Rhetorics of Belonging Anna Bernard 2013 The crisis in Israel/Palestine has long been the worlds most visible military conflict. Yet the regions cultural and intellectual life remains all but unknown to most foreign observers, which means that literary texts that make it into circulation abroad tend to be received as historical documents rather than aesthetic artefacts. Rhetorics of Belonging examines the diverse ways in which Palestinian and Israeli world writers have responded to the expectation that they will narrate the nation, invigorating critical debates about the political and artistic value of national narration as a reading and writing practice. It considers writers whose work is rarely discussed together, offering new readings of the work of Edward Said, Amos Oz, Mourid Barghouti, Orly Castel-Bloom, Sahar Khalifeh, and Anton Shammas. This book helps to restore the category of the nation to contemporary literary criticism by attending to a context where the idea of the nation is so central a part of everyday experience that writers cannot not address it, and readers cannot help but read for it. It also points a way toward a relational literary history of Israel/Palestine, one that would situate Palestinian and Israeli writing in the context of a history of antagonistic interaction. The book's findings are relevant not only for scholars working in postcolonial studies and Israel/Palestine studies, but for anyone interested in the difficult and unpredictable intersections of literature and politics.

Human Genetic Diversity Julian C. Knight 2009-08-06 The secrets of our genetic heritage are finally being unlocked. The massive scientific effort to sequence the human genome is in fact just the beginning of a long journey as the extraordinary genetic diversity that exists between individuals becomes clear. Work in this field promises much: to understand our evolutionary origins, to define us as individuals, to predict our risk of disease and to more effectively understand, treat and prevent illness. Contemporary genetic research is allowing the basis of both rare inherited disorders and common multifactorial diseases like asthma and diabetes to be more clearly defined. Huge investments are being made and great advances have been achieved, but the challenges remain daunting. This book provides an authoritative overview of

this topical and very rapidly advancing field of biomedical research. Human Genetic Diversity describes the major classes of genetic variation and their functional consequences. A combination of cutting-edge research and landmark historical studies illustrate developments in the field, the rationale for current studies and likely future directions. Major structural variants at a chromosomal level are described, as well as copy number variation and sequence level genetic diversity. Evidence of selective pressures in human populations and insights into human evolution are illustrated. The book describes the development of linkage analysis and more recently genome-wide association studies to define the genetic basis of disease, current approaches to defining functional causative variants and the emerging fields of pharmacogenomics and individualised medicine.

*The 2020 Look at Mars Fiction Book* John Barnes 2020-08 This collection puts together 20 of the best science fiction stories about Mars published over the past two decades by top-notch authors of the genre. An improbable group of astronauts are slingshot to Mars in cheap one-person, one-way jalopies in "Terminal," by Lavie Tidhar. In "The Cascade," by Sean McMullen, an affair between a shy robotics postdoc and an adventurous young woman change the destiny of the first landing on Mars. A penal colony on Mars violently clashes with a science base in "Falling onto Mars," a Hugo Award winning story by Geoffrey A. Landis. In "The Old Cosmonaut and the Construction Worker Dream of Mars," by Ian McDonald, the lives of a young Indian construction worker and an old Estonian cosmonaut collide during the terraforming of Mars by quantum machines. Two young girls are desperate to survive on the surface of Mars after their commune's underground compound is destroyed by comet strikes in "Hanging Gardens," by Gregory Feeley. In "Digging," by Ian McDonald, a project has been undertaken to create a breathable atmosphere on Mars constructing a valley so deep that the planet's thin atmosphere will be forced into it. An amusing step-by-step program enables potential potentates to find the right Mars to rule over in "How to Become a Mars Overlord," by Catherynne M. Valente. In the Hugo Award winning story "The Emperor of Mars," by Allen M. Steele, a laborer on a corporate-owned Martian colony transforms himself into royalty while coping with a tragedy on Earth. A young girl defies the conventional role she's fated for on Mars in "La Malcontenta," by Liz Williams. In "The Burial of Sir John Mawe at Cassini," by Chez Brenchley, a gravedigger uncovers many secrets at the burial of a hanged British nobleman on a Victorian Mars. A colonist provides a moving account of his life on Mars to inspire a new generation of Martians in "Martian Heart," by John Barnes. In "The Vicar of Mars," by Gwyneth Jones, a High Priest suffers hauntings after visiting an old, reclusive, wealthy woman on Mars. A rough and tumble Martian mining town reconstructs a lawman from the Old American West to restore order in "Wyatt Earp 2.0," by Wil McCarthy. In "An Ocean is a Snowflake, Four Billion Miles Away," by John Barnes, the rivalry between two documentarians, filming on Mars, puts them in peril as the planet is being terraformed. A corporation building New Las Vegas on Mars grooms a janitor for rock stardom to improve worker morale in "The Rise and Fall of Paco Cohen and the Mariachis of Mars," by Ernest Hogan. In "Martian Blood," by Allen M. Steele, an Egyptian-American astrobiologist travels to a Martian aboriginal settlement to prove his theory

