Never Date Your Ex Jules Barnard 2014-11-17 She's the one woman I'd give anything to forget--and now I'm stuck living with her. I'm making a fresh start in Lake Tahoe, until my stubborn sister decides to move Mira into our cabin. I'll be damned if I move out on Mira's account. Nothing has changed in the years since I last saw Mira. Her tempting body and smart mouth taunt me daily. The only hope I have at keeping my sanity is the knowledge that Mira is hiding something. Sooner or later I'll discover her secret, and knowing her, it'll be damning. But first, I have to ignore the urge to kiss and touch and make Mira mine again. --EXCERPT-- I grab her waist, guiding her back against the shelves. She kisses my cheekbone, nibbles my earlobe. "We can't do this here." That nibble shoots straight to my groin. "I beg to differ. I think we can manage." Once the walls come down, emotions run hot. Why Should I Save Water? Jen Green 2005-02-01 Children learn that clean water is one of our most

precious natural resources. In this book, boys and girls are told about dozens of ways in which they and their families can avoid wasting water. Part of every child's development involves asking questions. Today, some of the most important questions kids ask are related to the natural environment. The enlightening and entertaining four-book *Why Should I?* series demonstrates the importance of protecting nature. Books present brief, entertaining stories that answer children's questions and feature amusing color illustrations on every page. A note at the back of each book is for parents and teachers, suggesting ways to use these books most effectively.

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

Everyday Words from Classic Origins Perfection Learning (Firm) 2002-01-01 "The ability to recognize base words is a powerful vocabulary-building strategy. Everyday words from classic origins teaches over 1,000 Latin and Greek base words, which remain embedded in over one-half of the most commonly used English words. There are thirty lessons in this new edition. Twenty-four lessons cover the most powerful Latin and Greek base words for everyday vocabulary. Six new lessons teach specific base words for the core subject areas of language arts, social studies, math, and science. A review to monitor and reinforce learning follows every third lesson"--Back cover.

1939 Michael Jabara Carley 2009-02-16 At a crucial point in the twentieth century, as Nazi Germany prepared for war, negotiations between Britain, France, and the Soviet Union became the last chance to halt Hitler's aggression. Incredibly, the French and British governments dallied, talks failed, and in August 1939 the Soviet Union signed a nonaggression pact with Germany. Michael Carley's gripping account of these negotiations is not a pretty story. It is about the failures of appeasement and collective security in Europe. It is about moral depravity and blindness, about villains and cowards, and about heroes who stood against the intellectual and popular tides of their time. Some died for their beliefs, others labored in obscurity and have been nearly forgotten. In 1939 they sought to make the Grand Alliance that never was between France, Britain, and the Soviet Union. This story of their efforts is background to the wartime alliance created in 1941 without France but with the United States in order to defeat a demonic enemy. 1939 is based upon Mr. Carley's longtime research on the period, including work in French, British, and newly opened Soviet archives. He challenges prevailing interpretations of the origins of World War II by situating 1939 at the end of the early cold war between the Soviet Union, France, and Britain, and by showing how anti-communism was the major cause of the failure to form an alliance against Hitler. 1939 was published on September 1, the sixtieth anniversary of the Nazi invasion of Poland and the start of the war.

The Physical Geography of Southeast Asia Avijit Gupta 2005-02-24 The Physical Geography of Southeast Asia examines the complex mosaic of physical environments which comprise Southeast Asia, and the current environmental problems and management practices which have arisen in this part of the world. The book is in three sections. The first section introduces the basic environmental components (geology, landforms, rivers, vegetation, and others) across the entire region. The second section discusses specific environments that are characteristic of this assemblage of continental and maritime landscapes (volcanic islands, coastal environment, granitic terrains, karst, etc.). The third and final section illustrates the ecological relationship between the environment and people (volcanic hazards, urban environment, coastal zone development, coralreefs, and others). The physical environment of Southeast Asia is examined at different levels, covering a world region that ranges from ancient, stable landmasses to dynamic, unstable plate boundaries, from aged, primary rainforests to brash, vibrant, resource-demanding built environments. Southeast Asia has been perceived as a laboratory for studying plate tectonics. It is an assemblage of large river basins, peninsulas and archipelagos, and seas surrounded by islands. It is an area of great physical variations where parts of the physical environment have been significantly degraded anthropogenically, following rapid population growth and development. In large parts of the region, the forms and processes on land and offshore should no longer be seen as entirely natural. As this book repeatedly illustrates, plate tectonics and people are both important contributors to the physical geography of Southeast Asia. The contributors to this volume are distinguished, scholarly, and have a long association with Southeast Asia. The chapters are not only skilfully built on state-of-the-

art research findings but also include new material from the on-going research activities of the authors. The book goes beyond being the first comprehensive and detailed volume of the biophysical geography of Southeast Asia in that it also deals with the tropical environment and the relationship between environment and people in a rapidly developing world region.

