Lives Transformed Patricia C. Della Selva 2018-03-26 The world has long awaited compelling and unmistakable evidence for the validity of dynamic psychotherapy. A review in the present book shows that such evidence has been accumulating over the past ten years. It comes from clinical trials, process research, case studies, and objective physiological measurements concerned with the importance of expressing emotions. This book extends the evidence. It provides an in-depth examination of therapy in action, based on verbatim accounts of the treatment of seven patients by the author, using the technique of Intensive Short-term Dynamic Psychotherapy (at times extending to medium-term). This technique has been shown to be both effective and cost-effective with a wide range of patients, including some who are notoriously resistant to psychotherapeutic intervention. The raw data of psychotherapeutic sessions enables the reader to trace the origin of therapeutic effects, which occur immediately in response to the direct experience of hitherto buried feelings and impulses.

Handbook of Research on Innovations in Non-Traditional Educational Practices Keengwe, Jared 2020-12-11 While many school districts and institutions of higher education still cling to the traditional agrarian school year with a factory model delivery of education and Carnegie units based on seat time when most people are no longer farmers, factory workers, or reliant on learning in a classroom, there are bursts of promising practices that buck the norm by questioning the educational value of these traditions. Though researchers have investigated the potential of students learning in their own homes via personalized instruction delivered by computers rather than attending traditional institutions, the status quo in education has remained stubbornly resistant to change. Mixed-reality simulations, year-round schooling, grouping students by competencies instead of age, and game-based teaching are just a few of

the educational innovations that seek to maximize learning by recognizing that innovation is essential for successfully teaching students in the modern era. The Handbook of Research on Innovations in Non-Traditional Educational Practices is a comprehensive reference source that examines various educational innovations, how they have developed workarounds to navigate traditional systems, and their potential to radically transform teaching and learning. With each chapter highlighting a different educational innovation such as experiential learning, game-based learning, online learning, and inquiry-based learning and their applications in all levels of education, this book explores the issues and challenges these educational innovations face as well as their impact. It is intended for academicians, professionals, administrators, and researchers in education and specifically benefits academic deans, vice presidents of academic affairs, graduate students, faculty technology leaders, directors of teaching and learning centers, curriculum and instructional designers, policymakers, principals and superintendents, and teachers interested in educational change.

Course Correction Ginny Gilder 2015-04-14 "Beautiful and important on many levels, Course Correction is about rowing and so much more . . . Ultimately it is about the transforming power of love, and, damnit all, it made me cry."—Daniel James Brown, author of *The Boys in the Boat* "Written with poetic grace and true grit . . . A powerful testament to the impact of sport on our lives."—Billie Jean King Wild meets *The Boys in the Boat*, a memoir about the quest for Olympic gold and the triumph of love over fear Forty years ago, when a young Ginny Gilder stood on the edge of Boston's Charles River and first saw a rowing shell in motion, it was love at first sight. Yearning to escape her family history, which included her mother's emotional unraveling and her father's singular focus on investment acumen as the ultimate trophy, Gilder discovered rowing at a pivotal moment in her life. Having grown up in an era when girls were only beginning to abandon the sidelines as observers and cheerleaders to become competitors and national champions, Gilder harbored no dreams of athletic stardom. Once at Yale, however, her operating assumptions changed nearly overnight when, as a freshman in 1975, she found her way to the university's rowing tanks in the gymnasium's cavernous basement. From her first strokes as a novice, Gilder found herself in a new world, training with Olympic rowers and participating in the famous Title IX naked protest, which helped define the movement for equality in college sports. Short, asthmatic, and stubborn, Gilder made the team against all odds and for the next ten years devoted herself to answering a seemingly simple question: how badly do you want to go fast? *Course Correction* recounts the physical and psychological barriers Gilder overcame as she transformed into an elite athlete who reached the highest echelon of her sport. Set against the backdrop of unprecedented cultural change, Gilder's story personalizes the impact of Title IX, illustrating the life-changing lessons learned in sports but felt far beyond the athletic arena. Heartfelt and candid, Gilder recounts lessons learned from her journey as it wends its way from her first glimpse of an oar to the Olympic podium in 1984, carries her through family tragedy, strengthens her to accept her true sexual identity, and ultimately frees her to live her life on her terms. From the Hardcover edition.

