The Fabulous Life of Diego Rivera Betram D. Wolfe 2000-07-18 Known for his grand public murals, Diego Rivera (1886-1957) is one of Mexico's most revered artists. His paintings are marked by a unique fusion of European sophistication, revolutionary political turmoil, and the heritage and personality of his native country. Based on extensive interviews with the artist, his four wives (including Frida Kahlo), and his friends, colleagues, and opponents, *The Fabulous Life of Diego Rivera* captures Rivera's complex personality—sometimes delightful, frequently infuriating and always fascinating—as well as his development into one of the twentieth century's greatest artist.

Age of discrepancies Olivier Debrouse 2006 "The first exhibition to offer a critical assessment of the artistic experimentation that took place in Mexico during the last three decades of the twentieth century. The Gospel in Solentiname Ernesto Cardenal 2020-07-07 In Solentiname, a remote archipelago in Lake Nicaragua, the people gathered each Sunday to reflect together on the Gospel reading. From recordings of their dialogue, this extraordinary document of faith in the midst of struggle was composed. First published in four volumes, *The Gospel in Solentiname* was immediately acclaimed as a classic of liberation theology—a radical reading of the good news of Jesus from the perspective of the poor and the

oppressed. (It was also banned by the Somoza dictatorship.) Forty years later *The Gospel in Solentiname* retains its freshness and power. Though times may have changed, the message of Jesus—as heard by these peasants—continues to challenge the rulers of our age and to inspire the poor with the hope of a different world.

A Brief History of Portable Literature Enrique Vila-Matas 2015-06-09 A reader's fictional tour of the art and lives of some of the great 20th-century Surrealists An author (a version of Vila-Matas himself) presents a short "history" of a secret society, the Shandies, who are obsessed with the concept of "portable literature." The society is entirely imagined, but in this rollicking, intellectually playful book, its members include writers and artists like Marcel Duchamp, Aleister Crowley, Witold Gombrowicz, Federico García Lorca, Man Ray, and Georgia O'Keefe. The Shandies meet secretly in apartments, hotels, and cafes all over Europe to discuss what great literature really is: brief, not too serious, penetrating the depths of the mysterious. We witness the Shandies having adventures in stationary submarines, underground caverns, African backwaters, and the cultural capitals of Europe.

Nationalism in the New World Don Harrison Doyle 2010-01-25 Nationalism in the New World brings together work by scholars from the United States, Canada, Latin America, and Europe to discuss the common problem of how the nations of the Americas grappled with the basic questions of nationalism:

Who are we? How do we imagine ourselves as a nation? Debates over the origins and meanings of nationalism have emerged at the forefront of the humanities and social sciences over the past two decades. However, these discussions have been mostly about nations in Europe, the Middle East, Asia, or Africa. In addition, their focus is usually on the violence spawned by ethnic and religious strains of nationalism, which have been largely absent in the Americas. The contributors to this volume "Americanize" the conversation on nationalism. They ask how the countries of the Americas fit into the larger world of nations and in what ways they present distinctive forms of nationhood. Such questions are particularly important because, as the editors write, "the American nations that came into being in the wake of revolutions that shook the Atlantic world beginning in 1776 provided models of what the modern world might become." American nations were among the first nation-states to emerge on the world stage. As former colonies with multiethnic populations, American nations could not logically rest their claim to nationhood on ancient bonds of blood and history. Out of a world of empires and colonies the independent states of the Americas forged new nations based on a varied mix of modern civic ideals instead of primordial myths, on ethnic and religious diversity instead of common descent, and on future hopes rather than ancient roots.

Romantic Motives George W. Stocking 1989-12-12 Romantic Motives explores a topic that has been underemphasized in the historiography of anthropology. Tracking the Romantic strains in the the writings of Rousseau, Herder, Cushing, Sapir, Benedict, Redfield, Mead, Lévi-Strauss, and others, these essays show Romanticism as a permanent and recurrent tendency within the anthropological tradition.

