The humans who escaped to the Galactic Milieu are now beset on all sides, as they seek a foothold in this turbulent land. Aiken Drum, now King, has many enemies, but the Firvulag seem set to move first to initiate their long-prophesied Nightfall War. Aiken, and his enlightened despotism is preferable to Marc Remillard's cruel ambition. The Book in the Dresser Drawer Brian Miller 2016-01-21 The Book in the Dresser Drawer Brian Lee Miller The Midwesterner boy had a blessed upbringing hunting, fishing, working, and playing in rural and urban settings. As a presumed misfit he struggled with color blindness, speech disorders, and life's decisions. Portrayed is a teenager who had an encounter with Muhammad Ali, and as a young man lived homeless in his truck while purchasing his first house at eighteen years-old. The blue collar worker crashed a racecar, confronted three near-death situations, and eluded being paralyzed in a fluke accident. Later in life, he competed on a college football team and received an elementary school teaching degree. The wannabe adventurer encountered a WWII German soldier, dwelled among the descendants of the Apache Chief, Geronimo, and slept through a tornado. After ending a twenty-four year marriage, he suffered through depression and suicidal thoughts. The chronicle closes with happiness rediscovered through Jesus, forgiveness, fireflies, marathons, grandchildren, and daydreams of future adventures.

Celtic Fire Liz Gavin 2017-01-25 When ancient gods ruled and Druids kept Faith alive, the Celts thrived as a democratic, matriarchal society. Then savage Roman soldiers swept across Europe, killing and enslaving. The Celts did not succumb without a fight. Their Old Ways survived centuries of ruthless domain until another menace loomed: a tortured god worshiped in cold stone buildings. The sacred shores of Avalon began to drift away, the mists threatened to hide the island from mortal eyes forever. Against the bleak backdrop of war, the gorgeous Scottish Highlands stood tall, sheltering its inhabitants from greedy invaders. Yet the reach of the eagle banners was long and the highlanders turned to the Goddess for protection. However, the sacred groves felt silent and grim as Avalon faded away. Once sad, pealing bells began to sound strangely comforting while the high walls of monasteries offered an alluring barrier from violence. Caught in the middle of this centuries-old war, a young High Priestess might be Avalon's last chance. Wise beyond her years and powerful like no other Priestess in her lifetime, Rowen had served the Goddess faithfully, forsaking her family and the company of her soulmate. When the Lady of the Lake asks for another sacrifice, it might be one too many for her scarred heart. How could she obey the Goddess without betraying Caddaric? Could she trust Eochaid, who embodied everything she despised and hated? Would she be able to fulfill her duties without losing her soul? Caddaric had been Rowen's companion in countless lives; but, now, they existed in different realms. Beautiful Rowen lived in the mortal world while sweet Caddaric remained in the sacred isle of Avalon, watching over her. Could he step aside to allow another man - a flesh and blood man - to become her protector? Eochaid had sworn to protect the Old Ways. The rude warrior never quite understood his faith yet his loyal heart belonged to the Goddess. A gorgeous, fiery High Priestess was not in his plans. He would risk his life to protect Rowen; but, would the Goddess safeguard his heart? Could he defend the bewitching maiden from himself? When stakes were so high that a simple mistake could cost their very world, a priestess, a Druid, and a warrior must learn to trust one another and the mysterious ways of the Goddess. Their success would save Avalon. Their failure would tear the island from the human realm forever, condemning it to oblivion. Failure was not an option. This is a standalone, historical/paranormal romance. Its mature themes - sexual violence, religion, and pagan rituals - might not be appropriate for audiences under 18.

