Bitcoin: A Peer-to-Peer Electronic Cash System

We propose a solution to the double-spending problem using a peer-to-peer network. The network timestamps transactions by hashing them into an ongoing chain of hash-based proof-of-work, forming a record that cannot be changed without redoing the proof-of-work. The longest chain not only serves as proof of the sequence of

The "Banking" Concept of Education - Puente

gave green grass to the rabbit. The "humanism" of the banking approach masks the effort to turn women and men into automatons—the very negation of their ontological vocation to be more fully human. Those who use the banking approach, knowingly or unknowingly (for there are innumerable well-intentioned bank-clerk teachers who do not
