**The Routledge Handbook of Community Based Tourism Management** Sandeep Kumar Walia 2020-12-20 This Handbook offers an up-to-date and comprehensive overview of core themes and concepts in community-based tourism management. Providing interdisciplinary insights from leading international scholars, this is the first book to critically examine the current status of community-based tourism. Organised into five parts, the Handbook provides cutting-edge perspectives on issues such as Indigenous communities, tourism and the environment, sustainability, and the impact of digital communities. Part 1 introduces core concepts and methodologies, and distinguishes community products from other tourism and hospitality goods. Part 2 explores communities' attitudes towards tourism development and their engagement with and ownership of the process. It also delves into the role of community-based tourism, under the influence of governmental policies, in the economic and social development of a region. In Part 3 various management, marketing, and branding initiatives are identified as a means of expanding the tourism business. Part 4 examines the negative impacts of mass tourism and its threats to culture, tradition, identity, the built environment, and natural heritage. In the final and fifth part, future challenges and opportunities for community-based tourism initiatives are considered, and research-based sustainable solutions are proposed. Overall, the

book considers engaging local populations in tourism development as a way of building stronger and more resilient communities. This Handbook fills a void in the current research and thus will appeal to scholars, students, and practitioners interested in tourism management, tourism geography, business studies, development policy and practice, regional development, conservation, and sustainability.

**Operation Dark Heart** Anthony Shaffer 2010-09-24 On Friday, August 13, 2010, just as St. Martin's Press was readying its initial shipment of this book, the Department of Defense contacted us to express its concern that our publication of Operation Dark Heart could cause damage to U.S. national security. After consulting with our author, we agreed to incorporate some of the government's changes into a revised edition of his book while redacting other text he was told was classified. The newly revised book keeps our national interests secure, but this highly qualified warrior's story is still intact. Shaffer's assessment of successes and failures in Afghanistan remains dramatic, shocking, and crucial reading for anyone concerned about the outcome of the war. "While I do not agree with the edits in many ways, the DoD redactions enhance the reader's understanding by drawing attention to the flawed results created by a disorganized and heavy handed military intelligence bureaucracy." –Lt. Col. Anthony Shaffer Lieutenant Colonel Anthony Shaffer had run intelligence operations for years before he arrived in Afghanistan. He was part of the "dark side of the force"---the shadowy elements of the U.S. government that function outside the bounds of the normal system. His group called themselves the Jedi Knights and pledged to use the dark arts of espionage to protect the country from its enemies. Shaffer's mission to Afghanistan, however, was unlike any he had ever experienced before. There, he led a black-ops team on the forefront of the military efforts to block the Taliban's resurgence. They not only planned complex intelligence operations to beat back the insurgents, but also played a key role in executing those operations---outside the wire. They succeeded in striking at the core of the Taliban and their safe havens across the border in Pakistan. For a moment Shaffer saw us winning the war. Then the military brass got involved. The policies that top officials relied on were hopelessly flawed. Shaffer and his team were forced to sit and watch as the insurgency grew---just across the border in Pakistan. This wasn't the first time he had seen bureaucracy stand in the way of national security. He had participated in Able Danger, the aborted intelligence operation that identified many of the future 9/11 terrorists but failed to pursue them. His attempt to reveal the truth to the 9/11 Commission would not go over well with his higher-ups. Operation Dark Heart tells the story of what really went on--and what went wrong--in Afghanistan. Shaffer witnessed firsthand the tipping point, when what seemed like certain victory turned into failure. Now, in this book, he maps out a way that could put us on the path to winning the war.

*My Name Is Mina* David Almond 2011-10-11 Award-winning author David Almond reintroduces readers to the perceptive, sensitive Mina before the events of *Skellig* in this lyrical and fantastical work. *My Name is Mina* is not only a pleasure to read, it is an intimate and enlightening look at a character whose open mind and heart have much to teach us about life, love, and the mysteries that surround us. Mina loves the night. While everyone else is in a deep slumber, she gazes out the window, witness to the moon's silvery light. In the stillness, she can even hear her own heart beating. This is when Mina feels that anything is possible and her imagination is set free. A blank notebook lies on the table. It has been there for what seems like forever. Mina has proclaimed in the past that she will use it as a journal, and one night, at last, she begins to do just that. As she writes, Mina makes discoveries both trivial and profound about herself and her world, her thoughts and her dreams.

