*The Literary Utopias of Cultural Communities, 1790-1910* Marguérite Corporaal 2010-01 This volume of essays by scholars in the field of English and American studies brings together a variety of perspectives on the utopian literature originating from cultural communities from 1790-1910. Ranging from the Lunar society to the Nationalist movement, and from the Transcendentalists to the Indian Monday Club the fifteen peer-reviewed articles examine a wide range of contexts in which utopian literature was written, and will be of interest to scholars in the field of cultural and literary studies alike. Moreover, the volume presents the reader with a unique overview of developments in Utopian thinking and literature throughout the long nineteenth century. Specific attention is paid to the transatlantic nature of cultural communities in which utopian writings were produced and read as well as to the colonial contexts of nineteenth-century utopian literature. As such, the collection offers a novel approach to a tradition of utopian writing that was essentially transcultural. Marguérite Corporaal (Radboud University Nijmegen) and Evert Jan van Leeuwen (Leiden University) are lecturers in English and American literature in the Netherlands.

**The Age of Dystopia** Louisa MacKay Demerjian 2016-02-29 This book examines the recent popularity of the dystopian genre in literature and film, as well as connecting contemporary manifestations of dystopia to cultural trends and the implications of technological and social changes on the individual and society as a whole. Dystopia, as a genre, reflects our greatest fears of what the future might bring, based on analysis of the present. This book connects traditional dystopian works with their contexts and compares these with contemporary versions. It centers around two main questions: Why is dystopia so popular now? And, why is dystopia so popular with young adult audiences? Since dystopia reflects the fears of society as a whole, this book will have broad appeal for any reader, and will be particularly useful to teachers in a variety of settings, such as in a high school or college-level classroom to teach dystopian literature, or in a comparative literature classroom to show how the genre has appeared in multiple locales at different times. Indeed, the book’s interdisciplinary nature allows it to be of use in classes focussing on politics, bioethics, privacy issues, women’s studies, and any number of additional topics.
