The Forty Rules of Love Elif Shafak 2010-02-18 In this lyrical, exuberant tale, acclaimed Turkish author Elif Shafak, author of *The Island of Missing Trees* (a Reese's Book Club Pick), incarnates Rumi's timeless message of love. *The Forty Rules of Love* unfolds two tantalizing parallel narratives—one contemporary and the other set in the thirteenth century, when Rumi encountered his spiritual mentor, the whirling dervish known as Shams of Tabriz—that together explore the enduring power of Rumi's work. Ella Rubenstein is forty years old and unhappily married when she takes a job as a reader for a literary agent. Her first assignment is to read and report on *Sweet Blasphemy*, a novel written by a man named Aziz Zahara. Ella is mesmerized by his tale of Shams's search for Rumi and the dervish's role in transforming the successful but unhappy cleric into a committed mystic, passionate poet, and advocate of love. She is also taken with Shams's lessons, or rules, that offer insight into an ancient philosophy based on the unity of all people and religions, and the presence of love in each and every one of us. As she reads on, she realizes that Rumi's story mirrors her own and that Zahara—like Shams—has come to set her free.

The Hearing Eye Graham Lock 2009-01-02 The widespread presence of jazz and blues in African American visual art has long been overlooked. The Hearing Eye makes the case for recognizing the music's importance, both as formal template and as explicit subject matter. Moving on from the use of iconic musical figures and motifs in Harlem Renaissance art, this groundbreaking collection explores the more allusive - and elusive - references to jazz and blues in a wide range of mostly contemporary visual artists. There are scholarly essays on the painters Rose Piper (Graham Lock), Norman Lewis (Sara Wood), Bob Thompson (Richard H. King), Romare Bearden (Robert G. O'Meally, Johannes V?lz) and Jean-Michel Basquiat (Robert Farris Thompson), as well an account of early blues advertising art (Paul Oliver) and a discussion of the photographs of Roy DeCarava (Richard Ings). These essays are interspersed with a series of in-depth interviews by Graham Lock, who talks to quilter Michael Cummings and painters Sam Middleton, Wadsworth Jarrell, Joe Overstreet and Ellen Banks about their musical inspirations, and also looks at art's reciprocal effect on music in conversation with saxophonists Marty Ehrlich and Jane Ira Bloom. With numerous illustrations both in the book and on its companion website, The Hearing Eye reaffirms the significance of a fascinating and dynamic aspect of African American visual art that has been too long neglected.

Gestures Vilém Flusser 2014-06-01 Throughout his career, the influential new media theorist Vilém Flusser kept the idea of gesture in mind: that people express their being in the world through a sweeping range of movements. He reconsiders familiar actions—from speaking and painting to smoking and telephoning—in terms of particular movement, opening a surprising new perspective on the ways we share and preserve meaning. A gesture may or may not be linked to specialized apparatus, though its form crucially affects the person who makes it. These essays, published here as a collection in English for the first time, were written over roughly a half century and reflect both an eclectic array of interests and a durable commitment to phenomenological thought. Defining gesture as “a movement of the body or of a tool attached to the body for which there is no satisfactory causal explanation,” Flusser moves around the topic from diverse points of view, angles, and distances: at times he zooms in on a modest, ordinary movement such as taking a photograph, shaving, or listening to music; at others, he pulls back to look at something as vast and varied as human “making,” embracing everything from the fashioning of simple tools to mass manufacturing. But whatever the gesture, Flusser analyzes it as the expression of a particular form of consciousness, that is, as a particular relationship between the world and the one who gestures.

