The Village Against The World Dan Hancox 2013-10-08 The land is for those who work it—"La tierra es de quien la trabaja." One hundred kilometers from Seville, there is a small village, Marinaleda, that for the last thirty years has been at the center of a long struggle to create a communist utopia. In a story reminiscent of the Asterix books, Dan Hancox explores the reality behind the community where no one has a mortgage, sport is played in the Che Guevara stadium and there are monthly "Red Sundays" where everyone works together to

clean up the neighbourhood. In particular he tells the story of the village mayor, Sánchez Gordillo, who in 2012 became a household name in Spain after leading raids on local supermarkets to feed the Andalusian unemployed.

Robert Bosch Peter Theiner 2019-10-15 Robert Bosch (1861 - 1942) was one of the most successful German entrepreneurs and philanthropists of the 20th century and, at the same time, a pioneer of the social market economy. This book presents a comprehensive and impressive biography of a visionary who thought far ahead of his time like almost no other. Peter Theiner follows the traces of this trailblazer of modernity who founded a global company. 1886, Robert Bosch opened his Werkstätte für Feinmechanik und Elektrotechnik, today's Robert Bosch GmbH, in a modest rear building. Pioneering innovations for motorized vehicles emerged from the young company, and Bosch was quickly able to point to tremendous international successes as an industrialist. Today, his name represents the rise of motor vehicles and electricity in the home. In addition, he also had an impact as a benefactor and philanthropist with a well-developed political profile and a strong sense of social responsibility. In a time of wars and upheaval, in an age of extremes, Bosch positioned himself as a staunch Democrat who cut against the grain of German history.
