When Tracy Hogg's *Secrets of the Baby Whisperer* was first published, it soared onto bestseller lists across the country. Parents everywhere became "whisperers" to their newborns, amazed that they could actually communicate with their baby within weeks of their child's birth. Tracy gave parents what for some amounted to a miracle: the ability to understand their baby's every coo and cry so that they could tell immediately if the baby was hungry, tired, in real distress, or just in need of a little TLC. Tracy also dispelled the insidious myth that parents must go sleepless for the first year of a baby's life—because a happy baby sleeps through the night. Now you too can benefit from Tracy's more than twenty years' experience. In this groundbreaking book, she shares simple, accessible programs in which you will learn:

- E.A.S.Y.—how to get baby to eat, play, and sleep on a schedule that will make every member of the household's life easier and happier.
- S.L.O.W.—how to interpret what your baby is trying to tell you (so you don't try to feed him when he really wants a nap).
- How to identify which type of baby yours is—Angel, Textbook, Touchy, Spirited, or Grumpy—and then learn the best way to interact with that type.
- Tracy's Three Day Magic—how to change any and all bad habits (yours and the baby's) in just three days.

At the heart of Tracy's simple but profound message: treat the baby as you would like to be treated yourself. Reassuring, down-to-earth, and often flying in the face of conventional wisdom, *Secrets of the Baby Whisperer* promises parents not only a healthier, happier baby but a more relaxed and happy household as well.

After following the program for two weeks, my child was consistently sleeping 11-12 hours a night and was on a consistent schedule during the day! This program has literally given me my life back." - McKel Neilsen "Two months ago I was at the end of my sleep rope with our 6-month-old, boy/girl twins. Exhausted doesn't begin to explain it, I felt desperate. After using the Baby Sleep Trainer Method we feel like we have our lives back. The babies are happy and well rested, and so are we! We have our evenings back to cook dinner, spend time with our 4-year-old daughter, hang out together, and actually do things we enjoy. Also, rather than the exhausting and often unsuccessful rocking or soothing or feeding to sleep, we were able to put her down awake in her crib and she would fall asleep on her own in just a few minutes. It was just incredible." - Online Review

*Holistic Sleep Coaching: Gentle Alternatives to Sleep Training for Health and Childcare Professionals*  
Lyndsey Hookway 2018-09-04 "Lyndsey Hookway's *Holistic Sleep Coaching* is the book parent-child health professionals have been waiting for regarding infants', children's, and parents' sleep! The comprehensive content is comprised of an exhaustive review of the sleep literature, but it is written in a reader-friendly discussion format. (References are cited in text with the complete reference list in APA alphabetical style at the end.) I appreciate Hookway's evidence-based approach with its emphasis on human sleep biology. Yet her words constantly model sensitivity and empathy for both babies/children and their parents who live in our current cultural landscape of isolated nuclear families dependent on two incomes and often miles from physical support." -Karen Kerkhoff Gromada, MSN, RN, IBCLC, FILCA Author: *Mothering Multiples: Breastfeeding and Caring for Twins or More* "There is much to like in Hookway's book, including her clear understanding of the link between breastfeeding and sleeping, and the importance of sleep for parental mental health. Educating practitioners about normal infant sleep is an important task. Too many are only aware of extinction methods for addressing parental sleep concerns: with *Holistic Sleep Coaching* Hookway is laying the groundwork for the development of a more evidence-based and systematic approach." -Helen Ball, Professor of Anthropology, Director of the Durham Infancy & Sleep Centre (DISC), Founder of the Baby Sleep Info Source (Basis) "As a breastfeeding professional, I was curious and hopeful when I began reading Lyndsey Hookway's book, *Holistic Sleep Coaching*. One of the biggest worries for most new parents is how lack of sleep will impact their family, particularly within the context of breastfeeding. This book is not about training a baby how to sleep, or using dangerous methods that can comprise the breastfeeding relationship. This book IS about understanding how sleep works and how to use that knowledge to understand one's baby. It enables parents to support the uniqueness of their child, continue breastfeeding effectively, and identify how to create the most supportive environment possible to optimize sleep within their distinct

family. I would definitely recommend this book as a MUST for new parents before their baby arrives, as well as an integral resource for all perinatal professionals! -Laurel Wilson, IBCLC, RLC, CLE, CLD, CCCECo-Author of *The Attachment Pregnancy* and *The Greatest Pregnancy Ever* Infants are probably sleeping no differently now than they were 1000 years ago. However, parenting has changed. We are dealing with the paradox of parenting information overload, coupled with time-poverty. Parents know more than ever about the importance of love, attachment and security to young children. They may know about good nutrition, stress management, toxins, skin to skin, breastfeeding, one-to-one time, emotion coaching and organic food. Parents are bombarded with appliances that are supposed to make their lives easier, and yet end up confused about what is really necessary. At the same time, modern parents are leading busy, expensive lives, and have jobs that they love or need. And within all this, their babies are still sleeping the same as they always have. Some sleep experts are quick to suggest quick fixes to lengthen infant sleep, but there is growing concern that techniques such as extinction may have negative outcomes for infants as well as being stressful for parents. Holistic Sleep Coaching is a multi-dimensional approach that looks at the big picture and recognises that babies' needs are not just physical but psychological, emotional and relational. Holistic Sleep Coaching provides an evidence-based overview of how to optimise sleep without leaving babies and children to cry for health and child care professionals.

Good Nights Maria Goodavage 2007-04-01 Your baby sleeps in your bed, and you love it. Except for those nagging worries about safety. ("She's so small, I'm so big!") And what your relatives are saying. ("She'll never leave your bed!") And that little foot that always ends up on your face. Worry no more! Good Nights puts your concerns about the family bed to rest, with fun and easy-to-use guidance on safety, coping with criticism, and even keeping the spark in your marriage (albeit outside the bedroom). With warmth and humor, Dr. Jay Gordon, a nationally recognized pediatrician who has endorsed the family bed for decades, and Maria Goodavage, a former USA Today staff writer with training in sleep research, give you everything you'll need in order to thrive - and at times, simply survive - with the family bed. Good Nights provides a comprehensive look at: - SCIENTIFIC RESEARCH - Science is uncovering a wealth of advantages, including possible protection from SIDS, for babies who share their parents' bed. - SURPRISING BENEFITS - Parents of young babies get much more sleep with the family bed! And little ones who spend time sleeping next to parents end up more independent (you read that right!) and closer to their parents than their cribbed peers. - SAFETY - The authors give simple-to-follow advice on how to make your family bed at least as safe as a crib. - SOUND SLEEP - Yes, it can be had.
