Comprehending as skillfully as bargain even more than extra will provide each success. next-door to, the publication as with ease as acuteness of this the stone age hunters gatherers and woolly mammoth can be taken as competently as picked to act.

**Glog** Pippa Goodhart 2007-01-01 Cave-boy Glog is accidentally left behind when his tribe move to new hunting grounds - and things look bleak. Glog will have to do the best he can to fend for himself until they come to find him. Along the way, he encounters a ferocious wolf and gathers some new friends. He draws them on the cave wall for company, but it's not the same as his own tribe. Will Glog's family come back for him?

**The Pleistocene Old World** Olga Soffer 2013-11-11 Regional approaches to past human adaptations have generated much new knowledge and understanding. Researchers working on problems of adaptations in the Holocene, from those of simple hunter-gatherers to those of complex sociopolitical entities like the state, have found this approach suitable for comprehension of both ecological and social aspects of human behavior. This research focus has, however, until recently left virtually un touched a major spatial and temporal segment of prehistory-the Old World during the Pleistocene. Extant literature on this period, by and large, presents either detailed site specific accounts or offers continental or even global syntheses that tend to compile site specific information but do not integrate it into whole constructs of functioning sociocultural entities. This volume presents our current state of knowledge about a variety of regional adaptations that characterized prehistoric groups in the Old World before 10,000 B. P. The authors of the chapters consider the behavior of humans rather than that of objects or features and present data and

models for various aspects of past cultures and for culture change. These presentations integrate findings and understandings derived from a number of related disciplines actively involved in researching the past. Data and interpretations are offered on a range of Old World regions during the Paleolithic, including Africa, Asia, Australia, and Europe, and chronological coverage spans from the Early to Late Pleistocene.

*How to Live Like a Stone-Age Hunter* Anita Ganeri 2015-08-01 Team up with Dar, who lived around 15,000 years ago in the late Stone Age. Find out what it takes to survive in prehistoric times as he teaches you how to:  trap animals  make fire  build shelters  hunt a mammoth Do you have the skills and guts to be a Stone-Age hunter?

*The Stone Age* Jerome Martin 2015-07 This simple information book uncovers the history of Stone Age people and how they lived, from their clothing and houses to monuments such as Stonehenge which still survive today. Full of facts, colourful illustrations and photographs of historical artefacts such as baked pots, tools and jewellery. Ideal for beginner readers who prefer fact to fiction, and those studying the Stone Age at school. Internet links take readers to specially selected websites to find out more.

**The Elephant's Friend and Other Tales from Ancient India** Marcia Williams 2012 Draws eight stories from well-known collections of Indian folktales--Hitopadesha tales, Jataka tales, and Panchantra tales--and presents them with cartoon-like illustrations.

*Arrowheads, Spears, and Buffalo Jumps* Lauri Travis 2018-04 Ancestors of today's Native Americans populated the Great Plains about 14,000 years ago, about the time glaciers of the last Ice Age began melting back to the north. Prehistoric people living on the dry plains east of the Rocky Mountains were hunter-gatherers--they moved from place to place in search of animals to hunt and seeds, roots, and berries to gather. Archaeologists have reconstructed the history of these hunter-gatherers by studying old camp sites and tools made of stone and antler. Author Lauri Travis introduces readers to the science of archaeology, shedding light on how field scientists find evidence of people who did not build permanent houses and how researchers determine the age of an arrowhead and what it was used to kill.

Archaeological illustrator Eric Carlson brings to life the day-to-day activities of these early people, such as

how they used drive lines to funnel animals over buffalo jumps, how sinew was used to attach points to spears, and how grinding stones were used to mash seeds into flour. The book also includes photographs of artifacts and excavation sites, as well as a list of archaeological sites you can visit while exploring the vast plains where mammoths used to roam.

