Contrary to Popular Belief: A Chronicle of a Progressive in Indiana Michael Leppert 2020-07-07 n the spring of 2014, Leppert started writing a blog. It was the usual kind of blog being written for the usual kinds of reasons. But a funny thing happened when he took a couple of risks with his writing: he got away with it. And then he took his gloves off for good. Within a year, his "blog" was elevated to a "column" and began showing up in mainstream publications throughout Indiana. After publishing more than a hundred installments, a group of recurring political and cultural themes began to emerge. From RFRA and guns, to the economy and parenting, Leppert takes a provocative view on all of it. *Contrary To Popular Belief* gives the real reasons why and from where his opinions are based. It is a chronicle being released purposely in summer of 2016 for readers to use as a guide during a historically chaotic political season.

The Whistleblower Bob Katz 2020-11-15 During a season on the road with college basketball referees, Bob Katz watched the games they officiated, listened in on their candid conversations in locker rooms and hotel lobbies, and explored the intense challenges they regularly confront. Alone among thousands in the stadium and millions watching at home, the ref does not care who wins or loses. His only goal is fairness and neutrality. His passion to ensure the playing field stays level is shaped by character, training, and a rare—and rarely appreciated—kind of honor. In this vivid portrait of one consummate professional at the top of his game, Katz pulls off an unbelievable feat in *The Whistleblower*—readers actually come to root for the ref. In a new afterword Katz reflects on the misunderstood and often denigrated role of the referee in sports and the looming implications for our increasingly partisan society.

Following the General Terry Hutchens 2017-10 In *Following the General*, veteran Indiana University basketball beat writer and accomplished author Terry Hutchens dissects the challenges that have come with returning Indiana basketball to greatness in the nearly two decades since Bob Knight roamed the IU sidelines. Mike Davis was a good man who was in a little over his head with Indiana as his first head coaching job. Kelvin Sampson opted to take shortcuts that ultimately cost him his job and set the program back several years. Tom Crean brought the program back but could never reach the level of consistency at the administration felt was enough for a blue blood program like Indiana. Three coaches, 17 years, and seven seasons on the outside looking into to the NCAA Tournament. In the previous 17 seasons under Bob Knight, Indiana had made the NCAA Tournament 16 times. In his 29 seasons at the school, IU only missed the NCAA five times. In *Following the General*, Terry Hutchens talks to numerous former players, coaches and media people trying to determine what needs to happen moving forward for Indiana to get back to the days where playing in the NCAA Tournament is once again an every year occurrence rather than something the Hoosiers do on a less than consistent basis. Indiana clearly, on paper, has the resources to be competitive. It also, at times, has an unrealistic fan base that still believes it's 1987. Hutchens also takes a long look at the three coaches mentioned above and looks back at what went well and not so well in their time in Bloomington.

100 Things Hoosiers Fans Should Know and Do Before They Die Stan Sutton 2012-11 The monumental spring 1994 face-off between the New Jersey Devils and New York Rangers is recaptured in this mesmerizing account. Branch McCracken made Indiana University basketball a force to be reckoned with, and this is his story.

Making Your Own Luck Fred Glass 2021-11-02 One man's odyssey from skid row to rebuilding a major collegiate sports program. In *Making Your Own Luck*, former Indiana University athletic director Fred Glass recounts how even a self-described "knucklehead" learned to be prepared to recognize and seize opportunities and thus make his own luck through life. Growing up in a skid row bar, having an alcoholic father, struggling with anxiety and self-doubt, and making his share of stupid mistakes, Glass had much to contend with in early life. However, supported by socially enlightened parents, a Jesuit education, and his soulmate, Barbara, his odyssey has led him to serve a mayor, a governor, a senator, and even a president. With great humor and insightful reflection, Glass details how he helped keep the Colts in Indianapolis—he spearheaded a massive convention center expansion and the building of Lucas Oil Stadium and even helped to attract the Super Bowl to his hometown. Any of these accomplishments individually would be more than enough to call Glass's career

a resounding success, but they were only the beginning. In the latest stage of his journey, Glass led the rebuilding of the athletic program of his beloved alma mater, Indiana University. Featuring a foreword from IU alumnus and owner of the Dallas Mavericks, Mark Cuban, *Making Your Own Luck* is a must-read not only for Indiana sports fans, but for anyone that recognizes the importance of preparation, opportunity and action in creating your own success.

