Dictionary of the British English Spelling System Greg Brooks 2015-03-30 This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters) to be spelt with those single letters in non-final syllables.

Coping with Special Needs Geof Sewell 2018-09-03 First published in 1986. Many teachers had no experience of teaching children with special needs and the new developments were likely to pose a substantial challenge. This book provides a guidance for inexperienced, especially new, teachers in how to teach children with special needs in ordinary classrooms. An important feature of the book is realism - the book grows out of the author's own experiences and research. The author describes what really happens and bases his suggestions on practices which are likely to bring results.
