Human Accomplishment Charles Murray 2009-10-13 A sweeping cultural survey reminiscent of Barzun's *From Dawn to Decadence*. "At irregular times and in scattered settings, human beings have achieved great things. Human Accomplishment is about those great things, falling in the domains known as the arts and sciences, and the people who did them.' So begins Charles Murray's unique account of human excellence, from the age of Homer to our own time. Employing techniques that historians have developed over the last century but that have rarely been applied to books written for the general public, Murray compiles inventories of the people who have been essential to the stories of literature, music, art, philosophy, and the sciences—a total of 4,002 men and women from around the world, ranked according to their eminence. The heart of *Human Accomplishment* is a series of enthralling descriptive chapters: on the giants in the arts and what sets them apart from the merely great; on the differences between great achievement in the arts and in the sciences; on the meta-inventions, 14 crucial leaps in human capacity to create great art and science; and on the patterns and trajectories of accomplishment across time and geography. Straightforwardly and undogmatically, Charles Murray takes on some

controversial questions. Why has accomplishment been so concentrated in Europe? Among men? Since 1400? He presents evidence that the rate of great accomplishment has been declining in the last century, asks what it means, and offers a rich framework for thinking about the conditions under which the human spirit has expressed itself most gloriously. Eye-opening and humbling, *Human Accomplishment* is a fascinating work that describes what humans at their best can achieve, provides tools for exploring its wellsprings, and celebrates the continuing common quest of humans everywhere to discover truths, create beauty, and apprehend the good.

A Wiccan Bible A.J. Drew 2003-08-15 "If there is one quote from this book which deserves to be emblazoned on the opening pages of your Book of Shadows; above the door of your house (or temple); and in every mind it is this: 'Wicca is not a place to go, it is a journey to take.'"—Spiral Nature For thousands of years, we have been told that God was a man. Then someone reminded us of when God was a woman. Now we have a reference for the sensible folk who have always felt that it takes two. If you have ever thought there was more to religion than ancient rituals performed for reasons unknown, this book will show you exactly what you have been looking for. If you have already come to the realization that Wicca is the religion for you, this book will help fill those many blanks that have been left by other books. Author A.J. Drew makes no attempt to dictate religious dogma or routine. He is quick to point out that the title does not start with the word the. He illustrates the many issues a person's religion should address and shows how he has been able to find answers to those issues through the practice of a modern religion that was based on some of the oldest principles of the ancient world. *A Wiccan Bible* takes you through the journey of life in three stages: • Maiden and Master: Creation, Wiccaning, and Self-dedication. • Mother and Father: Initiation, Handfasting/Handparting, and the Wheel of the Year. • Crone and Sage: Community, the world, and death. Mythology and science converge as the author details a life's journey into a religion with both old world ritual and new world science, fusing both into a creation myth which satisfies not only mind, but soul as well. *A Wiccan Bible* not only shows a religious path filled with joy, but one that offers the ability to accept and manage sorrow. It is filled with ritual and with the reasons why ritual is fulfilling, rewarding, and a necessary part of everyday life. As A.J. addresses each issue, he demonstrates not only how he found the solutions in Wicca, and the many ways in which science and magick have helped him to do so. *A Wiccan Bible* also contains select recipes that the author has collected, including mixtures for incense, oils, and baths.

An Ecofeminist Perspective on Ash Wednesday and Lent Sylvia A. Sweeney 2010 *An Ecofeminist Perspective on Ash Wednesday and Lent* develops a conversation between classical historical Lenten practices and contemporary Christian

ecofeminism. Building on David Tracy's definition of a religious classic, it includes a historical examination of the development of Lent and the Ash Wednesday rites beginning from wellsprings in the early church traditions of penance, catechumenal preparation, and asceticism through medieval and reformation expressions of the rite to their twentieth-century Episcopal iteration in the 1979 Book of Common Prayer. In the discussion of ecofeminism, women's death experiences and current ecofeminist writings are used to develop an ecofeminist hermeneutic of mortality.

