Shelters, Shacks and Shanties Daniel Carter Beard 2015-09-11 ËIf my present reader happens to be a Boy Scout or a scout-master who wants the scouts to build a tower for exhibition purposes, he can do so by following the directions here given, but if there is real necessity for haste in the erection of this tower, of course we cannot build one as tall as we might where we have more time. With a small tower all the joints may be quickly lashed together with strong, heavy twine, rope, or even wire; and in the wilderness it will probably be necessary to bind the joints with pliable roots, or cordage made of bark or withes; but as this is not a book on woodcraft we will suppose that the reader has secured the proper material for fastening the joints of the frame of this signal-tower and he must now shoulder his axe and go to the woods in order to secure the necessary timber. First let him cut eight straight polesÑthat is, as straight as he can find them. These poles should be about four and one half inches in diameter at their base and sixteen and one half feet long. After all the branches are trimmed off the poles, cut four more sticks each nine feet long and two and a half or three inches in diameter at the base; when these are trimmed into

shape one will need twenty six or seven more stout sticks each four and one half feet long for braces and for flooring for the platform.

Miraculous Me Ruth Pendergast Sissel 2014-04-01 What thoughts crossed your mother's mind the first time she saw you? What dreams did your father hold in his heart? Told from the perspective of a baby in utero whose parents are seeing the ultrasound picture for the first time. A colorful and inspiring way to instill the message that we are each wonderfully treasured and made. Fun Fact: In early spring 2013, while putting socks on her newest daughter's feet, the author Ruth spoke out loud, "Look at those toes, where will they go?" In a moment of sheer inspiration, she grabbed her eldest daughter's Tinkerbell notebook, and between folding laundry and scrambling eggs, wrote the manuscript for this book.

The Opéra Matthias Straub 2012 The aesthetic and cultural wealth, the long tradition and classical status of opera as a high-art function here as an inspirational metaphor for a volume of photographs published annually and which deals with the most sensitive and direct kind of portrait: nude photography - the human body as both stage and theatre play.

The Opéra: Volume VI Matthias Straub 2017-11 The magazine for classic and contemporary nude photography returns with a vibrant compilation of the most beautiful works from the field of the most intimate form of portrait photography. In selecting the works, it was important to the editor Matthias Straub to curate a bridge between the traditional approach to the human body and new, unusual perspectives. In the current edition, there are therefore both abstract works and also very classical nude studies. The familiar structuring of the magazine into the five acts of the opera, according to Gustav Freytag, guides viewers through the photos selected as a content-related leitmotiv.
