*Urban Playground* Tim Gill 2021-03-03 What type of cities do we want our children to grow up in? Car-dominated, noisy, polluted and devoid of nature? Or walkable, welcoming, and green? As the climate crisis and urbanisation escalate, cities urgently need to become more inclusive and sustainable. This book reveals how seeing cities through the eyes of children strengthens the

Healthier children mean happier families, stronger communities, greener neighbourhoods, and an economy focused on the long-term. Make cities better for everyone.

**The Encyclopedia of Louisville** John E. Kleber 2014-07-11 With more than 1,800 entries, The Encyclopedia of Louisville is the ultimate reference for Kentucky's largest city. For more than 125 years, the world's attention has turned to Louisville for the annual running of the Kentucky Derby on the first Saturday in May. Louisville Slugger bats still reign supreme in major league baseball. The city was also the birthplace of the famed Hot Brown and Benedictine spread, and the cheeseburger made its debut at Kaelin's Restaurant on Newburg Road in 1934. The "Happy Birthday" had its origins in the Louisville kindergarten class of sisters Mildred Jane Hill and Patty Smith Hill. Named for King Louis XVI of France in appreciation for his assistance during the Revolutionary War, Louisville was founded by George Rogers Clark in 1778. The city has been home to a number of men and women who changed the face of American history. President Zachary Taylor was reared in surrounding Jefferson County, and two U.S. Supreme Court Justices were from the city proper. Second Lt. F. Scott Fitzgerald, stationed at Camp Zachary Taylor during World War I, frequented the bar in the famous Seelbach Hotel, immortalized in *The Great Gatsby*. Muhammad Ali was born in Louisville and won six Golden Gloves tournaments in Kentucky.

Loss, Grief and Transformation Shoshana Ringel 2021-10-22 This book is a timely and relevant book for psychotherapists and psychoanalysts who process loss both in their own lives and in the lives of their patients, offering perspectives from a range of theoretical backgrounds, clinical vignettes and personal insights. This volume addresses the scope of grief and mourning between the therapeutic dyad, and carefully examines how the patient and therapist experience intersect and imbue the analytic space and the therapeutic process. The book examines personal loss of parents and partners, as well as loss generated by mass trauma through the lens of the Holocaust, the immigrant experience, the COVID-19 pandemic and the environment. There are chapters that cover how the lost other continues to live within one's mind, and within the analytic relationship, how loss impacts one's internal self system, and how loss associated with traumatic experience with the deceased continues to reverberate. With a unique focus on the therapist's personal experience of loss, and how it shapes the clinical situation, as well as a broad range of perspectives on managing and working with loss in patients, this is an invaluable book for all practicing psychoanalysts and psychotherapists.