Errant Modernism Esther Gabara 2009-01-01 Making a vital contribution to the understanding of Latin American modernism, Esther Gabara rethinks the role of photography in the Brazilian and Mexican avant-garde movements of the 1920s and 1930s. During these decades, intellectuals in Mexico and Brazil were deeply engaged with photography. Authors who are now canonical figures in the two countries' literary traditions looked at modern life through the camera in a variety of ways. Mário de Andrade, known as the "pope" of Brazilian modernism, took and collected hundreds of photographs. Salvador Novo, a major Mexican writer, meditated on the medium's aesthetic potential as "the prodigal daughter of the fine arts." Intellectuals acted as tourists and ethnographers, and their images and texts circulated in popular mass media, sharing the page with photographs of the New Woman. In this richly illustrated study, Gabara introduces the concept of a modernist "ethos" to illuminate the intertwining of aesthetic innovation and ethical concerns in the work of leading Brazilian and Mexican literary figures, who were also photographers, art critics, and contributors to illustrated magazines during the 1920s and 1930s. Gabara argues that Brazilian and Mexican modernists deliberately made photography err: they made this privileged medium of modern representation simultaneously wander and work against its apparent perfection. They flouted the conventions of mainstream modernism so that their aesthetics registered an ethical dimension. Their photographic modernism strayed, dragging along the baggage of modernity lived in a postcolonial site. Through their "errant modernism," avant-garde writers and photographers

critiqued the colonial history of Latin America and its twentieth-century formations.

Dirty windows Merry Alpern 1995 For Merry Alpern, whose previous book *Dirty Windows* (Scalo, 1995) received international recognition, her new project was a natural outgrowth of her own daily life: spending time in stores, mostly women's clothing stores. She noticed other women in these stores in the middle of the day, all day, everyday. In particular, the group dressing rooms seemed to offer a combination of camaraderie and anonymity. Trying on clothes is an opportunity for self-examination, fantasy, and opinions from others -- sometimes solicited, sometimes not. Alpern says. "We stand there in our underwear, all trying to achieve some private version of a 'look'." With a video camera concealed in her purse, Alpern took endless hours of footage, without ever looking through a viewfinder, but putting the bag in a general direction of activity. Sometimes the bag was an extension of her body as she carried it with her, other times it was placed in a stationary position, separate from her body. Later Alpern started to examine the footage, to isolate moments and make stills. "Viewing surprises on the video tape was one of the most entertaining parts of the project." With this new photographic essay, Alpern dives into the realm of the objects that cover our social body. Her colorful images constitute a visual ethnography of American shopping, indeed one of the most important activities of everyday life in the West. Shopping is a sometimes shocking and often funny expedition into a world we all know only too well!

Nacho Lopez, Mexican Photographer John Mraz 2003 Annotation Photographer Nacho Lopez was Mexico's Eugene Smith, fusing social commitment with searing imagery to dramatize the plight of the helpless, the poor, and the marginalized in the pages of glossy illustrated magazines. Even today, Lopez's photographs forcefully belie the picturesque exoticism that is invariably presented as the essence of Mexico. In *Nacho Lopez, Mexican Photographer*, John Mraz offers the first full-length study in English of this influential photojournalist and provides a close visual analysis of more than fifty of Lopez's most important photographs. Mraz first sets Lopez's work in the historical and cultural context of the authoritarian presidentialism that characterized Mexican politics in the 1950s, the cult of wealth and celebrity promoted by Mexico's professional photographers, and the government's attempts to modernize and industrialize Mexico at almost any cost. Mraz skillfully explores the implications of Lopez's imagery in this setting: the extent to which his photographs might constitute further victimization of his downtrodden subjects, the relationship between them and the middle-class readers of the magazines for which Lopez worked, and the success with which his photographs challenged Mexico's economic and political structures. Mraz contrasts the photos Lopez took with those that were selected by his editors for publication. He also compares Lopez's images with his theories about documentary photography, and considers Lopez's photographs alongside the work of Robert Capa, Dorothea Lange, Henri Cartier-Bresson, and Sebastiao Salgado. Lopez's imagery is further analyzed in relation to the Mexican Golden Age cinema inspired by Sergei Eisenstein, the pioneering digital imagery of Pedro Meyer, and the work of Manuel Alvarez Bravo, who Mraz provocatively argues was the first Mexican photographer to take an anti-picturesque stance. The definitive English-language assessment of Nacho Lo.

