Creaturely Theology David Clough 2013-02-11 Creaturely Theology is a ground-breaking scholarly collection of essays that maps out the agenda for the future study of the theology of the non-human and the post-human. A wide range of first-rate contributors show that theological reflection on non-human animals and related issues are an important though hitherto neglected part of the agenda of Christian theology and related disciplines. The book offers a genuine interdisciplinary conversation between theologians, philosophers and scientists and will be a standard text on the theology of non-human animals for years to come. Contributors include: Esther D. Reed (Exeter), Rachel Muers (Leeds), Stephen Clark (Liverpool), Neil Messer (Lampeter), Peter Scott (Manchester), Michael Northcott (Edinburgh), Christopher Southgate (Exeter)

The First-created Man Seraphim Rose 1994-04 This is a collection of seven of Saint Symeon's homilies which deal with the fall of Adam and our redemption by Christ. For St. Symeon, theology is life -- the true "words of God" which speak to the Christian heart and inspire it to struggle for the Kingdom. These profound homilies on Adam and the future age are of special value because they give the theological foundation of the Christian life of struggle. The First-Created Man offers a vision of the beginning and the end of all things, which is essential to understanding the purpose of our existence here on this earth, and what lies beyond it.

Genesis, Creation, and Early Man Seraphim Rose 2011-01-01 "Genesis, creation, and early man has been compiled posthumously from a rich array of materials left behind by Fr. Seraphim. The second edition contains much new material to supplement Fr. Seraphim's work, including an updated preface outlining new developments in the creation/evolution debate, such as the rise of the intelligent design movement in the West and the defense of the Orthodox Patristic teaching on creation by theological writers and scientists in Russia; new explanatory notes on many topics pertaining to Genesis and creation, with further quotations from the Holy Fathers and extensive references to Patristic works; an article detailing the Scriptural-Patristic teaching on the incorruption of man and the cosmos before the fall, and showing its relevance to other aspects of Orthodox theology; and critiques of the modern philosophy of evolution by saints and holy elders, as well as by Orthodox scientists working in the fields of biology and geology." from publisher website.

Old English Prose Paul E. Szarmach 2019-08-15 With the decline of formalism and its predilection for Old English poetry, Old English prose is leaving the periphery and moving into the center of literary and cultural discussion. The extensive corpus of Old English prose lends many texts of various kinds to the current debates over literary theory and its multiple manifestations. The purpose of this collection is to assist the growing interest in Old English prose by providing essays that help establish the foundations for considered study and offer models and examples of special studies. Both retrospective and current in its examples, this collection can serve as a "first book" for an introduction to study, particularly suitable for courses that seek to entertain such issues as authorship, texts and textuality, source criticism, genre, and forms of historical criticism as a significant part of a broad, cultural teaching (and research) plan.

Human Dignity in the Judaeo-Christian Tradition John Loughlin 2019-07-11 Dignity is a fundamental aspect of our lives, yet one we rarely pause to consider; our understandings of dignity, on individual, collective and philosophical perspectives, shape how we think, act and relate to others. This book offers an historical survey of how dignity has been understood and explores the concept in the Judaeo-Christian tradition. World-renowned contributors examine the roots of human dignity in classical Greece and Rome and the Scriptures, as well as in the work of theologians, such as St Thomas Aquinas and St John Paul II. Further chapters consider dignity within Renaissance art and sacred music. The volume shows that dignity is also a contemporary issue by analysing situations where the traditional understanding has been challenged by philosophical and policy developments. To this end, further essays look at the role of dignity in discussions about transhumanism, religious freedom, robotics and medicine. Grounded in the principal Christian traditions of Catholicism, Orthodoxy, Anglicanism, and Protestantism, this book offers an interdisciplinary and cross-period approach to a timely topic. It validates the notion of human dignity and offers an introduction to the field, while also challenging it.

In the Beginning ' Pope Benedict XVI 1995-11-02 While the stories of the vcreation of the world and of the fall of humankind have often given rise to conflict - fundamentalists twist the Bible into science and history while rationalists approach this issue by "divorcing God from creation" - Cardinal Ratzinger presents the Catholic middle ground between extremist positions in explaining the vitality of these early Old Testament writings.

