The History of Cinema Geoffrey Nowell-Smith 2017-11-07 Cinema was the first, and is arguably still the greatest, of the industrialized art forms that came to dominate the cultural life of the twentieth century. Today, it continues to adapt and grow as new technologies and viewing platforms become available, and remains an integral cultural and aesthetic entertainment experience for people the world over. Cinema developed against the backdrop of the two world wars, and over the years has seen smaller wars, revolutions, and profound social changes. Its history reflects this changing landscape, and, more than any other art form, developments in technology. In this Very Short Introduction, Nowell-Smith looks at the defining moments of the industry, from silent to sound, black and white to color, and considers its genres from intellectual art house to mass market entertainment. ABOUT THE SERIES: The Very Short Introduction series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

How to Watch a Movie David Thomson 2015-11-03 From one of the most admired critics of our time, brilliant insights into the act of watching movies and an enlightening discussion about how to derive more from any film experience. Since first publishing his landmark *Biographical Dictionary of Film* in 1975 (recently released in its sixth edition), David Thomson has been one of our most provocative authorities on all things cinema. Now he offers his most inventive exploration of the medium yet: guiding us through each element of the viewing experience, considering the significance of everything from what we see and hear on-screen—actors, shots, cuts, dialogue, music—to the specifics of how, where, and with whom we do the viewing. With customary candor and wit, Thomson delivers keen analyses of a range of films from classics such as *Psycho* and *Citizen Kane* to contemporary fare such as *12 Years a Slave* and *All Is Lost*, revealing how to more deeply appreciate both the artistry and (yes)

manipulation of film, and how watching movies approaches something like watching life itself. Discerning, funny, and utterly unique, *How to Watch a Movie* is a welcome twist on a classic proverb: Give a movie fan a film, she'll be entertained for an hour or two; teach a movie fan to watch, his experience will be enriched forever.

Films of Endearment Michael Koresky 2021-05-04 "A lovely and loving book."—Will Schwalbe, New York Times bestselling author of *The End of Your Life Book Club* "I'm not sure I have ever read a book about movies that is as tender and open-hearted as *Films of Endearment*."—Mark Harris, New York Times bestselling author of *Mike Nichols: A Life* A poignant memoir of family, grief and resilience about a young man, his dynamic mother and the '80s movies they shared together Michael Koresky's most formative memories were simple ones. A movie rental. A mug of tea. And a few shared hours with his mother. Years later and now a successful film critic, Koresky set out on a journey with his mother to discover more about their shared cinematic past. They rewatched ten films that she first introduced to him as a child, one from every year of the '80s, each featuring women leads. Together, films as divergent as *9 to 5*, *Terms of Endearment*, *The Color Purple* and *Aliens* form the story of an era that Koresky argues should rightly be called "The Decade of the Actress." *Films of Endearment* is a reappraisal of the most important and popular female-driven films of that time, a profound meditation on loss and resilience, and a celebration of the special bond between mothers and their sons.

The Film Appreciation Book Jim Piper 2014-11-18 This is a book for cinephiles, pure and simple. Author and filmmaker, Jim Piper, shares his vast knowledge of film and analyzes the most striking components of the best movies ever made. From directing to cinematography, from editing and music to symbolism and plot development, *The Film Appreciation Book* covers hundreds of the greatest works in cinema, combining history, technical knowledge, and the art of enjoyment to explain why some movies have become the most treasured and entertaining works ever available to the public, and why these movies continue to amaze viewers after decades of notoriety. Read about such classic cinematic masterpieces as *Citizen Kane*, *Gandhi*, *Midnight Cowboy*, *Easy Rider*, *True Grit*, *Gone With the Wind*, and *The Wizard of Oz*, as well as more recent accomplishments in feature films, such as *Requiem for a Dream*, *Munich*, *The King's Speech*, and *The Hurt Locker*. Piper breaks down his analysis for you and points out aspects of production that movie-lovers (even the devoted ones) would never recognize on their own. This book will endlessly fascinate, and by the time you get to the last chapter, you're ready to start all over again. In-depth analysis and thoughtful and wide-ranging film choices from every period of cinema history will ensure that you never tire of this reading companion to film. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Watching Films Karina Aveyard 2013 With a focus on the social, economic, and cultural factors that influence how we watch and think about movies, this book centres its investigations on four areas of inquiry: Who watches films? Under what circumstances? What consequences and affects follow? And what do these acts of consumption mean? --