Aisthesis Jacques Ranciere 2013-06-04 Composed in a series of scenes, *Aisthesis*—Rancière's definitive statement on the aesthetic—takes its reader from Dresden in 1764 to New York in 1941. Along the way, we view the Belvedere Torso with Winckelmann, accompany Hegel to the museum and Mallarmé to the Folies-Bergère, attend a lecture by Emerson, visit exhibitions in Paris and New York, factories in Berlin, and film sets in Moscow and Hollywood. Rancière uses these sites and events—some famous, others

forgotten—to ask what becomes art and what comes of it. He shows how a regime of artistic perception and interpretation was constituted and transformed by erasing the specificities of the different arts, as well as the borders that separated them from ordinary experience. This incisive study provides a history of artistic modernity far removed from the conventional postures of modernism.

Forjando Patria Manuel Gamio 2010-01-15 Often considered the father of anthropological studies in Mexico, Manuel Gamio originally published *Forjando Patria* in 1916. This groundbreaking manifesto for a national anthropology of Mexico summarizes the key issues in the development of anthropology as an academic discipline and the establishment of an active field of cultural politics in Mexico. Written during the upheaval of the Mexican Revolution, the book has now been translated into English for the first time. Armstrong-Fumero's translation allows readers to develop a more nuanced understanding of this foundational work, which is often misrepresented in contemporary critical analyses. As much about national identity as anthropology, this text gives Anglophone readers access to a particular set of topics that have been mentioned extensively in secondary literature but are rarely discussed with a sense of their original context. *Forjando Patria* also reveals the many textual ambiguities that can lend themselves to different interpretations. The book highlights the history and development of Mexican anthropology and archaeology at a time when scholars in the United States are increasingly recognizing the importance of cross-cultural collaboration with their Mexican colleagues. It will be of interest to anthropologists and archaeologists studying the region, as well as those involved in the history of the discipline.

The Photograph and the Album Jonathan Carson 2013 This is the third in our series of books exploring key aspects of both contemporary and historic photography. With 480 pages and more than 100 colour illustrations *The Photograph and The Album: Histories, Practices, Futures* is a perceptive and stimulating guide to understanding that most pervasive photographic format, the photo album. Becoming

"increasingly unruly," it has survived for over 150 years, from the first experimental albums of the 1850s to today's interactive, mobile applications. Through the placing of single images in sequence, the photo album is the narrative format par excellence. And, as this book demonstrates, its narratives embrace the social, the historical, the sexual and the political. With contributions from twenty respected international authors - academics, curators, photographers, collectors, researchers and writers - *The Photograph and The Album* examines the topic in both visual and written form, spanning historic practice, present-day creation, and future trends. "A welcome addition to the growing trend in seriously exploring the cultural context of the album form." Angela Kelly, Associate Professor, Rochester Institute of Technology, New York.

