives; throughout the body of each section are key terms in bold followed by their definitions in italics; key takeaways, and exercises and critical thinking activities end each section"--BCcampus website.

Generational Learning Styles Julie Coates 2007 For the first time in history, there are now four generations of adults living, working and learning within

the same society. It sets a tone for the explosion of change that society faces in the 21st century. For the first time, there are four generations of adults raising families, going to work, going to school. The day of the multi-age classroom is here. The issues of how to manage diverse generations in the workplace are upon us. *Generational Learning Styles* is a pioneering work intended to provide you with guidelines for meeting the challenges of multiple generations in school, work and society. For trainers, teachers at all levels, faculty, human resource professionals and anyone interested in generations and in learning styles. After reading *Generational Learning Styles*, you will be more creative and successful in your own teaching and work. --Publisher's website.

**Parking Management Best Practices** Todd Litman 2018-01-12 This book is a blueprint for developing an integrated parking plan. It explains how to determine parking supply and affect parking demand, as well as how to calculate parking facility costs. It also offers information about shared parking, parking maximums, financial incentives, tax reform, pricing methods, and other management techniques. What types of locations benefit from parking management? Places with perceived parking problems. Areas with rapidly expanding population, business activity, or traffic. Commercial districts and other places with compact land-use patterns. Urban areas in need of redevelopment and infill. Places with high levels of walking or public transit or places that want to encourage those modes. Districts where parking problems hinder economic development. Areas with high land values Neighborhoods concerned with equity, including fairness to nondrivers. Places with environmental concerns. Unique landscapes or historic districts in need of preservation, "

Bad Endings Carleigh Baker 2017-03-15 Fiction. Native American Studies. Carleigh Baker likes to make light in the dark. Whether plumbing family ties, the end of a marriage, or death itself, she never lets go of the witty, the ironic, and perhaps most notably, the awkward. Despite the title, the resolution in these stories isn't always tragic, but it's often uncomfortable, unexpected, or just plain strange. Character digressions, bad decisions, and misconceptions abound. While steadfastly local in her choice of setting, Baker's deep appreciation for nature takes a lot of these stories out of Vancouver and into the wild. Salmon and bees play reoccurring roles in these tales, as do rivers. Occasionally, characters blend with their animal counterparts, adding a touch of magic realism. Nature is a place of escape and attempted convalescence for characters suffering from urban burnout. Even if things get weird along the way, as Hunter S. Thompson said, 'When the going gets weird, the weird turn pro.' In *BAD ENDINGS*, Baker takes troubled characters to a moment of realization or self-revelation, but the results aren't always pretty.

geological history and architecture of the Island are revealed.

**The language dimension in all subjects** Jean-Claude Beacco 2016-10-24 Mastering the language of schooling is essential for learners to develop the skills necessary for school success and for critical thinking. It is fundamental for participation in democratic societies, and for social inclusion and cohesion. This handbook is a policy and working document which promotes convergence and coherence between the linguistic dimensions of various school subjects. It proposes measures to make explicit - in curricula, pedagogic material and teacher training - the specific linguistic norms and competences which learners must master in each school subject. It also presents the learning modalities that should allow all learners, and in particular the most vulnerable among them, to benefit from diversified language-learning situations in order to develop their cognitive and linguistic capacities.

**The Making of Modern Economics** Mark Skousen 2015-01-28 Here is a bold history of economics – the dramatic story of how the great economic thinkers built today's rigorous social science. Noted financial writer and economist Mark Skousen has revised and updated this popular work to provide more material on Adam Smith and Karl Marx, and expanded coverage of Joseph Stiglitz, 'imperfect' markets, and behavioral economics. This comprehensive, yet accessible introduction to the major economic philosophers of the past 225 years begins with Adam Smith and continues through the present day. The text examines the contributions made by each individual to our understanding of the role of the economist, the science of economics, and economic theory. To make the work more engaging, boxes in each chapter highlight little-known – and often amusing – facts about the economists' personal lives that affected their work.

