The Group of Seven and Tom Thomson Anne Newlands 1995 Well-illustrated with 40 color works and archival photographs, this is an informative introduction to Canada's best-loved artists from the early 20th century -- the Group of Seven and Tom Thomson.

In the Forest of Fontainebleau Kimberly A. Jones 2008 More than 100 works by artists such as Jean-Baptiste-Camille Corot (1796-1875), Théodore Rousseau (1812-1867), Jean-François Millet (1814-1875), Claude Monet (1840-1926), Gustave Le Gray (1820-1884), and Eugène Cuvelier (1837-1900) explore the French phenomenon of plein-air (open-air) painting and photography in the region of Fontainebleau, a pilgrimage site for aspiring landscape artists. The forest also inspired a new school of landscape photography, as figures such as Gustave Le Gray and Eugène Cuvelier, working side by side with painters, explored the camera's potential to reveal nature in a fresh and unadorned manner. The exhibition also includes 19th-century artists' equipment and tourist ephemera.

Tom Thomson David Silcox 2017-10-17 A stunning new edition of the Canadian classic with never-before-seen paintings First published in 1977 to commemorate the centenary of the birth of a Canadian painter whose brief, brilliant life, and untimely death in a mysterious canoe accident, gained him mythic status in his homeland, Tom Thomson: The Silence and the Storm quickly attained legendary status in its own right. This newly designed and expanded edition revives a classic and adds more than 25 never-before-seen paintings and a new introduction. Co-authors Harold Town, a founder of the Painters Eleven and an icon of Canadian art himself, and art historian David P. Silcox, former head of Sotheby's Canadian division, celebrate this early associate of the Group of

Seven as a key creative figure without falling into the trap of cultural jingoism. Thomson, the authors maintain, was an inspired regional painter—in the best sense of that term—who stumbled upon the bold Expressionist palette pioneered by Matisse and his contemporaries despite working from a provincial backwater. Thomson's finest works are reproduced here in painstakingly colour-matched plates, including more than 80 of Thomson's famous oil sketches in exactly their original size.

Impressionism and Its Canon James E. Cutting 2006 Impressionism and Its Canon examines the diffuse relations among Impressionist artists and how history coalesced them into a uniform group. A pivotal artistic canon is that of French Impressionism. By considering the artists, the museums showcasing Impressionist artwork, the collectors who donated it to museums, and the scholars and art professionals who have written about the art, this work explores the evolution of this canon and its now iconic role in Western culture. The book also highlights the role of the public in supporting and solidifying the structure of the French Impressionist canon.

Being Modern Robert Bud 2018-10-10 In the early decades of the twentieth century, engagement with science was commonly used as an emblem of modernity. This phenomenon is now attracting increasing attention in different historical specialties. Being Modern builds on this recent scholarly interest to explore engagement with science across culture from the end of the nineteenth century to approximately 1940. Addressing the breadth of cultural forms in Britain and the western world from the architecture of Le Corbusier to working class British science fiction, Being Modern paints a rich picture. Seventeen distinguished contributors from a range of fields including the cultural study of science and technology, art and architecture, English culture and literature examine the issues involved. The book will be a valuable resource for students, and a spur to scholars to further examination of culture as an interconnected web of which science is a critical part, and to supersede such tired formulations as 'Science and culture'.

Historical Dictionary of World War II France Bertram M. Gordon 1998 Includes over 400 entries from the 1938 Munich Crisis to the trial of former Vichy official Maurice Papon.

Trade Ornament Usage Among the Native Peoples of Canada Karlis Karklins 1992 Study describes in chronological order how the various trade ornaments (material culture) were used from initial contact to circa 1900 by representative tribes of the seven major native groups of Canada. Based on extensive search of published and manuscript sources, supplemented by examination of historical paintings, photographs and ethnographical specimens.

Approaches to Organic Form F.R. Burwick 2012-12-06 Frederick Burwick's modest but comprehensive and insightful introduction is preface enough to these

sensible essays in the history and philosophical criticism of ideas. If we want to understand how some in quiring and intelligent thinkers sought to go beyond mechanism and vitalism, we will find Burwick's labors of assembling others and reflecting on his own part to be as stimulating as anywhere to be found. And yet his initial cautious remark is right: 'approaches', not 'attainments'. The problems associated with clarifying 'matter' and 'form' are still beyond any consensus as to their solution. Even more do we recognize the many forms and meanings of 'form', and this is so even for 'organic form'. That wise scientist-philosopher-engineer Lancelot Law Whyte struggled in a place neighboring to Burwick's, and his essay of thirty years ago might be a scientist's preface to Burwick and his colleagues: see Whyte's *Accent on Form* (N. Y., Harper, 1954) and his *Symposium of 1951 Aspects of Form* (London, Percy Lund Humphries 1951; and Indiana University Press 1961), itself arranged in honor of D'Arcy Thompson's classical monograph *On Growth and Form*. Philosophy and history of science must deal with these issues, and with the mixture of hard-headedness and imagination that they demand.

