Muslim Girl, Growing Up Natalia Nabil 2018-01-05 "How can I prepare her for this new phase? I wanted to find a resource that can explain the details of this special stage while also integrating the important aspects of it from the Islamic religion. Being from the West, most books I found only explained the physiological changes. But I found that Muslim girls, especially ones from Western countries, need to know more about the religious implications of this stage. So I decided to write this guide to help young girls understand the basic things a Muslim girl should know about puberty, including the religious aspects that come along with it. However, this guide is just a starter to the journey ahead. I encourage parents to talk with your teens and pre-teens about this important stage of life to have a full and thorough understanding." - Natalia Nabil Includes: What is puberty and its stages. Hygiene tips. Religious duties to perform. And ones to stay away from. And much more

*The Muslim Marriage Guide* Ruqaiyyah Waris Maqsood 2000 Originally published: London: Quilliam Press, 1995.

*Muslim Women in the Economy* Shamim Samani 2020-04-17 This book explores the changing role of Muslim women in the economy in the twenty-first century. Sociological developments such as secular education, female-focused policies, national and global commitments to gender equality as well as contemporary technological advances have all served to shift and redefine the domestic and public roles of Muslim women, leading in many places to increases in workplace participation and entrepreneurship. The volume investigates the contexts of these shifts and the experiences of women balancing faith and other commitments to actively engage in the economy in vastly different countries. The book looks at how family codes and the understandings of Muslim male and female roles sit alongside social and economic advances and the increases in women partaking in the economy. Within a globalised world, it also highlights the importance of the implementation of the current sustainable development

priorities in the context of Muslim societies, including Sustainable Development Goal 5 that focuses on the vital role of women and their full participation in all areas of sustainable development. With cases ranging from Saudi Arabia, Iran, Bangladesh, Pakistan, Indonesia, Nigeria, Kenya through to Spain, Bulgaria and Australia, Muslim Women in the Economy will be of considerable interest to those studying, researching and interested in gender, development and religious studies.

**From ISA to Christ** Mona Sabah 2017-02-07 What happens when you give up everything to pursue Christ? This is a fascinating true story of a Muslim woman who moved to the United States from Pakistan, lived in a Muslim community in California and then shocked everyone by thwarting the tradition of arranged marriage by marrying an American. She was disowned for that action, but then was reconciled with her family when she agreed to have a Muslim and a Christian wedding ceremony. After the events of 9/11, she decided to delve deeper into her faith by reading the Quran and praying to Allah. When she encountered the chapter on Jesus (Isa in the Surah Maryam), she couldn't figure out why this prophet was so different. She then prayed to God to give her the truth and show her the way. He pointed to One: Jesus Christ. This book addresses her journey and stresses the importance of sharing the Good News of Christ. Mona lived in the United States for 25 years without an authentic witness to the pure Gospel. She shares how the Hand of God reached out and closed the gap between the East and the West.

**The Ideal Muslimah** Ibn Kathir 2018-02-15 The Ideal Muslimah This an incredibly sane book, which can help a woman (who is truly female), keep her head on straight and not get lost in a very dangerous game where she only stands to lose. Satan will try to convince women that they have the right to challenge the boundaries of their existence. This book more than anything can help a woman become a decent, loving, compassionate and honest person, which is a huge challenge for most people. This is an excellent book to not only have as a reference book, but to read many times. The book covers everything from the relationship to Allah (God), hospitality to Marriage and family.

Why Muslim Women and Smartphones Karen Waltorp 2020-02-20 Using an assemblage approach to study how Muslim women in Norrebro, Denmark use their phones, Karen Waltorp examines how social media complicates the divide between public and private in relation to a group of people who find this distinction of utmost significance. Building on years of ethnographic fieldwork, Waltorp's ethnography reflects the trust and creativity of her relationships with these women which in turn open up nuanced discussions about both the subject at hand and best practice in conducting anthropological research. Combining rich ethnography with theoretical contextualization, Waltorp's book alternates between ethnography and analysis to illuminate a thoroughly modern community, and reveals the capacity of image-making technology to function as an infrastructure for seeing, thinking and engaging in fieldwork as an anthropologists. Waltorp identifies a series of important issues around anthropological approaches to new media, contributing to new debates around the anthropology of automation, data and self-tracking.