*Hunters of the Plains* Ardath Mayhar 2008 The Badger Clan and the Terrapin Clan have peacefully co-existed on the eastern plains for generations, living in harmony with nature and the spirits who guide them. When a herd of mammoths stampede, crushing the clans' dwellings, Don-a-ti and his wife, E-lo-ni, embark on a sacred hunt to keep the beasts from striking again.

**Prehistoric Art** Randall White 2003 Examines prehistoric objects and images from an anthropological, rather than artistic, perspective.

Horrible Histories: Savage Stone Age Terry Deary 2016-02-04 Readers can discover all the facts about the SAVAGE STONE AGE such as what they used instead of toilet paper, why a hole in the skull is good for headaches and how to make a Stone Age mummy. With a bold new look, these bestselling titles are sure to be a huge hit with yet another generation of Terry Deary fans. Revised by the author and illustrated throughout to make HORRIBLE HISTORIES more accessible to young readers.

*The Romans* Marcia Williams 2014-05-01 Marcia Williams brings the most famous moments in Roman history to life in this funny, engaging cartoon-strip book, from the birth of Romulus and Remus to the death of Julius Caesar - with a trip to Mount Olympus on the way.

**Time Travel Guides** Ben Hubbard 2020-12-10 Travel back in time to Skara Brae and find out all about life in the Stone Age. Like modern travel guides, the books in this series highlight must-see features and explain local culture. Each highlighted destination contains an explanation of what took part in these areas, as well as a look at important artefacts found there providing a bigger picture of life in the past. Typical travel guide notes include, 'best time to visit', 'what to eat' and 'where to stay'. Perfect for the KS2 history curriculum.

I, Pod Rebecca Lisle 2019-04-08 Pod is in trouble when one of his inventions puts baby Nim in danger but it's okay because she knows exactly where to point the blame!

Climate, Clothing, and Agriculture in Prehistory Ian Gilligan 2018-11-30 The first book on the origin of clothes shows why climate change was crucial - for the origin of agriculture too.

Stone Age Tales: The Great Cave Terry Deary 2018-03-08 From the best-selling author of Horrible Histories... 17,300 years ago; Lascaux, France Willow isn't the strongest or fastest in his tribe, he is careful and clever. But that's not what matters to the other boys. All they care about who is the best hunter, and who can provide meat for the tribe. So when the brawny and brash Bull takes over as the tribe's chief, it's going to take all of Willow's wits to survive. A brand new and exciting tale, based on real historical and archaeological evidence, this story is full of Terry Deary's imaginative style and dry wit.  
Book band: Brown

The Genius of the Stone, Bronze, and Iron Ages Izzi Howell 2019-07-31 Which innovative ideas and inventions began in the Stone, Bronze, and Iron Ages? These periods, stretching from the first ancestors of modern humans to the start of the ancient civilizations of Greece and Rome, was a time of amazing developments. Find out how making fire and tools, farming the land, and writing down symbols to communicate transformed society and had a lasting impact on the way we live today.

The Oxford Handbook of the Archaeology and Anthropology of Hunter-Gatherers Vicki Cummings 2014-04-24 For more than a century, the study of hunting and gathering societies has been central to the development of both archaeology and anthropology as academic disciplines, and has also generated widespread public interest and debate. The Oxford Handbook of the Archaeology and Anthropology of Hunter-Gatherers provides a comprehensive review of hunter-gatherer studies to date, including critical engagements with older debates, new theoretical perspectives, and renewed obligations for greater engagement between researchers and indigenous communities. Chapters provide in-depth archaeological, historical, and anthropological case-studies, and examine far-reaching questions about human social relations, attitudes to technology, ecology, and management of resources and the environment, as well as

issues of diet, health, and gender relations - all central topics in hunter-gatherer research, but also themes that have great relevance for modern global society and its future challenges. The Handbook also provides a strategic vision for how the integration of new methods, approaches, and study regions can ensure that future research into the archaeology and anthropology of hunter-gatherers will continue to deliver penetrating insights into the factors that underlie all human diversity.

