Superforecasting Philip E. Tetlock 2015-09-29 NEW YORK TIMES BESTSELLER • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE ECONOMIST “The most important book on decision making since Daniel Kahneman's *Thinking, Fast and Slow*.”—Jason Zweig, *The Wall Street Journal* Everyone would benefit from seeing further into the future, whether buying stocks, crafting policy, launching a new product, or simply planning the week's meals. Unfortunately, people tend to be terrible forecasters. As Wharton professor Philip Tetlock showed in a landmark 2005 study, even experts' predictions are only slightly better than chance. However, an important and underreported conclusion of that study was that some experts do have real foresight, and Tetlock has spent the past decade trying to figure out why. What makes some people so good? And can this talent be taught? In *Superforecasting*, Tetlock and coauthor Dan Gardner offer a masterwork on prediction, drawing on decades of research and the results of a massive, government-funded forecasting tournament. The Good Judgment Project involves tens of thousands of ordinary people—including a Brooklyn filmmaker, a retired pipe installer, and a former ballroom dancer—who set out to forecast global events. Some of the volunteers have turned out to be astonishingly good. They've beaten other benchmarks, competitors, and prediction markets. They've even beaten the collective judgment of intelligence analysts with access to classified information. They are “superforecasters.” In this groundbreaking and accessible book, Tetlock and Gardner show us how we can learn from this elite group. Weaving together stories of forecasting successes (the raid on Osama bin Laden's compound) and failures (the Bay of Pigs) and interviews with a range of high-level decision makers, from David Petraeus to Robert Rubin, they show that good forecasting doesn't require powerful computers or arcane methods. It involves gathering evidence from a variety of sources, thinking probabilistically, working in teams, keeping score, and being willing to admit error and change course. *Superforecasting* offers the first demonstrably effective way to improve our ability to predict the future—whether in business, finance, politics, international affairs, or daily life—and is destined to become a modern classic.

Handbook of Horary Astrology Karen Hamaker-Zondag 1993 Horary astrology is the only form of astrology that provides direct and decisive answers to questions that we want answered as soon as we ask them. It is pure predictive astrology and the interpretation of the chart is quite different than it would be one were reading a birthchart. Hamaker-Zondag has written this basic horary textbook for students who want to explore the concepts of horary, but who have been trained in character reading the psychological symbolism that can be seen in the natal chart. Because all facets of astrology are still developing, we are constantly adding new material to our body of astrological knowledge and technique, and Hamaker-Zondag says that these changes are based on the astrologers experience and our changing social structure. She briefly outlines some of the classical techniques used years ago for horary calculations, and then concentrates on the material that works for her in her practice in Holland. This is an excellent text for astrologers who want to start using horary techniques to answer specific questions.

Solar Returns Sara Shipman 2020-02-05 Did you know that every birthday the universe gifts you a new astrological chart that allows you to discover where your life is headed for the next twelve months? All you have to do is decode your Solar Return Chart to take control of events - and in this book, Sara Shipman tells you how. Solar Returns are one of the best tools of predictive astrology - and all the best tools are simple to use. In this book, Sara Shipman introduces you to solar return chart interpretation using a 'keywords' approach to analysing the planets, houses and the rising sign in your solar return chart. To keep things simple, Sara bases her chart analyses in this book on four main questions, what, when, where and how? The answers to those questions are written in your stars. In this book, Sara explains what a solar return forecast is, how it works and why it's different from your natal chart. She explains how solar returns work in cycles and looks at the question of timing your forecast. When can you expect to notice your new solar return chart taking effect? Is it an immediate and noticeable change or does the new chart overlap with the previous year's chart? These, and many other questions will be answered by Sara's in depth analysis of the planets, retrograde planets and astrological houses in your solar return chart. Sara also looks carefully at the importance of the rising sign in your solar return chart and examines how it affects your approach to life during the year. The main objective of this book is, however, to provide you with the resources to begin making your own interpretations. So to simplify matters, each section of the book has keywords lists to point you towards the range of possibilities open to you when interpreting your solar return chart. Sara Shipman is an astrologer, blogger and

writer who owns and edits the astrology website starcrazypie.com

By combining these techniques, you can reveal the future and put various aspects of your life into perspective. The Progressed Moon Around the Zodiac Gisele Terry 2011-06 Using her background as a psychotherapist and astrologer, Gisele Terry has combined the developmental theories of psychology and astrology to create the lunar return model of development. This model of development focuses on the natal Moon, the progressed Moon, and the cycles of the progressed Moon through the zodiac. "I began to see the progressed Moon as an indicator of a client's here and now emotional focus," said Gisele. "Thus the position of the progressed Moon, its sign and placement in the chart, became a starting point and provided additional access to the meaning of the charts." The Progressed Moon Around the Zodiac is divided into three sections, each of which guides you progressively through the lunar return model of development and its practical uses in chart reading: The first explains how ideas about development in astrology correspond with psychological theories of development and form the foundation of the lunar return model of development. The second describes this model in detail and uses case examples. The third illustrates the application of the lunar return model

of development in clients' natal and progressed charts, and also presents the possibility of a universal template for human development.

It addresses the complexities of real relationships by revealing the essential nature, needs, strengths, and challenges of every combination. Then it takes the unique step of offering exercises that will help you manifest the true potential that exists between each of the signs. This book emerged from actual experiences between a practicing professional astrologer and the thousands of people he has worked with. The ideas and exercises included within have been tried, tested, and refined so that they can be integrated into daily living. The program presented in this book has been proven to work--not just in theory, but in real life.