Armajani vividly describes their perspectives on women and gender, veiling, Islamic revivalism, Islam and democracy, and Islamic mysticism. anorexia nervosa and believes that her problem has its roots in magic; parents are helpless in the face of their son's substance abuse issues; an interracial couple cannot agree on how to discipline their children. How would you effectively help these clients while balancing appropriate interventions that are sensitive to religious, cultural, social, and gender differences? This handbook answers these difficult questions and helps behavioral health practitioners provide religio-culturally-competent care to Muslim clients living in territories such as North America, Australia, and Europe. The issues and interventions discussed in this book, by authoritative contributors, are diverse and multifaceted. Topics that have been ignored in previous literature are introduced, such as sex therapy, substance abuse counseling, university counseling, and community-based prevention. Chapters integrate tables, lists, and suggested phrasing for practitioners, along with case studies that are used by the authors to help illustrate concepts and potential interventions. Counseling Muslims is also unique in its broad scope, which reflects interventions ranging from the individual to community levels, and includes chapters that discuss persons born in the West, converts to Islam, and those from smaller ethnic minorities. It is the only guide practitioners need for information on effective service delivery for Muslims, who already bypass significant cultural stigma and shame to access mental health services.

Dare to Thrive Umm Noorayn 2021-03-24 If you were on your deathbed, and you think about your life in retrospect, what would it look like? What would you regret deferring in your

personal growth journey? What legacy would you see yourself leaving behind? Would you have dared to make a difference in the lives of others? Would you have dared to strive within your capacity to be the best that you were created (by Allaah) to be? Would you have dared to stand for what you believed in? These thought-provoking questions are at the core of the eye-opening and awe-inspiring book, *DARE to THRIVE: The Muslim Woman's Guide to a Remarkable personal evolution*. This book was born out of Umm Noorayn's passion for giving Muslim women a helping hand in living mindfully. In the book, Umm Noorayn deeply explains why Muslim women need to be obsessed with their personal growth in all spheres of life - emotionally, physically, spiritually, mentally, financially, and more. She then presented actionable steps-backed up with evidence from the Qur'an and the Sunnah-to explain exactly how Muslim women can dare to thrive in the journey of life (while preparing for the hereafter). So, if you're ready to let go of your traumatic experience(s), live more authentically, speak your truth, set healthy boundaries, live your life from a place of emotional intelligence, become more connected to your Creator, and embrace personal growth the Muslim woman way, this book is for you. Grab your copy of *Dare to Thrive* (Plus a FREE *Dare to Thrive* workbook inside). "I find her words soothing and yet authoritative. She gives no room to wallow in an exhaustive self pity. She merges you with the words of your Creator and succeeds in churning out a unique invisible strength you actually always had, but never harnessed." (Mariam Ashraff, Educator) "Masha Allah. *DARE TO THRIVE* is all kinds of amazing: from the warm, direct and humorous way the Author addresses her readers, creating a kind of warmth in our hearts and making listening (to her advice) and relating (to cited experiences) very easy and interesting. This book shouldn't be read in one sitting. A slow and gradual reading would do. Else, one would miss the little gems of words that make the greatest of impact. If you're a Muslimah looking for a way to grow and develop yourself spiritually, financially, emotionally and psychologically, *DARE TO THRIVE* is certainly the book for you. The book for all! Jazaki Allahu Khayran to the Author." (F. I. Uthman, Storyteller, poet) "There are too many sweet spots in it for me and as someone who's on the journey of personal growth herself, consciously choosing to do good over the desires of the heart, making the decision to forgive rather than retaliate or revenge or prove a point, this book came in just at the right time. Every new chapter proves to be better than the next. I told myself "this is my favourite chapter" from the very first chapter till the last. Every hadith, quote, Quranic verse was a hit back to back. For people like me who have been blessed with a short attention span, this book is exactly the kind of non-fiction we need. It is more like having a conversation with someone we vibe with, someone on the same energy level as us, very relatable and filled with pun in a way that makes over a hundred pages easy to read and quickly at that with a smile on your face from the beginning till the very end. It never got slow or boring at all. (Musa Juwairiyah, Medical Laboratory Scientist) Click the buy now button above, and start your personal growth journey the Muslim woman way!