*Europe before Rome* T. Douglas Price 2013-01-09 Werner Herzog's 2011 film *Cave of Forgotten Dreams*, about the painted caves at Chauvet, France brought a glimpse of Europe's extraordinary prehistory to a popular audience. But paleolithic cave paintings, stunning as they are, form just a part of a story that begins with the arrival of the first humans to Europe 1.3 million years ago, and culminates in the achievements of Greece and Rome. In *Europe before Rome*, T. Douglas Price takes readers on a guided tour through dozens of the most important prehistoric sites on the continent, from very recent discoveries to some of the most famous and puzzling places in the world, like Chauvet, Stonehenge, and Knossos. This volume focuses on more than 60 sites, organized chronologically according to their archaeological time period and accompanied by 200 illustrations, including numerous color photographs, maps, and drawings. Our understanding of prehistoric European archaeology has been almost completely rewritten in the last 25 years with a series of major findings from virtually every time period, such as Ötzi the Iceman, the discoveries at Atapuerca, and evidence of a much earlier eruption at Mt. Vesuvius. Many of the sites explored in the book offer the earliest European evidence we have of the typical features of human society--tool making, hunting, cooking, burial practices, agriculture, and warfare. Introductory prologues to each chapter provide context for the wider changes in human behavior and society in the time period, while the author's concluding remarks offer expert reflections on the enduring significance of these places. Tracing the evolution of human society in Europe across more than a million years, *Europe before Rome* gives readers a vivid portrait of life for prehistoric man and woman.

*Look Inside the Stone Age* Abigail Wheatley 2016-03 Lift the flaps to discover what life was like before people had created houses, supermarkets and civilisation as we know it! Watch people from the Stone Age make huts to sleep in and hunt for their food. Illustrations: Full colour throughout

**The Stone Age** 2017-10 Synopsis coming soon.....

*The Little History of the East End* Dee Gordon 2020-10-21 The modern history of London's East End has been well-documented – but what of its ancient roots? From embryonic beginnings in the Stone Age, through Roman rule and civil wars, all the way to its jam-packed twentieth-century timeline, the East End has always been a place of innovation, diversity and change. Written by an East Ender with a love of her roots, *The Little History of the East End* is an engaging look at the area's history through the people that made it, one that will enthral and surprise both residents and visitors alike.

**Stone, Bronze and Iron Ages** Sonya Newland 2017-03-23 Travel back to the time of the stone, bronze and iron ages! What was Britain like over 6000 years ago? Who lived on the island and what was it like? Explore these ancient civilisations to understand how prehistoric people have influenced the way we live today. Discover the artefacts that give evidence of their way of life. The Explore! series takes an all-round, hands-on approach to history, making the subject relevant to all area of curriculum learning - geography, art, literacy and numeracy. Each book features a diary entry, a fun craft-based activity, and a quiz.

**Painters of the Caves** Patricia Lauber 1998 Describes the 1994 discovery made in Chauvet, France, of a cave with Stone Age rock paintings, and discusses the significance of cave art to people living in prehistoric as well as modern times.

*The Substance of Civilization* Stephen L. Sass 2011-08 "What Sass does—and does well—is convey the richness of the material world and the ingenuity of humankind in making use of it." —Kirkus Reviews

**Guns, Germs, and Steel: The Fates of Human Societies (20th Anniversary Edition)** Jared Diamond 2017-03-07 "Fascinating.... Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, *New York Review of Books*) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles

racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.

**The Lifeways of Hunter-Gatherers** Robert L. Kelly 2013-04-15 Challenges the preconceptions that hunter-gatherers were Paleolithic relics living in a raw state of nature, instead crafting a position that emphasizes their diversity.

**God and His Creations** Marcia Williams 2005-01-01 Cartoon style illustrations tell the stories from the Old Testament. 6-10 yrs.

**Ancient Egypt** Marcia Williams 2011 Retells nine tales of ancient Egypt, including the story of Ra rising from the waters of the Nile to create the gods of the earth, sky, and rain.
