Petey (new cover) Ben Mikaelson 2010-06-22 In 1922, at the age of two, Petey's distraught parents commit him to the state's insane asylum, unaware that their son is actually suffering from severe cerebral palsy. Bound by his wheelchair and struggling to communicate with the people around him, Petey finds a way to remain kind and generous despite the horrific conditions in his new "home." Through the decades, he befriends several caretakers but is heartbroken when each eventually leaves him. Determined not to be hurt again, he vows to no longer let hope of lifelong friends and family torment him. That changes after he is moved into a nursing home and meets a young teen named Trevor Ladd; he sees something in the boy and decides to risk friendship one last time. Trevor, new to town and a bit of a loner, is at first weary of the old man in the wheelchair. But after hearing more of his story, Trevor learns that there is much more to Petey than meets the eye. Petey is a touching story of friendship, discovery, and the uplifting power of the human spirit.

Animal DK 2017-09-12 View the animal kingdom up close as never before in this breathtaking title, which has already sold over 1.5 million copies. Written by 70 specialists, it features stunning wildlife photography of more than 2000 of the world's most important wild mammals, birds, reptiles, amphibians, and insects. With around two million species identified to date, animals are the dominant and most varied form of life on the planet. *Animal* presents a representative selection, ranging from the giant baleen whale, to fast-moving predators such as sharks, big cats, and birds of prey, as well as microscopic beetles barely 1mm long and other insects. It presents some of the latest species to be described: meet the cute but elusive olinguito from South America, which was only identified in 2013, or the skywalker hoolock gibbon that was named after a Star Wars character in 2017. *Animal* also explains how the earth's biodiversity is in sharp decline and the conservation projects underway to safeguard precious species. For each one, it gives a locator map and statistics, including its conservation status. For anyone who wants a reliable and enthralling reference, in which you can find the answers to everything - from why zebras are striped or how the sunbear got its name - *Animal* is your essential one-stop guide.

The illustrations are adapted from the children's original paintings of the story. Mona Green said, "When my husband was a stockman, we used to go out to Nongra Lake to see if the cattle had enough water. I had heard the story about this giant lake, and I think that from the air it would look like a tree with roots stretching out."

Natural Hazards Edward Bryant 2005-02-21 Natural hazards afflict all corners of the Earth; often unexpected, seemingly unavoidable and frequently catastrophic in their impact. This revised edition is a comprehensive, inter-disciplinary treatment of the full range of natural hazards. Accessible, readable and well supported by over 180 maps, diagrams and photographs, it is a standard text for students and an invaluable guide for professionals in the field. Clearly and concisely, the author describes and explains how hazards occur, examines prediction methods, considers recent and historical hazard events and explores the social impact of such disasters. This revised edition, first published in 2005, makes good use of the wealth of recent research into climate change and its effects.

Ebook: Talk for Writing in the Early Years: How to Teach Story and Rhyme Involving Families 2-5 (Revised Edition) Pie Corbett 2020-08-26 Pie Corbett's ground-breaking Talk for Writing approach has been successfully used by thousands of schools to teach writing creatively in an engaging way that motivates children. Now Pie and Julia take this multi-sensory approach to Early Years settings introducing a simple way to inspire young children's language development through storytelling. Children learn language through memorable, meaningful repetition. The Talk for Writing approach enables children to internalise the language of story so that they can imitate it, innovate on it and create their own effective stories independently. Talk for Writing in the Early Years will show you how to put rhyme and story at the heart of your work with children and parents so that young learners language development and creativity flourishes. This multimedia resource shows you how to:

- Select a story or rhyme the children will enjoy and tell it engagingly, encouraging the children to join in
- Use a story map so they can picture what happens
- Use actions to reinforce meaning and emphasise key language patterns
- Help children build a bank of tales, developing their linguistic repertoire

The 2 OLCs contain:

- 1 Footage of Pie Corbett conferences with EY teachers showing Talk for Writing in action
- 2 Clips of nursery children engaged in the Talk for Writing approach
- 3 Advice on how to use the OLC and handouts to train all staff in the approach
- 4 Interviews with parents and nursery school teachers on the impact of Talk for Writing
- 5 21 stories with story maps

Alfred's War Rachel Bin Salleh 2018-04-01 Shortlisted for the 2020 NSW Premier's Literary Awards Indigenous Writers' Prize Age range 3 to 10 Alfred's War is a powerful story that unmask the lack of recognition given to Australian Indigenous servicemen who returned from the WWI battlelines. Alfred was just a young man when he was injured and shipped home from France. Neither honoured as a returned soldier or offered government support afforded to non-Indigenous servicemen, Alfred took up a solitary life walking the back roads - billy tied to his swag, finding work where he could. Alfred was a forgotten soldier. Although he had fought bravely in the Great War, as an Aboriginal man he wasn't classed as a citizen of his own country. Yet Alfred always remembered his friends in the trenches and the mateship they had shared. Sometimes he could still hear the never-ending gunfire in his head and the whispers of diggers praying. Every year on ANZAC Day, Alfred walked to the nearest town, where he would quietly stand behind the people gathered and pay homage to his fallen mates. Rachel Bin Salleh's poignant narrative opens our hearts to the sacrifice and contribution that Indigenous people have made to Australia's war efforts, the true extent of which is only now being revealed. 'Every year sees a swell of new stories about ANZAC Day and Alfred's War is my pick of 2018's crop...It's a poignant story, one rooted in truth, and a damning critique of Australian history. Rachel Bin Salleh skilfully renders some tough subjects accessible for young readers, without ever ignoring the reality of Alfred's situation. The beautiful images from first-time illustrator Samantha Fry also help to soften the sharper edges of this tale.' - Bronte Coates, Readings 'Poignant and confronting, revealing and decisive, this beautifully rendered

