The Ship of Dreams Gareth Russell 2020-11-03 This original and "meticulously researched retelling of history's most infamous voyage" (Denise Kiernan, New York Times bestselling author) uses the sinking of the Titanic as a prism through which to examine the end of the Edwardian era and the seismic shift modernity brought to the Western world. "While there are many Titanic books, this is one readers will consider a favorite" (Voyage). In April 1912, six notable people were among those privileged to experience the height of luxury—first class passage on "the ship of dreams," the RMS Titanic: Lucy Leslie, Countess of Rothes; son of the British Empire Tommy Andrews; American captain of industry John Thayer and his son Jack; Jewish-American immigrant Ida Straus; and American model and movie star Dorothy Gibson. Within a week of setting sail, they were all caught up in the horrifying disaster of the Titanic's sinking, one of the biggest news stories of the century. Today, we can see their stories and the Titanic's voyage as the beginning of the end of the established hierarchy of the Edwardian era. Writing in his signature elegant prose and using previously unpublished sources, deck plans, journal entries, and surviving artifacts, Gareth Russell peers through the portholes of these first-class travelers to immerse us in a time of unprecedented change in British and American history. Through their intertwining lives, he examines social, technological, political, and economic forces such as the nuances of the British class system, the explosion of competition in the shipping trade, the birth of the movie industry, the Irish Home Rule Crisis, and the Jewish-American immigrant experience while also recounting their intimate stories of bravery, tragedy, and selflessness. Lavishly illustrated with color and black and white photographs, this is "a beautiful requiem" (The Wall Street Journal) in which "readers get the story of this particular floating Tower of Babel in riveting detail, and with all the wider context they could want" (Christian Science Monitor).

Lost Voices from the Titanic Nick Barratt 2010-03-30 On April 15, 1912, the HMS Titanic sank, killing 1,517 people and leaving the rest clinging to debris in the frozen waters of the North Atlantic awaiting rescue. Here, historian Nick Barratt tells the ship's full story, starting from its original conception and design by owners and naval architects at the White Star Line through its construction at the shipyards in Belfast. *Lost Voices From the Titanic* offers tales of incredible folly and unimaginable courage—the aspirations of the owners, the efforts of the crew, and of course, the eyewitness accounts from those lucky enough to survive. In narrating the definitive history of the famous ship, Barratt draws from never before seen archive material and eyewitness accounts by participants at every stage of the Titanic's life. These long-lost voices bring new life to those heartbreaking moments on the fateful Sunday night when families were torn apart and the legend of the Titanic was cemented in our collective imagination.

Dive! World War II Stories of Sailors & Submarines in the Pacific Deborah Hopkinson 2016-09-27 *Dive! World War II Stories of Sailors & Submarines in the Pacific* tells the incredible story of America's little known "war within a war" -- US submarine warfare during World War II. Following the attack on Pearl Harbor, the US entered World War II in December 1941 with only 44 Naval submarines -- many of them dating from the 1920s. With the Pacific battleship fleet decimated after Pearl Harbor, it was up to the feisty and heroic sailors aboard the US submarines to stop the Japanese invasion across the Pacific. Including breakouts highlighting submarine life and unsung African-American and female war heroes, award-winning author Deborah Hopkinson uses first-person accounts, archival materials, official Naval documents, and photographs to bring the voices and exploits of these brave service members to life.

Voices from the Titanic Geoff Tibballs 2012-04-01 This is the graphic, first-hand story of the maiden voyage and disastrous sinking of the RMS Titanic, told by the survivors themselves. The story of the sinking of the great liner has been told countless times since that fateful night on April 14, 1912, by historians, novelists, and film producers alike, but no account is as graphic or revealing as those from the people who were actually there. Through survivors' tales and contemporary newspaper reports from both sides of the Atlantic, here are eyewitness accounts full of details that range from poignant to humorous, stage by stage from the liner's glorious launch in Belfast to the somber sea burial services of those who perished on her first and only voyage. In this book, the voices of the survivors share their own stories, as well as the official records, press reports, and investigations into what went wrong that night.