**Ending Childhood Obesity** Amandine Garde 2020-12-25 Childhood obesity is one of the most pressing global public health challenges of the 21st century. In response, States need to employ a multisectoral approach including labelling rules, food marketing restrictions and fiscal policies. However, these legal measures interact in a complex fashion with international economic and human rights law raising a range of legal questions. This timely book edited by Garde, Curtis and De Schutter explores these questions offering insightful perspectives. Of fundamental interest to legal professionals and academics, *Ending Childhood Obesity* also makes the legal complexities accessible to a broad range of public health and other policy actors addressing obesity and related non-communicable diseases.

**36 Questions That Changed My Mind About You** Vicki Grant 2017-10-17 Inspired by the real psychology study popularized by the *New York Times* and its "Modern Love" column, this contemporary YA is perfect for fans of *Eleanor and Park*. Two random strangers. Two secrets. Thirty-six questions to make them fall in love. Hildy and Paul each have their own reasons for joining the university psychology study that asks the simple question: Can love be engineered? The study consists of 36 questions, ranging from "What is your most terrible memory?" to "When did you last sing to yourself?" By the time Hildy and Paul have made it to the end of the questionnaire, they've laughed and cried and lied and thrown things and run away and come back and driven each other almost crazy. They've also each discovered the painful secret the other was trying so hard to hide. But have they fallen in love? Told in the language of modern romance -- texting, Q&A, IM -- and punctuated by Paul's sketches, this clever high-concept YA is full of humor and heart. As soon as you've finished reading, you'll be searching for your own stranger to ask the 36 questions. Maybe you'll even fall in love. Rights have sold in 19 territories!

**Ayrton Senna** Giorgio Terruzzi 2016-10-25 It's been over twenty years since his death. Now, this beloved and unforgettable champion's final hours. On May 1, 1994, at Bologna's Ospedale Maggiore, Ayrton Senna, three-time Formula 1 world champ, lay dying after a tragic accident at the Grand Prix of San Marino. The idea for this monograph (and the exhibition at the Museo della velocità dell'Autodromo Nazionale in Monza) stems from the book Suite 200: L'ultima notte di Ayrton Senna (published by 66th and 2nd, 2014) written by the journalist Giorgio Terruzzi. An enthralling story with details on the final moments of Senna's life and thoughts as the fateful hour approached. Through a selection of approximately one hundred photographs by Ercole Colombo-the famous Formula 1 photographer-this monograph aims to narrate the career as well as the most intimate aspects of the Brazilian car racer's life. A fanciful story, enriched by the writings of Giorgio Terruzzi, who covers the most important moments in Ayrton Senna's life: his legendary wins, his defeats, the loss of his friends, the great rivalry with other drivers, his emotions and family relationships, and finally the terrible accident where he lost his life.

**Tierra Del Fuego** Sylvia Iparraguirre 2000 Tierra del Fuego is a suspenseful seafaring tale in the tradition of Horatio Hornblower, enriched by a chilling psychological and cultural tale that probes deeply into human nature - one reminiscent of Heart of Darkness or Lord of the Flies. It is based on the true story of the Yamana Indian, Jemmy Button, parts of which are recorded in Chapter 10 of Charles Darwin's The Voyage of the Beagle. This novel explores Captain Robert Fitzroy's abduction of Jemmy Button from his home in Cape Horn and Fitzroy's attempt to "civilize" Button in England in order to return him to his country as a bearer of "enlightened society." The experiment leads to tragic consequences. Tierra del Fuego deals with European arrogance and exploitation without resorting to the cliché of the "Noble Savage." The tale is told from the point of view of John William Guevera, an "outsider" with an English father and Argentinean mother. Guevera, living between those two worlds, is one of the few characters in the novel who can foresee the tragic consequences of the "experiment" and who can best understand Jemmy Button and the political machinery behind the curtain of "civilized society."