The Adversary Julian May 1984-04-15 In the final novel of the award-winning sci-fi saga, both humans and aliens face destruction as a new time-portal opens a path back to the twenty-second century. Human time-travelers from the sophisticated Galactic Milieu of the twenty-second century came to the Pliocene Epoch seeking a Garden of Eden. What they found was slavery under the knightly Tanu race, who had been exiled to Earth from a far galaxy. Freed by the usurper Aiken Drum, the humans enjoy a brief period of dominance. But now King Aiken's rule is threatened by the dwarfish Firvulag, who scheme to destroy both humans and Tanu in an ultimate Gotterdammerung. This menace becomes almost incidental when Aiken discovers that his realm is about to be invaded by another human who possesses psychic powers even greater than his own. Marc Remillard, the instigator of the Metapsychic Rebellion, nearly conquered the Galactic Milieu before escaping through the time-portal after his defeat. Marc and his followers are out to overthrow Aiken just as a new time-gate is about to be built—one that will provide a two-way portal between the Many-Colored Land and the future world of the Milieu. *The Adversary* brings Julian May's Locus Award-winning series—which also includes *The Many-Colored Land*, *The Golden Tore*, and *The Nonborn King*—to a rousing climax.

The Many-Coloured Land: Exiles 1 Julian May 1988-11-30 For a troubled band of misfits, the adventure is about to begin. In the 22nd Century, a group of misfits and mavericks are preparing to leave behind everything they have known. Advanced technology has created a one-way time portal to Earth's Pliocene Era - six million years ago. Those seeking a better life are drawn to the promise of a simple utopia, far from the civilised Galactic Mileu. But no one could have predicted the dangers on the other side. For the group will enter the battleground of two warring alien races, exiled from a distant planet. And these races not only have potent mind powers, but seek to exploit and enslave humans for their own needs. The travellers are about to discover that their unspoiled paradise is far from Eden.

Intervention Julian May 1987-09-28 They have always been among us—the telepaths, the persons possessing higher mind-powers that have been called "metapsychic"—but they have always been few and far between and their abilities weak or erratic. Until now ...Human evolution makes a quantum leap. And all over the world, people begin to be born with extraordinary minds. Some of them are geniuses and some are very ordinary. But all of these metapsychic operants have mind-powers that "normal" humanity considers amazing—and dangerous. Intervention paints this advent of Homo superior in a broad and colorful chronicle that begins in 1945 and culminates in 2013. Its many characters reveal the impact of higher mind-powers upon the possessors themselves, upon their "normal" associates, and upon a troubled society striving to avoid nuclear annihilation. The metapsychic operants are secretive and fearful at first. When they reveal themselves they are regarded with awe, exploited, and finally persecuted. They are torn by the dilemma of what role to play: are they destined to save the "normals" from global war, even if it means that they must use their mental powers to subjugate the race that gave birth to them? The book's principal protagonists are members of the Remillard family of New Hampshire—whose descendants are featured in Julian May's Saga of Pliocene Exile, a worldwide best-selling quartet that combined science fiction and cerebral adventure. Intervention details with humor, thundering action, and scientific insight a world where the human mind does much more than think—a world that is fantastic, but by no means implausible.

The Many-Colored Land Julian May 1981-04-17 In the year 2034, Theo Quderian, a French physicist, made an amusing but impractical discovery: the means to use a one-way, fixed-focus time warp that opened into a place in the Rhone River valley during the idyllic Pliocene Epoch, six million years ago. But, as time went on, a certain usefulness developed. The misfits and mavericks of the future—many of them brilliant people—began to seek this exit door to a mysterious past. In 2110, a particularly strange and interesting group was preparing to make the journey—a starship captain, a girl athlete, a paleontologist, a woman priest, and others who had reason to flee the technological perfection of twenty-second-century life. Thus begins this dazzling fantasy novel that invites comparisons with the work of J.R.R. Tolkien, Arthur C. Clarke, and Ursula Le Quin. It opens up a whole world of wonder, not in far-flung galaxies but in our own distant past on Earth—a world that will captivate not only science-fiction and fantasy fans but also those who enjoy literate thrillers. The group that passes through the

time-portal finds an unforeseen strangeness on the other side. Far from being uninhabited, Pliocene Europe is the home of two warring races from another planet. There is the knightly race of the Tanu—handsome, arrogant, and possessing vast powers of psychokinesis and telepathy. And there is the outcast race of Firvulag—dwarfish, malevolent, and gifted with their own supernatural skills. Taken captive by the Tanu and transported through the primordial European landscape, the humans manage to break free, join in an uneasy alliance with the forest-dwelling Firvulag, and, finally, launch an attack against the Tanu city of light on the banks of a river that, eons later, would be called the Rhine. Myth and legend, wit and violence, speculative science and breathtaking imagination mingle in this romantic fantasy, which is the first volume in a series about the exile world. The sequel, titled *The Golden Torc*, will follow soon.