that life on Earth originated on Mars. Pilgrims, tourists, and locals visit the many monoliths of Mars to commune with their unknown builders through radio bursts in "The Monoliths of Mars," by Paul McAuley. In "The Martian Job," by Jaine Fenn, the greatest heist known to humankind, with many a double-cross, is pulled on the largest corporation on Mars. The first man to step foot on Mars recounts his life's story as mankind ends its colonization of the planet in "Mars Abides," by Stephen Baxter. And finally, in the Locus Award winning story "The Martian Obelisk," by Linda Nagata, a robotic crawler threatens the remote construction of a monument on Mars, by an architect on Earth, as it approaches the obelisk.

A powerful exploration of what it means to be Mexican American.

*Attack of the 50 Foot Wallflower* Christian McKay Heidicker 2018-09-11 “Wild, weird, hilarious, heartfelt, imaginative, and inventive. The spirit of Kurt Vonnegut is alive and well in its pages.” —Jeff Zentner, author of *The Serpent King* “A satisfying mix of mild adolescent angst and creature feature comedy.” —BCCB (starred review) “Frighteningly fun.” —Booklist (starred review) From the author of *Cure for the Common Universe* comes a monster-movie-like novel that bravely challenges perceived notions of beauty, identity, and modern voyeurism. Phoebe Lane is a lightning rod for monsters. She and her mom are forced to flee flesh-eating plants, blobs from outer space, and radioactive ants. They survive thanks to Phoebe’s dad—an invisible titan, whose giant eyes warn them where the next monster attack will take place. All Phoebe wants is to stop running from motel to motel and start living a monster-free life in New York or Paris. But when her mom mysteriously vanishes, Phoebe is left to fend for herself in small-town Pennybrooke. That's when Phoebe starts to transform... Christian McKay Heidicker returns with a book unlike any other, challenging perceived notions of beauty, identity, and what it means to be a monster.

**Makes Me Wanna Holler** Nathan McCall 2011-01-26 One of our most visceral and important memoirs on race in America, this is the story of Nathan McCall, who began life as a smart kid in a close, protective family in a black working-class neighborhood. Yet by the age of fifteen, McCall was packing a gun and embarking on a criminal career that five years later would land him in prison for armed robbery. In these pages, McCall chronicles his passage from the street to the prison yard—and, later, to the newsrooms of *The Washington Post* and ultimately to the faculty of Emory University. His story is at once devastating and inspiring, at once an indictment and an elegy. *Makes Me Wanna Holler* became an instant classic when it was first published in 1994 and it continues to bear witness to the great troubles—and the great hopes—of our nation. With a new afterword by the author

**The Thin Red Line** James Jones 2011-12-20 With “shattering prose,” the New York Times–bestselling author of *From Here to Eternity* captures the intense combat in the battle of Guadalcanal (San Francisco Chronicle). In August of 1942 the first American marines charged Guadalcanal, igniting a six-month battle for two thousand square miles of jungle and sand. In that gruesome stretch sixty thousand Americans made the jump from boat to beach, and one in nine did not return. James Jones fought in that battle, and *The Thin Red Line* is his haunting portrait of men and war. The soldiers of C-for-Charlie Company are not cast from the heroic mold. The unit’s captain is too intelligent and sensitive for the job, his first sergeant is half mad, and the enlisted men begin the campaign gripped by cowardice. Jones’s moving portrayal of the Pacific combat experience stands among the great literature of World War II. This ebook features an illustrated biography of James Jones including rare photos from the author’s estate.

