Master of None Douglas Goddard 2009 Master of None is an autobiography of a retired Army officer from his humble childhood in London and Suffolk farms, through the ravages of World War 2, his subsequent civilian career in the Building Industry and latterly his extensive commitment to community service. The broad range of his experiences, talents and interests, together with his engaging and charmingly self-deprecating writing style, make for a very interesting read.

Historical Knowledge Susanna Fellman 2011-10-18 Historical Knowledge approaches the topic of historical knowledge in depth and from various angles. It seeks to offer theoretical and methodological building blocks for the use of anyone pursuing historical research. This book brings novel insights into classic and topical issues currently under debate: the importance of theory in historical thinking, the dialectic of "text" and "annotation", the actor and observer levels, the relationship between the general and the individual, the issue of comparison, and the problem of sporadic sources and of understanding the singularity of each one. The overall theme of the book, the possibility of historical knowledge, reflects the very issue that makes historical research distinctive: the challenges of evidence and the problems, both concrete and

conceptual, with deciphering and interpreting remnants of the past. This book refreshes the discussion about sources and proper evidence, two issues that the linguistic turn and the postmodern challenge pushed into the background. The book addresses these issues in an easily accessible way and serves as an introduction and guide to the role of theory, method and evidence in historical research not only for students and scholars of history, but also for anyone outside the field with an interest in the topic. Historical Knowledge is the first book to include texts by the three eminent historians, Professors Natalie Zemon Davis, Carlo Ginzburg and Giovanni Levi. The other contributors, Professors Risto Alapuro, Janken Myrdal and Matti Peltonen, are active debaters in current theoretical and methodological discussion.

Statebuilding and Counterinsurgency in Oman James Worrall 2018-01-30 In the depths of the Cold War and in the wake of Britain's announcement of its intention to withdraw 'East of Suez' by the end of 1971, Britain was faced with the stark reality of a Marxist rebellion in the Dhofar province of Oman. 'State Building and Counter Insurgency in Oman' offers an exploration of the attempts by officials and politicians in Whitehall and the Gulf to reconcile attempts to protect national interests and create an effective, centralised Omani administration and security bodies, whilst maintaining the image of strategic withdrawal and the sovereign independence of Oman. This book thus provides vital information and analysis for students and researchers of Middle East History and Politics, the decline and end of empire and the policymaking processes at the heart of an imperial and military withdrawal.

A History of Modern Oman Jeremy Jones 2015-08-31 The ideal introduction to the history of modern Oman from the eighteenth century to the present, this book combines the most recent scholarship on Omani history with insights drawn from a close analysis of the politics and international relations of contemporary Oman. Jeremy Jones and Nicholas Ridout offer a distinctive new approach to Omani history, building on postcolonial thought and integrating the study of politics and culture. The book addresses key topics including Oman's historical cosmopolitanism, the distinctive role of Omani Islam in the country's social and political life, Oman's role in the global economy of the nineteenth century, insurrection and revolution in the twentieth century, the role of Sultan Qaboos in the era of oil and Oman's unique regional and diplomatic perspective on contemporary issues.

Historical Archaeology and Heritage in the Middle East Ruth Young 2019-01-14 Landlord villages dominated Iranian land tenure for hundreds of years, whereby one powerful landlord owned the village structures, surrounding farmland, and to all intents and purposes, the village occupants themselves, a system that in some cases remained in place up to the 1979 Islamic Revolution. In Oman, mud-brick oases were home to most of the rural population right up until Sultan Qaboos came to power in 1970, and required inhabitants of mud-brick houses to relocate into new concrete block buildings. *Historical Archaeology and Heritage in the Middle East* explores these everyday, rural communities in Iran and Oman in the 19th and 20th centuries, through a combination of building analysis, excavation, artefact analysis and ethnographic interviews. Drawing on the results of original field projects, the book considers new ways of exploring traditional lifeways, giving voice to hitherto largely ignored sections of the population, and offers new and different ways of thinking about how these people lived and what shaped their lives and the impact of major political and social changes on them. Place, memory and belonging are considered through the

lens of material culture within these villages. The first of its kind, the book brings together methodologies, research questions, and themes that have never been used or addressed in the Middle East. Helping to establish historical archaeology in the Middle East and providing new ways in which the memorable, quotidian past can be exploited for its social and economic value in contemporary community and heritage developments, it is an ideal resource for students, scholars and practitioners of historical archaeology and heritage of and in the Middle East.

