Questioning Education Sean Slade 2022-03-08 In the post-pandemic world, how can we rethink the future of education as a system, process, and tradition to make lasting changes? This thought-provoking book by Sean Slade reminds us that education prepares students for their futures and yet has become stuck in the past. Slade asks us to move from our focus on education as a content-delivery system and instead reflect on its overarching purpose(s). He shows how we can shift our systems and our curriculum discussions away from beginning with the What and How, and instead start with the Why and Who. Utilizing the metaphor of an educational solar system, he explains how fundamental questions we ask ourselves influence subsequent actions and subsequent questions. The book outlines how this is different from current trends such as PBL and service learning, how it can work in the content areas, how it can make learning relevant and meaningful, and even how it can improve tolerance and community. Throughout the book, Slade dares us to not just ponder these topics but to take the first step of real action. Whether you're a teacher or a leader, you will be inspired to reconsider what school is and what you have the power to do about it, so we can all play a role in improving ourselves, our systems, and our world.

The Oxford Handbook of Dance and the Popular Screen Melissa Blanco Borelli 2014-07-01 The Oxford Handbook of Dance and the Popular Screen sets the agenda for the study of dance in popular moving images - films, television shows, commercials, music videos, and YouTube - and offers new ways to understand the multi-layered meanings of the dancing body by engaging with methodologies from critical dance studies, performance studies, and film/media analysis. Through thorough engagement with these approaches, the chapters demonstrate how dance on the popular screen might be read and considered through bodies and choreographies in moving media. Questions the contributors consider include: How do dance and choreography function within the filmic apparatus? What types of bodies are associated with specific dances and how does this affect how dance(s) is/are perceived in the everyday? How do the dancing bodies on screen negotiate power, access, and agency? How are multiple choreographies of identity (e.g., race, class, gender, sexuality, and nation) set in motion through the narrative, dancing bodies, and/or dance style? What types of corporeal labors (dance training, choreographic skill, rehearsal, the constructed notion of "natural talent") are represented or ignored? What role does a specific film have in the genealogy of Hollywood dance film? How does the Hollywood dance film inform how dance operates in making cultural meanings? Whether looking at Bill "Bojangles" Robinson's tap steps in Stormy Weather, or Baby's leap into Johnny Castle's arms in Dirty Dancing, or even Neo's backwards bend in The Matrix, the book's arguments offer powerful new scholarship on dance in the popular screen.

Still Alright Kenny Loggins 2022-06-14 You know Kenny Loggins for his megahit soundtrack themes and chart-topping collaborations. Now you can know him through the intimate stories behind his five-decade career as a legendary songwriter and pop icon. In a remarkable career, Kenny Loggins has rocked stages worldwide, released ten platinum albums, and landed hits all over the Billboard charts. His place in music history is marked by a unique gift for collaboration combined with the vision to evolve, adapt, and persevere in an industry that loves to eat its own. Loggins served as a pivotal figure in the folk-rock movement of the early '70s when he paired with former Buffalo Springfield member Jim Messina, recruited Stevie Nicks for the classic duet "Whenever I Call You 'Friend,'" then pivoted to smooth rock in teaming up with Michael McDonald on their back-to-back Grammy-winning hits "What a Fool Believes" and "This Is It" (a seminal moment in the history of what would come to be known as yacht rock). In the '80s, Loggins became the king of soundtracks with hit recordings for *Caddyshack*, *Footloose*, and *Top Gun*; and a bona fide global superstar singing alongside Bruce Springsteen and Michael Jackson on "We Are the World." In *Still Alright*, Kenny Loggins gives fans a candid and entertaining perspective on his life and career as one of the most noteworthy musicians of the 1970s and '80s. He provides an abundance of compelling, insightful, and terrifically amusing behind-the-scenes tales. Loggins draws readers back to the musical eras they've loved, as well as addressing the challenges and obstacles of his life and work—including two marriages that ended in divorce, a difficult but motivating relationship with the older brother for which "Danny's Song" is named, struggles with his addiction to benzodiazepines, and the revelations of turning seventy and looking back at everything that has shaped his music—and coming to terms with his rock-star persona and his true self.

Cinema and Television in Singapore Kenneth Paul Tan 2008 Through close readings of contemporary made-in-Singapore films (by Jack Neo, Eric Khoo, and Royston Tan) and television programs (Singapore Idol, sitcoms, and dramas), this book explores the possibilities and limitations of resistance within an advanced capitalist-industrial society whose authoritarian government skillfully negotiates the risks and opportunities of balancing its on-going nation-building project and its a oeglobal citya aspirations. This book adopts a framework inspired by Antonio Gramsci that identifies ideological struggles in art and popular culture, but maintains the importance of Herbert Marcusea (TM)s one-dimensional society analysis as theoretical limits to recognize the power of authoritarian capitalism to subsume works of art and popular culture even as they attempt consciouslya "even at times successfulluya "to negate and oppose dominant hegemonic formations.