*Competing Against Luck* Clayton M. Christensen 2016-10-04 The foremost authority on innovation and growth presents a path-breaking book every company needs to transform innovation from a game of chance to one in which they develop products and services customers not only want to buy, but are willing to pay premium prices for. How do companies know how to grow? How can they create products that they are sure customers want to buy? Can innovation be more than a game of hit and miss? Harvard Business School professor Clayton Christensen has the answer. A generation ago, Christensen revolutionized business

with his groundbreaking theory of disruptive innovation. Now, he goes further, offering powerful new insights. After years of research, Christensen has come to one critical conclusion: our long held maxim—that understanding the customer is the crux of innovation—is wrong. Customers don't buy products or services; they "hire" them to do a job. Understanding customers does not drive innovation success, he argues. Understanding customer jobs does. The "Jobs to Be Done" approach can be seen in some of the world's most respected companies and fast-growing startups, including Amazon, Intuit, Uber, Airbnb, and Chobani yogurt, to name just a few. But this book is not about celebrating these successes—it's about predicting new ones. Christensen contends that by understanding what causes customers to "hire" a product or service, any business can improve its innovation track record, creating products that customers not only want to hire, but that they'll pay premium prices to bring into their lives. Jobs theory offers new hope for growth to companies frustrated by their hit and miss efforts. This book carefully lays down Christensen's provocative framework, providing a comprehensive explanation of the theory and why it is predictive, how to use it in the real world—and, most importantly, how not to squander the insights it provides.

*The Improbable Rise of Paco Jones* Dominic Carrillo 2016-03-27 Paco Jones is "a biracial Mexican kid with few friends. He's recently transferred from his old junior high to a private school, and because he's the poor new kid, he soon finds himself the least popular. It doesn't help that he sports a big nose, an unflattering birthmark, pigeon-toed feet, and hairy arms, all of them fodder for teasing. He's jeered at during lunch, called Paco Taco, and ridiculed for being different. So what hope is there for him when he falls for Naomi Fox, a popular girl already involved with a popular guy?"--Amazon.com.

*Be Not Far from Me* Mindy McGinnis 2020-03-03 Hatchet meets Wild in this harrowing YA survival story about a teenage girl's attempt to endure the impossible, from the Edgar Award-winning author of *The Female of the Species*, Mindy McGinnis. The world is not tame. Ashley knows this truth deep in her bones, more at home with trees overhead than a roof. So when she goes hiking in the Smokies with her friends for a night of partying, the falling dark and creaking trees are second nature to her. But people are not tame either. And when Ashley catches her boyfriend with another girl, drunken rage sends her running into the night, stopped only by a nasty fall into a ravine. Morning brings the realization that she's alone—and far off trail. Lost in undisturbed forest and with nothing but the clothes on her back, Ashley must figure out how to survive with the red streak of infection creeping up her leg.

**Contemporary German Crime Fiction** Thomas W. Kniesche 2019-10-21 A companion to contemporary German crime fiction for English-speaking audiences is overdue. Starting with the earlier Swiss "classics" Glauser and Dürrenmatt and including a number of important Austrian authors, such as Wolf Haas and Heinrich Steinfest, this volume will cover the essential writers, genres, and themes of crime fiction written in German. Where necessary and appropriate, crime fiction in media other than writing (TV-series, movies) will be included. Contemporary social and political developments, such as gender issues, life in a multicultural society, and the afterlife of German fascism today, play a crucial role in much of recent German crime fiction. A number of contributions to this volume will comment on the literary reflection of these issues in the texts. The goal of the volume is to make available to English-speaking audiences, to students, teachers and to a wider circle of interested readers, a series

of articles on genres, topics, authors, and texts that will help them understand the scope and depth of German crime fiction, its ties to international traditions and also the specificity of the German context, its historical development and contemporary situation.

**I Couldn't Paint Golden Angels** Albert Meltzer 1996 Albert Meltzer (1920-whenever) has been involved actively in class struggles since the age of 15; exceptionally for his generation in having been a convinced Anarchist from the start, without any family background in such activity. *I Couldn't Paint Golden Angels* is a lively, witty account of what he claims would have been the commonplace life of a worker but for the fact that he spent sixty years in anarchist activism. As a result it is a unique recounting of many struggles otherwise distorted or unrecorded, including the history of the contemporary development of anarchism in Britain and other countries where he was involved, notably Spain. His story tells of many struggles, including for the first time, the Anglo-Spanish cooperation in the post-War anti-Franco resistance and provides interesting sidelights on, amongst others, the printers' and miners' strikes, fighting Blackshirts and the battle of Cable Street, the so-called Angry Brigade activities, the Anarchist Black Cross, the Cairo Mutiny and wartime German anti-Nazi resistance, the New Left of the 60s, the rise of squatting - and through individuals as varied as Kenyatta, Emma Goldman, George Orwell, Guy Aldred and Frank Ridley - all of which have crowded out not only his story, but his life too.