*No Easy Road* Beth Light 1990 The third volume in the Canadian women's history series, this book contains documents that illustrate the conditions and concerns of women in Canada between the 1920s and the 1960s, delineating the experience that set the stage for the contemporary Canadian women's movement.

**Handbook of Research on Applying Universal Design for Learning Across Disciplines: Concepts, Case Studies, and Practical Implementation** Fovet, Frederic 2021-01-22 Universal design for learning (UDL) has been hailed for over a decade as a revolutionary lens that allows campuses to shift their efforts to create inclusive environments. In recent years, UDL has gone beyond the field of disability and been explored with regards to international and indigenous students. There is now a sizable body of literature that details the benefits of implementing UDL in higher education, as well as a number of emerging studies examining the strategic challenges of developing UDL across institutions. There is, however, still a relative paucity of research discussing the transformation of instruction or assessment in concrete terms. Therefore, there is a necessity for research and information on UDL that has already been implemented in classrooms and the practical examples of what this process of transformation looks like. The Handbook of Research on Applying Universal Design for Learning Across Disciplines: Concepts, Case Studies, and Practical Implementation offers practical examples of UDL having successfully been embedded in courses within various disciplines and classroom formats, as well as across the undergraduate and graduate sectors. The chapters provide case studies and concrete examples of what the UDL reflection on practice might look like in specific faculties and departments. While highlighting UDL in areas such as educational technology, student engagement, assignment design, and inclusive education, this book is ideally intended for inservice and preservice teachers, administrators, teacher educators, higher education professors and leaders, practitioners, researchers, academicians, and students interested in the integration of UDL into strategic academic plans.

**Concepts of Biology** Samantha Fowler 2018-01-07 Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

*European Drawings from the Collection of the Ackland Art Museum* Ackland Art Museum 2001 This handsome catalogue presents 267 European drawings and watercolors dating from the 16th through the early 20th centuries. Color reproductions of 73 of the Ackland's most important Italian, Netherlandish, French, British, and German drawings are accompanied by 194 black-and-white reproductions and 35 supplemental images. Although the Ackland has not previously published its drawings, many of the works are already quite well known, including works by Luca Cambiaso, Pietro da Cortona, Eugène Delacroix, Jean-Honoré Fragonard, William Blake, Guilio Romano, Henry Fuseli, and Egon Schiele. Beginning with an overview of the history of the Ackland's drawings collection, the catalogue examines the most significant works with full-page reproductions and essays that detail the scholarly issues relevant to each drawing, including questions of attribution, date, subject matter, and relationship to other studies or to known projects. In addition, 200 works are presented with thumbnail reproductions and brief commentary.

Canada Margaret Conrad 2012-06-21 *Canada : A History* turns the traditional history textbook into a flowing story with its infusion of people, including

marginalized groups, into its rich narrative. Employing themes as well as chronology to organize Canada's story, the authors' graceful writing style and vivid descriptions help students learn about their country's history. *Canada: A History* is unique in its presentation of Canadian history by making the story of the majority of the people equally important to the story of its leaders, and by demonstrating the ways in which each affected the other. Its emphasis on critical history, which does not downplay conflicts within Canadian society, results in an analytical survey of developments as opposed to a story of uncomplicated progress. Pedagogical features throughout the text are intended to convey to students that Canadian historians often debate the meaning of various developments. Offering balanced coverage of economic, political, social, and cultural history, as well as regional versus national history, this text provides a distinctively comprehensive view of Canada and her history. *Exploring More Signature Pedagogies* Nancy L. Chick 2012-03-12 What is distinctive about the ways specific disciplines are traditionally taught, and what kinds of learning do they promote? Do they inspire the habits of the discipline itself, or do they inadvertently contradict or ignore those disciplines? By analyzing assumptions about often unexamined teaching practices, their history, and relevance in contemporary learning contexts, this book offers teachers a fresh way to both think about their impact on students and explore more effective ways to engage students in authentic habits and practices. This companion volume to *Exploring Signature Pedagogies* covers disciplines not addressed in the earlier volume and further expands the scope of inquiry by interrogating the teaching methods in interdisciplinary fields and a number of professions, critically returning to Lee S. Shulman's origins of the concept of signature pedagogies. This volume also differs from the first by including authors from across the United States, as well as Ireland and Australia. The first section examines the signature pedagogies in the humanities and fine arts fields of philosophy, foreign language instruction, communication, art and design, and arts entrepreneurship. The second section describes signature pedagogies in the social and natural sciences: political