Haunting Violations Wendy Hesford 2000-11-30 Feminist critics place a premium on the "real" stories told by the victimized and the oppressed. *Haunting Violations* offers a corrective to such uncritical acceptance of the "real" in confessional, testimonial, and ethnographic narratives. Through close readings of a wide variety of texts, contributors argue that depictions of the "real" are inherently performative, crafted within the limits and in the interests of specific personal, political, or social projects. *Haunting Violations* explores the inseparability of discourse and politics in quasi-autobiographical works such as *I, Rigoberta*

Menchú and When Heaven and Earth Changed Places. Contributors consider how the Sri Lankan Mother's Front movement exploits the sanctity of the maternal and how multiple political purposes on both sides bleed through government "documentary" photographs of Japanese-American concentration camp internees. This volume also investigates how South Asian feminists use the authority of their personal experience to critique the film Mississippi Masala and how realist narratives, such as Janet Campbell Hale's autobiographical Bloodlines, Margie Strosser's documentary film Rape Stories, and Shekur Kapur's film Bandit Queen, reexamine how assumptions about power and trauma are embedded in the promise of the real.

The Joy Luck Club Amy Tan 2006-09-21 "The Joy Luck Club is one of my favorite books. From the moment I first started reading it, I knew it was going to be incredible. For me, it was one of those once-in-a-lifetime reading experiences that you cherish forever. It inspired me as a writer and still remains hugely inspirational." —Kevin Kwan, author of *Crazy Rich Asians* Amy Tan's beloved, New York Times bestselling tale of mothers and daughters, now the focus of a new documentary *Amy Tan: Unintended Memoir* on Netflix Four mothers, four daughters, four families whose histories shift with the four winds depending on who's "saying" the stories. In 1949 four Chinese women, recent immigrants to San Francisco, begin meeting to eat dim sum, play mahjong, and talk. United in shared unspeakable loss and hope, they call themselves the Joy Luck Club. Rather than sink into tragedy, they choose to gather to raise their spirits and money. "To despair was to wish back for something already lost. Or to prolong what was already unbearable." Forty years later the stories and history continue. With wit and sensitivity, Amy Tan examines the sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets, trying to unravel the truth about her life, the strings become more tangled, more entwined. Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. Tan is an astute storyteller, enticing readers to immerse themselves into these lives of complexity and mystery.

The Imprint Journey Liliane Desjardins 2011-02-25 Ever Wonder Why The Same Patterns Happen To You Over And Over Again? We all have imprints, both negative and positive. An imprint is a belief that shapes our thoughts and actions, a belief we often hold unconsciously. Liliane Desjardins, a certified clinical addiction specialist, co-founder of Pavillon Gilles Desjardins, and co-creator of the Desjardins Unified Model of Treatment of Addictions, sets forth in "The Imprint Journey" an exploration of imprints, how they govern our lives, and how

