Inside Jazz (inside Bebop) Leonard Feather 1977-11-21 Critic Leonard Feather was one of the earliest and most persistent champions of bop. It was he who persuaded RCA Victor that the new music was worth recording. His Inside Jazz is a full-length account of bop: its origins and development and the personalities of the musicians who created it. Numerous photographs and anecdotes bring this innovative era in jazz history back to life once more.

*Pro Git* Scott Chacon 2009-10-06 Git is the version control system developed by Linus Torvalds for Linux kernel development. Sparky's Hero Cowbilly Willy 2016-03-09 SPARKY'S HERO A Bedtime Story A

Storybook for Young Readers Sparky is a 3 month old colt living on a farm in rural Thailand. Yama-Haha is a little blue motorcycle that happens to think he is a horse! The two meet and become great friends, but Sparky's parents disapprove of his new friend... he's too different! Angry and hurt, Sparky runs away from home, and into the Rubber Tree forest called "The Spookies." Soon Sparky finds himself lost in the dark and in REAL danger! Can Yama find and save his friend before its too late? This story can help young people deal with fear of the dark, honesty, prejudice, friendship, responsibility for one's actions, and that sometimes even loving parents make mistakes. 50 pages with full page color illustrations on every page turn. Just the right size for a 25 minute bedtime story for young children, or an early adventure for elementary students. Includes Storyteller's Notes with interesting facts about life in Thailand that can be brought up during, or after the reading. This helps keep the story interesting for young listeners. Sure to become a favorite!

Beginning Mac OS X Snow Leopard Server Charles Edge 2010-09-19 This book is intended for those who need to get things done with Mac OS X Server 10.6. As such, you can use this book two ways. Those new to Mac OS X Server can read straight through the entire book, and by the end should feel competent to administer any Mac server thrown their way. For those with some knowledge of Mac OS X Server, or perhaps a thorough knowledge of other Unix-based servers, the book is arranged by tasks so that you can either start reading at any point, skipping material you already know, or pick and choose the chapters you'll find most helpful to your own work or system needs. This task-oriented approach also makes the book useful as a general reference for all aspects of Mac OS X Server. Throughout the book, special emphasis is given to the new features of the latest release, Mac OS X Server 10.6, a.k.a. Server Snow Leopard. For instance, you'll find out how to integrate an iPhone with Mac OS X Server using the new Mobile Access features, or how to install an SSL certificate in the web service, Apache. Task-oriented approach to server administration makes it easy to find and accomplish what needs to get done Thorough subject coverage including workflows for Mac OS X Snow Leopard Server GUI-level features, command-line features, and alternatives Features introductory material for new administrators, emphasis on new features for upgrading to Snow Leopard Server, and more advanced material for experienced IT and enterprise administrators who want to get the most out of Mac OS X Snow Leopard Server

**Poogy and Puny** Dusty Macpherson 2015-03-03 Follow Poogy (Poo'gee) and Puny

(Pu'nee) on a quest to find more food in old New Orleans, Louisiana. An excellent tale teaching kids why they should help keep the house clean, and how the grass is not always greener on the other side!

I look forward to hearing about your success!

**Forty Centuries of Wage and Price Controls** Robert L. Schuettinger. The Mises Institute is thrilled to bring back this popular guide to ridiculous economic policy from the ancient world to modern times. This outstanding history illustrates the utter futility of fighting the market process through legislation. It always uses despotic measures to yield socially catastrophic results. It covers the ancient world, the Roman Republic and Empire, Medieval Europe, the first centuries of the U.S. and Canada, the French Revolution, the 19th century, World Wars I and II, the Nazis, the Soviets, postwar rent control, and the 1970s. It also includes a very helpful conclusion spelling out the theory of wage and price controls. This book is a treasure, and super entertaining!

Iris in Winter Elizabeth Cadell High Ambo, in England, is the setting. It is winter, and Caroline West—a very human, placid and unexcitable person, has gone there to escape her late husband's relatives. Like so many good-hearted people, she is immediately put upon. Caroline's sister Iris comes first, full of impulse and determination to be a reporter—an ambition abruptly deflected by a handsome young schoolmaster—an authority on birds. Then comes Robert, with his sweet, ingenuous fiancée Polly, and thus making the three-ring circus of a genuine Cadell household. A great number of little boys with big ears and caps are supporting players—English private school variety. Altogether, this book is in the happiest tradition of the English social comedy, and those who want to find as much life and laughter as possible between the covers of a novel will enjoy reading it.

**The Mac OS X.2 Power User's Book** Gene Steinberg 2003 Describes how to set up networking functions using OS X.2, covering such topics as adding and removing users, retrieving data and files from remote servers, configuring firewalls, and using AppleScript for system automation.

*The Simple Dog Book* Roxane Knott 2014-12-23 'I found with years of human/dog training and reading many books on training, sometimes, the simplest things were missing from the human/dog instructions. Answering many calls to assist families and their dogs, I decided to put all the 'most asked for' solutions in one place.' Roxane Knott This is a guide to help you with your new, or long standing, Canine family member. If you are delving into the adventures of dog ownership or looking for ways to get over those doggie hurdles with some straight talking then this is a great book for you. It gives you all the simple, little tips to fill in the missing spaces of those major dog training techniques.

Free Roll Brandt Tobler 2017-05-22 Have you ever wondered: What it's like to daily bet hundreds of thousands of dollars working for some of the largest professional gamblers in Las Vegas? ... How to spend a summer house sitting one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from its celebrity owner ... Whether the life of crime - specifically, running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring comic. Brand tells his life story with candor, detailing the many pit stops, wrong turns, crazy connections and lucky breaks he experienced along the way to his comedy career, all while trying to balance a toxic relationship with his unreliable jailbird dad. In these pages Brandt will make you laugh (he better - it's his job!) and believe as he does that, when it comes to defining family, blood isn't always thicker than water. -- back cover.

