**The Unquiet River** Arupjyoti Saikia 2019-08-25 The unruly Brahmaputra has always been an agent in shaping both the landscape of its valley and the livelihoods of its inhabitants. But how much do we know of this river's rich past? Historian Arupjyoti Saikia's biography of the Brahmaputra reimagines the layered history of Assam with the unquiet river at the centre. The book combines a range of disciplinary scholarship to unravel the geological forces as well as human endeavour which have shaped the river into what it is today. Wonderfully illuminated with archival detail and interwoven with narratives and striking connections, the book allows the reader to imagine the Brahmaputra's course in history. This evocative and compelling book will be interesting reading for anyone trying to understand the past and the present of a river confronted by the twenty-first century's ambitious infrastructural designs to further re-engineer the river and its landscape.

**Alive and Kicking** Annie Langlois 2004 The goal of this work is to describe the changes occurring in the Pitjantjatjara speech of teenagers in Areyonga, a Central Australian community, from both a grammatical and a sociolinguistic point of view. The study is based on data collected in 1994 and 1995. At the time the data was being collected, the Areyonga community had about 200 inhabitants, more than half of them under 25 years of age. A key question of this work is the extent to which Areyonga Teenage Pitjantjatjara is being influenced by contact with English. In order to identify changes in Areyonga Teenage Pitjantjatjara, contemporary speech was compared with several independent descriptions of Traditional Pitjantjatjara (and similar neighbouring dialects). Personal observations of the author and discussions with older Pitjantjatjara people at Areyonga help to round out the picture obtained. The Areyonga population is predominantly young. Most of the older people have left the settlement to return to their community of origin. As a result, many traditional ways of living have not been transmitted fully to the following generation. However there is

an undeniable striving to reintegrate traditions into the community and the teaching of the children. Consequently, there is a constant effort to educate children in their first language. What then is the state of Areyonga Teenage Pitjantjatjara? This book aims to answer this question.

*African Conflicts and Informal Power* Mats Utas 2012-03-08 In the aftermath of an armed conflict in Africa, the international community both produces and demands from local partners a variety of blueprints for reconstructing state and society. The aim is to re-formalize the state after what is viewed as a period of fragmentation. In reality, African economies and polities are very much informal in character, with informal actors, including so-called Big Men, often using their positions in the formal structure as a means to reach their own goals. Through a variety of in-depth case studies, including the DRC, Sierra Leone and Liberia, this comprehensive volume shows how important informal political and economic networks are in many of the continent's conflict areas. Moreover, it demonstrates that without a proper understanding of the impact of these networks, attempts to formalize African states, particularly those emerging from wars, will be in vain.

**De-Radicalization in the Mediterranean** Lorenzo Vidino 2018-07-20 In the past few years, the MENA region witnessed a rise in jihadist extremism and radicalization, as countries in the area were rocked by a series of deadly terrorist attacks. As authorities responded to the threat, it became clear that in order to effectively counter the phenomenon, traditional repressive measures had to now be accompanied by alternative methods of prevention, rehabilitation and dissuasion. How have different governments around the Mediterranean responded? What sort of alternative measures have been taken? How effective have these policies been? What further steps can be taken to strengthen the response of the authorities? These are just some of the key issues that this ISPI Report seeks to cover. The experts in this volume illustrate the policies of contrast, prevention and de-radicalization that have been adopted by countries in the MENA region, revealing emerging trends, lessons learned and overviews of this security status.

**Islam and Muslim Societies** 2019-04 Islam is more than a religion in the strict theological sense. If we confine ourselves to doctrinal normativity and Islamic law to analyse what Muslims motivate and how they build religious landscapes and life worlds, we seriously narrow down our understanding of Islam. Islamic society is a universal society, found at every place, in East and West, in south and north, and found at all time. It was not only found at the time of the Prophet, but also before his time, and at the time of other Messengers from Adam to Jesus (peace be upon them all), and after their time. Koranic teachings promote an ascetic ethic of self-control that bears on virtually all aspects of everyday activity. For Muslims, faith has not merely been a matter of private life and a personal relation with God. It has had pervasive social consequences. The Holy Qur'an and the traditions of the Prophet are concerned about Muslim and Islamic society. In many ways these holy books focuses on the importance of Islamic society. Because Allah and his prophet believes that Muslims Ummah are the best among all Adam's generation. Consequently, Islamic religion takes them out from the darkness into the light in order to achieve happiness, felicity in this world and the Hereafter. This book *Islam and Muslim Societies* consists of studies dealing with political, economic, legal, and social policies that affect every facet of the social life of Muslims. This book is aimed at bridging the gap between the textual and contextual approaches to Islamic Studies; and solving the dichotomy between 'orthodox' and 'heterodox' Islam. It contains a selection of studies written by scholars and authors dealing with Islam and Muslim societies as its central focus of academic inquiry and to encourage comprehensive consideration of its many facets; to provide an opportunity for the study of Islam and Muslim societies in their global context; to encourage interdisciplinary studies of the Islamic world that are cross-national and comparative; to promote the diffusion, exchange and discussion of research findings; and to encourage interaction among academics from various traditions of learning.

**The Madrasa in Asia** Farish A. Noor 2008 Summary: "Since the rise of the Taliban and Al Qaeda, the traditional Islamic schools known as the madrasa have frequently been portrayed as hotbeds of terrorism. For much longer, the madrasa has been considered by some as a backward and petrified impediment to social progress. However, for an important segment of the poor Muslim populations of Asia, madrasas constitute the only accessible form of education. This volume presents an overview of the madrasas in countries such as China, Indonesia, Malaysia, India and Pakistan."--Publisher description.

**100 Birds and How They Got Their Names** Diana Wells 2001-10-30 How did cranes come to symbolize matrimonial happiness? Why were magpies the only creatures that would not go

inside Noah's Ark? Birds and bird imagery are integral parts of our language and culture. With her remarkable ability to dig up curious and captivating facts, Diana Wells hatches a treat for active birders and armchair enthusiasts alike. Meet the intrepid adventurers and naturalists who risked their lives to describe and name new birds. Learn the mythical stories of the gods and goddess associated with bird names. Explore the avian emblems used by our greatest writers--from Coleridge's albatross in "The Ancient Mariner" to Poe's raven. A sampling of the bird lore you'll find inside: Benjamin Franklin didn't want the bald eagle on our National Seal because of its "bad moral character," (it steals from other birds); he lobbied for the turkey instead. Chaffinches, whose Latin name means "unmarried," are called "bachelor birds" because they congregate in flocks of one gender. Since mockingbirds mimic speech, some Native American tribes fed mockingbird hearts to their children, believing it helped them learn language. A group of starlings is called a murmuration because they chatter so when they roost in the thousands. Organized alphabetically, each of these bird tales is accompanied by a two-color line drawing. Dip into 100 Birds and you'll never look at a sparrow, an ostrich, or a wren in quite the same way.
