Fear and Loathing in America Hunter S. Thompson 2011-09-27 From the king of "Gonzo" journalism and bestselling author who brought you Fear and Loathing in Las Vegas comes another astonishing volume of letters by Hunter S. Thompson. Brazen, incisive, and outrageous as ever, this second volume of Thompson's private correspondence is the highly anticipated follow-up to The Proud Highway. When that first book of letters appeared in 1997, Time pronounced it "deliriously entertaining"; Rolling Stone called it "brilliant beyond description"; and The New York Times celebrated its "wicked humor and bracing political conviction." Spanning the years between 1968 and 1976, these never-before-published letters show Thompson building his legend: running for sheriff in Aspen, Colorado; creating the seminal road book Fear and Loathing in Las Vegas; twisting political reporting to new heights for Rolling Stone; and making sense of it all in the landmark Fear and Loathing on the Campaign Trail '72. To read Thompson's dispatches from these years—addressed to the author's friends, enemies, editors, and creditors, and such notables as Jimmy Carter, Tom Wolfe, and Kurt Vonnegut—is to read a raw, revolutionary eyewitness account of one of the most exciting and pivotal eras in American history.

Rewired James Patrick Kelly 2007-10-01 Cyberpunk is dead. The revolution has been co-opted by half-assed heroes, overclocked CGI, and tricked-out shades. Once radical, cyberpunk is now nothing more than a brand. Time to stop flipping the channel. These sixteen extreme stories reveal a government ninja routed by a bicycle repairman, the inventor of digitized paper hijacked by his college crush, a dead boy trapped in a warped storybook paradise, and the queen of England attacked with the deadliest of forbidden technology: a working modem. You'll meet Manfred Macx, renegade meme-broker, Red Sonja, virtual reality sex-goddess, and Felix, humble sys-admin and post-apocalyptic hero. Editors James Patrick Kelly and John Kessel (Feeling Very Strange: The Slipstream Anthology) have united cyberpunk visionaries William Gibson, Bruce Sterling, and Pat Cadigan with the new post-cyberpunk vanguard, including Cory Doctorow, Charles Stross, and Jonathan Lethem. Including a canon-establishing introduction and excerpts from a hotly contested online debate, Rewired is the first anthology to define and capture the crackling excitement of the post-cyberpunks. From the grittiness of Mirrorshades to the Singularity and beyond, it's time to revive the revolution.

Expanded Cinema Gene Youngblood 2020-03-03 Fiftieth anniversary reissue of the founding media studies book that helped establish media art as a cultural category. First published in 1970, Gene Youngblood's influential *Expanded Cinema* was the first serious treatment of video, computers, and holography as cinematic technologies. Long considered the bible for media artists, Youngblood's insider account of 1960s counterculture and the birth of cybernetics remains a mainstay reference in today's hypermediated digital world. This fiftieth anniversary edition includes a new Introduction by the author that offers conceptual tools for understanding the sociocultural and sociopolitical realities of our present world. A unique eyewitness account of burgeoning experimental film and the birth of video art in the late 1960s, this far-ranging study traces the evolution of cinematic language to the end of fiction, drama, and realism. Vast in scope, its prescient formulations include "the paleocybernetic age," "intermedia," the "artist as design scientist," the "artist as ecologist," "synaesthetics and kinesthetics," and "the technosphere: man/machine symbiosis." Outstanding works are analyzed in detail. Methods of production are meticulously described, including interviews with artists and technologists of the period, such as Nam June Paik, Jordan Belson, Andy Warhol, Stan Brakhage, Carolee Schneemann, Stan VanDerBeek, Les Levine, and Frank Gillette. An inspiring Introduction by the celebrated polymath and designer R. Buckminster Fuller—a perfectly cut gem of countercultural thinking in itself—places Youngblood's radical observations in comprehensive perspective. Providing an unparalleled historical documentation, *Expanded Cinema* clarifies a chapter of countercultural history that is still not fully represented in the arthistorical record half a century later. The book will also inspire the current generation of artists working in ever-newer expansions of the cinematic environment and will prove invaluable to all who are concerned with the technologies that are reshaping the nature of human communication.

Ghostwritten David Mitchell 2007-12-18 By the New York Times bestselling author of *The Bone Clocks* and *Cloud Atlas* A gallery attendant at the Hermitage. A young jazz buff in Tokyo. A crooked British lawyer in Hong Kong. A disc jockey in Manhattan. A physicist in Ireland. An elderly woman running a tea shack in rural China. A cult-controlled terrorist in Okinawa. A musician in London. A transmigrating spirit in Mongolia. What is the common thread of coincidence or destiny that connects the lives of these nine souls in nine far-flung countries, stretching across the globe from east to west? What pattern do their linked fates form through time and space? A writer of pyrotechnic virtuosity and profound compassion, a mind to which nothing human is alien, David Mitchell spins genres, cultures, and ideas like gossamer threads around and through these nine linked stories. Many forces bind these lives, but at root all involve the same universal longing for connection and transcendence, an axis of commonality that leads in two directions—to creation and to destruction. In the end, as lives converge with a fearful symmetry, *Ghostwritten* comes full circle, to a point at which a familiar idea—that whether the planet is vast or small is merely a matter of perspective—strikes home with the force of a new revelation. It marks the debut of a writer of astonishing gifts.

Hawaiian Modern Vladimir Ossipoff 2007-01-01 At the forefront of the postwar phenomenon known as tropical modernism, Vladimir Ossipoff (1907-1998) won recognition as the "master of Hawaiian architecture." Although he practiced at a time of rapid growth and social change in Hawaii, Ossipoff criticized large-scale development and advocated environmentally sensitive designs, developing a distinctive form of architecture appropriate to the lush topography, light, and

microclimates of the Hawaiian islands. This book is the first to focus on Ossipoff's career, presenting significant new material on the architect and situating him within the tropical modernist movement and the cultural context of the Pacific region. The authors discuss how Ossipoff synthesized Eastern and Western influences, including Japanese building techniques and modern architectural principles. In particular, they demonstrate that he drew inspiration from the interplay of indoor and outdoor space as advocated by such architects as Frank Lloyd Wright, applying these to the concerns and vernacular traditions of the tropics. The result was a vibrant and glamorous architectural style, captured vividly in archival images and new photography. As the corporate projects and private residences that Ossipoff created for such clients as IBM, Punahou School, Linus Pauling, Jr., and Clare Boothe Luce surpass their fiftieth anniversaries, critical assessment of these structures, offered here by distinguished scholars in the field, will illuminate Ossipoff's contribution to the universal challenge of making architecture that is delightfully particular to its place and durable over time.

Surf Tribe Stephan Vanfleteren 2018-04 With 'Surf Tribe', photographer Stephan

Downloaded from avenza-dev.avenza.com
on October 3, 2022 by guest

Vanfleteren shows that there is far more to surf culture than just sport and competition. Surfing is also about a deep admiration and respect for the ocean, as well as the feeling of insignificance when confronted with the forces of nature. Surfers use the waves for fun, but also to forget and to battle, both with others and with themselves. Vanfleteren looks beyond the traditional borders of the United States and Australia and searches the globe for people who live in places where sea and land meet. He documents a fluid community, which has nature as its sole leader. He portrays both young talent as well as living icons and old legends, both competition surfers and freesurfers. No action shots on azure blue waves but static and serene black and white portraits in Vanfleteren's well-known, haunting style, which show the real people behind the surfers, in all their strength and vulnerability. A series of images that penetrates to the true core of surf culture. Exhibition: CC Scharpoord, Knokke-Heist, Belgium (24.03.-28.05.2018).
