ETAPS is an annual federated conference that was established in 1998 by combining a number of existing and new conferences. This year it comprised 7 conferences (FOSSACS, FASE, ESOP, CC, TACAS), 7 satellite workshops (CBS, CMCS, CoFI, GRATRA, INT), seven invited lectures, a panel discussion, and ten tutorials. The events that comprise ETAPS address various aspects of the system - development process, including specification, design, implementation, analysis, and improvement. The languages, methodologies, and tools which support these activities are all well within its scope. Different blends of theory and practice are represented, with an inclination towards theory with a practical motivation on one hand and soundly-based practice on the other. Many of the issues involved in software design apply to systems in general, including hardware systems, and the emphasis on software is not intended to be exclusive.

*The Visit of Archbishop Gaetano Bedini to the United States of America* James F. Connelly 1960 In the decades preceding the Civil War, the fledgling Catholic Church in the United States found herself swept along in the maddening pace of an expanding nation. The very circumstances of the time forced her to make the long trek to the West, to the South, to the North with the ever growing United States. As the nation was acquiring more territory and more States, the Church was honored with more Bishops and blessed with more souls. From

the Bishop of Baltimore in 1808, forty Bishops governed her by 1853. From the 23.000 souls she counted in 1785 she could number 1.606.000 by 1850. European immigration. The natural birthrate and, to some extent, recent converts assured her that more and more souls would enter her fold and consequently more dioceses would be needed. The Catholic Church in the USA had found a liberty of action and a freedom of worship, completely alien to any European scheme of things. She was proud and thankful for this position. She was also proud and fortunate that she had long cemented ties with Rome. Once this unity was assured, the American Church had taken care to assure unity among her own Bishops by numerous councils, which found their climax in the First Plenary Council of Baltimore in 1852. But she had problems, which even the Plenary Council did not solve.

**Latin American Political Yearbook** Jr. Denton 2018-01-16 In the third volume of this annual series, Robert G. Breene provides a comprehensive overview, analysis, and summary of the major political and economic trends and events in Central American, MERCOSUR, Andean and Caribbean nations, including Mexico. The yearbook provides a timely look at relevant background information necessary to an understanding of the status of political forces in Latin America today. Chapter 1 looks at the elections and status of political forces in Latin America and describes the political situations in the four groups of nations. It provides an up-to-date, realistic definition of today's political "Left." Chapter 2 relates the politico-economic backgrounds of such representative Latin American nations as Argentina, Bolivia, Brazil, Ecuador, Honduras, Mexico, and Panama, while chapter 3 explores in detail three hemispheric heads of state receiving much international attention: Pinochet, Ortega, and Clinton. Chapter 4 discusses the Hemispheric Left (HL), described as a loose association of amorphous Marxist and militant left organizations, and, as in previous editions of this yearbook, includes an overview of all hemispheric terrorism. The year 1998 witnessed an increased, overshadowing level of terrorism in Colombia necessitating separate coverage of Colombian terrorism, which is treated in chapter 5. The final two chapters are concerned with the Hemispheric Left Support, dealing with the association of Latin American Marxist and Marxist-Leninist organizations, and providing a look at Latin American international organizations, including regional summits and hemisphere-wide associations such as the Grupo de Rio and the Organization of American States. This third volume is brimming with facts and provides information not readily available through American media. Compact yet comprehensive, it is essential reading for political scientists, Latin American area specialists, and historians. Robert G. Breene, Jr. has been a fighter pilot, a newspaper correspondent in Central America, a professor of physics, and the owner and operator of a 600-head cattle ranch in Nevada. His is currently head of the Latin American Syndicate in San Antonio, Texas.

Her resulting travelogue captures the violent beauty of the country she visited. Bedford doesn't so much describe Mexico as take the reader there—in second-class motor buses over thousands of miles, through arid noons and frigid nights, successions of comida corrida, botched excursions to the coast, conversations recorded verbatim, hilarious observations, and fascinating digressions into murky histories. At the heart of the book is the Don Otavio of the title, the travelers' gracious host, his garrulous family and friends, and his Edenic hacienda at Lake Chapala. Published in 1953, *A Visit to Don Otavio* was an immediate success, "a travel book written by a novelist," as Bedford described it, establishing her

reputation as a nonpareil writer.