Using French Vocabulary Jean H. Planning in Cold War Europe Michel Christian 2018-10-08 The idea of planning economy and engineering social life has often been linked with Communist regimes' will of control. However, the persuasion that social and economic processes could and should be regulated was by no means limited to them. Intense debates on these issues developed already during the First World War in Europe and became globalized during the World Economic crisis. During the Cold War, such discussions fuelled competition between two models of economic and social organisation but they also revealed the convergences and complementarities between them. This ambiguity, so often overlooked in histories of the Cold War, represents the central issue of the book organized around three axes. First, it highlights how know-how on planning circulated globally and were exchanged by looking at international platforms and organizations. The volume then closely examines specificities of planning ideas and projects in the Communist and Capitalist World. Finally, it explores East-West channels generated by exchanges around issues of planning which functioned irrespective of the Iron Curtain and were exported in developing countries. The volume thus contributes to two fields undergoing a process of profound reassessment: the history of modernisation and of the Cold War.

Northern Light Roy MacGregor 2011-09-06 NATIONAL BESTSELLER FINALIST FOR THE OTTAWA BOOK AWARD FOR NON-FICTION Roy MacGregor's lifelong fascination with Tom Thomson first led him to write *Canoe Lake*, a novel inspired by a distant relative's affair with one of Canada's greatest painters. Now, MacGregor breaks new ground, re-examining the mysteries of Thomson's life, loves and violent death in the definitive non-fiction account. Why does a man who died almost a

century ago and painted relatively little still have such a grip on our imagination? The eccentric spinster Winnie Trainor was a fixture of Roy MacGregor's childhood in Huntsville, Ontario. She was considered too odd to be a truly romantic figure in the eyes of the town, but the locals knew that Canada's most famous painter had once been in love with her, and that she had never gotten over his untimely death. She kept some paintings he gave her in a six-quart basket she'd leave with the neighbours on her rare trips out of town, and in the summers she'd make the trip from her family cottage, where Thomson used to stay, on foot to the graveyard up the hill, where fans of the artist occasionally left bouquets. There she would clear away the flowers. After all, as far as anyone knew, he wasn't there: she had arranged at his family's request for him to be exhumed and moved to a cemetery near Owen Sound. As Roy MacGregor's richly detailed *Northern Light* reveals, not much is as it seems when it comes to Tom Thomson, the most iconic of Canadian painters. Philandering deadbeat or visionary artist and gentleman, victim of accidental drowning or deliberate murder, the man's myth has grown to obscure the real view—and the answers to the mysteries are finally revealed in these pages.

Framing French Culture Ben McCann 2015 Throughout this book, the concept of framing is used to look at art, photography, scientific drawings and cinema as visually constituted, spatially bounded productions. The way these genres relate to that which exists beyond the frame, by means of plastic, chemically transposed, pencil-sketched or moving images allows us to decipher the particular language of the visual and at the same time circumscribe the dialectic between presence and absence that is proper to all visual media. Yet, these kinds of re-framing owe their existence to the ruptures and upheavals that marked the demise of certain discursive systems in the past, announcing the emergence of others that were in turn overturned.

Tom Thomson Jim Poling Sr. 2017-09-01 Tom Thomson is Canada's most famous artist and as everyone knows, his short and glorious career was abruptly and brutally ended on July 8, 1917 under mysterious circumstances. Since the recovery of Thomson's body, theories as to the cause of his death – accident? murder? – have preoccupied sleuths for close to 100 years. This book weaves together Thomson's life, art and posthumous mythological presence. The narrative is illustrated with period photos of Thomson and other Group of Seven painters, plus 20 of his most compelling paintings.

Other Histories Kirsten Hastrup 2013-01-11 The historization of anthropology has entailed a radically new view upon history and the nature of history. This collection of papers from the first conference of the newly formed European Association of Social Anthropologists demonstrate how ways of thinking about history are important features of any production of history, and how cultural concepts enter as forces of historical causation.

Nationalism and Classicism A. Leoussi 1998-07-08 This is a comparative study of the national significance of the classical revival which marked English and French art during the second half of the nineteenth century. It argues that the main focus of artists' interest in classical Greece, was the body of the Greek athlete. It explains this interest, first, by artists' contact with the art of Pheidias and Polycletus which portrayed it; and second, by the claim, made by physical anthropologists, that the classical body typified the race of the European nations.

The Mysterious Death of Tom Thomson George A. Walker 2012 In master engraver George A. Walker's newest work, *The Mysterious Death of Tom Thomson*, the circumstances surrounding the death and disappearance of the iconic Canadian artist are explored through some one hundred and nine wood engravings, creating a work that eulogizes not only the artist himself, but the struggle of the artist's attempt to express himself while constrained by society, the reality of the moment, and mortality.

Tales of the City Armistead Maupin 1978 Armistead Maupin's *Tales of the City* has blazed a singular trail through popular culture -- from a groundbreaking newspaper serial to a classic novel to a television event that entranced millions around the world. The first of six novels about the denizens of the mythic apartment house at 28 Barbary Lane, *Tales* is both a wry comedy of manners and a deeply involving portrait of a vanished era.