**The Road from George Orwell** Alberto Lázaro 2001 Fifty years after his death, George Orwell is generally recognised as a leading exponent of twentieth-century English prose and one of the most influential satiric writers whose work has continually raised all kinds of political controversies. This volume assembles twelve papers delivered at the VIII Jornadas de Literatura Inglesa at the University of Alcalá in May 2000. The conference set out to re-examine Orwell's work and thought in the light of contemporary theoretical concerns, as well as to discuss the mark he has left in British literature in the second half of the twentieth century, particularly on political satire and the development of dystopian fiction. A first group of essays provides new insights and fresh ways of viewing familiar issues such as Orwell's controversial political thought, the representation of race and gender in his early fiction, the narrative strategies of his documentary prose and the impact of Spanish censorship on his writing, particularly on *Homage to Catalonia*. Other essays explore the legacy of Orwell's dystopian fiction in later novelists such as Zoë Fairbairns, Alasdair Gray, Robert Harris, Julian Barnes and Ben Elton, as well as issues of history and language that are raised in Orwell's writings and dominate twentieth-century fiction.

*Nia and the Dealer* Dominic Carrillo 2019-05-31 When sixteen-year-old Nia and her mom visit her grandmother in California, they thought her juvenile escapist days were over. But when her family's lifestyle in San Francisco becomes not only dull, but offensive—and Nia meets an intriguing young troubadour named Jesse—things quickly change. Inspiration from Holden Caulfield and news that her elderly friend, Kurt, is dying hundreds of miles away only makes her rebellious road trip more urgent. What lengths will Nia go to as she struggles with doing what she's told is right, versus doing what feels right? Nia's coming-of-age adventure speeds through the cultural quirks of California in this daring sequel to *THE UNUSUAL SUSPECTS*. "What begins as an adventure for a good reason takes a turn Nia doesn't see coming... *Nia and the Dealer* is a beautiful story. Bravo, Dominic Carrillo. Keep stories like this coming, not just for young adults but for all of us." -ReadersFavorite.com "I loved Carrillo's novel *THE UNUSUAL SUSPECTS* and so I was thrilled to hear he brought Nia and Kurt back for another story. In the novel Kurt tells his young friend, "Nia, *CATCHER IN THE RYE* is a classic, not because it gives you any clear answers, but because it gives you the truth." That's what Carrillo gives readers in this entertaining novel about the exciting and difficult and complicated adventure of being a teenager." -Candi Sary, author of *BLACK CROW, WHITE LIE*

*The Color Project* Sierra Abrams 2017-08-17 Bernice Aurora Wescott has one thing she doesn't want anyone to know: her name. That is, until Bee meets Levi, the local golden boy who runs a charity organization called The Color Project. Levi is not at all shy about attempting to guess Bee's real name; his persistence is one of the many reasons why Bee falls for him. But while Levi is everything she never knew she needed, giving up her name would feel like a stamp on forever. And that terrifies her. When unexpected news of an illness in the family drains Bee's summer of everything bright, she is pushed to the breaking point. Losing herself in The Color Project—a world of weddings, funerals, cancer patients, and hopeful families that the charity funds—is no longer enough. Bee must hold up the weight of her family, but to do that, she needs Levi. She'll have to give up her name and let him in completely, or lose the best thing that's ever happened to her. For fans of Stephanie Perkins and Morgan Matson, *THE COLOR PROJECT* is a story about the three great loves of life—family, friendship, and romance—and the bonds that withstand tragedy.

*Iberia* James A. Michener 2015-03-10 "Massive, beautiful . . . unquestionably some of the best writing on Spain [and] the best that Mr. Michener has ever done on any subject."—The Wall Street Journal Spain is an immemorial land like no other, one that James A. Michener, the Pulitzer Prize-winning author and celebrated citizen of the world, came to love as his own. *Iberia* is Michener's enduring nonfiction tribute to his cherished second home. In the fresh and vivid prose that is his trademark, he not only reveals the celebrated history of bullfighters and

warrior kings, painters and processions, cathedrals and olive orchards, he also shares the intimate, often hidden country he came to know, where the congeniality of living souls is thrust against the dark weight of history. Wild, contradictory, passionately beautiful, this is Spain as experienced by a master writer.

**Testimonios: Stories of Latinx and Hispanic Mathematicians** Pamela E. Harris

2021-08-16 Testimonios brings together first-person narratives from the vibrant, diverse, and complex Latinx and Hispanic mathematical community. Starting with childhood and family, the authors recount their own individual stories, highlighting their upbringing, education, and career paths. Their particular stories, told in their own voices, from their own perspectives, give visibility to some of the experiences of Latinx/Hispanic mathematicians. Testimonios seeks to inspire the next generation of Latinx and Hispanic mathematicians by featuring the stories of people like them, holding a mirror up to our own community. It also aims to provide a window for mathematicians (and aspiring mathematicians) from all ethnicities, with the hope of inspiring a better understanding of the diversity of the mathematical community.

