American Prisoners of the Revolution Danske Dandridge 1911 Liberty Street Sugar House was a tall, narrow building five stories in height, and with dismal underground dungeons. In this gloomy abode jail fever was ever present. In the hot weather of July, 1777, companies of twenty at a time would be sent out for half an hour's outing, in the court yard. Inside groups of six stood for ten minutes at a time at the windows for a breath of air.

The Road to Le Tholonet Monty Don 2013-04-25 This is not a book about French Gardens. It is the story of a man travelling round France visiting a few selected French gardens on the way. Owners, intrigues,

affairs, marriages, feuds, thwarted ambitions and desires, the largely unnamed ordinary gardeners, wars, plots and natural disasters run through every garden older than a generation or two and fill every corner of the grander historical ones. Families marry. Gardeners are poached. Political allegiances forged and shattered. The human trail crosses from garden to garden. They sit in their surrounding landscape, not as isolated islands but attached umbilically to it, sharing the geology, the weather, food, climate, local folklore, accent and cultural identity. Wines must be drunk and food tasted. Recipes found and compared. The perfect tarte-tartin pursued. None of these things can be ignored or separated from the shape and size of parterre, fountain, herbaceous border or pottager. So this is a book filled with stories and information, some of it about French gardens and gardening, but most of it about what makes France unlike anywhere else. From historical gardens like Versailles, Vaux le Vicomte and Courances to the kitchen gardens of the Michelin chef Alain Passard. There will be grand potagers like Villandry and La Prieure D'Orsan and allotments and back gardens spotted on the way. Monty also celebrates the obvious French associations of food and wine and finds gardens dedicated to vegetables, herbs and fruit. It is a book that any visitor to France, whether gardeners or not, will want to read both as a guide and an inspiration. It is a portal to get under the French cultural skin and to understand the country, in all its huge variety and disparity, a little better.

Gardening at Longmeadow Monty Don 2012-05-31 Monty Don made a triumphant return to our screens as presenter of *Gardeners' World*. A firm favourite with viewers, Monty's infectious enthusiasm for plants, attention to the finer details of gardening technique and easy charm have seen the ratings soar. Here Monty invites us into the garden at Longmeadow, to show us how he created this beautiful garden, and how we can do the same in our own. Following the cycle of the seasons, *Gardening at Longmeadow* will introduce readers to the garden from the earliest snowdrops of January through the first splashes of colour in the Spring Garden, the electric summer displays of the Jewel Garden, the autumn harvest in the orchard, and on to a Christmas feast sourced from the vegetable gardens. Describing the magic of each area at different times of the year, Monty will explain the basics of what to do when and how to get the most from each plant. He'll talk through the essential techniques and more complex processes, accompanied by easy-to-follow, step-by-step photography. Longmeadow is a gardeners' garden, but this will be a book for gardening enthusiasts of all skill levels who have been inspired by what they've seen, and who would like to achieve something similar for themselves.

Painting the Modern Garden Ann Dumas 2015 "While depictions of gardens are found throughout history, the impressionists were among the first to portray gardens directly from life, focusing on their color and form rather than using them as a background. This volume explores the close, symbiotic relationship between artists and gardens that developed during the latter part of the 19th and first part of the 20th centuries, centering on Monet, a great horticulturalist as well as a great artist who cultivated gardens wherever he lived, and the creation of his masterpiece garden at Giverny, where he painted his renowned water-lilies series. Beautifully illustrated with masterpieces by Monet and later painters--Renoir, Bonnard, Sargent, Klee, Kandinsky, and Matisse, among others--*Painting the Modern Garden* traces the evolution of the garden theme from impressionist visions of light and atmosphere to retreats for reverie, sites for bold experimentation, sanctuaries, and, ultimately, signifiers of a world restored to order--a paradise regained."--Publisher's description.

Tom's Midnight Garden Philippa Pearce 1998 "Tom is not prepared for what is about to happen when he hears the grandfather clock strike thirteen. Outside the back door is a garden, which everyone tells him does not exist."--Page 4 de la couverture.

My Garden World Monty Don 2020-09-17 'One of the most thrilling moments occurred ten years ago when I found a single wild flower growing on a grassy bank. It was not particularly rare - a common spotted orchid - but it was like discovering a pot of gold - or perhaps, more accurately, the promise of gold. It was a sign that recovery was possible from even the most inauspicious situation.' Spend a year in the garden with Monty Don - the UK's favourite gardener, writer and broadcaster - accompanied by his beloved dogs, Nigel and Nellie. A breath of fresh country air. Each season has something different to delight in - from the primroses and bluebells of spring, to butterflies that colour summer skies and the crowds of migrating swallows that herald the coming of autumn - all have a place alongside the yearly cycle of growth and renewal. My Garden World is an ode to the ever-surprising and comforting presence of nature. In exquisitely written prose, reflecting the best of nature writing, this book offers an opportunity to walk alongside Monty, month by month, and experience the commonplace miracles and rhythms of nature through his eyes.

These examples will help people create edible paradises everywhere, like patios, balconies, windowsills, allotments, community and school gardens, front and back gardens and anywhere else we can grow.