science, economics, and chemistry. Section three highlights the interdisciplinary fields of Ignatian pedagogy, women's studies, and disability studies; and the book concludes with four chapters on professional pedagogies - nursing, occupational therapy, social work, and teacher education - that illustrate how these pedagogies change as the social context changes, as their knowledge base expands, or as online delivery of instruction increases.

**A Question of Commitment** R. Brian Howe 2009-07-29 In 1991, the Government of Canada ratified the United Nations Convention on the Rights of the Child, requiring governments at all levels to ensure that Canadian laws and practices safeguard the rights of children. *A Question of Commitment: Children's Rights in Canada* is the first book to assess the extent to which Canada has fulfilled this commitment. The editors, R. Brian Howe and Katherine Covell, contend that Canada has wavered in its commitment to the rights of children and is ambivalent in the political culture about the principle of children's rights. *A Question of Commitment* expands the scope of the editors' earlier book, *The Challenge of Children's Rights for Canada*, by including the voices of specialists in particular fields of children's rights and by incorporating recent developments.

*The Autobiography of Fidel Castro* Norberto Fuentes 2010-12-06 "A compelling fictional personage-by turns arrogant, funny, pompous, lewd, self-absorbed and self-deluding."-Michiko Kakutani, *New York Times* An audacious "biography" of the ex-president of Cuba told in Castro's own outrageous, bombastic voice. Prize-winning author and journalist Norberto Fuentes was once a revolutionary: a writer with privileged access to Fidel Castro's inner circle during some the most challenging years of the revolution. But in the late 1990s, as the regime began sending its oldest comrades to the firing squad, he became *A Man Who Knew Too Much*. Escaping a death sentence and now living in exile, Fuentes has written a brilliant, satirical, and utterly captivating "autobiography" of the Cuban leader-in Fidel's own arrogant and seductive language-discussing everything from Castro's early sexual experiences in Birán to his true feelings about Che Guevara and his philosophy on murder, legacy, and state secrets. Critics have long admired Fuentes's writing; one U.S. article called him "Norman Mailer's Cuban pen pal." Akin to Gertrude Stein's *The Autobiography of Alice B. Toklas*, or Edmund Morris's *Dutch*, this wickedly entertaining, true-to-life masterpiece is as imaginative and oversized as Castro himself.

*Introduction to Design Equity* Kristine F. Miller 2018 "Why do affluent, liberal, and design-rich cities like Minneapolis have some of the biggest racial disparities in the country? How can designers help to create more equitable communities? *Introduction to Design Equity*, an open access book for students and professionals, maps design processes and products against equity research to highlight the pitfalls and potentials of design as a tool for building social justice."-- from <https://open.lib.umn.edu/designequity/>

**Bridging Troubled Waters** Michelle LeBaron 2002-10-31 *Bridging Troubled Waters* is about a robust and holistic approach to resolving conflict. It begins where much of the currently accepted theory and practice in the field leaves off. Like a hand pulling back the curtain from parts of us that have been closeted away, this book reveals ways we can use more of ourselves in addressing conflict. Moving beyond the analytic and the intellectual, it situates our efforts at bridging conflict in the very places where conflict is born--

relationships. From relationships come connection, meaning, and identity. It is through awareness of connection, shared meaning, and respect for identity that conflicts are transformed.

