**Saving Stuyvesant Town** Daniel R. Garodnick 2021-04-15 From city streets to City Hall and to Midtown corporate offices, Saving Stuyvesant Town is the incredible true story of how one middle class community defeated the largest residential real estate deal in American history. Lifetime Stuy Town resident and former City Councilman Dan Garodnick recounts how his neighbors stood up to mammoth real estate interests and successfully fought to save their homes, delivering New York City's biggest-ever affordable housing preservation win. In 2006, Garodnick found himself engaged in an unexpected battle. Stuyvesant Town was built for World War II veterans by MetLife, in partnership with the City. Two generations removed, MetLife announced that it would sell Stuy Town to the highest bidder. Garodnick and his neighbors sprang into action. Battle lines formed with real estate titans like Tishman Speyer and BlackRock facing an organized coalition of residents, who made a competing bid to buy the property themselves. Tripped-up by an over-leveraged deal, the collapse of the American housing market, and a novel lawsuit brought by tenants, the real estate interests collapsed, and the tenants stood ready to take charge and shape the future of their community. The result was a once-in-a-generation win for tenants and an extraordinary outcome for middle-class New Yorkers. Garodnick's colorful and heartfelt account of this crucial moment in New York City history shows how creative problem solving, determination, and brute force politics can be marshalled for the public good. The nine-year struggle to save Stuyvesant Town by these residents is an inspiration to everyone who is committed to ensuring that New York

remains a livable, affordable, and economically diverse city.

**Open Architecture** 2018-04-09 The International Building Exhibition 1984/87 in Berlin constitutes one of the most remarkable examples to discuss "open architecture". Almost 10,000 dwellings were constructed or restored in the Kreuzberg districts adjacent to the Berlin Wall, inhabited about halfway by immigrants. The renowned author Esra Akcan, related in many ways to Turkey, Berlin and the USA, narrates the history and reverberations of this architectural-political event.

**Community Organizing** George Brager 1987 Considered to be a classic book for social work practitioners, this thoroughly updated edition covers more recent literature, research findings, case illustrations, and cross-cultural perspectives. This edition also reviews and tries to explain the changes in community organization that have taken place in the last decade. It introduces new theoretical viewpoints--exchange theory and organizational change theory--to help better understand these changes. Theoretical material concerning reciprocity and alienation is also introduced in this edition. Other themes are: relative deprivation; accountability; stages of group development and participatory benefits; methods and techniques of community assessment; contracting prospective members and outreach; theories and

techniques of establishment rapport; leadership and its development; and organizational theory. ISBN 0-231-05462-9: \$24.00.

**Community Organizing and Development** Herbert J. Rubin 2008 This revised edition of a well-known and widely used text in community organizing and development fully examines the broad and changing political and social settings that influence actions; while portraying the infra-structure of social change -- the knowledge, personnel, and organizations -- that enable such work to be successfully accomplished. The text brings together the practicalities of organizing and development -- fund raising, working out news releases, running an organization, orchestrating political actions, academic knowledge -- and explains why various approaches work; as well as the values and ideologies that guide what is to be done. It provides the foundations of organizing and development work and then describes how activists -- through following either a social confrontation model or an economic and social production approach -- can respond to economic and social problems.

*To Live Peaceably Together* Tracy E. K'Meyer 2022-04-05 A groundbreaking look at how a predominantly white faith-based group reset the terms of the fight to integrate US cities. The bitterly tangled webs of race and housing in the postwar United States hardly suffer from a lack of scholarly attention. But Tracy K'Meyer's *To Live Peaceably Together* delivers something truly new to the field: a lively examination of a predominantly white faith-based group—the Quaker-aligned American Friends Service Committee (AFSC)—that took a unique and ultimately influential approach to cultivating wider acceptance of residential integration. Built upon detailed stories of AFSC activists and the obstacles they encountered in their work in Chicago, Philadelphia, and Richmond, California, *To Live Peaceably Together* is an engaging and timely account of how the organization allied itself to a cause that demanded constant learning, reassessment, and self-critique. K'Meyer details the spiritual and humanist motivations behind the AFSC, its members' shifting strategies as they came to better understand structural inequality, and how those strategies were eventually adopted by a variety of other groups. Her fine-grained investigation of the cultural ramifications of housing struggles provides a fresh look at the last seventy years of racial activism.