Mixed Methods Perspectives on Communication and Social Media Research Reynaldo Gacho Segumpan 2022-07-29 Mixed Methods Perspectives on Communication and Social Media Research addresses the need for a discipline-cum-methodology-tailored book that navigates the current research spectrum of communication and social media ("CommSocMed"). It examines contemporary and relevant issues that intertwine the expansive spheres of CommSocMed. Authored by professionals with extensive academic and in-depth research and industry experience, the book highlights research-based themes that mirror qualitative and quantitative methodologies vis-à-vis socio-cultural, political, educational, and organisational issues and challenges. The first two sections present the mutually interwoven disciplines of CommSocMed where research works cover a comprehensive range of designs such as narrative analysis, case study, recombinant memetics, discourse analysis, visual semiotics, ethnography, content analysis, feminist theory, descriptive-survey, descriptive-correlational, model-building/testing, experimental, and mixed methods. The third section is a concluding segment which synthesises all the scholarly contributions in this volume. This book will serve as an authoritative reference for mixed methods research in CommSocMed and will be highly relevant reading for academics, researchers, postgraduate students and undergraduates in communication (for example, instructional communication, marketing communication, organisational communication, political communication, strategic communication), social media, and social sciences.

The Business Year: Oman 2020 Peter Howson When the experienced TBY team landed in Muscat in September 2019 to start its seventh annual research on the Sultanate's economy, it could have never imagined the uniqueness of the times ahead. Early 2020 saw the passing away of the Father of the Nation, His Majesty Late Sultan Qaboos bin Said, and the appointment of the new leader, His Majesty Sultan Haitham bin Tariq. This was thought to be Oman's defining event in 2020, but shortly after, the COVID-19 outbreak touched every corner of the world, and oil prices continuously sunk to record lows. No doubt it is a trying time, but we see this 2020 edition of The Business Year: Oman as ushering a new era for the Sultanate. With a refreshed, forward-looking perspective, this 260-page publication analyzes how the business community is embracing innovation and technology to create a competitive, diversified economy.

Music in Arabia Issa Boulos 2021-09-07 Music in Arabia extends and challenges existing narratives of the region's distinctive but understudied music to reveal diverse and dynamic music cultures rooted in centuries-old heritage. Contributors to Music in Arabia bring a critical eye and ear to the contemporary soundscape, musical life, and expressive culture in the Gulf region. Including work by leading scholars and local authorities, this collection presents fresh perspectives and new research addressing why musical expression is fundamental to the area's diverse, transnational communities. The volume also examines music circulation as a commodity, such as with the production of early recordings, the transnational music industry, the context of the Arab Spring, and the region's popular music markets. As a bonus, readers can access a linked website containing audiovisual examples of the music, dance, and expressive culture introduced throughout the book. With the work of resident scholars and heritage practitioners in conversation with that of researchers from the United States and Europe, Music in Arabia offers both context and content to clarify how music articulates identity and nation among multiethnic, multiracial, and multinational populations.

few "good news" stories to have emerged from the Middle East in recent memory. This book traces the narrative of a little-known and relatively stable Arab country whose history of independence, legacy of interaction with diverse cultures, and enlightened modern leadership have transformed it in less than fifty years from an isolated medieval-style potentate to a stable, dynamic, and largely optimistic country. At the heart of this fascinating story is Oman's sultan, Qaboos bin Sa'id, friend to both East and West, whose unique leadership style has resulted in both domestic and foreign policy achievements during more than four decades in office. Exploring Oman from a historical perspective, Funsch examines how the country's unique blend of tradition and modernization has enabled it to succeed while others in the region have failed. Accounts of the author's own experiences with Oman's transformation add rich layers of depth, texture, and personality to the narrative.