Sick Tom Leveen 2013-10-01 Brian and his friends are not part of the cool crowd. They're the misfits and the troublemakers—the ones who jump their high school's fence to skip class regularly. So when a deadly virus breaks out, they're the only ones with a chance of surviving. The virus turns Brian's classmates and teachers into bloodthirsty attackers who don't die easily. The whole school goes on lockdown, but Brian and his best friend, Chad, are safe (and stuck) in the theater department—far from Brian's sister, Kenzie, and his ex-girlfriend with a panic attack problem, Laura. Brian and Chad, along with some of the theater kids Brian had never given the time of day before, decide to find the girls and bring them to the safety of the theater. But it won't be easy, and it will test everything they thought they knew about themselves and their classmates. Praise for SICK "The gore and action will leave enthralled readers thrilled and then sated with each kill on either side." —Booklist "Between the pacing and the heroes' salty, blue language (full of lovingly creative, genital-inspired insults), reluctant readers who love zombies will devour it, right up to the abrupt end." —Kirkus Reviews "Sick is well written, with great detail, even if it is a little gory." —VOYA Magazine Awards 2014 Quick Picks for Reluctant Young Readers list from YALSA

They Never Said It Paul F. Boller Jr. 1990-06-14 Abraham Lincoln never said, "You cannot fool all the people all the time." Thomas Jefferson never said, "That government is best which governs least." And Horace Greeley never said, "Go west, young man." In *They Never Said It*, Paul F. Boller, Jr. and John George examine hundreds of misquotations, incorrect attributions, and blatant fabrications, outlining the origins of the quotes and revealing why we should consign them to the historical trashcan. Many of the misquotes are quite harmless. Some are inadvertent misquotes that have become popular (Shakespeare actually said, "The best part of valor is discretion"), others, the inventions of reporters embellishing a story (Franklin Roosevelt never opened a speech to a DAR group with the salutation, "My fellow immigrants"). But some of the quotes, such as Charles Darwin's supposed deathbed recantation of evolution, falsify the historical record with their blatant dishonesty. And other chillingly vicious ones, filled with virulent racial and religious prejudices, completely distort the views of the person supposedly quoted and spread distrust and hatred among the gullible. These include the forged remarks attributed to Benjamin Franklin that Jews should be excluded from America and the fabricated condemnation of Catholics attributed to Lincoln. An entertaining and thought-provoking book, *They Never Said It* covers a great deal of history and sets it right. Going beyond a mere catalog of popular misconceptions, Boller and George reveal how rightists and leftists, and atheists and evangelists all have at times twisted and even invented the words of eminent figures to promote their own ends. The ultimate debunking reference, it perfectly complements handbooks of quotations.

The Framework for Teaching Evaluation Instrument, 2013 Edition Charlotte Danielson 2013 The framework for teaching document is an evolving instrument, but the core concepts and architecture (domains, components, and elements) have remained the same. Major concepts of the Common Core State Standards are included. For example, deep conceptual understanding, the importance of student intellectual engagement, and the precise use of language have always been at the foundation of the Framework for Teaching, but are more clearly articulated in this edition. The language has been tightened to increase ease of use and accuracy in assessment. Many of the enhancements to the Framework are located in the possible examples, rather than in the rubric language or critical attributes for each level of

performance.

Millionaire by Thirty Douglas R. Andrew 2008-04-30 Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

Development Through the Lifespan Laura E. Berk 2013-08-05 Laura Berk's *Development Through the Lifespan* is relied upon in classrooms worldwide for its clear, engaging writing style, exceptional multicultural and cross-cultural focus, cutting-edge consideration of the interrelationships between heredity and environment, rich examples, and long-standing commitment to presenting the most up-to-date scholarship. This new edition continues to offer students research-based practical applications that they can relate to their personal and professional lives. Laura Berk, renowned professor and researcher, has revised the text with new pedagogy, a heightened emphasis on the interplay between heredity and environment, and an enhanced focus on many social policy issues, while emphasizing the lifespan perspective throughout. The latest theories and findings in the field are made accessible to students in a manageable and relevant way. Berk's signature storytelling style invites students to actively learn beside the text's "characters." Students are provided with an especially clear and coherent understanding of the sequence and underlying processes of human development, emphasizing the interrelatedness of all domains-physical, cognitive, emotional, social-throughout the text narrative and in special features. Berk also helps students connect their learning to their personal and professional areas of interest. Her voice comes through when speaking directly about issues students will face in their future pursuits as parents, educators, health care providers, social workers, and researchers. As members of a global and diverse human community, students are called to intelligently approach the responsibility of understanding and responding to the needs and concerns of both young and old. While carefully considering the complexities of human development, Berk presents classic and emerging theories in an especially clear, engaging writing style, with a multitude of research-based, real-world, cross-cultural, and multicultural examples. Strengthening the connections among developmental domains and of theory and research with applications, this edition's extensive revision brings forth the most recent scholarship, representing the changing field of human development. Disciple IV Abingdon Press 2005-05 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.