We Had to Be Brave: Escaping the Nazis on the Kindertransport (Scholastic Focus) Deborah Hopkinson 2020-02-04 Sibert Honor author Deborah Hopkinson illuminates the true stories of Jewish children who fled Nazi Germany, risking everything to escape to safety on the Kindertransport. An NCTE Orbis Pictus recommended book and a Sydney Taylor Book Award Notable Title. Ruth David was growing up in a small village in Germany when Adolf Hitler rose to power in the 1930s. Under the Nazi Party, Jewish families like Ruth's experienced rising anti-Semitic restrictions and attacks. Just going to school became dangerous. By November 1938, anti-Semitism erupted into Kristallnacht, the Night of Broken Glass, and unleashed a wave of violence and forced arrests. Days later, desperate volunteers sprang into action to organize the Kindertransport, a rescue effort to bring Jewish children to England. Young people like Ruth David had to say good-bye to their families, unsure if they'd ever be reunited. Miles from home, the Kindertransport refugees entered unrecognizable lives, where food, clothes -- and, for many of them, language and religion -- were startlingly new. Meanwhile, the onset of war and the Holocaust visited unimaginable horrors on loved ones left behind. Somehow, these rescued children had to learn to look forward, to hope. Through the moving and often heart-wrenching personal accounts of Kindertransport survivors, critically acclaimed and award-winning author Deborah Hopkinson paints the timely and devastating story of how the rise of Hitler and the Nazis tore apart the lives of so many families and what they were forced to give up in order to save these children.

Titanic Calling Michael Hughes 2012 Published to mark the centenary of the sinking, this book tells the story of the Titanic from a new angle: the role of wireless in the disaster. Drawing on the Marconi Archives in the Bodleian Library, the most extensive record of wireless communications, the book recounts the fateful events of April 1912 using complete transcripts of the messages to re-tell this well-known story from a different perspective. The narrative begins with warnings of ice, including one sent from the S.S. Californian, the closest ship to the Titanic, just hours before the fatal collision. It follows Jack Phillips, the senior operator on board the R.M.S. Titanic, as he begins sending the 'CQD' Marconi distress signals late on the night of April 14th. We see how these urgent calls were received by nearby ships and how news was passed rapidly across the Atlantic, in a desperate attempt to save the lives of the passengers and crew. The story ends with messages from the few lucky survivors safely on their way to New York. The directness and brevity of the messages gives the narrative a compelling impact and immediacy. *Titanic Calling* brings to life the voices of the individuals in this drama, retelling this legendary story as it was first heard.

Titanic Survivor Violet Jessop 2012-04-04 Violet Jessop's life is an inspiring story of survival. Born in 1887 in Argentina, the eldest child of Irish immigrants, at the age of 21 she became the breadwinner for her widowed mother and five siblings when she commenced a career as a stewardess and nurse on some of the most famous ocean going vessels of the day. Throughout her 40 year time at sea she survived an unbelievable series of events including the sinking of the TITANIC. "One awful moment of empty, misty blackness enveloped us in its loneliness, then an unforgettable, agonizing cry went up from 1500 despairing throats, a long wail and then silence and our tiny craft tossing about at the mercy of the ice field." For most people one sinking would be enough. But four years later Violet, now a nurse with the British Red Cross, was on board the World War I hospital ship BRITANNIC when it struck a mine and sank to the bottom of the Aegean. To her, this disaster was even more horrifying-- "Just as life seeming nothing but a whirling, choking ache, I rose to the light of day, my nose barely above the little lapping waves. I opened my eyes on an indescribable scene of slaughter, which made me shut them again to keep it out." By the end of her story we have met a woman who could handle whatever life threw at her with determination and good humor. She knew that only by her own strength of character would she survive. But *Titanic Survivor* is much more. A unique

autobiography for those who want to know how it really felt, a story that could be told only by a Titanic Survivor.

