Milton's Angels Joad Raymond 2010-02-25 Milton's *Paradise Lost*, the most eloquent, most intellectually daring, most learned, and most sublime poem in the English language, is a poem about angels. It is told by and of angels; it relies upon their conflicts, communications, and miscommunications. They are the creatures of Milton's narrative, through which he sets the Fall of humankind against a cosmic background. Milton's angels are real beings, and the stories he tells about them rely on his understanding of what they were and how they acted. While he was unique in the sublimity of his imaginative rendering of angels, he was not alone in writing about them. Several early-modern English poets wrote epics that explore the actions of and grounds of knowledge about angels. Angels were intimately linked to theories of representation, and theology could be a creative force. Natural philosophers and theologians too found it interesting or necessary to explore angel doctrine. Angels did not disappear in Reformation theology: though centuries of Catholic traditions were stripped away, Protestants used them in inventive ways, adapting tradition to new doctrines and to shifting perceptions of the world. Angels continued to inhabit all kinds of writing, and shape the experience and understanding of the world. *Milton's Angels: The Early-Modern Imagination* explores the fate of angels in Reformation Britain, and shows how and why *Paradise*

Lost is a poem about angels that is both shockingly literal and sublimely imaginative.

The Phenomenon of Speaking in Tongues Ionel Plesa 2012-11-12 It is known that the New Testament was written in the Greek language, but this does not lead us to believe that the writing of the four Gospels would have access to all the peoples. At the Lord's command, the disciples were sent to preach only to the "lost sheep of the house of Israel." However, the miracle of Pentecost "resolved their communication" with all the peoples of the Earth who had gathered together in Jerusalem.

Lectures on Faith Joseph Smith (Jr.) 1988 This special edition of the Lectures on Faith from Zion's Camp Books is formatted for convenience on an eReader, with more than 100 internal links to scriptures and citations. We hope it will give you a great reading experience! The Lectures on Faith were originally prepared as materials for the School of the Prophets in Kirtland, Ohio in 1834 and were included in the Doctrine and Covenants from 1835 to 1921. Although the Lectures on Faith have never been accepted as revelation by the body of the church (and so were removed from the Doctrine and Covenants in 1921), they contain important doctrinal insights that can help anyone seeking to learn more about faith and come closer to Heavenly Father and Jesus Christ. President Joseph Fielding Smith noted, "I suppose that the rising generation knows little about the Lectures on Faith. . . . In my own judgment, these Lectures are of great value and should be studied. . . . I consider them to be of extreme value in the study of the gospel of Jesus Christ." (Joseph Fielding Smith, *Seek Ye Earnestly*. Salt Lake City: Deseret Book, 1970.) Elder Bruce R. McConkie of the Quorum of the Twelve Apostles has stated the lectures contain "some of the best lesson material ever prepared on the Godhead; on the character, perfections, and attributes of God; on faith, miracles, and sacrifice. They can be studied with great profit by all gospel scholars." (Bruce R. McConkie, *Mormon Doctrine*. Salt Lake City: Bookcraft, 1966.)

Parenting with Heart Stephen James 2018-10-16 Parents want to be the best person they can for their children, but much of the time they may feel like giraffes on ice--clumsy, unprepared, and in imminent danger of going down. The good news is, our children don't need perfect parents. They need authentic, fully-hearted, relationally engaged parents who can mess up and move on more than parents who always get it right. In this freeing book, respected therapists and bestselling authors Stephen James and Chip Dodd invite parents to let go of perfectionism and micromanaging as they learn to parent from a place of emotional honesty and intimacy. Through their clinical experience and relatable true stories, they show parents that raising children to become capable, loving, and wise-hearted adults is far more about accepting our flaws than projecting an impossible standard to our children that we already know we can't live up to. Parents will learn how to resolve issues from their own childhoods, tune into their feelings and the emotions of their children, and be present with their families through both the best and worst of circumstances.