we can reprogram our minds to function in new and fulfilling ways. "The Imprint Journey" is equivalent to reading two powerful books in one. Liliane spends the first section telling her own story--a childhood in war-torn Croatia, the death of her mother, being an immigrant first to France and later French Canada--and the addictions and dysfunctions that marred her life until a suicide attempt resulted in a near-death experience. Her own personal recovery led her on a mission to help others find their own freedom from self-imposed and self-limiting imprints. The second half of this powerful book provides an anatomy of our imprints, revealing how to transform them so we are free to be our authentic selves. Liliane includes eight powerful personal stories of people who have overcome their imprints--including religious, sexual, and cultural limitations--as well as an overview of how understanding and rewriting our imprints can shape the human race's future as we all experience individual "Oneness." Readers will find themselves turning to The "Imprint Journey" again and again as a guide to relieve fears and to discover powerful truths about themselves that will transform them into their authentic selves. Acclaim For Desjardins' "The Imprint Journey" "Liliane writes from the depth of her own experience, with passion and power and a keen understanding of the human psyche. Her insights lift the reader above their own past patterns, providing insight both comforting and striking. The book inspires hope that no matter what we've been through, fundamental change is possible." --Marianne Williamson, author, A Return To Love "The Imprint Journey will touch your very soul and make way for profound transformation. From personal story to practical steps, Liliane walks with her readers on the path of awakening. Your life will be changed." --Carolyn Craft, Psychotherapist, Unity Minister, host of "Waking Up With Carolyn Craft" on Sirius Satellite Radio Learn more at www.LilianeDesjardins.com From Life Scripts Press www.RewritingLifeScripts.com

Translanguaging and Transformative Teaching for Emergent Bilingual Students City University of New York-New York State Initiative on Emergent Bilinguals 2020-11-27 A critical and accessible text, this book provides a foundation for translanguaging theory and practice with educating emergent bilingual students. The product of the internationally renowned and trailblazing City University of New York-New York State Initiative on Emergent Bilinguals (CUNY-NYSIEB), this book draws on a common vision of translanguaging to present different perspectives of its practice and outcomes in real schools. It tells the story of the collaborative project's positive impact on instruction and assessment in different contexts, and explores the potential for transformation in teacher education. Acknowledging oppressive traditions and obstacles facing language minoritized students, this book provides a pathway for combatting racism, monolingualism, classism and colonialism in the classroom and offers narratives, strategies and pedagogical practices to liberate and engage emergent bilingual students. This book is an essential text for all teacher educators, researchers, scholars, and students in TESOL and bilingual education, as well as educators working with language minoritized students.

Soviet Baby Boomers Donald J. Raleigh 2011-11-17 Donald Raleigh's *Soviet Baby Boomers* traces the collapse of the Soviet Union and the transformation of Russia into a modern, highly literate, urban society through the fascinating life stories of the country's first post-World War II, Cold War generation. For this book, Raleigh has interviewed sixty 1967 graduates of two "magnet" secondary schools that offered intensive instruction in English, one in Moscow and one in provincial Saratov. Part of the generation that began school the year the country launched Sputnik into space, they grew up during the Cold War, but in a Soviet Union increasingly distanced from the excesses of Stalinism. In this post-Stalin era, the Soviet leadership dismantled the Gulag, ruled without terror, promoted consumerism, and began to open itself to an outside world still fearful of Communism. Raleigh is one of the first scholars of post-1945 Soviet history to draw extensively on oral history, a particularly useful approach in studying a country where the boundaries between public and private life remained porous and the state sought to peer into every corner of people's lives. During and after the dissolution of the USSR, Russian citizens began openly talking about their past, trying to make sense of it, and Raleigh has made the most of this new forthrightness. He has created an extraordinarily rich composite narrative and embedded it in larger historical narratives of Cold War, de-Stalinization, "overtaking" America, opening up to the outside world, economic stagnation, dissent, emigration, the transition to a market economy, the transformation of class, ethnic, and gender relations, and globalization. Including rare photographs of daily life in Cold War Russia, *Soviet Baby Boomers* offers an intimate portrait of a generation that has remained largely faceless until now.