In This House of Brede Rumer Godden 2016-12-13 Following World War II, a British widow joins a Benedictine monastery in this poignant New York Times bestseller from the author of *Black Narcissus*. For most of her adult life, Philippa Talbot has been a successful British professional. Now in her forties, the World War II-widow has made a startling decision: She's giving up her civil service career and elite social standing to join a convent as a postulant Roman Catholic nun. In Sussex in the south of England, Philippa begins her new life inside Brede Abbey, a venerable, 130-year-old Benedictine monastery. Taking her place among a diverse group of extraordinary women, young and old, she is welcomed into the surprisingly rich and complex world of the devout, whom faith, fate, and circumstance have led there. From their personal stories, both uplifting and heartbreaking, Philippa draws great strength in the weeks, months, and years that follow, as the confidence, conflicts, and poignant humanity of her fellow sisters serve to validate her love and sacred purpose. But a time of great upheaval in the hierarchy of the Catholic Church approaches as the winds of change blow at gale force. And for the financially troubled Brede and the acolytes within, it will take no less than a miracle to weather the storm. Author Rumer Godden spent three years living in close proximity to Stanbrook Abbey in Worcestershire communing with the Benedictine nuns in preparation for the writing of this beloved bestseller. The result is an honest and unforgettable novel of love, sacrifice, and devotion, a major literary achievement from the acclaimed author of *Black Narcissus* and *The River*. This ebook features an illustrated biography of the author including rare images from the Rumer Godden Literary Estate.

Ring of Bright Water Gavin Maxwell 2016-04-15 This volume weaves together the Scottish otter stories from Gavin Maxwell's three non-fiction books, Ring of Bright Water (1960), The Rocks Remain (1963), and Raven Meet Thy Brother (1969). Maxwell was both an extraordinarily evocative writer and a highly unusual man. While touring the Iraqi marshes, he was captivated by an otter and became a devoted advocate of and spokesman for the species. He moved to a remote house in the Scottish highlands, co-habiting there with three otters and living an idyllic and isolated life – at least for a while. Fate, fame, and fire conspired against this paradise, and it, too, came to an end, though the journey was filled with incident and wonder. Maxwell was also talented as an artist, and his sinuous line drawings of these amphibious and engaging creatures, and the homes they occupied, illustrate his story. This book stands as a lasting tribute to a man, his work, and his passion. It was received and has endured as a classic for its portrait not only of otters but also of a man who endured heartaches and disappointments, whose life embodied both greatness and tragedy. He writes with rare eloquence about his birth, his devotion to the beloved Scottish highlands, and the wildlife he loved, while refusing to ignore the darker aspects of his nature and of nature in its larger sense.

Garden Revolution Larry Weaner 2016-05-18 AHS Book Award winner This lushly-photographed reference is an important moment in horticulture that will be embraced by anyone looking for a better, smarter way to garden. Larry Weaner is an icon in the world of ecological landscape design, and now his revolutionary approach is available to all gardeners. Garden Revolution shows how an ecological approach to planting can lead to beautiful gardens that buck much of conventional gardening's counter-productive, time-consuming practices. Instead of picking the wrong plant and then constantly tilling, weeding, irrigating, and fertilizing, Weaner advocates for choosing plants that are adapted to the soil and climate of a

specific site and letting them naturally evolve over time. Allowing the plants to find their own niches, to spread their seed around until they find the microclimate and spot that suits them best, creates a landscape that is vibrant, dynamic, and gorgeous year after year.

The Jewel Garden Monty Don 2012-03-01 'TRULY INSPIRING' Mail on Sunday Now familiar to millions of Gardeners' World fans as Longmeadow (the home of Nigel & Nellie), this is the story of Monty & Sarah Don's early days there. *THE JEWEL GARDEN* is the story of the garden that bloomed from the muddy fields around the Dons' Tudor farmhouse, a perfect metaphor for the Monty and Sarah's own rise from the ashes of a spectacular commercial failure in the late '80s. At the same time *THE JEWEL GARDEN* is the story of a creative partnership that has weathered the greatest storm, and a testament to the healing powers of the soil. Monty Don has always been candid about the garden's role in helping him to pull back from the abyss of depression; *THE JEWEL GARDEN* elaborates on this much further. Written in an optimistic, autobiographical vein, Monty and Sarah's story is truly an exploration of what it means to be a gardener.

