*The Tattoo Artist* Jill Ciment 2007-12-18 In 1970, Sara Ehrenreich boards a small plane and returns to New York City with much fanfare; she will be featured in Life magazine. She has not left Ta'unuu—the South Seas island upon which she and her husband, Philip, were marooned during a storm—in more than thirty years. Sara doesn't know that man has landed on the moon. She has never seen a ballpoint pen. Her body is covered, head to toe, in tattoos. Flashback: it's 1918 and Sara, a shop girl and aspiring artist, meets Philip, a wealthy member of the avant-garde elite. The two fall in love, marry, and collaborate to make art, surrounded by socialites and revolutionaries—until the Depression cripples not just Sara and Philip, but most of their patrons. When Philip is offered a job gathering masks from the South Seas, they jump at a chance to escape America's sorrows, traveling to Ta'unuu for what they think will be a week's stay. The rest is history—a history Sara records on her skin through the traditional tattoos that become her masterpiece and provide an accounting of her days. Narrated in vivid and starkly moving prose, *The Tattoo Artist* reminds us of the unforeseeable forces that shape each human life.

**Tattoo Histories** Sinah Theres Kloß 2019-12-13 *Tattoo Histories* is an edited volume which analyzes and discusses the relevance of tattooing in the socio-cultural construction of bodies, boundaries, and identities, among both individuals and groups. Its interdisciplinary approach facilitates historical as well as contemporary perspectives. Rather than presenting a universal, essentialized history of tattooing, the volume's objective is to focus on the entangled and transcultural histories, narratives, and practices related to tattoos. Contributions stem from various fields, including Archaeology, Art History, Classics, History, Linguistics, Media and Literary Studies, Social and Cultural Anthropology, and Sociology. They advance the current endeavour on the part of tattoo scholars to challenge Eurocentric and North American biases prevalent in much of tattoo research, by including various analyses based in locations such as Malaysia, Israel, East Africa, and India. The thematic focus is on the transformative capacity of tattoos and tattooing, with regard to the social construction of bodies and subjectivity; the (re-)creation of social relationships through the definition of (non-)tattooed others; the formation and consolidation of group identities, traditions, and authenticity; and the conceptualization of art and its relevance to tattoo

artist-tattooee relations.

Modernism, Self-Creation, and the Maternal James Martell 2019-07-01 Focusing on their conception and use of the notion of the mother, *Modernism, Self-Creation, and the Maternal* proposes a new interpretation of literature by modernist authors like Rousseau, Baudelaire, Poe, Rimbaud, Rilke, Joyce, and Beckett. Seen through this maternal relation, their writing appears as the product of an "anxiety" rising not from paternal influence, but from the violence done to their mother in their attempts at self-creation through writing. In order to bring to light this modernist violence, this study analyzes these authors in tandem with Derrida's work on the gender-specific violence of the Western philosophical and literary tradition. The book demonstrates how these writer-sons wrote their works in a constant crisis vis-à-vis the mother's body as site of both origin and dissolution. It proves how, if modernism was first established as a patrilineal heritage, it was ultimately written on the bodies of women and mothers, confusing them in order to appropriate their generative traits.

*Creativity without Law* Kate Darling 2017-02-28 Behind the scenes of the many artists and innovators flourishing beyond the bounds of intellectual property laws Intellectual property law, or IP law, is based on certain assumptions about creative behavior. The case for regulation assumes that creators have a fundamental legal right to prevent copying, and without this right they will under-invest in new work. But this premise fails to fully capture the reality of creative production. It ignores the range of powerful non-economic motivations that compel creativity, and it overlooks the capacity of creative industries for self-governance and innovative social and market responses to appropriation. This book reveals the on-the-ground practices of a range of creators and innovators. In doing so, it challenges intellectual property orthodoxy by showing that incentives for creative production often exist in the absence of, or in disregard for, formal legal protections. Instead, these communities rely on evolving social norms and market responses—sensitive to their particular cultural, competitive, and technological circumstances—to ensure creative incentives. From tattoo artists to medical researchers, Nigerian filmmakers to roller derby players, the communities illustrated in this book demonstrate that creativity can thrive without legal incentives, and perhaps more strikingly, that some creative communities prefer, and thrive, in environments defined by self-regulation rather than legal rules. Beyond their value as descriptions of specific industries and communities, the accounts collected here help to ground debates over IP policy in the empirical realities of the creative process. Their parallels and divergences also highlight the value of rules that are sensitive to the unique mix of conditions and motivations of particular industries and communities, rather than the monoculture of uniform regulation of the current IP system.

**Covered in Ink** Beverly Yuen Thompson 2015-07-24 A small dolphin on the ankle, a black line on the lower back, a flower on the hip, or a child's name on the shoulder blade—among the women who make up the twenty percent of all adults in the USA who have tattoos, these are by far the most popular choices. Tattoos like these are cute, small, and can be easily hidden, and they fit right in with society's preconceived notions about what is 'gender appropriate' for women. But what about women who are heavily tattooed? Or women who visibly wear imagery, like skulls, that can be perceived as masculine or ugly when inked on their skin? Drawing on autoethnography, and extensive interviews with heavily tattooed women, *Covered in Ink* provides insight into the increasingly visible subculture of women with tattoos. Author Beverly Thompson visits tattoos parlors, talking to female tattoo artists and the women they ink, and she attends tattoo conventions and Miss Tattoo pageants where heavily tattooed women congregate to share their mutual love for the art form. Along the way, she brings to life women's love of ink, their very personal choices of tattoo art, and the meaning tattooing has come to carry in their lives, as well as their struggles with gender norms, employment discrimination, and family rejection. Thompson finds that, despite the stigma and social opposition heavily tattooed women face, many feel empowered by their tattoos and strongly believe they are creating a space for self-expression that also presents a positive body image. A riveting and unique study, *Covered in Ink* provides important insight into the often unseen world of women and tattooing.

*Cultura Tattoo Sketchbook* Tattoo Duke 2013 Here's a book that's inspired by the Mexican culture and history. Artist Tattoo Duke has gathered his collection of drawings, from fully rendered color images, to collages and unique hand sketches, and compiled them into this amazing reference source. Not only does this book feature artwork that could be described as "Gangsta" or "Street," but it also features Aztec warriors, Raza-style artwork, Graffiti Art, even American Indian themes. The key, as with all art, is the shading. When the shading is done correctly it changes the entire impact of the artwork, whether it's rendered in full color or simply sketched in black & grey. This book features everything from beautifully, fully-shaded intricate collages, to simple sketches showing the design process. Tattoo Duke's artwork is a must for any artist/client that celebrates Mexican culture through tattoo designs.