Agrarian Studies James C. Scott 2001-01-01 This book presents an account of an intellectual breakthrough in the study of rural society and agriculture. Its ten chapters, selected for their originality and synthesis from the colloquia of the Program in Agrarian Studies at Yale University, encompass various disciplines, diverse historical periods, and several regions of the world. The contributors' fresh analyses will broaden the perspectives of readers with interests as wide-ranging as rural sociology, environmentalism, political science, history, anthropology, economics, and art history. The ten studies recast and expand what is known about rural society and agrarian issues, examining such topics as poverty, subsistence, cultivation, ecology, justice, art, custom, law, ritual life, cooperation, and state action. Each contribution provides a point of departure for new study, encouraging deeper thinking across disciplinary boundaries and frontiers.

The Real Mystery of Tom Thomson Richard Weiser 2020-02 Although much has been written about Tom Thomson's mysterious death, little to nothing has been written about his life's accomplishment: how in less than four years, a man with little experience and no art school education was able to create hundreds of paintings that have captured the nation's imagination for almost a century. This is the real Tom Thomson mystery, and it is a story worth telling.

Seurat, 1859-1891 Robert L. Herbert 1991 A volume which embodies an entire generation of scholarship on the artist. Seurat's brief but brilliant career is traced from his early academic drawings of the 1870s to the paintings of popular entertainments and the serene landscapes of his final years.

Earth Day in Leith Churchyard Bernadette Rule 2015-08-01 It has been almost a century since the painter Tom Thomson was murdered at the age of 39. The mystery of his death has captivated people almost as much as his passionate work. As both a friend and an inspiration to the members of The Group of Seven, founded shortly after his death, Thomson holds an important place in Canadian art. *Earth Day at Leith Churchyard: Poems in Search of Tom Thomson* is a collection of poems inspired by the paintings and the character of Tom Thomson, and by the landscape he loved.

[Who Killed Tom Thomson?](#) John Little 2018-08-21 A new look at a notoriously mysterious 1917 death in the Canadian wilderness--informed by two generations of researchers and modern-day homicide detectives. Before he met an untimely death in a remote wilderness lake in July 1917, Tom Thomson was a landscape painter

considered Canada's Vincent van Gogh. He was buried in an unofficial grave close to the lake where his body was found, and about eight hours later the coroner arrived—but never examined the body, and ruled the death accidental due to drowning. A day and a half later, Thomson's family hired an undertaker to exhume the body and move it to the family plot about a hundred miles away. This undertaker refused all help, and to the puzzlement of many, worked only at night, despite the mosquitoes and blackflies that swarmed in the summer. In 1956, Bill Little and three other men, influenced by the story of an old park ranger, dug up what was supposed to be the original, now-empty grave. To their surprise, the grave still contained a body, and the skull revealed a head wound that matched the initial reports of those who'd pulled Thomson's corpse from the water. The revelations that followed sent shockwaves across the nation and began a mystery that continues to this day. In this book, his son, John Little, continues the relationship his family has had with Tom Thomson and his fate—by teaming up with two high-ranking Ontario provincial police homicide detectives. For the first time, they provide a forensic scientific opinion as to how Thomson met his death, and where his body is buried. Drawing upon his father's research, plus recently released archival material and his own thirty-year investigation, Little and his colleagues prove that Thomson was murdered, and set forth two persons of interest in this fascinating, twist-filled historical crime. "A novel approach . . . he has done an admirable job of assembling the actual evidence, the hearsay evidence and all the various theories, from solid to ridiculous, concerning the death of Tom Thomson." —The Globe and Mail

The Culture of Sectarianism Ussama Makdisi 2000-07-03 A fresh interpretation of the development of sectarian identities and communal violence in Lebanon from the 1840s to the 1860s, challenging those who have viewed sectarian violence as an Islamic reaction against westernization or as the product of social and economic inequities among religious groups.

The Annenberg Collection Metropolitan Museum of Art (New York, N.Y.) 2009 The Walter and Leonore Annenberg Collection of Impressionist and Post-Impressionist paintings, watercolors, and drawings constitutes one of the most remarkable groupings of avant-garde works of art from the mid-19th to the early 20th century ever given to The Metropolitan Museum of Art. The Many Deaths of Tom Thomson Gregory Klages 2016-05-14 A National Post Bestseller! How did Tom Thomson die in the summer of 1917? Was landscape

painter Tom Thomson shot by poachers, or by a German-American draft dodger? Did a blow from a canoe paddle knock him unconscious and into the water? Was he fatally injured in a drunken fight? Did he end his life out of fear of being forced to marry his pregnant girlfriend? Commemorating the one-hundredth anniversary of the death of the renowned Canadian landscape painter, *The Many Deaths of Tom Thomson* offers an authoritative review of the historical record, as well as some theories you might not have thought of in a hundred years. Cultural historian Gregory Klages surveys first-hand testimony and archival records about Thomson's tragic demise, attempting to sort fact from legend in the death of this Canadian icon.
