The Runner Markus Torgeby 2018-08-23 'The most beautiful book I ever read.' – Rune Larsson, ultra-distance runner Markus Torgeby was just 20 years old when he headed off into the remote Swedish forest to live as a recluse and dedicate himself to his one true passion: running. He lived in a tent in the wilderness, braving the harsh Swedish winters – for four years. This is his story. An international bestseller, this extraordinary book is a powerful exploration of running, resilience, loss, and self-discovery. A talented long-distance runner in his teens, Markus Torgeby excelled in training, but often failed inexplicably in competition. Pressurised by his coach and consumed by the suffering of his MS-afflicted mother, he chose to do something that most of us only dream of: escape the modern world. In his stripped-back lifestyle in the woods, surviving with the bare minimum of supplies and enduring extreme cold, he found salvation and ultimately his true direction in life.

Practical Friendship Christian Langkamp 2021-09-24 Practical Friendship brings insights together from ancient and contemporary philosophy, theology, psychology and sociology to identify what good friendship means and how we can live it. Based on the analysis it proposes we adopt a role based view of friendship, that also can be used to analyse loneliness. Based on research and anecdotal evidence the book compiles a range of recommendations on how to maintain our friendships in good repair and how to foster friendship in old age. The book addresses an audience of professionals working to fight loneliness in our society as well as lay people wanting to reflect on how to improve the friendships in their lives. Additional sections are addressed at researchers in sociology and psychology who want to expand their understanding of friendship in order to tune their research to generate insight for loneliness-support.

Robert Bosch Peter Theiner 2019-10-15 Robert Bosch (1861 - 1942) was one of the most successful German entrepreneurs and philanthropists of the 20th century and, at the same time, a pioneer of the social market economy. This book presents a comprehensive and impressive biography of a visionary who thought far ahead of his time like almost no other. Peter Theiner follows the traces of this trailblazer of modernity who founded a global company. 1886, Robert Bosch opened his Werkstätte für Feinmechanik und Elektrotechnik, today's Robert Bosch GmbH, in a modest rear building. Pioneering innovations for motorized vehicles emerged from the young company, and Bosch was quickly able to point to tremendous international successes as an industrialist. Today, his name represents the rise of motor vehicles and electricity in the home. In addition, he also had an impact as a benefactor and philanthropist with a well-developed political profile and a strong sense of social responsibility. In a time of wars and upheaval, in an age of extremes, Bosch positioned himself as a staunch Democrat who cut against the grain of German history.

Bhupen Khakhar Chris Dercon 2016-05-01 Bhupen Khakhar (1934-2003) was active in India from the late 1960s. Significant essays on Khakhar's artistic influences are accompanied by focused responses to key works by leading writers, curators and artists. Khakhar's unique voice is revealed in excerpts from the last interview before his death in 2003, and in a facsimile reproduction of the artist's book *Truth is Beauty and Beauty is God*, out of print since 1972. With personal and touching contributions by those who knew him, this richly illustrated publication is an essential reference to one of the most compelling and unique voices in twentieth-century art, as well as a significant contribution to the field of international modernism. ventures into the dysfunctional, self-contained and self-destructive universe of a New Economy trade convention. Here, the horizon of human potential for feeling, experience, and identity is limited by the language and logic of business models. Through a hypnotically rhythmic sequencing of polyphonic dialogs, this explosive novel reveals how the models of efficiency and performance used to quantify business success turn destructive when used to measure human worth, evaluate human experience. Through the conversations of six representative figures, the IT supporter, the online editor, the senior associate, the key account manager, the partner and the intern, the reader is led deeper into the psychological desert of a labour force that has internalised values inimical to both its individual and collective survival. The pressure to perform is driven by the pace of the twenty-four hour work cycle and the frenzied competition motivated by the first signs of collapse and panic in the New Economy boom. Going days without sleep is a point of honour. There is no quitting time. The novel is both a darkly comedic and deeply disturbing view of the work world in the digital age.