Pieces of April Peter Hedges 2003-09-08 Family outcast April lives in a beat-up apartment in New York's Lower East Side with her boyfriend, Bobby. In order to spend some time with her dying mother, April invites her conservative suburban family to her place for a Thanksgiving feast. While she frantically tries to complete the meal, the family drives in from Pennsylvania sharing less-than-pleasant opinions about April's lifestyle. Her dad tries to think positively, while sister Beth flaunts her good-girl status and brother Timmy captures it all on film.

Focus Tony Watkins 2007 People love films. Whether it is going out for an evening to the cinema or curling up at home with a DVD, movies are one of our favourite forms of entertainment. It is important for our Christian growth that we learn to watch films thoughtfully rather than just seeing them as entertainment. It's important that we understand the messages which films communicate and how they relate to the good news of Jesus Christ. There are also important sections on 'questions to consider when watching a film' and 'the problem of content - sex and violence'.

The Filmmaker's Eye Gustavo Mercado 2013-05-20 This is the only book that combines conceptual and practical instruction on creating polished and eloquent images for film and video with the technical know-how to achieve them. Loaded with hundreds of full-color examples, *The Filmmaker's Eye* is a focused, easy-to-reference guide that shows you how to become a strong visual storyteller through smart, effective choices for your shots. This book has struck a chord worldwide and is being translated into several languages. After a short introduction to basic principles, a variety of shots are deconstructed in the following format: - Why It Works: an introduction to a particular type of shot - How It Works: callouts point out exactly how the shot works the way it does--the visual rules and technical aspects in action - Technical Considerations: the equipment and techniques needed to get the shot. - Breaking the Rules: examples where the "rules" are brilliant subverted

The Art of the Hollywood Backdrop Karen L. Maness 2016-11-01 The definitive behind-the-scenes history of one of Hollywood's most closely guarded cinematic secrets finally revealed—painted backdrops and the scenic artists who brought them to the big screen. In almost every feature film of Hollywood's golden age, from *The Wizard of Oz* to *North by Northwest* to *Cleopatra* to *The Sound of Music*, painted backings have convinced moviegoers that what they are seeing—whether the fantastic roads of Oz, the presidents of Mount

Rushmore, or ancient Egyptian kingdoms—is absolutely real. These backings are at once intended to transport the audience and yet remain unseen for what they really are. *The Art of the Hollywood Backdrop* reveals the hidden world and creators of these masterpieces, long-guarded as a special effects secret by the major studios such as MGM, Warner Brothers, Universal, Columbia, 20th Century Fox, and Paramount. Despite the continued use of hand-painted backings in today's films, including the big-budget *Interstellar* and *Lemony Snicket's A Series of Unfortunate Events* among many others, digital technology is beginning to supplant the art form. In an effort to preserve the irreplaceable knowledge of scenic masters, Karen Maness and Richard Isackes, in collaboration with the Art Directors Guild, have compiled a definitive history of the craft, complete with interviews of the surviving artists. This is a rich undiscovered history—a history replete with competing art departments, dynastic scenic families, and origins stretching back to the films of Méliès, Edison, Sennett, Chaplin, and Fairbanks. Filled cover to cover with over 300 images, *The Art of the Hollywood Backdrop* is beautifully packaged as a hardcover book with slipcase.

Cinematic Reflections on The Legacy of the Holocaust Diana Diamond 2018-08-06 An international group of psychoanalysts and film scholars address the enduring emotional legacy of the Holocaust in *Cinematic Reflections on the Legacy of the Holocaust: Psychoanalytic Perspectives*. Particular focus is given to how second and third generation survivors have explored and confronted the psychic reverberations of Holocaust trauma in cinema. This book focuses on how film is particularly suited to depict Holocaust experiences with vividness and immediacy. The similarity of moving images and sound to our dream experience allows access to unconscious processing. Film has the potential to reveal the vast panorama of Holocaust history as well as its intrapsychic reverberations. Yet despite the recent prominence of Holocaust films, documentaries, and TV series as well as scholarly books and memoirs, these works lack a psychoanalytic optic that elucidates themes such as the repetition compulsion, survival guilt, disturbances in identity, and disruption of mourning that are underlying leitmotifs. *Cinematic Reflections on the Legacy of the Holocaust* will be of great interest to psychoanalysts and therapists as well as to scholars in trauma, film, and Jewish studies. It is also of interest to those concerned with the prevention of genocide and mass atrocities and their long-term effects.