Tongues Richard Hogue 2010-04-06 Every critic who desires to deny the validity of modern tongue speech must develop a scheme to destroy Paul's teaching. Through the centuries, there has been a wide variety of answers regarding the validity and veracity of speaking, praying, and singing in tongues, and its place within the life of the Christian and the Church. What is it? Is speaking in tongues such a radically supernatural experience that language is totally unknown, or is it, as some have contended, actual human languages that are simply unknown to the speakers? Several have believed it to be the language of heaven or at least from heaven. Others have declared it to be ecstatic, unintelligible utterances that require a highly charged emotional moment to experience. Should each Christian pray and sing in tongues, or is it reserved for a special few deeply spiritual ones? Did Jesus pray in tongues? These questions and more are answered by author and pastor Richard Hogue in Tongues: A Theological History of Christian Glossolalia. His academic approach begins by firmly establishing biblical evidence before launching a chronological connect-the-dots exercise through Christian history. The design revealed is the undeniable influence of the Holy Spirit. From Saul of Tarsus to John Wesley, from Pentecost to Azusa Street, Richard Hogue follows the gift of tongues and clearly draws a picture of today's role of the Holy Spirit in Tongues: A Theological History of Christian Glossolalia.

Tongues of Angels Tongues of Men Cliff R Jean-Philippe 2019-11-11 The topic of speaking in tongues is one of the most controversial topics in the church today and is often a source of heated discussions and disagreement. Even in the New Testament, Paul expounds on his view of this spiritual gift, its importance, and how he feels it should be properly used. Based on my own personal experience with this, I decided to write this book to present a clear and Biblical perspective on the topic and hope that it will help shed some light and present a very different, yet also very practical viewpoint concerning it. I hope it will enlighten many and be a blessing. I present a brief and curtailed history of how language has evolved, its importance in daily communication, and more importantly, its role in the 1st century church. I focus on the Day of Pentecost in the book of Acts, chapter two, verses one through eleven, and the tremendous impact this has on us today, as well as the spread of the gospel to other nations. I eventually conclude by focusing on English as a lingua franca and its influence on society, and the world at large, and why learning other languages is very important in general.

Temple Mysticism Margaret Barker 2012-06-08 According to Margaret Barker's groundbreaking theory, temple mysticism underpins much of the Bible. Rooted in the cult of the first temple in ancient Judaism, it helps us to understand the origins of Christianity. Temple mysticism was received and taught as oral tradition, and many texts were changed or suppressed or kept from public access. Barker first examines biblical texts: Isaiah, the prophet whom Jesus quoted more than any other in Scripture, and John. Then she proposes a more detailed picture, drawing on a wide variety of non-biblical texts. The resulting book presents some remarkable results.

The Tongues of Angels John C. Poirier 2010 The Apostle Paul's reference to the tongues of angels (1 Cor 13.1) has always aroused curiosity, but it has rarely been the object of a history-of-traditions investigation. Few readers of Paul's words are aware of the numerous references and allusions to angelic languages in Jewish and Christian texts. John C. Poirier presents the first full-length study of the concept of angelic languages, and the most exhaustive attempt to assemble the evidence for that concept in ancient Jewish and early Christian texts. He discusses possible references to angelic languages in the New Testament, pseudepigraphic writings (both Jewish and Christian), the Dead Sea scrolls, rabbinic texts, patristic references, magical writings, and epigraphy. The discussion is divided between those witnesses that understand angels to speak Hebrew, and those that understand angels to speak an esoteric heavenly language.

In Tongues of Mortals and Angels Eric D. Barreto 2018-11-06 Through close textual engagement, theological exposition, ethical reflection, and interdisciplinary collaboration, this book presents a constructive theology of divine speech in the Acts of the Apostles and 1 Corinthians in critical conversation with contemporary issues of sociopolitical, ecclesial, and theological importance. In particular, the authors attend to pericopes in Acts and Paul that open up fresh ways of thinking about divine discourse, preaching, and advocacy in light of contemporary matters of theological and ethical import. In addition to classical modes of textual and theological analysis, the authors attend to the sociopolitical and sociolinguistic aspects of speech as they arise in these pericopes. As such, the authors are simultaneously deconstructing these texts through postcolonial and post-structural analyses to expose these texts to an alterity at work therein, an alterity that has been muted by centuries of biblical interpretation.