The World Broke in Two Bill Goldstein 2017-08-15 A Lambda Literary Awards Finalist Named one of the best books of 2017 by NPR's Book Concierge A revelatory narrative of the intersecting lives and works of revered authors Virginia Woolf, T. S. Eliot, E. M. Forster and D. H. Lawrence during 1922, the birth year of modernism *The World Broke in Two* tells the fascinating story of the intellectual and personal journeys four legendary writers, Virginia Woolf, T. S. Eliot, E. M. Forster, and D. H. Lawrence, make over the course of one pivotal year. As 1922 begins, all four are literally at a loss for words, confronting an uncertain creative future despite success in the past. The literary ground is shifting, as *Ulysses* is published in February and Proust's *In Search of Lost Time* begins to be published in England in the autumn. Yet, dismal as their prospects seemed in January, by the end of the year Woolf has started *Mrs. Dalloway*, Forster has, for the first time in nearly a decade, returned to work on the novel that will become *A Passage to India*, Lawrence has written *Kangaroo*, his unjustly neglected and most autobiographical novel, and Eliot has finished—and published to acclaim—"The Waste Land." As Willa Cather put it, "The world broke in two in 1922 or thereabouts," and what these writers were struggling with that year was in fact the invention of modernism. Based on original research, Bill Goldstein's *The World Broke in Two* captures both the literary breakthroughs and the intense personal dramas of these beloved writers as they strive for greatness.

New Mythological Figures in Spanish Cinema Pietsie Feenstra 2011 In the 1970s, especially after Franco's death in 1975, Spanish cinema was bursting at the seams. Numerous film directors broke free from the ancient taboos which had reigned under the dictatorship. They introduced characters who, through their bodies, transgress the traditional borders of social,

cultural and sexual identities. Post- Franco cinema exhibits women, homosexuals, transsexuals, and delinquents in new and challenging ways. Under Franco rule, all of these dissident bodies were 'lost'. Here, they reflect new mythological figures, inhabiting an idealised body form (a prototypical body).

Language Relations for Transforming the Literacy and Language Arts Classroom Richard Beach 2019-03-05 Applying a languaging perspective, this volume frames the teaching and learning of literacy, literature, language, and the language arts as social and linguistic actions that generate new questions to make visible social, cultural, psychological, linguistic, and educational processes. Chapter authors explore diverse aspects of a languaging framework, the perspective of language as a series of ongoing and evolving interactional social actions and processes over time. Based on their research, the authors suggest directions for addressing substantive engagement as well as the marginalization, superficiality, and violence (symbolic and otherwise) that characterize the educational experience of so many students. Responding to the need to foster and support students' intellectual, social, and affective worlds, this book showcases how languaging relations among teachers and students can deepen interactions and engagement with texts; enhance understandings of agency, personhood, and power relations in order to transform literacy, literature, and language arts classrooms; and improve the lives of teachers and students in educational settings.

A Cultural History of Marriage in the Age of Enlightenment Edward Behrend-Martínez 2021-11-18 Could an institution as sacred and traditional as marriage undergo a revolution? Some people living during the so-called Age of Enlightenment thought so. By marrying for that selfish, personal emotion of love rather than to serve religious or family interests, to serve political demands or the demands of the pocketbook, a few but growing number of people revolutionized matrimony around the end of the eighteenth century. Marriage went from being a sacred state, instituted by the Church and involving everyone to – for a few intrepid people – a secular contract, a deal struck between two individuals based entirely on their mutual love and affection. Few would claim today that love is not the cornerstone of modern marriage. The easiest argument in favor of any marriage today, no matter how star-crossed the individuals, is that the couple is deeply and hopelessly in love with one another. But that was not always so clear. Before the eighteenth century very few couples united simply because they shared a mutual attraction and affection for one another. Yet only a century later most people would come to believe that mutual love and even attraction were necessary for any marriage to succeed. *A Cultural History of Marriage in the Age of Enlightenment* explores the ways that new ideas, cultural ideals, and economic changes, big and small, reshaped matrimony into the institution that it is today, allowing love to become the ultimate essential ingredient for modern marriages. *A Cultural History of Marriage in the Age of Enlightenment* presents an overview of the period with essays on Courtship and Ritual; Religion, State and Law; Kinship and Social Networks; the Family Economy; Love and Sex; the Breaking of Vows; and Representations of Marriage.