Notorious C.O.P. Derrick Parker 2007-04-01 Throughout his career, Derrick Parker worked on some of the biggest criminal cases in rap history, from the shooting at Club New York, where Derrick personally escorted Jennifer Lopez to police headquarters, to the first shooting of Tupac Shakur. Always straddling the fence between “po-po” and NYPD outsider, Derrick threatened police tradition to try to get the cases solved. He was the first detective to interview an informant offering a detailed account of Biggie Smalls's murder. He protected one of the only surviving eyewitnesses to the Jam Master Jay murder and knows the identity of the killers as well as the motivation behind the shooting. Notorious C.O.P. reveals hip-hop crimes that never made the paper—like the robbing of Foxy Brown and the first Hot 97 shooting—and answers some lingering questions about murders that have remained unsolved. The book that both the NYPD and the hip-hop community don't want you to read, Notorious C.O.P. is the first insider look at the real links between crime and hip-hop and the inefficiencies that have left some of the most widely publicized murders in entertainment history unsolved.

K-Pop John Lie 2015 K-Pop: Popular Music, Cultural Amnesia, and Economic Innovation in South Korea seeks at once to describe and explain the emergence of export-oriented South Korean popular music and to make sense of larger South Korean economic and cultural transformations. The Studio Recordings of the Miles Davis Quintet, 1965-68 Keith Waters 2011-03-11 The "Second Quintet" -- the Miles Davis Quintet of the mid-1960s -- was one of the most innovative and influential groups in the history of the genre. Each of the musicians who performed with Davis--saxophonist Wayne Shorter, pianist Herbie Hancock, bassist Ron Carter, and drummer Tony Williams--went on to a successful career as a top player. The studio recordings released by this group made profound contributions to improvisational strategies, jazz composition, and mediation between mainstream and avant-garde jazz, yet most critical attention has focused instead on live performances or the socio-cultural context of the work. Keith Waters' *The Studio Recordings of the Miles Davis Quintet, 1965-68* concentrates instead on the music itself, as written, performed, and recorded. Treating six different studio recordings in depth--ESP, Miles Smiles, Sorcerer, Nefertiti, Miles in the Sky, and Filles de Kilimanjaro--Waters has tracked down a host of references to and explications of Davis' work. His analysis takes into account contemporary reviews of the recordings, interviews with the five musicians, and relevant larger-scale cultural studies of the era, as well as two previously unexplored sources: the studio outtakes and Wayne Shorter's Library of Congress composition deposits. Only recently made available, the outtakes throw the master takes into relief, revealing how the musicians and producer organized and edited the material to craft a unified artistic statement for each of these albums. The author's research into the Shorter archives proves to be of even broader significance and interest, as Waters is able now to demonstrate the composer's original conception of a given piece. Waters also points out errors in the notated versions of the canonical songs as they often appear in the main sources available to musicians and scholars. An indispensable resource, *The Miles Davis Quintet Studio Recordings: 1965-1968* is suited for the jazz scholar as well as for jazz musicians and aficionados of all levels.

Wired Bob Woodward 2012-03-06 This reissue of Bob Woodward's classic book about John Belushi—one of the most interesting performers and personalities in show business history—"is told with the same narrative style that Woodward employed so effectively in *All the President's Men* and *The Final Days*" (Chicago Tribune). John Belushi was found dead of a drug overdose March 5, 1982, in a seedy hotel bungalow off Sunset Boulevard in Hollywood. Belushi's death was the beginning of a trail that led Washington Post reporter Bob Woodward on an investigation that examines the dark side of American show business—TV, rock and roll, and the movie industry. From on-the-record interviews with 217 people, including Belushi's widow, his former partner Dan Aykroyd, Belushi's movie directors including Jack Nicholson and Steven Spielberg, actors Chevy Chase, Robin Williams, and Carrie Fisher, the movie executives, the agents, Belushi's drug dealers, and those who live in the show business underground, the author has written a close portrait of a great American comic talent, and of his struggle to succeed and to survive that ended in tragedy. Using diaries, accountants' records, phone bills, travel records, medical records, and interviews with firsthand witnesses, Woodward has followed Belushi's life from childhood in a small town outside Chicago to his meteoric rise to fame. Bob Woodward has written a spellbinding account of rise and fall, a cautionary tale for our times, and a poignant and gentle portrait of a young man who had so much, gave so much, and lost so much.