Unsigned Unscene John Winstanley 2014-03 Spearmint - "Sweeping the Nation" (Hitback records). Email to mail@spearmint.net 11.30 21/12/13. Hi, I've just finished the first draft of my book about the five years I spent promoting various genres of local music during 2002/2007 in and around Chorley, Blackburn and Preston, Lancashire. It champions all the bands and artists that never got to make it further than their hometown fan base...and a few that did. I found your track "Sweeping the Nation" on a Rough Trade CD and have been recommending it to anyone I meet/know as the best song I have ever heard that sums up what my book is about... I am 51 and Northern Soul was an influence on my growing up and appreciation of musical styles. How clever of you to combine the classic back beat sample with a list of the bands you knew about that never made it and then bound it all together with driving guitars and the thumping chorus of: "I've been wasting my life I've finally realised I've wasted so much time....! My book has made me understand that I didn't waste my life because

Exposing Lifestyle Television Gareth Palmer 2016-04-15 In the last decade lifestyle television has become one of the most dominant television genres, with certain shows now global brands with formats exploited by producers all over the world. What unites these programmes is their belief that the human subject has a flexible, malleable identity that can be changed within television-friendly frameworks. In contrast to the talk shows of the eighties and nineties where modest transformation was discussed as an ideal, advances in technology, combined with changing tastes and demands of viewers, have created an appetite for dramatic transformations. This volume presents case studies from across the lifestyle genre, considering a variety of themes but with a shared understanding of the self as an evolving project, driven by enterprise. Written by an international team of scholars, the collection will appeal to sociologists of culture and consumption, as well as to scholars of media studies and media production throughout the world.

Reality TV and Queer Identities Michael Lovelock 2019-04-24 This book examines queer visibility in reality television, which is arguably the most prolific space of gay, lesbian, transgender and otherwise queer media representation. It explores almost two decades of reality programming, from Big Brother to I Am Cait, American Idol to RuPaul's Drag Race, arguing that the specific conventions of reality TV—its intimacy and emotion, its investments in celebrity and the ideal of authenticity—have inextricably shaped the ways in which queer people have become visible in reality shows. By challenging popular judgements on reality shows as damaging spaces of queer representation, this book argues that reality TV has pioneered a unique form of queer-inclusive broadcasting, where a desire for authenticity, rather than being heterosexual, is the norm. Across all chapters, this book investigates how reality TV's celebration of 'compulsory authenticity' has circulated 'acceptable' and 'unacceptable' ways of being queer, demonstrating how possibilities for queer visibility are shaped by broader anxieties and around selfhood, identity and the real in contemporary cultural life.

Desperate Networks Bill Carter 2007-05-01 In the executive offices of the four major networks, sweeping changes are taking place and billions of dollars are at stake. Now Bill Carter, bestselling author of *The Late Shift*, goes behind the scenes to reveal the inner workings of the television industry, capturing the true portraits of the larger-than-life moguls and stars who make it such a cutthroat business. In a time of sweeping media change, the four major networks struggle for the attention of American viewers increasingly distracted by cable, video games, and the Internet. Behind boardroom doors, tempers flare in the search for hit shows, which often get on the air purely by accident. The fierce competition creates a pressure-cooker environment where anything can happen . . . NBC's fall from grace—Once the undisputed king of prime time, NBC plunged from first place to last place in the ratings in the course of a single season. What will be the price of that collapse—and who will pay it? CBS's slow and steady race to the top—Unlike NBC, CBS, under the leadership of CEO, Leslie Moonves, engineered one of the most spectacular turnarounds in television history. But in this ruthless world, you're only as good as last week's ratings . . . ABC's surprising resurrection—*Lost* and *Desperate Housewives*—have brought ABC the kind of success it could only dream of in the past. So why don't the executives responsible for those hits work there any more? *The End of the News As We Know It*—In a stunningly short period of time, all three of the major network news anchors—Dan Rather, Tom Brokaw, and Peter Jennings—signed off, leaving executives scrambling for a way to keep network news relevant in an era of 24/7 information. *Crazy Like Fox*—They're outrageous, unconventional, and occasionally off-putting, but more and more people are watching Fox shows. Most of all they keep watching *American Idol*. How did Simon Cowell snooker himself into a huge payday? Stay tuned . . .

Look, The Sun Is Shining Ben Finn 2006-12-01 This is a memory-driven "travelogue" down the road (roads?) taken by the author in the pursuit of a dream that culminated in the writing of 8 full-length musicals, along with 12 one-act musicals for children. You will encounter the people he met along the way, the good souls and the scoundrels. If the latter seem to outnumber the former, do not regard that as, necessarily, a sign that the author has lost faith in the inherent goodness of people. For all we know, he may not have.

where toys have come from and where they are likely to go in the years ahead. The focus is on the interplay between traditional toys and play, and toys and play that are mediated by or combined with digital technology. As well as covering the technical aspects of computer mediated play activities, the authors consider how technologically enhanced toys are currently used in traditional play and how they are woven into childrens' lives. The authors contrast their findings about technologically enhanced toys with knowledge of traditional toys and play. They link their studies of toys to goals in education and to entertainment and information transfer. This book will appeal to students, researchers, teachers, child care workers and more broadly the entertainment industry. It is appropriate for courses that deal with the specialized subject of toys and games, media studies, education and teacher training, and child development.
