Police Matters Radha Kumar 2021-05-15 Police Matters moves beyond the city to examine the intertwined nature of police and caste in the Tamil countryside.

Radha Kumar argues that the colonial police deployed rigid notions of caste in their everyday tasks, refashioning rural identities in a process that has cast long postcolonial shadows. Kumar draws on previously unexplored police archives to enter the dusty streets and market squares where local constables walked, following their gaze and observing their actions towards potential subversives. Station records present a textured view of ordinary interactions between police and society, showing that state coercion was not only exceptional and spectacular; it was also subtle and continuous, woven into everyday life. The colonial police categorized Indian subjects based on caste to ensure the security of agriculture and trade, and thus the smooth running of the economy. Among policemen and among the objects of their coercive gaze, caste became a particularly salient form of identity in the politics of public spaces. *Police Matters* demonstrates that, without doubt, modern caste politics have both been shaped by, and shaped, state policing. Thanks to generous funding from the Andrew W. Mellon Foundation, through The Sustainable History Monograph Pilot, the ebook editions of this book are available as Open Access volumes from Cornell Open (cornellopen.org) and other repositories.

GRIHA Version 2019: The Sustainable Habitat Handbook (6 Volume Set) A GRIHA Council Publication 2022-01-14 GRIHA V 2019 is the 5th updated version of the GRIHA Rating system which addresses relevant, present-day concerns of the green building fraternity by encapsulating concepts such as water performance index, life cycle cost analysis, life cycle analysis, liveability index, etc. It captures social aspects of sustainability and aids the design of healthy and comfortable habitats. This set of GRIHA manuals provides a detailed understanding of the GRIHA Rating system, its underlying criteria, rating process, strategies for compliance, and the documentation and evaluation procedure. It serves as a handbook for multiple stakeholders like (architects, service engineers, landscape designers, project managers, and contractors) involved in the design and construction of sustainable buildings. Salient features The following are the salient features of the new version of GRIHA rating: · Indigenous rating system · Adoption of holistic approach towards sustainability · Process driven and performance oriented · Integrated team approach Table of Contents: VOLUME I: INTRODUCTION (118 PAGES) VOLUME 2: (137 PAGES) SECTION 1: SUSTAINABLE SITE PLANNING Criterion 1: Green Infrastructure Criterion 2: Low-Impact Design Strategies Criterion 3: Design to Mitigate UHIE SECTION 2: CONSTRUCTION MANAGEMENT Criterion 4: Air and Soil Pollution Control Criterion 5: Topsoil Preservation Criterion 6: Construction Management Practices VOLUME 3 : (241 PAGES) SECTION 3: ENERGY OPTIMIZATION Criterion 7: Energy Optimization Criterion 8: Renewable Energy Utilization Criterion 9: Low ODP and GWP Materials SECTION 4: OCCUPANT COMFORT Criterion 10: Visual Comfort

Criterion 11: Thermal and Acoustic Comfort Criterion 12: Indoor Air Quality
VOLUME 4: (239 PAGES) SECTION 5: WATER MANAGEMENT Criterion 13: Water Demand
Reduction Criterion 14: Wastewater Treatment Criterion 15: Rainwater Management
Criterion 16: Water Quality and Self-Sufficiency SECTION 6: SOLID WASTE
MANAGEMENT Criterion 17: Waste Management–Post Occupancy Criterion 18: Organic
Waste Treatment VOLUME 5: (93 PAGES) SECTION 7: SUSTAINABLE BUILDING MATERIALS
CRITERION 19: Utilization of Alternative Materials in Building CRITERION 20:
Reduction in Global Warming Potential through Life Cycle Assessment CRITERION
21: Alternative Materials for External Site Development SECTION 8: LIFE CYCLE
COSTING CRITERION 22: Life Cycle Cost Analysis VOLUME 6: (151 PAGES) SECTION 9:
SOCIO-ECONOMIC STRATEGIES Criterion 23: Safety and Sanitation for Construction
Workers Criterion 24: Universal Accessibility Criterion 25: Dedicated
Facilities for Service Staff Criterion 26: Positive Social Impact SECTION 10:
PERFORMANCE METERING AND MONITORING Criterion 27: Project Commissioning
Criterion 28: Smart Metering and Monitoring Criterion 29: Operation and
Maintenance Protocol SECTION 11: INNOVATION Criterion 30: Innovation

Paving the Way for Better Governance in Urban Transport Kala Seetharam Sridhar
2019-10-21 This book presents an innovative democratic framework that ensures
public participation, based on applying principles of good governance to
facilitate urban transport decision-making in an integrated and structured
manner. While – given the need for mobility in cities – transport is crucial
for urban development, problems such as the fragmentation of institutions,
decision-making, and unequal knowledge concentrations represent major hurdles
to effective governance outcomes (especially those that go beyond technical and
regulatory aspects). Substantial investments continue to be pumped into the
urban transportation sector, with cities lacking the necessary capacities or
governance mechanisms to ensure optimal returns on these investments. The book
introduces the transport governance framework, which is intended to provide an
integrated and structured approach to facilitate decision-making processes in
the urban transport sector, focusing on how decisions are made rather than what
decisions are made. It also discusses the initial testing of the framework in
several cities across India. In addition, it examines the application of the
TAPC (transparency, accountability, participation, and capacity building)
principles of good governance to key aspects of urban transport – policy,
planning, standards, budgets, execution, and regulation.

Potable Water Treatment for Diego Garcia Dei Bin Chan 1983 This report documents an engineering investigation for the development of a cost-effective water treatment system to be used at Diego Garcia. The system must effectively remove or reduce TDS, color, taste and odor, turbidity, and the excessive amounts of organics and microorganisms so that all EPA's drinking water standards can be met. A three-stage water treatment system consisting of a multi-media filter, a carbon filter and an RO system was tested at Diego Garcia and proved to be the most cost-effective treatment process.

simplified energy savings calculations explained. The results of a survey of currently available equipment suitable for use as energy controllers is included as well as selection guidance for which class of equipment will provide the needed features.

Urban and Regional Planning in India S. K. Kulshrestha 2012-09-11 The scope of professional practice in planning has now become very vast-in addition to traditional land-use planning at urban, regional and national levels, it includes development management; real-estate development; advice, arbitration and legal services; education and training; and research. In this book, Dr Kulshrestha provides a detailed study of this profession in India, covering such aspects as ethics; scope of work in public, private and joint sectors; procedures for procuring consultancy, engaging contractors, and entering into agreements; calculation of fee charged for rendering the service; establishing offices in India and abroad; and managing personnel. The book presents a comprehensive study to the subject of urban and regional planning in India, detailing the changing role of spatial planners and their professional requirements, and in that sense is a complete guide for those working in the spatial-planning field or aspiring to get into it.
