Iraqi Mirages in Combat Miguel Garcia 2018-04-26 Strongly influenced by the outcome of the 1967 war against Israel, Iraq sought to obtain aircraft with advanced avionics in early 1968. Extensive negotiations between Baghdad and Paris for the acquisition of Mirage 5s, however, ended at the time without substantial results. During French Prime Minister Jacques Chirac's three-day trip to Baghdad in December 1974, the possibility of Iraq purchasing Mirage fighters was again raised. Initially, then Iraqi Vice-President Saddam Hussein expressed his intention to buy the same Mirage fighters that Israel used with success against Egypt and Syria during the 1973 war. Nevertheless, when Dassault and French military engine manufacturer SNECMA sent a technical team to Baghdad, they offered him one better; the Mirage F1. When the French salesmen showed films of the new fighter in action and an extensive technical briefing of the weaponry it could deliver, Saddam's military advisors were simply overjoyed. As the biggest export customer for Mirage F.1, the Iraqi Air Force significantly contributed to the further development of this aircraft. They played a key role in the research and development of a number of systems that eventually found their way into

operational service in the Armée de l'Air. Originally developed and acquired as an interceptor, the F.1EQ proved a highly capable multirole aircraft which was widely deployed not only as a recce/ground-attack plane, but also as an anti-shiping weapon. It also had the extra function of serving as an in-flight refueling platform capable of performing impressive long-range attacks which ultimately contributed to shift the balance in the air in favor of Iraq. While much was written about the Mirage F.1 in its French variants, the aircraft's combat deployment by Iraq still remains an unknown topic that must be addressed following an exhaustive research based on IQAF documents and interviews with key people involved. The purpose of this book is to provide in-depth, first-hand insight into the acquisition process, development and equipment of custom-tailored variants made for Iraq, training of Iraqi personnel and their combat/reconnaissance missions during the Iran-Iraq war, the 1991 Gulf War, the embargoed 1990s and the last stand during the 2003 Invasion of Iraq. Illustrated with over 200 pictures, 70 color profiles and 13 maps, the author provides an unprecedented 230-pages in full color covering the story of the F.1EQ in Iraq. It is the author's hope that this publication will prove to be a great reference on missions, weapons configurations, onboard equipment, camo schemes and markings of Mirage F.1EQ in Iraqi service.

Total Jazz Blutch 2018-02-14 Blutch riffs on two quintessentially American art forms in this collection of jazz-themed comics. In this freewheeling collection of short stories and vignettes, the famed French cartoonist examines not only the music, but the nature of the jazz sub-culture. The grumpy festival goer, the curmudgeonly collector, and many other fan "types" are the targets of his unerring gimlet eye. Drawn in a range of styles as improvisational as Coltrane and Mingus — everything from loose linework to tight pen and ink to gestural pencils — Blutch captures the excitement of live performance, the lovelorn, and the Great Jazz Detective, who is out but not down.

Pulgarcita Michel Serres 2014-03-19 El mundo ha cambiado tanto que los jóvenes tienen que reinventar la rueda. Para Michel Serres, nace un nuevo ser humano, él lo bautiza como Pulgarcita, sobre todo por su capacidad para enviar mensajes con el pulgar. Las sociedades occidentales han experimentado dos revoluciones: la transición de lo oral a lo escrito, y el paso de escribir en una pizarra a escribir en libros. Ahora vivimos la tercera revolución: la transición a las nuevas tecnologías. No hay progreso o desastre, ya sea bueno o malo, ésta es la realidad y tenemos que lidiar con eso. La generación Pulgarcita tendrá que reinventar una forma de vivir juntos, instituciones y formas de ser y conocer. - "Michel Serres es el abuelo

con el que todos soñamos. En él se unen tan bien la sabiduría y la juventud, que a su lado se tiene la impresión de que tiene toda la vida por delante" - Sophie Bancquart, directora de la Editorial Pommier. - "A este formidable ensayo se puede aplicar igualmente la frase de Michel de Montaigne: "vale más una cabeza bien hecha que una cabeza bien llena" - Lire, Francia. - "Michel Serres analiza meticulosamente y con ternura los cambios que entrañan las nuevas tecnologías sobre (o en) las generaciones actuales. Lejos de estigmatizar a los nativos digitales, describe una generación mutante y apasionada" - Dirigeants Chrétiens.

Times of Crisis Michel Serres 2015-09-24 For Michel Serres, economic crises are earthquakes caused by societal tectonic plates. The current crisis erupted because of the widening discrepancy between major social changes and institutions that have remained the same since WWII. Serres, one of the first to bring nature into the political, writes, "To destroy, kill, exploit is worthless. In the long run, it means destroying ourselves." At a time when the world population has grown so much that it is exhausting natural resources and the environment, we need to rethink cultural, social, and political dynamics. Serres argues that geopolitics and economics will no longer be a two-player game, between West and East, for example, but a three-player one, in which Earth will be the third partner. This book is one of hope as it calls for a new world and extols the importance of science for our future and political institutions. Here, Serres demonstrates an optimistic outlook in a clear and luminous language that offers new paths for reflection and, ultimately, a better life for Earth and its inhabitants.