Triumph of the City Edward Glaeser 2011-02-10 Shortlisted for the Financial Times and McKinsey Best Book of the Year Award in 2011 "A masterpiece." –Steven D. Levitt, coauthor of *Freakonomics* "Bursting with insights." –The New York Times Book Review A pioneering urban economist presents a myth-shattering look at the majesty and greatness of cities America is an urban nation, yet cities get a bad rap: they're dirty, poor, unhealthy, environmentally unfriendly . . . or are they? In this revelatory book, Edward Glaeser, a leading urban economist, declares that cities are actually the healthiest, greenest, and richest (in both cultural and economic terms) places to live. He travels through history and around the globe to reveal the hidden workings of cities and how they bring out the best in humankind. Using intrepid reportage, keen analysis, and cogent argument, Glaeser makes an urgent, eloquent case for the city's importance and splendor, offering inspiring proof that the city is humanity's greatest creation and our best hope for the future.

The Christian Union Henry Ward Beecher 1887

Robert Elsmere Mrs. Humphry Ward 2013 First published in 1888, Robert Elsmere was probably the biggest-selling novel of the nineteenth century. Inspired by the religious crises of her father, Ward tells the story of an Oxford clergyman who begins to doubt the doctrines of the Anglican church after he encounters the work of German rationalists. Rather than becoming an atheist, Elsmere pursues the idea of "constructive liberalism," stressing the importance of social work among the poor and uneducated. The Times called it "a clever attack upon revealed religion," and William Gladstone's copy was annotated with objections to Ward's heterodoxy. In the Victorian age, nothing was more likely to generate publicity than religious controversy, and Robert Elsmere became a runaway success. More than one million copies were sold, generating around 4,000 in royalties, which would today put Ward in the millionaire author bracket. Her earning would have been higher if it weren't for the absence of international copyright laws when Robert Elsmere was first published. Many cheap US editions were hurriedly produced to cash in on its success. Some were sold as loss leaders for just 4 cents, and other copies were given away free with every cake of Maine's Balsam Fir Soap, conveying the idea that cleanliness was next to godliness. Out of print for twenty five years, this new edition brings Ward's publishing phenomenon to a new audience. The text is completely reset, and the edition includes: * critical introduction by Miriam Elizabeth Burstein * explanatory notes * excerpts from Gladstone's famous review of Robert Elsmere * extracts from Ward's David Grieve

Good Economics for Hard Times Abhijit V. Banerjee 2019-11-12 The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

Unlikely Friendships Jennifer S. Holland 2011-06-15 The "irresistible" New York Times bestseller that "features heartwarming stories of interspecies love and adorable photographs" (The New York Times Book Review). Written by National Geographic magazine writer Jennifer Holland, *Unlikely Friendships* documents one heartwarming tale after another of animals who, with nothing else in common, bond in the most unexpected ways. A cat and a bird. A mare and a fawn. An elephant and a sheep. A snake and a hamster. The well-documented stories of Koko the gorilla and All Ball the kitten; and the hippo Owen and the tortoise Mzee. And almost inexplicable stories of predators befriending prey—an Indian leopard slips into a village every night to sleep with a calf. A lioness mothers a baby oryx. Holland narrates the details and arc of each story, and offers insights into why—how the young leopard, probably motherless, sought maternal comfort with the calf, and how a baby oryx inspired the same mothering instinct in the lioness. Or, in the story of Cashew, the lab mix that was losing his eyesight, and Libby, the stray cat who began to guide the dog's way through the house and yard. With Libby, Cashew lived out his last few years with loving support and a lasting friendship. These are the most amazing friendships between species, collected from around the world and documented in a selection of full-color candid photographs. "The feel-good book of the summer—maybe the year—may very well be *Unlikely Friendships*." —USA Today "With aww-inducing photographs, the book highlights the most improbable animal connections." —National Geographic

Creating the National Park Service Horace M. Albright 1999 Two men played a crucial role in the creation and early history of the National Park Service: Stephen T. Mather, a public relations genius of sweeping vision, and Horace M. Albright, an able lawyer and administrator who helped transform that vision into reality. In *Creating the National Park Service*, Albright and his daughter, Marian Albright Schenck, reveal the previously untold story of the critical "missing years" in the history of the service. During this period, 1917 and

1918, Mather's problems with manic depression were kept hidden from public view, and Albright, his able and devoted assistant, served as acting director and assumed Mather's responsibilities. Albright played a decisive part in the passage of the National Park Service Organic Act of 1916; the formulation of principles and policies for management of the parks; the defense of the parks against exploitation by ranchers, lumber companies, and mining interests during World War I; and other issues crucial to the future of the fledgling park system. This authoritative behind-the-scenes history sheds light on the early days of the most popular of all federal agencies while painting a vivid picture of American life in the early twentieth century.