The Sinking of the Titanic and Great Sea Disasters Logan Marshall 2012-08-07 This is one of the first and most famous books published after the sinking of the Titanic, and contains much material from contemporary newspaper accounts. It was written by Logan Howard-Smith (under the pen name of Logan Marshall), an editor who specialized in the rapid publication of books about current events. For this book, his crowning achievement, the initial print run was for no fewer than 110,000 copies. The publisher achieved this by running 11 presses simultaneously, and the books were then sold door-to-door across America for a dollar apiece. Although Marshall's own description of the sinking is melodramatic and sensationalistic, the many verbatim interviews with survivors of the disaster have stood the test of time, and are often cited in Titanic literature.

The Jews of the Titanic Eli Moskowitz 2018-03-14 During an era when millions of Jews fled the pogroms of Eastern Europe, the Titanic sailed on her maiden voyage. At the time, she was the largest and most luxurious ship ever built and many of her 2,200 passengers were Jewish. At 23:40, April 14, (28th of Nissan 5672) the Titanic swiped an iceberg and sank within two and a half hours. Most of her passengers lost their lives. The sinking of the Titanic was one of the worst and well known maritime disasters of the 20th century. The entire world mourned the Titanic. The grief was universal and shared by people of many nations and religions. This book focuses on the lives and deaths of the Jewish passengers who sailed on the Titanic. It covers various Jewish aspects of the voyage and of the sinking. Aspects, such as keeping kosher, the Agunot dilemma and Jewish burial. The book outlines the life story of the passengers and the effect the disaster made on world Jewry. This book is the result of a long research on the subject, including an attempt to compose a unique and complete list of all the Jews who sailed

on the Titanic, and identifying many of them who were previously unknown.

Voices from the Carpathia George Behe 2015-05-04 "When Titanic began sending out distress calls, one of the first to reply was the Cunard liner Carpathia. As it turned out, Carpathia was the only vessel to reach the scene in time to save the lives of any of Titanic's passengers, and, after she arrived in New York, reporters crowded the pier and vied with each other to obtain interviews with the survivors of the disaster. In their zeal to interview survivors, though, the reporters brushed past other people who could have provided their own eyewitness accounts – namely, Carpathia's own passengers, largely left to their own devices as to how and when they discussed their participation in events. A few wrote letters to relatives, others wrote accounts intended for publication. The author's collection of these rare written accounts and interviews sheds new light on the tragic way the lives of so many were impacted by the loss of the largest passenger liner in the world."

One Hundred and Sixty Minutes William Hazelgrove 2021-09-01 One hundred and sixty minutes. That is all the time rescuers would have before the largest ship in the world slipped beneath the icy Atlantic. There was amazing heroism and astounding incompetence against the backdrop of the most advanced ship in history sinking by inches with luminaries from all over the world. It is a story of a network of wireless operators on land and sea who desperately sent messages back and forth across the dark frozen North Atlantic to mount a rescue mission. More than twenty-eight ships would be involved in the rescue of Titanic survivors along with four different countries. At the heart of the rescue are two young Marconi operators, Jack Phillips 25 and Harold Bride 22, tapping furiously and sending electromagnetic waves into the black night as the room they sat in slanted toward the icy depths and not stopping until the bone numbing water was around their ankles. Then they plunged into the water after coordinating the largest rescue operation the maritime world had ever seen and thereby saving 710 people by their efforts. The race to save the largest ship in the world from certain death would reveal both heroes and villains. It would begin at 11:40 PM on April 14, when the iceberg was struck and would end at 2:20 AM April 15, when her lights blinked out and left 1500 people thrashing in 25-degree water. Although the race to save Titanic survivors would stretch on beyond this, most people in the water would die, but the amazing thing is that of the 2229 people, 710 did not and this was the success of the Titanic rescue effort. We see the Titanic as a great tragedy but a third of the people were rescued and the only reason every man, woman, and child did not succumb to the cold depths is due to Jack Phillips and Harold McBride in an insulated telegraph room known as the Silent Room. These two men tapping out CQD and SOS distress codes while the ship took on water at the rate of 400 tons per minute from a three-hundred-foot gash would inaugurate the most extensive rescue operation in maritime history using the cutting-edge technology of the time, wireless.