Varsity Green Mark Yost 2009-12-03 In *Varsity Green*, Mark Yost cuts through clichés and common misconceptions to take a hard-eyed look at the current state of college athletics. He takes readers behind the scenes of the conspicuous and high-revenue business of college sports in order to dissect the enormous television revenues, merchandising rights, bowl game payoffs, sneaker contracts, and endorsement deals that often pay state university coaches more than the college president, or even the governor. Money in college sports is nothing new. But readers will be amazed at the alarming depth and breadth of influence, both financial and otherwise, that college sports has within our culture. Readers will learn how academic institutions capitalize on the success of their athletic programs, and what role sports-based revenues play across campus, from the training room to the science lab. Yost pays particular attention to the climate that big-money athletics has created over the past decade, as both the NCAA's March Madness and the Bowl Championship Series have become multi-billion dollar businesses. This analysis goes well beyond campus, showing how the corrupting influences that drive college athletics today have affected every aspect of youth sports, and have seeped into our communities in ways that we would not otherwise suspect. This book is not only for the players, policymakers, and other insiders who are affected by the changing economics of college athletics; it is a must-read for any sports fan who engages with the NCAA and deserves to see the business behind the game.

Winning Basketball Fundamentals Lee H. Rose 2012-09-21 Lee Rose has been one of basketball's most knowledgeable and respected coaches over the past 50 years at the high school, college, and professional levels. Winning Basketball Fundamentals presents his proven program for success, the same one he used in taking teams from two different colleges to the Final Four. From offense to defense to transition play and special situations, Rose covers every tactical facet of the game and adds his insights for improving execution in

each. He presents popular offensive systems—the Triangle, LA, Flex, Dribble Drive, and Motion—as well as man-to-man and zone defensive schemes, with suggestions for when and how to deploy and adjust them. Rose also teaches all the essential individual skills required for performing those tactics proficiently and consistently, with special tips for executing when the game is on the line. Perimeter- and post-specific instruction and drills will help players build on their skills through practice. Coach Rose also shares his Performance Rating System—a tool he’s used time and again to develop some of the game’s top players. Rose explains not only how to identify strengths and weaknesses but also how to use that information to maximize the potential of individual players and the team. Flashy and fluke plays might be fun to watch, but you can’t build a successful season or career on them. *Winning Basketball Fundamentals* is the proven formula for developing the solid individual skills and team tactics you can count on game after game.

Managing Intercollegiate Athletics Daniel Covell 2019-03-07 This practical, comprehensive book combines solid theoretical concepts with relevant examples, extensive factual information, and important insider perspectives to help prepare students who are interested in pursuing a career in collegiate athletics management. The authors' in-depth discussions reveal the inner workings of athletic departments and the conferences and governing organizations that impact them. Using examples from institutions of varying sizes and representing numerous conferences, associations, and divisions, *Managing Intercollegiate Athletics*, second edition, provides an extensive view of management processes such as generating revenue to cover expenses; recruiting and its mechanics and regulations; the role

of the conferences and national governing bodies; and academic standards, reform, and fraud. New to the second edition is an increased emphasis on the impact of division, institution, and department missions and goals on decision making. The book also includes new discussions of the application of management functions--including goal setting, decision making, and strategic management--on intercollegiate athletics at various levels. Adding to the practical nature of the book, and providing an important critical-thinking component to each chapter, are "Practitioner Perspectives." These contributions demonstrate how and why administrators make and implement their decisions, and they present creative problem-solving ideas for readers that they can use in their own careers. New Practitioner Perspectives in this edition provide, for example, an insider's view from an NCAA vice president, a conference commissioner, and a Division I athletic director. Chapters also feature one or more Case Studies offering an in-depth look at how institutions grapple with management challenges. In the second edition, new case studies look at the NCAA's leadership role in the Penn State University abuse case, the role of the TRAC model to ensure data-based decision making in terminating the University of Alabama at Birmingham football program, and others. These case studies and accompanying questions can serve as starting points for class discussion.

