"do not know what we do." To change the course of destruction we need to nurture in each one of us a sense of interconnectedness of life on this planet. We need to understand the position of a person we have differences with. Instead of focusing on what they say or how they behave, we need to explore where they are coming from, their frame of reference, the facts they use, the impact of history, the influence of their vested interest and the context of the system they are a part of. We need to learn to listen to each other with loving investment and compassionate exploration. By detaching from from our programming and preconceived positions, we can develop a deeper understanding of each other that brings us closer. This book explores these issues by reviewing catastrophic events in human history, such as the Partition of India, Hitler's Germany and Nine-Eleven. Change Agents, such as community psychologists, psychiatrists, nurses, social workers and organizational development consultants; spiritual leaders; academicians; politicians; and CEOs of business organizations and banks may be particularly interested in reading this book. The only way to have peace is to listen to each other. If people are just trying to convince each other, there will be no peace.

**What's the Deal with Reverse Mortgages?** Shelley Giordano 2015-08-17 People entering, nearing, or in retirement are all wondering how they are going to make their retirement nest eggs last as long as they do. Studies show that the main fear that people have in retirement is running out of money. Add to that the reality that the rules for retirement have changed; government regulations have both helped and hindered those who are retiring. For many in the Boomer generation, it will be a challenge to make the money last without having to adhere to an unpleasant budget. To survive and thrive in retirement in the coming years requires new thinking and a clear understanding of the options open to retirees. One of these options is the Home Equity Conversion Mortgage, or what most people know as "reverse mortgages." This advancement was signed into law by President Reagan in 1988 as a way to provide homeowners the opportunity to raise funds from their home equity while continuing to enjoy living in their homes. The concept of reverse mortgages has been misunderstood and misapplied by many since that time and finally a book has arrived that thoroughly explores this concept in a detailed, yet readable manner. In *What's the Deal with Reverse Mortgages?*, Shelley Giordano, an expert of reverse mortgages and member of the Longevity Task Force, a group of thought leaders in retirement portfolio theory, has written a book that discusses the significant improvements made by HUD/FHA to the Home Equity Conversion Mortgage (HECM.) Over the years, and most notably in 2015, HUD has improved consumer safeguards, and reduced acquisition costs for those wishing to use their housing wealth in a controlled and strategic pattern. Shelley has brought together thought leaders and experts to write a book that applies sound analysis to demonstrate that the prudent and conservative use of housing wealth, accessed via the modern HECM, can have a profound positive effect on our other assets and our ability to generate income for retirement. This book debunks the hoary old myths attached to reverse mortgages. It explains how the HECM has evolved to meet the needs of the Boomer generation. And most importantly, it explains how to evaluate your housing wealth in the early years of retirement, and why you should never wait and pray by deferring a reverse mortgage as a last resort. Reading this book will provide you with a full understanding of reverse mortgages to see beyond the current sales and advertising tactics related to the product allowing you to discuss the best options with your adviser, banker and family. It's the definitive book on reverse mortgages!

*Psychological Aspects of Crisis Negotiation, Second Edition* Thomas Strentz 2011-12-01 While there are many books on crisis negotiation, most of the current literature focuses on the history and mechanics of this dynamic process, leaving out critical elements that are required for a successful encounter with a hostage-taker or other malfeasant. *Psychological Aspects of Crisis Negotiation, Second Edition* explores the methods and strategies for confronting the nine types of subjects typically encountered in hostage/suicide sieges by correctional staff and law enforcement crisis negotiators. Drawn from articles published by Thomas Strentz while serving at the FBI Academy\* along with written versions of lectures developed and delivered since his retirement, the book highlights psychological dynamics of negotiations as they apply to the negotiator, the hostage, and the subject. It discusses the predictors of surrender versus the need for a tactical intervention and examines the phases of a hostage crisis and the changing focus as the crisis develops. Referencing historical events such as The Bay of Pigs invasion and the Challenger and Columbia incidents, the book demonstrates how faulty group decision making can spell tragedy. Enhanced with case studies to put the material into context, this second edition also includes new chapters on the first responder, hostage survival, and the Islamic belief system and culture. Steeped in sage advice from a national expert, this volume arms those tasked with confronting dangerous offenders with the knowledge and tools they need to subvert disaster and ensure the preservation of human life. \*Articles were reviewed by the Academy Editorial/Review Board and approved by the Bureau for publication.

UNFORGIVEN WILL NOT GO FORGOTTEN. Edenville, 1940. In a rural hamlet where the majority of men are overseas to fight Hitler's Nazi war machine, someone is killing veterans of the first world war. Wartime Special Constable 'Lame' Eddie Sommers, a crippled rich boy and the butt of derision, is doing his best to fill a uniform he believes in, yet wears too large. Inexperienced and out of his depth, he turns to a former detective and veteran of the western front for assistance. Involving Marshall Geary might be his biggest mistake. Marshall wears a copper mask, as much to hide behind as to conceal his disfigurements. He struggles against howling flashbacks and the lingering stench of his own concealed crimes. In a town meant for sanctuary, repressed horrors awaken like worms in a collapsing coffin. The closer they get to the truth, the nearer everyone is dragged to their limits, their failings and their buried pasts.

**I Love You, God** Ron Dalrymple 2016-06-26 The purpose of this book is to help the reader focus on Divine ideas every day. Since what we dwell upon comes upon us, it is important to make a habit of thinking positive, healthy, Divine, inspirational, loving thoughts all day, no matter what other people are doing around us or to us. One of the greatest difficulties in transforming oneself to a more Divine attitude and perspective is found in working through the negative emotions and beliefs we have long internalized. These beliefs and emotions become lodged in the subconscious mind, and drive the system automatically until they are changed. This takes considerable effort and persistence, since the deeply embedded negative emotions tend to link to many different thoughts, attitudes and other feelings. A virtual labyrinth of interconnected thoughts, emotions and behaviors have to be transformed. This book was created to help the reader achieve that goal. The intent is for the reader to dwell upon each affirmation of the day with strong feeling, trying to love the very idea being expressed, and projecting it outward to the world. Each affirmation should be repeated many times throughout the day, and memorized for future use. As you practice these, your own affirmations will occur to you. Use them all with devotion, because what you worship, is what you become.
