No Full Stops in India Mark Tully 1992-09-14 India's Westernized elite, cut off from local traditions, 'want to write a full stop in a land where there are no full stops'. From that striking insight Mark Tully has woven a superb series of 'stories' which explore Calcutta, from the Kumbh Mela in Allahabad (probably the biggest religious festival in the world) to the televising of a Hindu epic. Throughout, he combines analysis of major issues with a feel for the fine texture and human realities of Indian life. The result is a revelation. 'The ten essays, written with clarity, warmth of feeling and critical balance and understanding, provide as lively a view as one can hope for of the panorama of India.' K. Natwar-Singh in the Financial

**A Week With Gandhi** Louis Fischer 2015-11-06 "Louis Fischer, famous international reporter, was permitted a week in the guest house near Gandhi's headquarters, and daily interviews with the great Indian leader. He kept virtually a stenographic report of his conversations, livened with personal comments, swift pen pictures of Gandhi and his followers, as he encountered them that week last June. One follows the workings of Gandhi's mind, which -- as Fischer says -- is the reason for misapprehension only too often, for Gandhi thinks and speaks simultaneously, and sometimes subsequent statements seem to contradict previous ones, while actually he has simply shared his process of reasoning to a point with his hearers. The most striking evidence of this during Fischer's stay was his expansion of his basic position to indicate that he had, reluctantly, reached a point of accepting the inevitability of India continuing to be a military base for United Nations. He supplemented other much quoted statements, too; for instance, that dealing with him negotiations with Japan, once India was free -- which he said he would like to think possible but realised would not be possible. He and Nehru agree in feeling that religious differences will be merged, once freedom is granted, that Pakistan is only a bargaining card with England, and so on. Exciting reading, as yet another facet of this tragic, complex problem. Fits into pattern with Mitchell and Raman."-Kirkus Reviews

**The Mind Of The CEO** Jeffrey E Garten 2008-08-05 The Mind of the CEO offers unprecedented access to the most dynamic business leaders of our time. Reading this book is like being at the World Economic Forum in Davos, Switzerland -- not at the formal presentations but in the hotel bar afterward, where the microphones are turned off and world-famous business leaders say what they really think. Better still, their confidant, Jeffrey Garten, interprets what they say, telling you how their views relate to each other and the world economy, and noting the many important things left unsaid. A revealing glimpse into the future of business, The Mind of the CEO captures as no other book before it what is in the minds of top business leaders and what it means for all of us.

**An Idealist View Of Life** S. Radhakrishnan 2015-07-21 One of the most profoundly religious books of our time - The Spectator Science is a system of second causes, which cannot describe the world adequately, much less account for it. In this remarkable treatise, Radhakrishnan explores aspects of the modern intellectual debate on science vis-a-vis religion and the vain attempts to find a substitute for religion. He discusses, drawing upon the traditions of East and West, the nature and validity of religious experience. Finally, he creates a fine vision of mans evolution and the emergence of higher values. The range of subjects combined with the authors own faith, undogmatic and free of creed, makes this book a philosophical education in itself.

Snakes and Ladders Gita Mehta 2010-09-29 India is a land of contrasts. It is the world's most populous democracy, but it still upholds the caste system. It is a burgeoning economic superpower, but one of the poorest nations on earth. It is the home of the world's biggest movie industry after Hollywood, as well as to the world's oldest religions. It is an ancient civilization celebrating fifty years as a modern nation. Now, as never before, the world wants to know what contemporary India is all about. As she has proved in three previous books--her wry take on the marketing of the mystic East in Karma Cola; the rich historical saga of Raj; and the beguiling tales of A River Sutra--there is no better guide to India's multihued mosaic than Gita Mehta. She knows India in all its rich detail--its folkways and history, its culture and politics, its ancient traditions and current concerns. In Snakes and Ladders, she gives a loving but unflinching assessment of India today, in an account that is entertaining, informative, and wholly personal.

**Ravan and Eddie** Kiran Nagarkar 2012-12-11 Ravan and Eddie are the unlikeliest of companions. For one thing, Ravan is Hindu, while Eddie is Catholic. For another, when Ravan was a baby and fell from a balcony, that fall had a dramatic, and very literal, impact on Eddie's family. But Ravan and Eddie both live in Central Works Department Chawl No. 17—and if you grow up in the crowded Mumbai chawls, you get to participate in your neighbors' lives, whether you like it or not. As we watch the two unlikely heroes of Kiran Nagarkar's acclaimed novel rocket out of the starting blocks of their lives, leaving earth-mothers and absentee fathers, cataclysms and rock 'n' roll in their wake, we're compelled to sit up and take notice. Recently selected by *The Guardian* as one of the ten best novels about Mumbai, *Ravan and Eddie* is a comic masterpiece about two larger- and truer-than-life characters and their bawdy, Rabelaisian adventures in postcolonial India. It is also a timeless journey of self-discovery, a quest for the meaning of guilt and responsibility, sin and sex, crime and punishment.