Pitt Sam Sciullo 2005-01 From 2001-2004, no Division IA men's college basketball program in the country had a better winning percentage (88-16, .846) than the University of Pittsburgh. Pitt also won (or shared) three consecutive Big East Conference regular-season or tournament championships during that period. Approaching its 100th year of intercollegiate basketball, Pitt could lay claim to the assertion that these were, indeed, a rejuvenation of its glory days. It wasn't always that way. The university--once known as the Western University of Pennsylvania--fielded its first basketball team in 1905-06. The team practiced and played just about anywhere it could find a floor and a couple of hoops. Crowds were small, media coverage was slim, and the future of the program was doubtful. That program officially became known as the University of Pittsburgh's Panthers in 1909. After H.C. "Doc" Carlson--a former Pitt football and basketball player as well as a physician by trade--became head coach in 1922, the program firmly established itself. In 1925, the Panthers had their first true home facility when they moved into the Pavilion--a gym beneath Pitt Stadium. Carlson would lead the Panthers to a pair of mythical national titles by the end of the 1920s. Pitt: 100 Years of Pitt Basketball is the definitive history of basketball at the University of Pittsburgh. From Charley Hyatt, Doc Carlson's first All-American, through sure and steady point guard Brandin Knight, some of college basketball's most influential players have worn blue and gold. Scoring whiz Don Hennon burst onto the scene in the '50s, followed by rugged Brian Generalovich in the '60s, and silky smooth Billy Knight in the '70s. Sam "Bam" Clancy helped turn Pitt's program around in the late '70s, and when Pitt was invited to join the Big East Conference in 1982, the face of the program changed forever. Its rosters and coaching staffs--formerly filled with Pennsylvania boys and men with Pitt backgrounds--would soon include players and coaches from across the nation. Charles Smith and Jerome Lane gave Pitt a dynamic one-two inside punch and a pair of Big East titles--in the 1980s. And when Ben Howland left Northern Arizona in 1999 to coach the Panthers, aided by a young assistant named Jamie Dixon, Pitt basketball was on the cusp of college basketball greatness.

Hoosier Beginnings Ken Bikoff 2020-09-01 Hoosier Beginnings tells the story of Indiana University athletics from its founding in 1867 to the interwar period. Crammed full of rare images and little-known anecdotes, it recounts how sport at IU developed from its very first

baseball team, made up mostly of local Bloomington townsmen, to the rich and powerful tradition that is the "Hoosier" legacy. *Hoosier Beginnings* uncovers fascinating stories that have been lost to time and showcases how Indiana University athletics built its foundation as a pivotal team in sports history. Learn about the fatal train collision that nearly stopped IU athletics in its tracks; IU's first African American football player; the infamous Baseball Riot of 1913; how a horde of students grabbed axes and chopped down 200 apple trees to make way for a new gymnasium; and the legendary 1910 football team that didn't allow a single touchdown all season—but still lost a game. Most importantly, it attempts to answer the burning question, where did the "Hoosiers" get their mysterious name?

Better Than Advertised Jerod Morris 2016-07-21 This was a season of moments -- most of them good, a few of them not-so-good -- and this book is your portal to reliving them all. The Indiana Hoosiers men's basketball team entered the 2015-16 season with great expectations. But the season was soon in shambles after a miserable trip to Maui and a pathetic loss at Duke in early December. A remarkable comeback against Notre Dame would come soon thereafter, followed by an impressive run through the Big Ten regular season that saw the Hoosiers capture the outright title by two games. Though many people left these Hoosiers for dead in Durham, this group of Hoosiers never stopped believing, never stopped working, and finally started defending with some purpose. As a result, they started winning ... often, and in impressive fashion. The Hoosiers finished the regular season on a 20-3 stretch after that ignominious Duke loss, capturing the school's 22nd Big Ten Championship. The Hoosiers would also defeat hated rival Kentucky in an epic Round of 32 battle. Yogi Ferrell broke Indiana's all-time assists record and joined the annals of IU legends along the way. Tom Crean, was named Big Ten Coach of the Year, a well-deserved honor given where the Hoosiers were and where they ended up. And along the way, numerous other storylines emerged -- which is what made this one of the most memorable seasons of Indiana basketball in recent memory. *Better Than Advertised: The Story of the 2015-16 Indiana Hoosiers* is an anthology of this remarkable season, as told by the hosts of The Assembly Call IU Postgame Show. The season spanned 37 total games, each providing its own unique contribution to the tapestry of the Hoosiers' overall body of work. This book goes game-by-game, taking you back to the thoughts and feelings, the excitement and doubt, that smart, passionate IU fans were feeling as the season unfolded.