Northern Tanzania Philip Briggs 2013 Tanzania has grown to be one of the top safari destinations in Africa. This new edition of Northern Tanzania focuses solely on the northern region and Zanzibar. This area accounts for a tiny fraction of the country's surface area but around 95% of tourist developments. Written by Africa expert Philip Briggs, the guide reflects the growing trend away from large lodges towards small exclusive eco-friendly camps in remote parts of the Serengeti and other major reserves. This edition is more critically selective than previous editions, detailing the best on offer in all

price brackets. It includes new chapters on the North Coast and on the Usambara Mountains both of which offer good off-the-beaten-track travel opportunities, as well as an expanded chapter on Lake Victoria. There is in-depth coverage of Tanzania's wildlife including where to see tree-climbing lions, and a full-colour wildlife guide. Philip Briggs keeps readers up-to-date with the highly controversial proposal to build a highway through the Serengeti. Northern Tanzania is an essential travel companion for both first-time visitors and seasoned safari-goers.

Lisa Mara Batacchi: The Time of Discretion Lisa Mara Batacchi 2020 'The Time of Discretion' is an intimate, slow and relational time. It is also an artistic project, at its first chapter. Besides Italy, it has been developed in the remote areas on the south-east border of the Gobi Desert and in the Guizhou Province (South China), in search of rituals, ancient textile practices or together in one. The research documented here crosses experience and representation, dramatically compares East and West, advancing a dense theoretical scenario in relation to globalization processes.

Lion Hearted Andrew Loveridge 2018-04-10 "Until the lion has its own storyteller, tales of the lion hunt will always glorify the hunter."  
–Zimbabwean proverb In 2015, an American hunter named Walter Palmer shot and killed a lion named Cecil. The lion was one of dozens slain each year in Zimbabwe, which legally licenses the hunting of big cats. But Cecil's death sparked unprecedented global outrage, igniting thousands of media reports about the peculiar circumstances surrounding this hunt. At the center of the controversy was Dr. Andrew Loveridge, the zoologist who had studied Cecil for eight years. In *Lion Hearted*, Loveridge pieces together, for the first time, the fascinating life and murky details of this beloved lion's slaying. In the tradition of *Born Free* and *Gorillas in the Mist*, *Lion Hearted* chronicles Loveridge's long acquaintance with a host of charismatic lions that his team has tracked, often from birth to death. Born and raised in Zimbabwe, Loveridge learned to love predators at the knee of his father, an eminent herpetologist who stored baby crocodiles in the family bathtub. After earning his doctorate at Oxford, he seized an invitation to study the lions of Zimbabwe's Hwange National Park. There he meets Stumpy Tail, who, despite her name, has the dignity of the Queen of the Animal Kingdom; Dynamite, a venerable coalition leader who, muscled out by younger males, sets off on an incredible thirty-seven-day, 137-mile journey to find a new home; and Kataza, who escapes another lion's claws, and whom Loveridge twice saves from death at the hands of humans. And, of course, there is Cecil. Dethroned in an epic battle, he forms an alliance with a former rival. He also becomes a favorite of photographers and tourists—until the fateful night when a Minnesota dentist and his hunting guide entice the trusting cat with a free meal. Loveridge unravels the complexities of lion society and the dangers the cats face both within their ranks and from the outside world. Despite their ruthless reputation, lions can form deep emotional bonds—females live in prides, a sisterhood of mothers, daughters,

sisters, and aunts that can exhibit military precision when hunting in formation; males band together in coalitions to vie for control of territory and the female prides. They also display a wide range of emotional behavior, including mourning the loss of their mates, partners, and cubs. Africa's lion population is estimated to have shrunk by 43 percent in the last twenty years. There may now be as few as 20,000 wild lions across the entire continent—far fewer than the number of elephants. While deploring the killing of lions for sport, Loveridge does not believe that banning trophy hunting, by itself, will halt the decline of Africa's lion populations. He sees greater threats in human population growth, the loss of habitat to agriculture, and the illegal trade in lion body parts for use in traditional medicines. And he offers concrete proposals for averting the lion's extinction. More than a gripping detective story, *Lion Hearted* is an exploration of humanity's relationship with the natural world and an attempt to keep this majestic species from disappearing. "Lions are one of the most beloved animals on the planet," Loveridge observes. "They are the national symbol of no fewer than fifteen countries. . . . Surely, we can think of a better way to save the wild animals we love besides killing them."

