Doing Double Dutch Elke Brems 2017-05-22 The importance of a minor language in the field of world literature Dutch literature is increasingly understood as a network of texts and poetics connected to other languages and literatures through translations and adaptations. In this book, a team of international researchers explores how Dutch literary texts cross linguistic, historical, geophysical, political, religious, and disciplinary borders, and reflects on a wide range of methods for studying these myriad border crossings. As a result, this volume provides insight into the international dissemination of Dutch literature and the position of a smaller, less-translated language within the field of world literature. The title Doing Double Dutch evokes a popular rope-skipping game in which two people turn two long jump ropes in opposite directions while a third person jumps them. A fitting metaphor for how literature circulates internationally: two dynamic spheres, the source culture and the target culture, engage one another in a complex pattern of movement resulting in a new literary work, translation, or adaptation formed somewhere in the middle. Europe After Rome Julia M. H. Smith 2005 This is the first single-author study in over fifty years to offer an integrated appraisal of the early Middle Ages as a dynamic and formative period in European history. Written in an attractive and accessible style, it makes extensive use of original sources to introduce early medieval men and women at all levels of society from slave to emperor, allows them to speak directly to the reader. It overturns traditional narratives, offering an entirely fresh approach to this period by rejecting any notion of a dominant, uniform early medieval culture, and arguing that the fundamental characteristic of the early Middle Ages is diversity of experience. This beautifully designed book will appeal to scholars, students and history enthusiasts alike.

Spirited Performance Nienke van der Heide 2015-06-17 In the heart of Asia, straddling the western Tien Shan mountain range, lies the former Soviet republic Kyrgyzstan. The country prides itself in an age old oral epic tradition that recounts the mighty deeds of the hero Manas. When explorers first encountered Manas performers in the late nineteenth century, they hailed their art as a true representation of the heroic age, and compared it to masterpieces such as the Kalevala and the Iliad. Today there are still many excellent

performers who can keep their audiences spellbound. They are believed to draw their inspiration from the spirit of Manas himself. This book portrays the meaning of this huge work of art in Kyrgyz society. Based on extended periods of anthropological fieldwork between 1996 and 2000, it explores the calling of its performers, describes the transformations of the oral tradition in printed media and other forms of art, and examines its use as a key symbol for identity politics. It deals extensively with the impact of the Soviet period, during which Kyrgyzstan became an autonomous republic for the first time in history. The tremendous changes initiated during these years had far-reaching consequences for the transmission and reception of the Manas epic. The specific Soviet approach to ethnicity was also elementary in the decisions to assign the Manas epic the role of national symbol after 1991, when Kyrgyzstan was thrown into the turmoil of a post-socialist existence.

Reading with My Eyes Open Gerdi Quist 2013-11-29 Untangling the various approaches to language teaching and their history, Gerdi Quist maps recent thinking in language studies at university. Using an interdisciplinary theoretical framework, drawn from educational philosophy, cultural studies, intercultural studies and language pedagogy, the author discusses the many tensions and currents in contemporary language teaching. The author puts forward an alternative pedagogy, that of a cultuurtekstperspective, which engages learners at complex linguistic and cultural levels. In discussing the case study in which this approach is tested, the author develops her argument for embracing various critical perspectives through the personal engagement of students. From the start the author acknowledges her own engaged position as a language teacher in a liberal humanistic educational environment. She adopts a self-critical perspective through which her engagement with adverse student reaction leads to deepening insights both for the author and her students as part of the non-linear process of learning. 'This book should be obligatory reading for all new lecturers in foreign languages at university. It is extremely thought-provoking and will help them make sense of the world in which they find themselves.' Jane Fenoulhet (Professor in Dutch Studies and co-editor of *Mobility and Localisation in Language Learning*)

The Song and the Truth Helga Ruebsamen 2007-12-18 Set against the backdrop of the Dutch East Indies and Nazi-occupied Holland, this luminous novel delivers epic themes filtered through the rich imagination of a young girl. Living with her parents on the island of Java in the late 1930s, five-year-old Lulu moves in a magical world of daydreams and island myths. But when one day Lulu innocently describes a scene she stumbled across late one night, the repercussions are felt for many years and across two continents. Called from the sumptuous tropics back to The Hague, with stops in Marseilles, Paris, and London along the way, Lulu's family is soon forced into hiding as the war approaches. A moving account of a childhood overwhelmed by history, *The Song and the Truth* is a profound meditation on how the paradox of memory—at once intransigent and elusive—shapes our lives.

Clinical Guide to Alcohol Treatment Robert J. Meyers 1995-08-04 This book is the first complete guide to implementing the Community Reinforcement Approach (CRA), an empirically based, highly effective cognitive-behavioral program for treating alcohol problems. CRA acknowledges the powerful role of environmental contingencies in encouraging or discouraging drinking, and attempts to rearrange these contingencies so that a non-drinking lifestyle is more rewarding than a drinking one. Unique in its breadth, the approach utilizes social, recreational, familial, and vocational strategies to aid clients in the recovery process. This authoritative manual is a hands-on guide to applying these therapeutic procedures. The authors present a step-by-step guide to each component of the treatment plan, many of which have been shown to be effective forms of treatment in themselves. Topics include behavioral skills training, social and recreational counseling, marital therapy, motivational enhancement, job counseling, and relapse prevention. Each chapter provides detailed instructions for conducting a procedure, describes what difficulties to expect, and presents strategies for overcoming them. Sample dialogues between clients and therapists, annotated by the authors, further illuminate the treatment process. The book concludes with a chapter that both addresses the common mistakes made when implementing CRA, and emphasizes the flexibility and benefits of this total treatment plan. This book is an invaluable resource for a wide range of practitioners including psychologists, psychiatrists, substance abuse counselors, and social workers.