Why Men Don't Have a Clue and Women Always Need More Shoes Barbara Pease 2004-01-13 Do you know the top seven things men do that drive women nuts? Or the real reason women cry more than men do? What are men really looking for in a woman—both at first sight and for the long-term? These are only the starting points for Barbara and Allan Pease as they discuss the very real—and often very funny—differences between the sexes. *Why Men Don't Have a Clue and Women Always Need More Shoes* takes a look at some of the issues that have confused men and women for centuries. Using new findings on the brain, studies of social changes, evolutionary biology, and psychology, the Peases teach you how to make the most of your relationships—or at least begin to understand where your partner is coming from. They help women understand why men avoid commitment, what drives them to lie, and how to decode male speech to find out what they are really saying. They explain to men why women nag, how they use emotional blackmail, and how to understand (and take advantage of!) the top-secret scoring system all women apply. They also dish about the top turn-ons--and turn-offs--for both sexes. Laced with their trademark humor, *Why Men Don't Have a Clue and Women Always Need More Shoes* addresses a host of nitty-gritty battlegrounds as well, from channel surfing and toilet seats to shopping and communication. Already a #1 bestseller in the United Kingdom, Germany, Japan, Holland, Spain, Brazil, Portugal, Belgium, Ireland, France, Czech Republic, India, Singapore, Malaysia, South Africa, New Zealand, and Australia, *Why Men Don't Have a Clue and Women Always Need More Shoes* is the answer to understanding the opposite sex.

Of Love & War Lynsey Addario 2018-10-23 "Spectacular . . . a majestic collection that captures the drama of everyday existence in war zones around the world. . . . There is no disputing the impact of this revelatory collection." —BookPage From the Pulitzer Prize-winning photojournalist and New York Times bestselling author, a stunning and personally curated selection of her work across the Middle East, South Asia, and Africa Pulitzer Prize-winning photojournalist and MacArthur Fellow Lynsey Addario has spent the last two decades bearing witness to the world's most urgent humanitarian and human rights crises. Traveling to the most dangerous and remote corners to document crucial moments such as Afghanistan under the Taliban immediately before and after the 9/11 attacks, Iraq following the US-led invasion and dismantlement of Saddam Hussein's government, and western Sudan in the aftermath of the genocide in Darfur, she has captured through her photographs visual testimony not only of war and injustice but also of humanity, dignity, and resilience. In this compelling collection of more than two hundred photographs, Addario's commitment to exposing the devastating consequences of human conflict is on full display. Her subjects include the lives of female members of the military, as well as the trauma and abuse inflicted on women in male-dominated societies; American soldiers rescuing comrades in the Korengal Valley of Afghanistan, and Libyan opposition troops trading fire in Benghazi. Interspersed between her commanding and arresting images are personal journal entries and letters, as well as revelatory essays from esteemed writers such as Dexter Filkins, Suzy Hansen, and Lydia Polgreen. A powerful and singular work from one of the most brilliant and influential photojournalists working today, *Of Love & War* is a breathtaking record of our complex world in all its inescapable chaos, conflict, and beauty.

My Wounded Heart Martin Doerry 2009-09-07 *My Wounded Heart* tells the heart-breaking story of a gifted Jewish doctor, the mother of five children, who, after being divorced by her Aryan husband, is arrested on an absurd charge and sent to a corrective labour camp in 1942. Lilli was a prolific letter writer and miraculously almost all her letters to her children and friends, together with a huge number of their letters to her (smuggled out of the camp at Breitenau before she was sent to Auschwitz), survived the Second World War and only came to light on the death of her son in 1998. In the letters and in Martin Doerry's superb commentary, we see the deterioration of a whole country through the eyes of an ordinary family driven asunder by pressure from the Nazi regime. We see Lilli's initial optimism and love of her husband begin to crack. We see her trying to support and run the family home from Breitenau camp, but relying totally on her twelve-year-old daughter, Ilse. And we see the difficulties for the children of living with their father's mistress, now his wife, after a bombing raid destroys the family home. And perhaps most moving of all, we see Ilse's heroic attempts to meet her mother, even though it means going into the labour camp itself, and Lilli's courage in the face of her inevitable end.

The Works of Archimedes Thomas L Heath 2019-06-26 *THE WORKS OF ARCHIMEDES* - Archimedes. Thomas L. Heath. Cambridge Library Collection. Mathematics. Archimedes lived in the third century BCE, and died in the siege of Syracuse. Together with Euclid and Apollonius, he was one of the three great mathematicians of the ancient world, credited with astonishing breadth of thought and brilliance of insight. His practical inventions included the water-screw for irrigation, catapults and grappling devices for military defence on land and sea, compound pulley systems for moving large masses, and a model for explaining solar eclipses. According to Plutarch, however, Archimedes viewed his mechanical inventions merely as 'diversions of geometry at play'. His principal focus lay in mathematics, where his achievements in geometry, arithmetic and mechanics included work on spheres, cylinders and floating objects. This classic 1897 text celebrated Archimedes' achievements. Part 1 placed Archimedes in his historical context and presented his mathematical methods and discoveries, while Part 2 contained translations of his complete known writings.
