especially commissioned articles aims to shed light on the European printer's mark, a very productive Early Modern word-image genre so far only occasionally noted outside the domain of book history. It does so from the perspectives of book history, literary history, especially emblem scholarship, and art history. The various contributions to the volume address issues such as those of the adoption of printer's devices in the place of the older heraldic printer's marks as a symptom of the changing self-image of the representatives of the Early Modern printing profession, of the mutual influence of emblems and printer's marks, of the place of Classical learning in the design of Humanist printer's marks, of the economic factors involved in the evolution of Early Modern printer's marks, the pictorial topics of the Early Modern printer's mark, and the printer's mark as a result of the 'Verbürgerlichung' of the device of Early Modern nobility. Special care was taken to account for the similarities and differences of the printer's marks produced and used in different regional and cultural contexts. The printer's mark thus becomes visible as a European phenomenon that invites studying some of the most significant shared aspects of Early Modern culture. Preface/ Beginnings and Provenances: A. Die Mappe Meines Urgroßvaters (Ein Tagebuch Aus Dem Anfang Des 18.

Jahrhunderts) Adalbert Stifter 2018-04-28 In keiner seiner vielen Erzählungen hat Stifter seiner Böhmerwälder Heimat ein so nachhaltiges Denkmal gesetzt wie in seinem romanartigen Werk "Die Mappe meines Urgroßvaters." Mit keinem anderen Werk hat sich also Stifter so intensiv beschäftigt wie mit diesem Stoff, seinem "Lieblingskind," und zwar vom Ende der 30er Jahre bis zu seinem Tod. Aus dem Buch: "Man sagt, daß der Wagen der Welt auf goldenen Rädern einhergeht. Wenn dadurch Menschen zerdrückt werden, so sagen wir, das sei ein Unglück; aber Gott schaut gelassen zu, er bleibt in seinem Mantel gehüllt und hebt deinen Leib nicht weg, weil du es zuletzt selbst bist, der ihn hingelegt hat; denn er zeigte dir vom Anfange her die Räder, und du achtetest sie nicht. Deßwegen zerlegt auch der Tod das Kunstwerk des Lebens, weil alles nur Hauch ist, und ein Reichthum herrscht an solchen Dingen. - Und groß und schreckhaft herrlich muß das Ziel sein, weil dein unaussprechbar Wehe, dein unersättlich großer

Schmerz nichts darinnen ist, gar nichts - oder ein winzig Schrittlein vorwärts in der Vollendung der Dinge. Das merke dir, Augustinus, und denke an das Leben des Obrist." Information–Consciousness–Reality James B. Glattfelder 2019-04-10 This open access book chronicles the rise of a new scientific paradigm offering novel insights into the age-old enigmas of existence. Over 300 years ago, the human mind discovered the machine code of reality: mathematics. By utilizing abstract thought systems, humans began to decode the workings of the cosmos. From this understanding, the current scientific paradigm emerged, ultimately discovering the gift of technology. Today, however, our island of knowledge is surrounded by ever longer shores of ignorance. Science appears to have hit a dead end when confronted with the nature of reality and consciousness. In this fascinating and accessible volume, James Glattfelder explores a radical paradigm shift uncovering the ontology of reality. It is found to be information-theoretic and participatory, yielding a computational and programmable universe.

Biblical Lexicology: Hebrew and Greek Eberhard Bons 2015-07-01 Lexicography, together with grammatical studies and textual criticism, forms the basis of biblical exegesis. Recent decades have seen much progress in this field, yet increasing specialization also tends to have the paradoxical effect of turning exegesis into an independent discipline, while leaving lexicography to the experts. The present volume seeks to renew and intensify the exchange between the study of words and the study of texts. This is done in reference to both the Hebrew source text and the earliest Greek translation, the Septuagint. Questions addressed in the contributions to this volume are how linguistic meaning is effected, how it relates to words, and how words may be translated into another language, in Antiquity and today. Etymology, semantic fields, syntagmatic relations, word history, neologisms and other subthemes are discussed. The main current and prospective projects of biblical lexicology or lexicography are presented, thus giving an idea of the state of the art. Some of the papers also open up wider perspectives of interpretation.