Muslim Women, Domestic Violence, and Psychotherapy Nazila Isgandarova 2018-09-03 Muslim Women, Domestic Violence, and Psychotherapy reconciles newly emerging Islamic practical theology with the findings and theories of contemporary social sciences. It is an inquiry about the lived experience of the Islamic tradition and its application in Islamic counseling with Muslim women subject to domestic violence. By incorporating a holistic examination of the worldview, personhood, and understanding of social and religious obligations of Muslim women in counseling, this book shows how practitioners can empower clients facing trauma and abuse to explore feasible solutions and decrease worry, anxiety, and other negative emotions.

*Muslim Women, Transnational Feminism and the Ethics of Pedagogy* Lisa K. Taylor 2014-06-27 Following a long historical legacy, Muslim women's lives continue to be represented and circulate widely as a vehicle of intercultural understanding within a context of the "war on terror." Following Edward Said's thesis that these cultural forms reflect and participate in the power plays of empire, this volume examines the popular and widespread production and reception of Muslim women's lives and narratives in literature, poetry, cinema, television and popular culture within the politics of a post-9/11 world. This edited collection provides a timely exploration into the pedagogical and ethical possibilities opened up by transnational, feminist, and anti-colonial readings that can work against sensationalized and stereotypical representations of Muslim women. It addresses the gap in contemporary theoretical discourse amongst educators teaching literary and cultural texts by and about Muslim Women, and brings scholars from the fields of education, literary and cultural studies, and Muslim women's studies to examine the politics and ethics of transnational anti-colonial reading practices and pedagogy. The book features interviews with Muslim women artists and cultural producers who provide engaging reflections on the transformative role of the arts as a form of critical public pedagogy.

*The Muslimah Sex Manual* Umm Muladhat 2017-07-02 Two years ago, I was congratulating a young Muslimah on her engagement. She was thrilled about starting married life and you could see the happiness emanating from her as everyone gave her their best wishes. A few months later, I could tell something was wrong. After some cajoling, she shyly admitted the truth. Her sex life was horrible. In fact, it was fast becoming non-existent. She had been a

model Muslimah her entire life. Before marriage, she had never so much as held a non-mahram's hand, let alone become physically intimate with one. She had eagerly looked forward to marriage as a chance to finally indulging in all the physical intimacy she had postponed for the sake of Allah. But it wasn't working. Coming from the medical field, she knew all the relevant biology. She could draw and label all the parts of male and female anatomy. She had taken fiqh classes and knew the legal rulings of menstruation and intercourse. But she didn't know sex. Oh, she knew the mechanics. Insert penis into vagina. Climax. Withdraw. But she didn't know how to make her husband yearn for her in bed. She didn't know what he liked. She didn't even know what she liked! They had begun eagerly but after a few weeks, realized that neither of them was truly enjoying having sex with each other. And so began my impromptu sex skills workshop. I threw at her all the information I'd gathered over years of marriage. Things I'd learned from experience, tidbits I'd gleaned from friends, tips I'd picked up from magazine articles. One thing here, two things there. All those bits had accumulated into a very healthy and robust sex life between me and my husband. I gave her everything, fervently hoping that it would help her in her marital life. A month later, I saw her again. This time she had a gigantic smile on her face. "Please, write this down and share it with other Muslim girls. No one teaches this. We're thrown into marriage and only know the fiqh and the biology." I wrote down everything I told her on a Word document and emailed it to her. She shared it with her friends who were newly married. They shared it with their friends. Before long, word trickled back to me that people were asking me to write a book on the subject. So here it is.

of Chinese Hui Muslim women's historic and unrelenting spiritual, educational, political and gendered drive for an institutional presence in Islamic worship and leadership: 'a mosque of one's own' as a unique feature of Chinese Muslim culture. The authors place the historical origin of women's segregated religious institutions in the Chinese Islamic diaspora's fight for survival, and in their crucial contribution to the cause of ethnic/religious minority identity and solidarity. Against the presentation of complex historical developments of women's own site of worship and learning, the authors open out to contemporary problems of sexual politics within the wider society of socialist China and beyond to the history of Islam in all its cultural diversity.