*Non-Performing Loans, Non-Performing People* Melissa García-Lamarca 2022-11-15 Non-Performing

Loans, Non-Performing People tells the previously untold stories of those living with mortgage debt in times of precarity and explores how individualized indebtedness can unite resistance in the struggle toward housing justice. The book builds on several years of Melissa García-Lamarca's engagement with activist research in Barcelona's housing movement, in particular with its most prominent collective, the Platform for Mortgage-Affected People (PAH). What García-Lamarca learned from fellow activists and the movement in Barcelona pushed her to rethink how lived experiences of indebtedness connect to larger political- economic processes related to housing and debt. The book is also inspired by feminist scholars who integrate the lens of everyday life into explorations of contemporary political economy and by anthropologists who connect macroprocesses to lived experience. Distinctive in how it integrates a racialized, gendered, and decolonial perspective, García-Lamarca's research of mortgaged lives in precarious times explores two principal phenomena: first, how financial speculation is experienced in the day-to-day and differentially embedded in the dynamics of (urban) capital accumulation, and second, how collective action can unleash the liberating possibility of indebtedness.

**Spark** John Twelve Hawks 2014-10-07 THE MOST DANGEROUS ASSASSIN IS THE ONE WHO BELIEVES HE IS ALREADY DEAD. A razor-sharp, high-tech, wildly imaginative new novel from internationally bestselling author John Twelve Hawks, *Spark* features a narrator unlike any in recent fiction—a man whose view of life and death is different from anything you’ve ever imagined. Jacob Underwood is a contract employee of the Special Services Section, a small shadow department buried within the multinational corporation DBG, headquartered in New York City. Jacob is not a businessman . . . he is a hired assassin . . . and his job is to neutralize problems deemed unacceptable by the corporation. But Jacob is not like other employees, nor is he like other people. After a catastrophic motorcycle accident leaves him with Cotard’s syndrome—an actual condition that causes those afflicted to believe they are dead—Jacob perceives himself as nothing but a “Shell,” with no emotions and no tether to the concept of right and wrong. Emily Buchanan is a bright young second-year associate for DBG, and she has disappeared without a trace. Suspecting that Emily has stolen either vast sums of money or valuable information from the company, Ms. Holquist, Jacob’s handler at DBG, assigns him the task of tracking down the young woman and neutralizing her. Jacob’s condition allows him to carry out assignments with ruthless, logical precision, devoid of guilt, fear, or dishonor. But as his new assignment draws him inside a labyrinthine network of dark dealings, Jacob finds himself up against something he is completely incapable of understanding. Shifting with riveting precision from New York to London, Paris to New Delhi, *Spark* is a thriller that delves into the surveillance state we prognosticate today . . . and will live in tomorrow. In the hands of master storyteller John Twelve Hawks, a unique character’s startling

transformation comes to life, making Spark a thriller that resonates and satisfies on many levels.

The End of Days Matthew Harper 2016-08-24 For 4 million slaves, emancipation was a liberation and resurrection story of biblical proportion, both the clearest example of God's intervention in human history and a sign of the end of days. In this book, Matthew Harper demonstrates how black southerners' theology, in particular their understanding of the end times, influenced nearly every major economic and political decision they made in the aftermath of emancipation. From considering what demands to make in

early Reconstruction to deciding whether or not to migrate west, African American Protestants consistently inserted themselves into biblical narratives as a way of seeing the importance of their own struggle in God's greater plan for humanity. Phrases like "jubilee," "Zion," "valley of dry bones," and the "New Jerusalem" in black-authored political documents invoked different stories from the Bible to argue for different political strategies. This study offers new ways of understanding the intersections between black political and religious thought of this era. Until now, scholarship on black religion has not highlighted how pervasive or contested these beliefs were. This narrative, however, tracks how these ideas governed particular political moments as African Americans sought to define and defend their freedom in the forty years following emancipation.

**Lansing at the Crossroads** Rita Smidt 2001 The construction of a new four-lane highway on the outskirts of Ithaca, NY created a rapidly growing commercial center in the previously rural Town of Lansing. The clash between the newcomers and the old-timers over the direction and pace of this change led to the formation of a new local government and the incorporation of the Village of Lansing. This is the story of that village, how and why it was formed, the problems it faced in its early years, and the victories its people won in gaining control of their own communal future. It is also a story that mirrors, on a small scale, significant national trends: urban sprawl, spreading sub urbanization, the popular reaction against the disappearance of America's open lands and the mounting costs of extending the urban infrastructure, and the turning away from centralization to local control as the preferred means of solving public problems.