**Benevolent** Devon Trevarrow Flaherty 2013-02 Gaby LeFevre is a suburban, Midwestern firecracker, growing up in the 80s and 90s and saving the world one homeless person, centenarian, and orphan at a time. With her crew of twin sister, Annie, smitten Mikhail, and frenemy Mel, she's a pamphlet-wielding humanitarian, tackling a broken world full of heroes and heroines, villains and magical seeds, and Northwyth stories. Beginning with a roadkill-burying nine-year-old and a gas-leak explosion, it follows Gaby as she traverses childhood and young adulthood with characteristic intensity and a penchant for disaster.

Meanwhile, the large cast of compelling characters entertains and the Northwyth legends draw you into their magic.

**A Short Media History of English Literature** Ingo Berensmeyer 2022-08-01 This book explores the history of literature as a history of changing media and modes of communication, from manuscript to print, from the codex to the computer, and from paper to digital platforms. It argues that literature has evolved, and continues to evolve, in sync with material forms and formats that engage our senses in multiple ways. Because literary experiences are embedded in, and enabled by, media, the book focuses on literature as a changing combination of material and immaterial features. The principal agents of this history are no longer genres, authors, and texts but configurations of media and technologies. In telling the story of these combinations from prehistory to the present, Ingo Berensmeyer distinguishes between three successive dominants of media usage that have shaped literary history: performance, representation, and connection. Using English literature as a test case for a long view of media history, this book combines an unusual bird's eye view across periods with illuminating readings of key texts. It will prove an invaluable resource for teaching and for independent study in English or comparative literature and media studies.

**The Little Mac OS X Book** Robin Williams 2002 Demonstrates the operating system's updated interface, covering Mac fundamentals as well as protected memory features, multitasking, Sherlock, and Internet connectivity.

*The Little Mac Book, Snow Leopard Edition* Robin Williams 2009-09-25 Adopting a back-to-the-basics approach, this bestselling little Mac classic has been revised and overhauled to introduce users to Snow Leopard, Apple's newest

version of its operating system. In the gentle, friendly, funny style that generations of computer users have come to know and love, author Robin Williams shows readers how to dive in and start working with the Mac and OS X Snow Leopard. This full-color little book walks readers through all of the key new features in Snow Leopard. Using straightforward, jargon-free explanations delivered in logical, easy-to-follow sections, Robin is a new user's personal guide, coaching and encouraging readers as they learn their way around the magic of the Mac.

**Little Book of Light** Anna Lieb 2014-02-06 An inspirational and handy book of consciousness and love. Bring it with you on your daily journey for happiness everywhere you go.

Calculus Made Easy Silvanus P. Thompson 2014-03-18 Calculus Made Easy by Silvanus P. Thompson and Martin Gardner has long been the most popular calculus primer, and this major revision of the classic math text makes the subject at hand still more comprehensible to readers of all levels. With a new introduction, three new chapters, modernized language and methods throughout, and an appendix of challenging and enjoyable practice problems, Calculus Made Easy has been thoroughly updated for the modern reader.

**Mac OS X Little Black Book** Gene Steinberg 2001 This Mac guide provides detailed instruction on installation and step-by-step information on setting up user preferences. It introduces the new Finder with various preferences and shortcuts and advises on how to organize the Mac desktop for maximum efficiency.

**Dawn** sir Henry Rider Haggard 1884

*The New Magnified Version of Isaiah in Plain English!* Mark Revolutionary Twain, Jr. 2016-07 The Book of Isaiah is very Rich with Metaphors and Similes, if you are in Love with them, or not; but, most Poor People are not: beCause the Metaphors are far too "Foggy" for them to Understand, which Means that they must Practice Reading all such Books, just to get a Good Understanding of them. At any rate, this Version of Isaiah is by far the Best in the World, and is Rated as "Extremely Good" by Well-Educated People. Therefore, it is a "must read" Book, if anyone is Interested in Actually Understanding the Bible. Most People are not; but, that is not a Problem: because most People were not Born to be Masters. Indeed, most were Born to be Good Servants of Good Masters, which is Good: because the Masters are like the Head of the Body of Good Government, which Body must have many other Working Parts and Organs, just to Function Correctly as a Body. Therefore, do not let the Hands Despise the Eyes: beCause, what could the Hands Do without Eyes to Guide them, even if the Eyes belong to some other Person, who can See what is Needed. We suggest that Readers of this Inspired Book take their Sweet Time, and read only a few Chapters each Day, and do not attempt to read the entire Book during one Day, even though it will be Tempting to Finish it, quickly, just to Discover those Precious Parts that make it so Famous and Controversial among Religious

Scholars, some of whom are very Perplexed by it: because no one can Rightly Deny that God, himself, is Speaking through "Isaiah," who may have been Reincarnated! Indeed, there is the Possibility of it; but, do not let that "Buck you Out of the Saddle," as a Cowboy might say. Remember that this is a Companion Book of: "The New MAGNIFIED Version of The Book of MOORMUN!" (The Story of the White and Dark Indians in the Americas!), Book 040, which is perhaps the Best Modern Book in the whole World! Yes, unlike the Mutilated Bible, the Book of Mormon is much more Understandable, being "a New Revelation from God," you might say; but, it is nothing quite as Enlightening as the New MAGNIFIED Version, which most Definitely contains New Revelations from the Supreme Ruler of this Heaven and Earth. Therefore, do not let the Sun Set on another Day of Deprivation; but, PLEASE, for your own Sake, Educate yourself with all such Good Books: beCause that is True Wisdom on your part, which will make you Glad that you did. Guaranteed!