Carrigan 2019-09-25 FIRST, THERE WAS THE COKE MACHINE INCIDENT In a small North Carolina town, the body of a young wife and mother is found on the front porch of her home, an apparent homicide. Enter a cast of quirky characters: a street-wise cop from Detroit, a police chief set in his ways, an overzealous deputy, a mystery-loving coroner, a drunken husband, and an agnostic minister. What should have been a simple matter for the police begins to spread suspicion and confusion through the town. Old jealousies are revived, past scandals are exposed anew. A widower is driven to near madness in his grief. A gentle soul's questionable past threatens his reputation, and his livelihood. And

yet, in the midst of this chaos, some find redemption and love. This is above all a story of unforgettable characters, their fears, their passions, and their courage.

**A Socialist Empire** Louis Baudin 2011-08 2011 Reprint of 1961 Edition. Many social scientists have attempted to lump the unique Inca society into modern political and economic categories. Louis Baudin argued that Inca society was socialistic. He claimed that the ayllu system is what classified the Inca as a system of state socialism. Baudin defines state socialism as being based on the idea of the regulative action of a central power in social relations. According to Baudin, the idea of private property in Europe had been in existence for centuries, but no such idea existed at the times of the Incas. He claims, that society in Peru rested on a foundation of collective ownership which, to a certain extent, facilitated its establishment, because the effacement of the individual within a group prepared him to allow himself to be absorbed. Baudin argued that the higher ranking Incas tried, and succeeded to an extent, to force a degree of uniformity on the common Inca. The Inca were forced to dress similarly, eat the same food, practice the same religion, and speak the same language, Quechua.

[Weapons of Math Destruction](#) Cathy O'Neil 2017-09-05 NEW YORK TIMES BESTSELLER • A former Wall Street quant sounds the alarm on Big Data and the mathematical models that threaten to rip apart our social fabric—with a new afterword “A manual for the twenty-first-century citizen . . . relevant and urgent.”—Financial Times NATIONAL BOOK AWARD LONGLIST • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • The Boston Globe • Wired • Fortune • Kirkus Reviews • The Guardian • Nature • On Point We live in the age of the algorithm. Increasingly, the decisions that affect our lives—where we go to school, whether we can get a job or a loan, how much we pay for health insurance—are being made not by humans, but by machines. In theory, this should lead to greater fairness: Everyone is judged according to the same rules. But as mathematician and data scientist Cathy O'Neil reveals, the mathematical models being used today are unregulated and uncontested, even when they're wrong. Most troubling, they reinforce discrimination—propping up the lucky, punishing the downtrodden, and undermining our democracy in the process. Welcome to the dark side of Big Data.

**Diversity and Otherness** Lisa Gaupp 2021-10-25 This book critically examines multiple ways in which cultural diversity is, and has been represented and handled. It questions the construction of differences in doing culture while emphasizing the fluidity of cultural entanglements. It is an invitation to re-think norms, practices and negotiations of diversity and otherness, to distinguish emancipatory from standardizing approaches and to “transculturalize” the study and the politics of culture.

**I Hope You Get This Message** Farah Naz Rishi 2019-10-22 In this high concept YA novel debut that's We All Looked Up meets The Sun Is Also a Star, three teens must face down the mistakes of their past after they learn that life on Earth might end in less than a week. News stations across the country are reporting mysterious messages that Earth has been receiving from a planet—Alma—claiming to be its creator. If they're being interpreted correctly, in seven days Alma will hit the kill switch on their “colony” Earth. True or not, for teenagers Jesse

Hewitt, Cate Collins, and Adeem Khan, the prospect of this ticking time bomb will change their lives forever. Jesse, who has been dealt one bad blow after another, wonders if it even matters what happens to the world. Cate, on the other hand, is desperate to use this time to find the father she never met. And Adeem, who hasn't spoken to his estranged sister in years, must find out if he has it in him to forgive her for leaving. With only a week to face their truths and right their wrongs, Jesse, Cate, and Adeem's paths collide as their worlds are pulled apart.

**Supply Chain Risk Management** Donald Waters 2011-10-03 Vulnerability to sudden supply chain disruption is one of the major threats facing companies today. The challenge for businesses today is to mitigate this risk through creating resilient supply chains. Addressing this need, Supply Chain Risk Management guides you through the whole risk management process from start to finish.