The Film Photonovel Jan Baetens 2019-04-15 Discarded by archivists and disregarded by scholars despite its cultural impact on post-World War II Europe, the film photonovel represents a unique crossroads. This hybrid medium presented popular films in a magazine format that joined film stills or set pictures with captions and dialogue balloons to re-create a cinematic story, producing a tremendously popular blend of cinema and text that supported more than two dozen weekly or monthly publications. Illuminating a long-overlooked 'lowbrow' medium with a significant social impact, *The Film Photonovel* studies the history of the format as a hybrid of film novelizations, drawn novels, and nonfilm photonovels. While the field of adaptation studies has tended to focus on literary adaptations, this book explores how the juxtaposition of words and pictures functioned in this format and how page layout and photo cropping could affect reading. Finally, the book follows the film photonovel's brief history in Latin America and the United States. Adding an important dimension to the interactions between filmmakers and their audiences, this work fills a gap in the study of transnational movie culture.

Horizontal Collaboration Navie 2019-05 "Horizontal Collaboration" is a term used to describe

the sexual and romantic relationships that some French women had with members of the occupying German forces during World War II. In this poignant, female-centered graphic novel created by writer/artist duo Carole Maurel and Mademoiselle Navie, the taboo of "sleeping with the enemy" is explored through the story of a passionate, and forbidden, affair. In June 1942, married Rose (whose husband is a prisoner of war) intervenes in the detainment of her Jewish friend and then accidentally embarks on a secret relationship with the investigating German officer, Mark. There is only one step between heroism and treason, and it's often a dangerous one. Inside an apartment building on Paris's 11th arrondissement, little escapes the notice of the blind husband of the concierge. Through his sightless but all-knowing eyes, we learn of Rose and Mark's hidden relationship, and also of the intertwined stories and problems of the other tenants, largely women and children, who face such complex issues as domestic violence, incest, and prostitution. This fascinating graphic novel tackles the still-sensitive topic of who it is acceptable to love, and how, and the story's drama is brought vividly to life by intimate and atmospheric illustrations.

India V. S. Naipaul 2011-03-22 A New York Times Notable Book Nobel laureate V. S. Naipaul's impassioned and prescient travelogue of his journeys through his ancestral homeland, with a new preface by the author. Arising out of Naipaul's lifelong obsession and passion for a country that is at once his and totally alien, *India: A Million Mutinies Now* relates the stories of many of the people he met traveling there more than fifty years ago. He explores how they have been steered by the innumerable frictions present in Indian society—the contradictions and compromises of religious faith, the whim and chaos of random political forces. This book represents Naipaul's last word on his homeland, complementing his two other India travelogues, *An Area of Darkness* and *India: A Wounded Civilization*.

Statues Michel Serres 2014-12-18 In this first English translation of one of his most important works, Michel Serres presents the statue as more than a static entity: for Serres it is the basis for knowledge, society, the subject and object, the world and experience. Serres demonstrates how sacrificial art founded and still persists in society and reflects on the centrality of death and the statified dead body to the human condition. Each section covers a different time period and statuary topic, ranging from four thousand years ago to 1986; from Baal, the paintings of Carpaccio, and the Eiffel Tower, to Rodin's *The Gates of Hell*, the Challenger disaster and the literature of Maupassant, La Fontaine and Jules Verne. Expository, lyrical, fictionalized and hallucinatory, *Statues* plays with time and place, history and story in order to provoke us into thinking in entirely new ways. Through mythic and poetic meditations on various kinds of descent into the underworld and new insights into the relation of the subject and object and their foundation in death, *Statues* contains great treasures and provocations for philosophers, literary critics, art historians and sociologists.

Uranie Camille Flammarion 2012-07-30 I WAS seventeen. She was called Uranie. Was Uranie, then, a young girl, fair, with blue eyes, innocent, but eager for knowledge? No, she was simply what she has always been, one of the nine muses; she who presided over astronomy, and whose celestial glance animated and directed the spheral choir; she was the heavenly idea hovering above earthly dullness; she had neither the palpitating flesh, nor the heart whose pulsations can be transmitted through space, nor the soft warmth of humanity; but she existed, nevertheless, in a sort of ideal world, superior to humanity, and always pure; and yet she was human enough in name and form to produce in the soul of a youth a vivid and profound impression; to awaken in that soul an undefined and undefinable sentiment of admiration: almost of love.