Covenant and Commonwealth Daniel Elazar 2018-02-06 At the very beginning of the history of the covenant idea, human beings were conceived as entering into a morally grounded and informal pact with God. Politically, this pact, or covenant, involves the coming together of basically equal humans who consent with one another through a morally binding pact, setting the partners on the road to a new task. As a theological and political concept, covenant is designed to keep the peace in the face of conflicting human interests, needs, and demands. This pioneering continuation of Daniel J. Elazar's work is concerned with political uses of the idea of covenant and the political arrangements that flow from it. *Covenant and Commonwealth* is the second in a series of volumes exploring the covenantal tradition in Western politics. The first, *Covenant and Polity in Biblical Israel*, analyzed how the Bible set forth ideas of covenant in ancient Israel and the Jewish political tradition. In this volume, those themes are taken a step further to examine covenant as a political idea and tradition along with the culture and behavior that they produced. The book focuses on the struggle in Europe to produce a Christian covenantal commonwealth, a struggle that climaxed in the Reformed Protestantism of the sixteenth and seventeenth centuries. It also briefly examines covenant and hierarchy in Islam and other premodern polities that shape our present. The third volume in this series will examine the progressive secularization of the covenant idea in the seventeenth and eighteenth centuries. *Covenant and Commonwealth* is a fundamental and original contribution to the scholarship of Western civilization. It ranks with commensurate efforts of Ferdinand Braudel and Joseph Needham. As such it will be of deep interest to historians, social scientists, and theologians of all persuasions.

Miss Ex-Yugoslavia Sofija Stefanovic 2018-04-17 “Sofija Stefanovic’s beautiful memoir *Miss Ex-Yugoslavia* depicts the elegant transit of a girl becoming an artist. This is a story we yearn to know: How does a girl lose her childhood, family, and nation, yet nurture her memories, dreams, and art? Stefanovic hits all her marks, and she keeps us in her thrall.” —Min Jin Lee, author of *Pachinko*, a New York Times bestseller and National Book Award finalist “Funny and tragic and beautiful in all the right places. I loved it.” —Jenny Lawson, #1 New York Times bestselling author of *Let’s Pretend This Never Happened* and *Furiously Happy* A funny, dark, and tender memoir about the immigrant experience and life as a perpetual fish-out-of-water, from the acclaimed Serbian-Australian storyteller. Sofija Stefanovic makes the first of many awkward entrances in 1982, when she is born in Belgrade, the capital of socialist Yugoslavia. The circumstances of her birth (a blackout, gasoline shortages, bickering parents) don’t exactly get her off to a running start. While around her, ethnic tensions are stoked by totalitarian leaders with violent agendas, Stefanovic's early life is filled with Yugo rock, inadvisable crushes, and the quirky ups and downs of life in a socialist state. As the political situation grows more dire, the Stefanovics travel back and forth between faraway, peaceful Australia, where they can’t seem to fit in, and their turbulent homeland, which they can’t seem to shake. Meanwhile, Yugoslavia collapses into the bloodiest European conflict in recent history. Featuring warlords and beauty queens, tiger cubs and Baby-Sitters Clubs, Sofija Stefanovic’s memoir is a window to a complicated culture that she both cherishes and resents. Revealing war and immigration from the crucial viewpoint of women and children, Stefanovic chronicles her own coming-of-age, both as a woman and as an artist who yearns to take control of her own story. Refreshingly candid, poignant, and illuminating, *Miss Ex-Yugoslavia* introduces a vital new voice to the immigrant narrative.