story provides a fundamental link for children of any creed and background to appreciate the sacrifices and contributions made by indigenous people in the shaping of our Australian history.' – The Boomerang Books Blog 'a beautifully illustrated book...poignant and subtle, its emotional power heightened by its restraint...There is a delicate, dreamlike-quality to the watercolour illustrations by Samantha Fry, an indigenous artist from Darwin.' – Rosemary Neill, The Weekend Australian 'In the lead-up to Anzac Day (April 25), our TV screens and news outlets will be covering dawn services and marches so it is crucial children have some understanding of the day's significance...Alfred's War is particularly poignant due to its Indigenous lens and a story not often told.' – Laura Jones, South Sydney Herald 'The beautifully presented picture book tells younger readers the story of Alfred... Rachel Bin Salleh's sparse words give a dignity to the injustices raised by her story... this book adds a new story to the pantheon of tales children read, allowing them to think about the way some people were treated in the past, while encouraging them to mull over how things could and should have been different.' – Fran Knight, ReadPlus

What Made Tiddalik Laugh Joanna Troughton 1977-01-01 Retells the aboriginal tale about what happened when the giant frog Tiddalik had such a great thirst that he drank a lake, a river, and all the other water he could find until there wasn't a drop of water left anywhere.

How the Birds Got Their Colours Mary Albert 2011 This book is based on a story told by Mary Albert, of the Bardi people, to Aboriginal children living in Broome, Western Australia. The illustrations are adapted from their paintings of the story. Mary Albert said, 'Would you like to hear a story from long ago? My mother used to tell me lots of stories, but this story I loved the best, because I loved the birds.'

Dougy James Moloney 1993 When Dougy's sister Gracey is picked for the state athletics championships, not everybody in their small bush town is pleased. "Aborigines get special treatment", some of the angry white people say – "It's not fair!" The championships change everything for Gracey and trigger dramatic events in the town too- black and white relations reach explosion point. The time is ripe for the mysterious Moodagudda to seek a victim... In the end, it's up to Dougy to save his family – and to prove himself. Dougy is the first book in James Moloney's award winning trilogy which is completed by Gracey and Angela.

Radio Frequency and Microwave Electronics Illustrated Matthew M. Radmanesh 2001 Foreword by Dr. Asad Madni, C. Eng., Fellow IEEE, Fellow IEE Learn the fundamentals of RF and microwave electronics visually, using many thoroughly tested, practical examples RF and microwave technology are essential throughout industry and to a world of new applications—in wireless communications, in Direct Broadcast TV, in Global Positioning System (GPS), in healthcare, medical and many other sciences. Whether you're seeking to strengthen your skills or enter the field for the first time, Radio Frequency and Microwave Electronics Illustrated is the fastest way to master every key measurement, electronic, and design principle you need to be effective. Dr. Matthew Radmanesh uses easy mathematics and a highly graphical approach with scores of examples to bring about a total comprehension of the subject. Along the way, he clearly introduces everything from wave propagation to impedance matching in transmission line circuits, microwave linear amplifiers to hard-core nonlinear

active circuit design in Microwave Integrated Circuits (MICs). Coverage includes: A scientific framework for learning RF and microwaves easily and effectively Fundamental RF and microwave concepts and their applications The characterization of two-port networks at RF and microwaves using S-parameters Use of the Smith Chart to simplify analysis of complex design problems Key design considerations for microwave amplifiers: stability, gain, and noise Workable considerations in the design of practical active circuits: amplifiers, oscillators, frequency converters, control circuits RF and Microwave Integrated Circuits (MICs) Novel use of "live math" in circuit analysis and design Dr. Radmanesh has drawn upon his many years of practical experience in the microwave industry and educational arena to introduce an exceptionally wide range of practical concepts and design methodology and techniques in the most comprehensible fashion. Applications include small-signal, narrow-band, low noise, broadband and multistage transistor amplifiers; large signal/high power amplifiers; microwave transistor oscillators, negative-resistance circuits, microwave mixers, rectifiers and detectors, switches, phase shifters and attenuators. The book is intended to provide a workable knowledge and intuitive understanding of RF and microwave electronic circuit design. Radio Frequency and Microwave Electronics Illustrated includes a comprehensive glossary, plus appendices covering key symbols, physical constants, mathematical identities/formulas, classical laws of electricity and magnetism, Computer-Aided-Design (CAD) examples and more. About the Web Site The accompanying web site has an "E-Book" containing actual design examples and methodology from the text, in Microsoft Excel environment, where files can easily be manipulated with fresh data for a new design.