The Nonborn King Julian May 1983-02-18 In Pliocene Europe, warring races of aliens and humans face a new threat from North America in the third novel of the Locus Award-winning sci-fi series. A group of misfits from the twenty-second century have travelled six million years back in time to the Pliocene Epoch. But instead of an uninhabited paradise, they discover a land overrun with two alien races—each possessing great psychic powers—locked in bitter war. After escaping the knightly Tanu, a group of humans forms an uneasy alliance with the dwarfish Firvulag. But even after they succeed in destroying the Tanu capital, the war is far from over. Aiken Drum, a human with awesome mental powers, has usurped the Tanu throne. Aiken faces opposition from skeptical Tanu factions, as well as the revitalized Firvulag, who now outnumber the Tanu-human coalition that Aiken has patched together. But another menace emerges to threaten Aiken's rule: a group of fearsome rogues from the year 2083, who have been living quietly in North America for decades. Led by Marc Remillard, they now seek to take advantage of the chaos in King Aiken's Many-Colored Land in order to seize control of the time-portal. *The Nonborn King* features the same blend of adventure, rich pageantry, humor, and fantastic eroticism that characterized *The Many-Colored Land* and *The Golden Torc*.

A group of talented misfits from a future society chose to pass through a time-portal into the unknown dangers of a world six million years past, the world of the Pliocene. They emerged in a proto-Kurope inhabited by two extraterrestrial races — the chivalric Tanu and the dwarfish, forest-dwelling Tirvulag. both of which possessed far-reaching psychic powers. The humans soon became involved in the age-old struggle between the two. *The Golden Torc* picks up the story as one group of captured humans is brought to Muriah. the stately capital of the Tanu kingdom. Among them is Elizabeth Orme. who was once, in her own world, a Grand Master Metapsychic. In spite of Tanu harassment, she begins to recover her lost powers. Also in this group is Bryan Gren-fell. an anthropologist seeking his lost love. And there is Aiken Drum, an adventurer, schemer, and trickster who has the talent and ambition to become a ruler in this strange new-old world. The other human group, which has managed to overcome its Tanu guards and

escape into the northern forests, includes Chief Burke, an American Indian, and Felice Uindry, an athlete gifted with certain psychic powers of her own. This group, with the ambiguous aid of the Firvu-lag, determines to launch an attack against the very heart of Tanu dominance. At the end of the Grand Combat tournament between Tanu and Kirvulag comes the astonishing climax to this astonishing novel. Fritz Leiber says the series is "altogether enchanting and engrossing." Vonda McIntyre comments, "It's action-oriented and vivid"; and Joe W. Alderman says. "It's one of the best-thought-out futures ever encountered in science fiction."

Intervention Julian May 2013-02-14 For 60,000 years, the worlds of the Galactic Milieu have observed Earth, waiting for humanity to evolve sufficiently to join them. Now, humanity is almost ready for Intervention. Across the world, children with unusual mental powers are being born, known as operants. One such is Rogi Remillard, humble book dealer. Helped by an entity he labels the family ghost, Rogi will inadvertently steer his family - and so all mankind - into the future. Rogi's journey starts with his nephew Denis, as he guides his strong metapsychic abilities. The young man's irresponsible father certainly isn't interested, focusing instead on his volatile son Victor. Yet Victor's own emerging powers make him increasingly dangerous. Events take a dark turn when Victor starts consorting with criminals, eventually setting his sights on undermining society itself. Only his family can bring him down, but Denis may be forced to call to the stars for help.
