Tourism, Resilience and Sustainability Joseph M. Cheer 2017-08-07 In a world increasingly faced with, and divided by, regional and global crises, resilience has emerged as a key concept with significant relevance for tourism. A paradigmatic shift is taking place in the long-term planning of tourism development, in which the prevailing focus on sustainability is being enhanced with the practical application of resilience planning. This book provides a critical appraisal of sustainability and resilience, and the relationship between the two. Contributions highlight the complexity of addressing social change with resilience planning in a range of tourism contexts, from islands to mountains, from urban to remote environments, and in a range of international settings. Case studies articulate how tourism is both an agent of social change and a victim of larger change processes, and provide important lessons on how to deal with increasingly unstable economic, social and environmental systems. This is the first book to specifically examine social change and sustainability in tourism through a resilience lens. This much-needed contribution to the literature will be a key resource for those working in tourism studies, tourism planning and management, social geography, and development studies, among others.

*Be Expert With Map and Compass* Bjorn Kjellstrom 2013-04-16 Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

*Effective Leadership in Adventure Programming* Simon Priest 2018-10-30 Some books address outdoor leadership; others focus on adventure programming. None delve into the specifics of both topics like *Effective Leadership in Adventure Programming*, Third Edition, does. The first edition of this book helped

define the body of knowledge for an emerging profession. Two editions later, this groundbreaking text—now in full color—provides adventure leaders with the tools and evidence they need to show that their outdoor programs are effective and have a lasting impact on their participants. Internationally renowned authors Simon Priest and Michael Gass have significantly updated the content, based on the latest research, issues, and trends in the field of adventure education and leadership. They have reorganized chapters to conform to their new model of building core competencies. In addition, this third edition includes the following features:

- Material on technology, social justice, cultural adaptation, sustainability, and facilitation techniques
- An online instructor guide that offers activities, discussion questions, and assessments compiled from a group of acclaimed instructors
- A digital field handbook that offers quick reference to key models, concepts, and checklists covered in the text
- An expanded version of global perspectives, valuable for long-standing programs as well as those just beginning to enter the field

Effective Leadership in Adventure Programming details both the art and science of adventure leadership, helping a new generation of outdoor leaders develop their skills. The text extends the focus on evidence-based models, theories, and best practices, showing that science and research are as important to the profession as the natural beauty of the environment. The book describes the core competencies of outdoor leadership, providing a framework that helps leaders connect with participants in meaningful ways, based on mutual goals. The focus on the science side is invaluable to new leaders and less-experienced leaders, and it is a great refresher for leaders with more experience. This new edition offers a more detailed look at diversity and cultural competencies, preparing leaders to effectively manage diverse populations of participants. In addition, the content is in line with the updated accreditation standards from the Association for Experiential Education. The opening chapters of Effective Leadership in Adventure Programming supply a solid foundation in the research, philosophy, ethics, and history of outdoor leadership. Numerous chapters explore the skills leaders need, with topics that include technical activity, safety and risk management, environment, organization, instruction, and facilitation. The authors also examine leadership styles and conditional leadership issues, communication, sound judgment, decision making, problem solving, and the trends and issues in adventure programming. Effective Leadership in Adventure Programming will help readers understand the four adventure program areas—recreation, education, development, and therapy—and how they influence the delivery of outdoor leadership. The book is a valuable resource for the training and education of future outdoor leaders. It will help readers know why they should work in the profession and understand how they can make a difference by being an effective outdoor leader.

**Backpacking Wisconsin** Jack Parker Hailman 2000 Wisconsin is a premier backpacking state, with outstanding opportunities for weekend trips. With its Great Lakes and river boundaries, national and state parks and forests, and stunning geological diversity, it offers variety for both the novice and the expert. In *Backpacking Wisconsin* Jack and Liz Hailman, drawing on years of experience, provide first-hand information for trails in every corner of the state - from the Apostle Islands National Lakeshore, frequented by whitetailed deer and black bears, to picturesque Newport State Park in Door County, set upon Silurian-age limestone laid down over 100 million years ago. *Backpacking Wisconsin* also provides an overview and tips about backpacking, hints on how to choose equipment (boots, packs, tents, sleeping bags, rain gear, stoves), notes on troublesome plants and animals, and a list of trail, outdoor, and conservation organizations. For those hesitant to venture deep into wilderness, the Hailmans spotlight "quasi-backpacking" sites.