Homilies on the Gospels Hildegard of Bingen 2011-10-01 Hildegard of Bingen (1098 '1179) describes the virtue of Fortitude teaching the other virtues in the fire of the Holy Spirit. Like Fortitude, Hildegard was enkindled by the Holy Spirit and edified many with her teaching. Hildegard of Bingen's Homilies on the Gospels are here translated for the first time from Latin into English. Hildegard's sisters recorded and preserved her informal preaching in this collection of homilies on twenty-seven gospel pericopes. As teacher and superior to her sisters, Hildegard probably spoke to them in the chapter house, with the scriptural text either before her or recited from memory, according to Benedictine liturgical practice. The Homilies on the Gospels prove essential for comprehending the coherent theological Vision that Hildegard constructs throughout her works, including the themes of salvation history, the drama of the individual soul, the struggle of virtues against vices, and the life-giving and animating force of greenness (uiriditas). Moreover, the Homilies on the Gospels establish Hildegard as the only known female systematic exegete of the Middle Ages.

The Books of Homilies Gerald Bray 2016-01-28 The two Books of Homilies, along with the Book of Common Prayer and the Ordinal, have long been basic documents of the Church of England, and are valuable in showing how Anglican doctrine shifted during the Reformation, as well as being of considerable historical importance. The first book, published in 1547, early in the reign of Edward VI, was partly, though not entirely, the work of Archbishop Thomas Cranmer, and the inspiration appears to have been his. This was intended to raise the standards of preaching by offering model sermons covering particular doctrinal and pastoral themes, either to be read (particularly by unlicensed clergy) or to provide preachers with additional material for their own sermons. The success of the venture led Bishop Edmund Bonner, who had contributed to Cranmer's book, to produce his own Book of Homilies in 1555, during the reign of Queen Mary. The Second Book of Homilies, published in 1563 (and in a revised form in 1571) appears in turn to have been influenced by both Cranmer's and Bonner's books. The present edition brings together all three books, edited and introduced by Revd Dr Gerald Bray.

Beginnings Peter C. Bouteneff 2008-10-01 What are we missing when we look at the creation narratives of Genesis only or primarily through the lens of modern discourse about science and religion? Theologian Peter Bouteneff explores how first-millennium Christian understandings of creation can inform current thought in the church and in the public square. He reaches back into the earliest centuries of our era to recover the meanings that early Jewish and Christian writers found in the stories of the six days of creation and of Adam and Eve in the Garden of Eden. Readers will find that their forbears in the faith saw in the Genesis narrative not simply an account of origins but also a rich teaching about the righteousness of God, the saving mission of Christ, and the destiny of the human creature.

The Homilies On Various Epistles St. John Chrysostom These Homilies are often less complete in exposition than those on earlier books of the New Testament, and in literary excellence will not compare with the Homilies on the Statues, and many other discourses given at Antioch. But to the student of preaching, they are quite as instructive, if not really more so. Commentary On the Epistle of St. Paul to the Galatians. Jewish-Christian Dialogue and the Life of Wisdom Matthew Levering 2010-03-21 This book inquires as to whether theological dialogue between Christians and Jews is possible, not only in itself but also as regards the emergence of communities of Messianic Judaism. In light of David Novak's insights, Matthew Levering proposes that Christian theological responses to supersessionism need to preserve both the Church's development of doctrine and Rabbinic Judaism's ability to define its own boundaries. The book undertakes constructive philosophical theology in dialogue with Novak. Exploring the interrelated doctrines of divine providence/theonomy, the image of God, and natural law, Levering places Novak's work in conversation especially with Thomas Aquinas, whose approach fosters a rich dialogue with Novak's broadly Maimonidean perspective. It focuses upon the relationship of human beings to the Creator, with attention to the philosophical entailments of Jewish and Christian covenantal commitments, aiming to spell out what true freedom involves. It concludes by asking whether Christians and Jews would do better to bracket our covenantal commitments in pursuing such wisdom. Drawing upon Novak's work, the author argues that in the face of suffering and death, God's covenantal election makes possible hope, lacking which the quest for wisdom runs aground.