Children's Literature and British Identity Rebecca Knuth 2012 Children's Literature and British Identity: Imagining a People and a Nation is the story of the development of English children's literature, focusing on how stories inspire children to adhere to the values of society. Such English authors as Lewis Carroll, J.R.R. Tolkien, and J.K. Rowling have entertained, inspired, confronted social wrongs, and transmitted cultural values—functions previously associated with folklore. Their stories form a new folklore tradition that grounds personal identity, provides social glue, and supports a love of England and English values. This book examines how this tradition came to fruition.

Trudeau Transformed Max Nemni 2013-01-08 This groundbreaking biography, now in paperback, continues the story begun in *Young Trudeau*, taking Canada's legendary Prime Minister from his pro-fascist youth all the way to his entry into federal politics as a crusading Liberal democrat. When he went to Harvard in 1944, Pierre Trudeau was twenty-five, a recent graduate of the University of Montreal Law School; true to his elite Catholic-French education, he had been till recently pro-fascist, and he disliked democracy. Years of graduate study at Harvard, then the Sorbonne, then the London School of Economics exposed him to new ideas, as did his hitchhiking travels around the world. Returned to Quebec as a new man, he engaged in educating workers and other jobs that made him a famous defender of federal democracy. He entered Parliament in 1965, within three years of rocketing, Obama-like, to the very top.

Transforming the Workforce for Children Birth Through Age 8 National Research Council 2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support

and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Mothers Unite! Jocelyn Elise Crowley 2013-05-24 In *Mothers Unite!*, a bold and hopeful new rallying cry for changing the relationship between home and the workplace, Jocelyn Elise Crowley envisions a genuine, universal world of workplace flexibility that helps mothers who stay at home, those who work part time, and those who work full time balance their commitments to their jobs and their families. Achieving this goal, she argues, will require a broad-based movement that harnesses the energy of existing organizations of mothers that already support workplace flexibility in their own ways. Crowley examines the efforts of five diverse national mothers' organizations: Mocha Moms, which aims to assist mothers of color; Mothers of Preschoolers (MOPS), which stresses the promotion of Christian values; Mothers & More, which emphasizes support for those moving in and out of the paid workforce; MomsRising, which focuses on online political advocacy; and the National Association of Mothers' Centers (NAMC), which highlights community-based networking. After providing an engaging and detailed account of the history, membership profiles, strategies, and successes of each of these organizations, Crowley suggests actions that will allow greater workplace flexibility to become a viable reality and points to many opportunities to promote intergroup mobilization and unite mothers once and for all.

The Transformation of the English Novel, 1890-1930 Daniel R. Schwarz 1989 Focusing on the work of Hardy, Lawrence, Conrad, Joyce, Forster and Woolf, this study is divided into two sections: the first shows how historical and contextual material is essential for developing powerful readings; the second discusses how new theory has transformed the way we read and think.

Gandhi: The Years That Changed the World, 1914-1948 Ramachandra Guha 2018-10-02 Opening in July 1914, as Mohandas Gandhi leaves South Africa to return to India, *Gandhi: The Years That Changed the World, 1914-1918* traces the Mahatma's life over the three decades preceding his assassination. Drawing on new archival materials, acclaimed historian Ramachandra Guha follows Gandhi's struggle to deliver India from British rule, to forge harmonious relations between India's Hindus and Muslims, to end the pernicious practice of untouchability, and to nurture India's economic and moral self-reliance. He shows how in each of these campaigns, Gandhi adapted methods of nonviolence that successfully challenged British authority and would influence revolutionary movements throughout the world. A revelatory look at the complexity of Gandhi's thinking and motives, the book is a luminous portrait of not only the man himself, but also those closest to him—family, friends, and political and social leaders.

English in Tibet, Tibet in English L. McMillin 2001-11-16 This book explores two kinds of self-presentation in Tibet and the Tibetan diaspora: that of British writers in their travel texts

to Tibet from 1774 to 1910 and that of Tibetans in recent autobiographies in English. McMillin contends that Tibet and the Anglophone West have had a long, complex, and convoluted relationship that can be explored, in part, through analysis of English language texts.
