Five Year Forward View – NHS England

represent a continuation of current budget protection. Flat real terms NHS spending . per person . would take account of population growth. Flat NHS spending . as a share of GDP . would differ from the long term trend in which health spending in industrialised countries tends to rise as a share of national income. 16.

Designing a Qualitative Study - Urban Leaders

design decision during the study in response to new developments or to changes in some other aspect of the design. Grady and Wallston (1988) argue that applied research in general requires a flexible, nonsequential approach and “an entirely dif-ferent model of the research process than the traditional one offered in most text-books” (p. 10).