**Rain** Melissa Harrison 2016-03-03 An evocative meditation on the English landscape in wet weather by the acclaimed novelist and nature writer, Melissa Harrison. Whenever rain falls, our countryside changes. Fields, farms, hills and hedgerows appear altered, the wildlife behaves differently, and over time the terrain itself is transformed. In *Rain*, Melissa Harrison explores our relationship with the weather as she follows the course of four rain showers, in four seasons, across Wicken Fen, Shropshire, the Darent Valley and Dartmoor. Blending these expeditions with reading, research, memory and imagination, she reveals how rain is not just an essential element of the world around us, but a key part of our own identity too. 'Rain is that rare and delightful thing, nature writing that entertains as it informs.' Tristan Gooley, author of *The Walker's Guide to Outdoor Clues and Signs* 'Wonderful.' James Rebanks, author of *The Shepherd's Life*

*Lepanto* G.K. Chesterton 2012-06-06 Hilaire Belloc called "Lepanto" Chesterton's greatest poem and the greatest poem of his generation. But not only have English classes neglected this masterpiece of rhyme and meter, History classes have neglected the story of the pivotal battle upon which the poem is based. This book brings together the poem, the historical background of the famous battle, a riveting account of the battle itself, and a discussion of its historical consequences. The poem is fully annotated, and is supplemented with two interesting essays by Chesterton himself. Well-known Chesterton expert, Dale Ahlquist, has gathered together all the insightful commentaries and explanatory notes. Here is the story behind the modern conflict between Christianity and Islam, between Protestant and Catholic Europe, and the origin of the Feast of the Holy Rosary. A fascinating blend of literature, history, religion and romance!

*Zanzibar* Aline Coquelle 2020-04 Off the coast of East Africa in the Indian Ocean sits an archipelago known as Zanzibar. For centuries, Zanzibar has been the haven and gateway for explorers including Richard Burton and David Livingstone to penetrate the unknown African Continent. Forward to present day, and it is still possible to experience the unique wildlife whether that is by scuba diving off the coast of a private island, infinite lagoons, visiting mangroves or endemic wild forests; getting lost and immersing yourself into the historical labyrinthine streets of Stonetown. The Returns of Odysseus Irad Malkin 1998-11-30 This remarkably rich and multifaceted study of early Greek exploration makes an original contribution to current discussions of the encounters between Greeks and non-Greeks. Focusing in particular on myths about Odysseus and other heroes who visited foreign lands on their mythical voyages homeward after the Trojan War, Irad Malkin

shows how these stories functioned to mediate encounters and conceptualize ethnicity and identity during the Archaic and Classical periods. Synthesizing a wide range of archaeological, mythological, and literary sources, this exceptionally learned book strengthens our understanding of early Greek exploration and city-founding along the coasts of the Western Mediterranean, reconceptualizes the role of myth in ancient societies, and revitalizes our understanding of ethnicity in antiquity. Malkin shows how the figure of Odysseus became a proto-colonial hero whose influence transcended the Greek-speaking world. The return-myths constituted a generative mythology, giving rise to oral poems, stories, iconographic imagery, rituals, historiographical interpretation, and the articulation of ethnic identities. Reassessing the role of Homer and alternative return-myths, the book argues for the active historical function of myth and collective representations and traces their changing roles through a spectrum of colonial perceptions—from the proto-colonial, through justifications of expansion and annexation, and up to decolonization.

**Cracks in the Dome: Fractured Histories of Empire in the Zanzibar Museum, 1897-1964** Sarah Longair 2016-03-09 As one of the most monumental and recognisable landmarks from Zanzibar's years as a British Protectorate, the distinctive domed building of the Zanzibar Museum (also known as the Beit al-Amani or Peace Memorial Museum) is widely known and familiar to Zanzibaris and visitors alike. Yet the complicated and compelling history behind its construction and collection has been overlooked by historians until now. Drawing on a rich and wide range of hitherto unexplored archival, photographic, architectural and material evidence, this book is the first serious investigation of this remarkable institution. Although the museum was not opened until 1925, this book traces the longer history of colonial display which culminated in the establishment of the Zanzibar Museum. It reveals the complexity of colonial knowledge production in the changing political context of the twentieth century British Empire and explores the broad spectrum of people from diverse communities who shaped its existence as staff, informants, collectors and teachers. Through vivid narratives involving people, objects and exhibits, this book exposes the fractures, contradictions and tensions in creating and maintaining a colonial museum, and casts light on the conflicted character of the 'colonial mission' in eastern Africa.