Walter Lord's *A Night to Remember* was a landmark work that recounted the harrowing events of April 14, 1912, when the British ocean liner RMS Titanic went down in the North Atlantic Ocean, a book that inspired a classic movie of the same name. In *The Night Lives On*, Lord takes the exploration further, revealing information about the ship's last hours that emerged in the decades that followed, and separating myths from facts. Was the ship really christened before setting sail on its maiden voyage? What song did the band play as water spilled over the bow? How to Survive the Titanic or The Sinking of J. Bruce Ismay Frances Wilson 2011-08-15 Books have been written, films made, we have raised the Titanic and watched her go down again on numerous occasions, but out of the wreckage Frances Wilson spins a new epic: when the ship hit the iceberg on 14 April 1912 and a thousand men prepared to die, J Bruce Ismay, the ship's owner and inheritor of the White Star fortune, jumped into a lifeboat with the women and children and rowed away to safety. Accused of cowardice, Ismay became, according to one headline, 'The Most Talked-of Man in the World'. The first victim of a press hate campaign, his reputation never recovered and while other survivors were piecing together their accounts, Ismay never spoke of his beloved ship again. With the help of that great narrator of the sea, Joseph Conrad, whose Lord Jim so uncannily predicted Ismay's fate - and whose manuscript of the story of a man who impulsively betrays a code of honour and lives on under the strain of intolerable guilt went down with the Titanic - Frances Wilson explores the reasons behind Ismay's jump, his desperate need to make sense of the horror of it all, and to find a way of living with lost honour. For those who survived the Titanic the world was never the same

again. But as Wilson superbly demonstrates, we all have our own Titanics, and we all need to find ways of surviving them.

Watch that Ends the Night Hugh MacLennan 2009 George and Catherine Stewart share not only the burden of Catherine's heart disease, which could cause her death at any time, but the memory of Jerome Martell, her first husband and George's closest friend. Shadow of the Titanic Andrew Wilson 2012-03-06 IN the early morning hours of April 15, 1912, the icy waters of the North Atlantic reverberated with the desperate screams of more than 1,500 men, women, and children—passengers of the once majestic liner Titanic. Then, as the ship sank to the ocean floor and the passengers slowly died from hypothermia, an even more awful silence settled over the sea. The sights and sounds of that night would haunt each of the vessel's 705 survivors for the rest of their days. Although we think we know the story of Titanic—the famously luxurious and supposedly unsinkable ship that struck an iceberg on its maiden voyage from Britain to America—very little has been written about what happened to the survivors after the tragedy. How did they cope in the aftermath of this horrific event? How

did they come to remember that night, a disaster that has been likened to the destruction of a small town? Drawing on a wealth of previously unpublished letters, memoirs, and diaries as well as interviews with survivors' family members, award-winning journalist and author Andrew Wilson reveals how some used their experience to propel themselves on to fame, while others were so racked with guilt they spent the rest of their lives under the Titanic's shadow. Some reputations were destroyed, and some survivors were so psychologically damaged that they took their own lives in the years that followed. Andrew Wilson brings to life the colorful voices of many of those who lived to tell the tale, from famous survivors like Madeleine Astor (who became a bride, a widow, an heiress, and a mother all within a year), Lady Duff Gordon, and White Star Line chairman J. Bruce Ismay, to lesser known second- and third-class passengers such as the Navratil brothers—who were traveling under assumed names because they were being abducted by their father. Today, one hundred years after that fateful voyage, *Shadow of the Titanic* adds an important new dimension to our understanding of this enduringly fascinating story.