**Petticoats and Prejudice - Women's Press Classics** Constance Backhouse  
2015-02-01 Drawing on historical records of women's varying experiences as litigants, accused criminals, or witnesses, this book offers critical insight into women's legal status in nineteenth-century Canada. In an effort to recover the social and political conditions under which women lobbied, rebelled, and in some cases influenced change, *Petticoats and Prejudice* weaves together forgotten stories of achievement and defeat in the Canadian legal system. Expanding the concept of "heroism" beyond its traditional limitations, this text gives life to some of Canada's lost heroines. Euphemia Rabbitt, who resisted an attempted rape, and Clara Brett Martin, who valiantly secured entry into the all-male legal profession, were admired by their contemporaries for their successful pursuits of justice. But Ellen Rogers, a prostitute who believed all women should be legally protected against sexual assault, and Nellie Armstrong, a battered wife and mother who sought child custody, were ostracized for their ideas and demands. Well aware of the limitations placed upon women advocating for reform in a patriarchal legal system, Constance Backhouse recreates vivid and textured snapshots of these and other women's courageous struggles against gender discrimination and oppression. Employing social history to illuminate the reproductive, sexual, racial, and occupational inequalities that continue to shape women's encounters with the law, *Petticoats and Prejudice* is an essential entry point into the gendered treatment of feminized bodies in Canadian legal institutions. This book was co-published with The Osgoode Society for Canadian Legal History.

[Dropped Threads 2](#) Carol Shields 2010-05-28 The idea for *Dropped Threads: What We Aren't Told* came up between Carol Shields and longtime friend Marjorie Anderson over lunch. It appeared that after decades of feminism, the "women's network" still wasn't able to prevent women being caught off-guard by life.

There remained subjects women just didn't talk about, or felt they couldn't talk about. Holes existed in the fabric of women's discourse, and they needed examining. They asked thirty-four women to write about moments in life that had taken them by surprise or experiences that received too little discussion, and then they compiled these pieces into a book. It became an instant number one bestseller, a book clubs' favourite and a runaway success. *Dropped Threads*, says Anderson, "tapped into a powerful need to share personal stories about life's defining moments of surprise and silence." Readers recognized themselves in these honest and intimate stories; there was something universal in these deeply personal accounts. Other stories and suggestions poured in. *Dropped Threads* would clearly be an ongoing project. Like the first volume, *Dropped Threads 2* features stories by well-known novelists and journalists such as Jane Urquhart, Susan Swan and Shelagh Rogers, but also many excellent new writers including teachers, mothers, a civil servant, a therapist. This triumphant follow-up received a starred first review in *Quill and Quire* magazine, which called it "compassionate and unflinching." The book deals with such difficult topics as loss, depression, disease, widowhood, violence, and coming to terms with death. Several stories address some of the darker sides of motherhood: - A mother describes how, while sleep-deprived and in a miserable marriage, she is shocked to find infanticide crossing her mind. - Another woman recounts a memory of her alcoholic mother demanding the children prove their loyalty in a terrifying way. - A woman desperate for children refers to the bleak truth as: "Another Christmas of feeling barren." Narrating the fertility treatment she undergoes, the hopes dashed, she is amusing in retrospect and yet brutally honest. While they deal with loss and trauma, the pieces show the path to some kind of acceptance, showing the authors' determination to learn from pain and pass on the wisdom gained. The volume also covers the rewards of learning to be a parent, choosing to remain single, or fitting in as a lesbian parent. It explores how women feel when something is missing in a friendship, how they experience discrimination, relationship challenges, and other emotions less easily defined but just as close to the bone: - Alison Wearing in "My Life as a Shadow" subtly describes allowing her personality to be subsumed by her boyfriend's. - Pamela Mala Sinha tells how, after suffering a brutal attack, she felt self-hatred and a longing for retribution. - Dana McNairn talks of her uncomfortable marriage to a man from a different social background: "I wanted to fit in with this strange, wondrous family who never raised their voices, never swore and never threw things at one another." Humour, a confiding tone, and beautiful writing elevate and enliven even the darkest stories. Details bring scenes vividly to life, so we feel we are in the room with Barbara Defago when the doctor tells her she has breast cancer, coolly dividing her life into a 'before and after.' Lucid, reflective and poignant, *Dropped Threads 2* is for anyone interested in women's true stories.