MONTY DON - One of Britain's favourite presenters. When Monty Don's golden retriever Nigel became the surprise star of BBC Gardeners' World inspiring huge interest, fan mail and his own social media accounts, Monty Don wanted to explore what makes us connect with animals quite so deeply. In many respects Nigel is a very ordinary dog; charming, handsome and obedient, as so many are. He is a much loved family pet. He is also a star. By telling Nigel's story, Monty relates his relationships with the other special dogs in his life in a memoir of his dogs past and very much present. Witty, touching and life-affirming, Nigel: My family and other dogs is wonderfully heart-warming. Monty Don is a great writer coming out of the garden and into the hearts and homes of every dog lover in the UK. 'I have always had a dog, or dogs. I cannot imagine life without them. I am just as much a fan of Nigel as any besotted viewer. In the book I explore why we love dogs and what they mean to us emotionally and domestically. I look back on all the dogs in my life - all of which I have loved deeply and which have been an essential part of my life. So, this is the book of Nigel - but also the book of all our dogs in every British family and a celebration of the deep love we feel for them' Monty Don

My Roots Monty Don 2012-03-15 Monty Don, the face of British gardening, has written a weekly Observer column on his garden for the past ten years. This is a collection of fifty of Monty's best columns, that will delight his readers and gardeners everywhere. 'Growing vegetables, herbs and fruit should be done in the same spirit as choosing your music or clothes: with a mix of precision and adventure.' 4.1.98 'Gardens are complex and messy and, as in life, there are few easy fixes.' 17.1.99 'One swallow may not make a summer but it damn sure made my day.' 7.5.00 'Planting trees is deeply satisfying and good for the soul, especially on a winter's day. What else can a human do that leans so far into the future?' 27.12.98

A Month in the Country J.L. Carr 2012-08-29 In J. L. Carr's deeply charged poetic novel, Tom Birkin, a veteran of the Great War and a broken marriage, arrives in the remote Yorkshire village of Oxdogby where he is to restore a recently discovered medieval mural in the local church. Living in the bell tower, surrounded by the resplendent countryside of high summer, and laboring each day to uncover an anonymous painter's depiction of the apocalypse, Birkin finds that he himself has been restored to a new, and hopeful, attachment to life. But summer ends, and with the work done, Birkin must leave. Now, long after, as he reflects on the passage of time and the power of art, he finds in his memories some consolation for all that has been lost.

Organic Gardening Charles Dowding 2010 In *Organic Gardening* Charles Dowding shares the philosophy, tips and techniques that have enabled him to run a successful organic garden supplying local restaurants and shops for over 25 years. * Forget the 'received wisdom' about gardening. Observe what is going on in the soil and with your plants, in your own garden and climate. * Respect and encourage life as much as you can, chiefly by spreading good compost or manure. * There is no need to dig in compost and manure - just spread it on top and let worms take it in. Digging can harm soil structure, and is not helpful to plants. Based on his experience of using a system of permanent raised beds, Charles takes you through a delicious variety of fruit and vegetables: explaining what to choose, when to plant and harvest, and how best to avoid pests and diseases. With simple recipes for your fresh-picked produce, this second edition features new photographs and more tips and advice.

The Old Straight Track Alfred Watkins 1988-01-01 First published in 1925 THE OLD STRAIGHT TRACK remains the most important source for the study of ancient tracks or leys that criss-cross the British Isles- a fascinating system which was old when the Romans came to Britain. First in the Herefordshire countryside, and later throughout Britain, Alfred Watkins noticed that beacon hills, mounds, earthworks, moats and old churches built on pagan sites seemed to fall in straight lines. His investigation convinced him that Britain was covered with a vast network of straight tracks, aligned with either the sun or the path of a star. Although traces of this network can be found all over the country, the principles behind the ley system remain a mystery. Are they the legacy of a prehistoric scientific knowledge which is now all but lost? And was their purpose secular or religious?

The Home Cookbook Montagu Don 2010 With more than 300 recipes, arranged by meal times (Breakfast, Elevenses, Lunch, Tea, Supper), *The Home Cookbook* is a celebration of British domestic cooking as it has evolved over the centuries and still exists - especially in the countryside. The food that Monty and Sarah Don eat at home at Ivington is more in the tradition of the Women's Institute than the celebrity chefs. They try to eat food that is as local as possible (often harvested from the back garden) and has a good story. Their book is full of things that you really want to eat - roasts and warming puddings for the winter, the most delicious salads and lightest fools for the summer; recipes that use timeless, thrifty farmhouse techniques such as baking, stewing, braising, salting, pickling, bottling and freezing. In short: good, honest home cooking. Monty Don is a national treasure, and was the much loved presenter of BBC Gardeners' World for five years.

My Garden World Monty Don 2020-09-17 THE SUNDAY TIMES BESTSELLER & BEST GARDENING BOOKS OF 2020 - Sunday Times 'Every page a joy' NIGEL SLATER 'From a very early age I loved the countryside as much as any garden and was fascinated by the life that I saw all around me from trees, wildflowers, birds, insects and mammals. In a sense this book has been over sixty years in gestation. I have kept notebooks and journals ever since I could write and I have drawn upon these as well as the events of the past year.' Spend a year with Monty Don. My Garden World is a celebration of every living creature and the natural world that we all share. Recent times have given us the enforced opportunity to learn more about the fascinating natural world around us. Whether you live in the countryside or the town, Monty's observations and insights are relevant to each and every one of us. My Garden World is Monty Don's personal journey through the natural year, month by month, season by season, observed from the immediate world around him. 'Wildlife is not something that we watch happening in remote and exotic parts of the world on our screens, but right here in our own back yards and the more that we encourage it and learn to live with it, the more rewarding it becomes. If, in our own modest back yards, we can help preserve and treasure our natural world then we will make the world a better place -- not just for ourselves but for every living creature.'