Social and Gender Inequality in Oman Khalid M. Al-Azri 2013 Looking at the social, political and legal changes in Oman since 1970, this book challenges the Islamic and tribal traditional cultural norms relating to marriage, divorce and women's rights which guide social and legal practice in the modern Omani state. The book argues that despite the establishment of legal instruments guaranteeing equality for all citizens, the fact that the state depends upon Islamic and tribal elites for its legitimacy invalidates these guarantees in practice. Two particular features of the legal and cultural regulation of marriage and marital rights are focused on - the perceived requirement for kafa'aor equality in marriage between so called high and low socio-economic status peoples is examined, and the institution of talaq, which grants greater rights to men than to women in appeals for divorce. This book addresses highly complex subjects with great rigor, in terms of empirical research and engagement with theory, sociological and political as well as theological and legal. It is an interesting investigation of the divisions of authority between the state, Islam and tribal norms, highlighting barriers to reform in both Oman and wider Islamic society, and advocating the removal of such obstacles.

The Report: Oman 2015 Oxford Business Group 2015-01-21 As with most of its neighbours in the GCC region, oil and gas remains a significant contributor to Oman's economy, accounting for around 50% of GDP. While the recent slump in oil prices is a concern, increased investment in enhanced oil recovery techniques in recent times has attempted to make up for this decline, with supply increasing as a result. Meanwhile, Oman's industrial sector, particularly the petrochemicals segment, is poised for large expansion with ongoing investment in downstream infrastructure and new facilities in the pipeline for the Sohar and Salalah industrial regions expected to contribute significantly to output before 2020. Added to this is the rapid development of Oman's ports, rail and airports, which is expected to drive its reputation as a regional logistics hub while developing the tourism sector, which is considered as key moving forward.

Allen 2000 In a detailed examination of Oman under Qaboos, Calvin Allen and Lynn Rigsbee analyse political, military, economic, social and foreign policy development since 1970 with a focus on two themes: the continuity between the regime of Sa'id b. Oman Tony Walsh 2016-12 Bradt's is the most up-to-date and informative guide to Oman, the Arabian peninsula's most welcoming destination, fully revised and updated by an author who has been living in Oman and Arabia since 1986. Oman is finally reaping the economic benefit of its location between Europe, Africa and Asia with substantial investment in major shipping ports and significant expansion of the national airline with new routes to Western Europe and East Asia. Despite being at the crossroads of great trade routes and empires, Oman has remained an independent country through much of its long history, and today tourism and travel are a major focus for Oman's government. This new edition covers the recent substantial investment in new airport facilities and upmarket accommodation and also features the historic UNESCO towns of Samharam and Al Balid. If you want to live like a local, the guide also tells you how to slow cook the traditional spiced meat shuwa and how to be a perfect guest if invited into an Omani home. Oman is not merely a desert. While it has the classic sand seas - Wihibah Sands - home to the nomadic Bedouin and their camels, this sultanate also boasts lush monsoon-soaked valleys near Salalah, mountain villages surrounded by green terraced fields of fruit trees and rose bushes, and the reef-fringed Ad Dimaniyyat Islands. With such a varied wilderness there is huge scope for adventure. Oman is increasingly perceived as a high-end cultural destination. The new Opera House has opened, directly supported by the Sultan, with top-notch international performers like Placido Domingo. The guide includes advice on property buying, since Omani law changed to allow expatriates to buy, explaining the rules and regulations. There is also a detailed overview of language schools teaching Arabic, not found in other

guides. With advice on cultural etiquette, basic Arabic phrases and political history - as well as full practical information on where to stay and eat, and what to see and do - this fully updated edition remains the essential guide for travellers looking to discover the real Oman.

The Business Year: Oman 2021/22 2021-11-15 Oman, for some time, has been a nation on the move. An integral part of the GCC, it is also seeking to extend its influence further afield via the development of port infrastructure that is set to make it a firm fixture on the East-West transport route. But Oman isn't developing unguided, instead sticking faithfully to Vision 2040, a wide-ranging, ambitious blueprint that foresees the development of a diverse, sustainable economy unshackled by a reliance on oil and gas, which currently plagues much of the region. In this edition, which features interviews with top business leaders from across the economy, as well as news and analysis, we cover: diplomacy, finance, Vision 2040, 4th Industrial Revolution, digital innovation, sustainability, logistics, real estate, agribusiness, and tourism and retail.