Effortless Living Jason Gregory 2018-03-13 A guide for achieving an enlightened mind through the art of non-doing • Details meditation practices, focused on stillness of the mind, along with Patanjali's yoga methods to maintain a consciousness referred to as "being in the zone" • Builds on Taoist, Confucian, and Hindu principles along with scientific findings to support wu-wei--the art of non-doing, non-forcing--as a way of life • Explains how wu-wei practitioners cultivate intelligent spontaneity and effortless action to allow the natural harmony of the cosmos to prevail The practice of non-doing, non-forcing is an essential aspect of Taoism known as wu-wei. Attributed to the great sage Lao-tzu, the philosophy of wu-wei teaches you how to develop a natural state of consciousness not bound by thought or preconceived limitations. Experienced by the greatest artists, athletes, musicians, and writers, this heightened state of consciousness, referred to as "being in the zone," is where intelligent spontaneity and effortless action flourish via a practice rooted in permitting the natural harmony of the cosmos to prevail. Merging Taoist philosophy, Hindu principles, and Confucianism along with scientific findings, Jason Gregory outlines the practice of wu-wei as a vehicle to realize our innate freedom, revealing that when we release our ego and allow life to unfold as it will, we align ourselves more closely with our goals and cultivate skill and mastery along the way. Equating "being in the zone" with a stillness of the mind, Gregory shares

meditation practices coupled with yoga exercises from Patanjali that allow you to approach life with a mastery of acceptance, releasing deluded beliefs of how to achieve success that make your mind “sticky” and poised for conflict. The author shows how practicing wu-wei paradoxically empowers you to accomplish all that you desire by having no intention to do so, as well as allowing you to become receptive to nature’s blueprint for expressing beauty. Revealing wisdom utilized by renowned sages, artists, and athletes who have adapted “being in the zone” as a way of life, the author shows that wu-wei can yield a renewed sense of trust in many aspects of your daily life, making each day more effortless. As an avid wu-wei practitioner, he provides keen insight on how you, too, can experience the beauty of achieving an enlightened, effortless mind while reveling in the process of life’s unfolding.

Why It's OK to Love Bad Movies Matthew Strohl 2021-12-30 Most people are too busy to keep up with all the good movies they’d like to see, so why should anyone spend their precious time watching the bad ones? In *Why It’s OK to Love Bad Movies*, philosopher and cinematic bottom feeder Matthew Strohl enthusiastically defends a fondness for disreputable films. Combining philosophy of art with film criticism, Strohl flips conventional notions of “good” and “bad” on their heads and makes the case that the ultimate value of a work of art lies in what it can add to our lives. By this measure, some of the worst movies ever made are also among the best. Through detailed discussions of films such as *Troll 2*, *The Room*, *Batman & Robin*, *Twilight*, *Ninja III: The Domination*, and a significant portion of Nicolas Cage’s filmography, Strohl argues that so-called “bad movies” are the ones that break the rules of the art form without the aura of artistic seriousness that surrounds the avant-garde. These movies may not win any awards, but they offer rich opportunities for creative engagement and enable the formation of lively fan communities, and they can be a key ingredient in a fulfilling aesthetic life. Key Features: Written in a humorous, approachable style, appealing to readers with no background in philosophy. Elaborates the rewards of loving bad movies, such as forming unlikely social bonds and developing refinement without narrowness. Discusses a wide range of beloved bad movies, including *Plan 9 from Outer Space*, *The Core*, *Battlefield Earth*, and *Freddy Got Fingered*. Contains the most extensive discussion of Nicolas Cage ever included in a philosophy book.