Divided by their past, united by love. 1992: French-Canadian factions renew Quebec's fight to gain independence, and wild, beautiful Véronique Fortin, daughter of a radical separatist convicted of kidnapping and murdering a prominent politician in 1970, has embraced her father's cause. So it is a surprise when she falls for James Phénix, a journalist of French-Canadian heritage who opposes Quebec separatism. Their love affair is as passionate as it is turbulent, as they negotiate a constant struggle between love and morals. At the same time, James's older sister, Elodie Phénix, one of the Duplessis Orphans, becomes involved with a coalition demanding justice and reparations for their suffering in the 1950s when Quebec's orphanages were converted to mental hospitals, a heinous political act of Premier Maurice Duplessis which affected 5,000 children. Véronique is the only person Elodie can rely on as she fights for retribution, reliving her trauma, while Elodie becomes a sisterly presence for Véronique, who continues to struggle with her family's legacy. *The Forgotten Daughter* is a moving portrait of true love, familial bonds, and persistence in the face of injustice. Artful Lives Beth Gates Warren 2011 This captivating biography reveals the previously untold love story of Edward Weston and Margrethe Mather. Both were photographic artists at the center of the bohemian cultural scene in Los Angeles during the 1910s and 1920s, yet Weston would become a major Modernist photographer while Mather, who Weston ultimately expunged from his journals, would fall into obscurity. The book reveals how they and their entourage sought out the limelight as the Hollywood film industry came of age. Based on ten years of research and illustrated with extraordinary images, some never published, this history has a captivating range of characters, including Charlie Chaplin, Imogen Cunningham, Max Eastman, Emma Goldman, Tina Modotti, Vaslav Nijinsky, and Carl Sandburg. The lively text brings to life the ambiance of this exciting time in Los Angeles history as well as its darker side. *Artful Lives* exceeds any previously published account of this key period in Weston's development and reveals Mather's important contribution to it, making it an essential reference in Weston studies.

Passion of the People? Tony Mason 1995 Brazil's victory in the 1994 World Cup is the latest chapter in an extensive history of the world's most popular game in South America. In this engaging account, Tony Mason reviews the place of football in Argentina, Brazil and Uruguay. Mason opens with soccer's rise at the turn of the century amidst the exploding urbanization of Buenos Aires, Montevideo, Rio de Janeiro and Sao Paulo. He demonstrates that, from its beginnings, the game had wide popular appeal and examines the role of British commercial and military interests as well as that of newcomers from Italy, Spain and Portugal. From the moment when Uruguay won the Olympic football tournament in 1924 to Argentina's bizarre appearance in the World Cup final of 1990, international success on the pitch brought with it prestige and influence abroad. At home, Mason shows how dictators used football to ensure political passivity. He concludes by asking if the attention focused on football in Latin America today is exaggerated or whether the game truly is the 'passion of the people'.

The Last City Pablo Ortiz Monasterio 1995 A collection of photographs of day to day life in Mexico City, attempting to capture its mixture of tradition and modernity.

Crafting Mexico Rick A. López 2010-08-19 After Mexico's revolution of 1910-1920, intellectuals sought to forge a unified cultural nation out of the country's diverse populace. Their efforts resulted in an "ethnicized" interpretation of Mexicanness that intentionally incorporated elements of folk and indigenous culture. In this rich history, Rick A. López explains how thinkers and artists, including the anthropologist Manuel Gamio, the composer Carlos Chávez, the educator Moisés Sáenz, the painter Diego Rivera, and many less-known figures, formulated and promoted a notion of nationhood in which previously denigrated vernacular arts—dance, music, and handicrafts such as textiles, basketry, ceramics, wooden toys, and ritual masks—came to be seen as symbolic of Mexico's modernity and national distinctiveness. López examines how the nationalist project intersected with transnational intellectual and artistic currents, as well as how it was adapted in rural communities. He provides an in-depth account of artisanal practices in the village of Olinalá, located in the mountainous southern state of Guerrero. Since the 1920s, Olinalá has been renowned for its lacquered boxes and gourds, which have been considered to be among the "most Mexican" of the nation's arts. *Crafting Mexico* illuminates the role of cultural politics and visual production in Mexico's transformation from a regionally and culturally fragmented country into a modern nation-state with an inclusive and compelling national identity.