Carl Peters and German Imperialism 1856-1918 Arne Perras 2004 Carl Peters (1856-1918) ranked among Germany's most prominent imperialists in the Bismarckian and Wilhelmine periods. In the 1880s he emerged as a leader of the colonial movement and became known as the founder of Deutsch-Ostafrika, a region many Germans regarded as the pearl of their overseas possessions. In Nazi Germany he was revered as a precursor of Hitler and ascended retrospectively to new glory as a pioneer in the struggle for Lebensraum. This scholarly biography examines Peters's nationalist agenda and sheds light on his colonial expeditions into East Africa. It seeks to explain how this young academic who had written about Schopenhauer and metaphysics eventually became a skilful agitator for a German world empire.

The Onomasticon Bishop of Caesarea Eusebius 2003 The translation of Eusebius' Onomasticon, prepared for the first time in English by G.S.P. Freeman-Grenville, follows the edition of Erich Klostermann. It includes also the Latin rendering (or expanded version) of the Onomasticon, made by Jerome sixty years later, known as the Liber Locorum. By comparing the two works we can see how Christian Palestine developed between the early 320s and the late 380s. Also included is an annotated index, assembled by Rupert L. Chapman, and two excurses dealing with the precise ways in which Eusebius defines locations by careful use of Greek prepositions, and also how distances were reckoned in the work.

Decoding Complexity james glattfelder 2012-11-08 Today it appears that we understand more about the universe than about our interconnected socio-economic world. In order to uncover organizational structures and novel features in these systems, we present the first comprehensive complex systems analysis of real-world ownership networks. This effort lies at the interface between the realms of economics and the emerging field loosely referred to as complexity science. The structure of global economic power is reflected in the network of ownership ties of companies and the analysis of such ownership networks has possible implications for market competition and financial stability. Thus this work presents powerful new tools for the study of economic and corporate networks that are only just beginning to attract the attention of scholars.

"displaced persons"? Where did her mother come from? What had she experienced? The one thing she knew is that her parents had to leave Mariupol in Ukraine for Germany as part of the Nazi forced labor program in 1943. Armed with this limited knowledge, Natascha resolved to piece together the puzzle of her family's past. The result is a highly praised, beautiful piece of prose that has drawn comparisons to W. G. Sebald in its approach. Like Sebald, Natascha's aim is to reclaim the stories of those who can no longer speak for themselves. The author is not only in search of her own family's history, but she is also aware that she is charting unmarked territory: accounts of the plight of forced laborers and displaced persons are still a rarity within literature about World War II and its atrocities. Natascha's personal homage to her mother's life story is an important lyrical memorial for the thousands of Eastern Europeans who were forced to leave their homes and work in Germany during the war, and a moving reflection of the plight of displaced peoples throughout the ages. This is a darkly radiant account of one person's fate, developing momentous emotive power—its subject serves as a proxy for the fate of millions.

The Inscrutable Americans Anurag Mathur 1997 This quirky novel - a bestseller in India - chronicles an Indian student's year abroad at an American university. Gopal's hilarious misadventures with the American language, his flamboyant landlady, the ubiquitous hamburger, and, most of all, American women form the basis for this wonderfully truthful story. Faced with the relentless sexuality of his fellow college students, the quintessentially decent Gopal reacts with a mixture of disbelief, sly amusement, and hormonal overload. Throughout his battles with racism, his own insecurity, and his family's warning that he will be severely judged should he dabble in America's temptations, Gopal retains a dignity and surprising shrewdness, rejecting the worst of what America offers even as he recognizes the best. Following reluctantly behind the outrageous leadership of his American friend Randy, the naive but observant Gopal reacts with a wit that far transcends his linguistic limitations.

Notes from the Hyena's Belly Nega Mezlekia 2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, Notes from the Hyena's Belly offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.