Selected Chapters From the Art of Watching Films 2008

Expanded Cinema Gene Youngblood 2020-03-03 Fiftieth anniversary reissue of the founding media studies book that helped establish media art as a cultural category. First published in 1970, Gene Youngblood’s influential *Expanded Cinema* was the first serious treatment of video, computers, and holography as cinematic technologies. Long considered the bible for media artists, Youngblood’s insider account of 1960s counterculture and the birth of cybernetics remains a mainstay reference in today’s hypermediated digital world. This fiftieth anniversary edition includes a new Introduction by the author that offers conceptual tools for understanding the sociocultural and sociopolitical realities of our present world. A unique eyewitness account of burgeoning experimental film and the birth of video art in the late 1960s, this far- ranging study traces the evolution of cinematic language to the end of fiction,

drama, and realism. Vast in scope, its prescient formulations include “the paleocybernetic age,” “intermedia,” the “artist as design scientist,” the “artist as ecologist,” “synaesthetics and kinesthetics,” and “the technosphere: man/machine symbiosis.” Outstanding works are analyzed in detail. Methods of production are meticulously described, including interviews with artists and technologists of the period, such as Nam June Paik, Jordan Belson, Andy Warhol, Stan Brakhage, Carolee Schneemann, Stan VanDerBeek, Les Levine, and Frank Gillette. An inspiring Introduction by the celebrated polymath and designer R. Buckminster Fuller—a perfectly cut gem of countercultural thinking in itself—places Youngblood’s radical observations in comprehensive perspective. Providing an unparalleled historical documentation, Expanded Cinema clarifies a chapter of countercultural history that is still not fully represented in the arthistorical record half a century later. The book will also inspire the current generation of artists working in ever-newer expansions of the cinematic environment and will prove invaluable to all who are concerned with the technologies that are reshaping the nature of human communication.

The Art of Watching Films with Tutorial CD-ROM Joe Boggs 2006-12-12 This introduction to film appreciation uses both contemporary and classic movies to help students develop critical skills in the analysis and evaluation of film. By suggesting what to look for and how to look for it, the text challenges students to sharpen their powers of observation, establish habits of perceptive watching, and discover complex aspects of film art that will further enhance their enjoyment of watching films. In addition it makes the link from literature to film in chapters on Thematic Elements, Fictional and Dramatic Elements and a unique chapter on Adaptions.

The Book of Horror Matt Glasby 2020-09-22 '... the definitive guide to what properly messes us up.' — SFX Magazine 'Glasby anatomises horror's scare tactics with keen, lucid clarity across 34 carefully selected main films - classic and pleasingly obscure. 4 Stars.' — Total Film The Book of Horror introduces you to the scariest movies ever made and examines what makes them so frightening. Horror movies have never been more critically or commercially successful, but there’s only one metric that matters: are they scary? Back in the silent era, viewers thrilled at Frankenstein and Dracula. Today, the monsters may have changed, but the instinct remains the same: to seek out the unspeakable, ride the adrenaline rush and play out our fears in the safety of the cinema. The Book of Horror focuses on the most frightening films of the post-war era - from Psycho (1960) to It Chapter Two (2019) - examining exactly how they scare us across a series of key categories. Each chapter explores a seminal horror film in depth, charting its scariest moments with infographics and identifying the related works you need to see. Including references to more than 100 classic and contemporary horror films from around the globe, and striking illustrations from Barney Bodoano, this is a rich and compelling guide to the scariest films ever made. The films: Psycho (1960), The Innocents (1961), The Haunting (1963), Don’t Look Now (1973), The Exorcist (1973), The Texas Chain Saw Massacre (1974), Who Can Kill a Child? (1976), Suspiria (1977), Halloween (1978), The Shining (1980), The Entity (1982), Angst (1983), Henry: Portrait of a Serial Killer (1990), Ring (1998), The Blair Witch Project (1999), The Others (2001), The Eye (2002), Ju-On: The Grudge (2002), Shutter (2004), The Descent (2005), Wolf Creek (2005), The Orphanage (2007), [Rec] (2007), The Strangers (2008), Lake Mungo (2008), Martyrs (2008), The Innkeepers (2011), Banshee Chapter (2013), Oculus (2013), The Babadook (2014), It Follows (2015), Terrified (2017),
