*Translation and Cross-Cultural Communication Studies in the Asia Pacific*

2015-06-24 In *Translation and Cross-Cultural Communication Studies in the Asia Pacific*, Leong Ko and Ping Chen provide a comprehensive and in-depth account of various issues encountered in translation and interpreting activities and cross-cultural communication in the Asia Pacific.

Interpreting the Tokyo War Crimes Trial Kayoko Takeda 2010 In order to ensure its absolute authority, the Tokyo War Crimes Tribunal (1946-1948), the Japanese counterpart of the Nuremberg Trial, adopted a three-tier structure for its interpreting: Japanese nationals interpreted the proceedings, second-generation Japanese-Americans monitored the interpreting, and Caucasian U.S. military officers arbitrated the disputes. The first extensive study on the subject in English, this book explores the historical and political contexts of the trial as well as the social and cultural backgrounds of the linguists through trial transcripts in English and Japanese, archival documents and recordings, and interviews with those who were involved in the interpreting. In addition to a detailed account of the interpreting, the book examines the reasons for the three-tier system, how the interpreting procedures were established over the course of the trial, and the unique difficulties faced by the Japanese-American monitors. This original case study of the Tokyo War Crimes Tribunal illuminates how complex issues such as trust, power, control and race affect interpreting at international tribunals in times of conflict.

**American Learned Men and Women with Czechoslovak Roots** Mila Rechcigl 2020-11-18

Apart from a few articles, no comprehensive study has been written about the learned men and women in America with Czechoslovak roots. That's what this compendium is all about, with the focus on immigration from the period of mass migration and beyond, irrespective whether they were born in their European ancestral homes or whether they have descended from them. Czech and Slovak immigrants, including Bohemian Jews, have brought to the New World their talents, their ingenuity, their technical skills, their scientific knowhow, and their humanistic and spiritual upbringing, reflecting upon the richness of their culture and traditions, developed throughout centuries in their ancestral

home. This accounts for the remarkable success and achievements of these settlers in their new home, transcending through their descendants, as this monograph demonstrates. The monograph has been organized into sections by subject areas, i.e., Scholars, Social Scientists, Biological Scientists, and Physical Scientists. Each individual entry is usually accompanied with literature, and additional biographical sources for readers who wish to pursue a deeper study. The selection of individuals has been strictly based on geographical ground, without regards to their native language or ethical background. This was because under the Habsburg rule the official language was German and any nationalistic aspirations were not tolerated. Consequently, it would be virtually impossible to determine their innate ethnic roots or how the respective individuals felt. Doing it in any other way would be a mere guessing, and, thus, less objective.

The Evolving Curriculum in Interpreter and Translator Education David B. Sawyer  
2019-06-15 The Evolving Curriculum in Interpreter and Translator Education: Stakeholder perspectives and voices examines forces driving curriculum design, implementation and reform in academic programs that prepare interpreters and translators for employment in the public and private sectors. The evolution of the translating and interpreting professions and changes in teaching practices in higher education have led to fundamental shifts in how translating and interpreting knowledge, skills and abilities are acquired in academic settings. Changing conceptualizations of curricula, processes of innovation and reform, technology, refinement of teaching methodologies specific to translating and interpreting, and the emergence of collaborative institutional networks are examples of developments shaping curricula. Written by noted stakeholders from both employer organizations and academic programs in many regions of the world, the timely and useful contributions in this comprehensive, international volume describe the impact of such forces on the conceptual foundations and frameworks of interpreter and translator education.

**Using Statistics in Small-Scale Language Education Research** Jean L. Turner  
2014-02-18 Assuming no familiarity with statistical methods, this text for language education research methods and statistics courses provides detailed guidance and instruction on principles of designing, conducting, interpreting, reading, and evaluating statistical research done in classroom settings or with a small number of participants. While three different types of statistics are addressed (descriptive, parametric, non-parametric) the emphasis is on non-parametric statistics because they are appropriate when the number of participants is small and the conditions for use of parametric statistics are not satisfied. The emphasis on non-parametric statistics is unique and complements the growing interest among second and foreign language educators in doing statistical research in classrooms. Designed to help students and other language education researchers to identify and use analyses that are appropriate for their studies, taking into account the number of participants and the shape of the data distribution, the text includes sample studies to illustrate the important points in each chapter and exercises to promote understanding of the concepts and the development of practical research skills. Mathematical operations are explained in detail, and step-by-step illustrations in the use of R (a very powerful, online, freeware program) to perform all calculations are provided. A Companion Website extends and enhances the text with PowerPoint presentations illustrating how to carry out calculations and use R; practice exercises with answer keys; data sets in Excel MS-DOS format; and quiz, midterm, and final problems with answer keys.

**Teaching Translation and Interpreting** Cay Dollerup 1992-04-09 Selected papers from a lively conference on the state of the art in translator and interpreter training. Topics range from culture specific problems (in Iran, South Africa and Canada, for instance) to the internationalization of the profession. The book is brim-full of teaching ideas and strategies: problems of assessment, teaching translators to be professional and business oriented, using cognitive methods, terminology management, technical translation, literary translation, theory and practice, simultaneous/consecutive interpreting, subtitling and many other related topics.

*Political Discourse, Media and Translation* Christina Schaeffner 2009-12-14 This volume addresses the role played by translation in international political communication and news reporting and brings to light the usually invisible link between politics, media, and translation. The contributors explore the interrelationship between media in the widest sense and translation, with a focus on political texts, institutional contexts, and translation policies. These topics are explored from a Translation Studies perspective, thus bringing a new disciplinary view to the investigation of political discourse and the language of the media. The first part of the volume focuses on textual analysis, investigating transformations that occur in translation processes, and the second part examines institutional contexts and policies, and their effects on translation production and reception.

**Metalinguistic Communities** Netta Avineri 2021-09-27 This edited volume brings together ten compelling ethnographic case studies from a range of global settings to explore how people build metalinguistic communities defined not by use of a language, but primarily by language ideologies and symbolic practices about the language. The authors examine themes of agency, belonging, negotiating hegemony, and combating cultural erasure and genocide in cultivating meaningful metalinguistic communities. Case studies include Spanish and Hebrew in the USA, Kurdish in Japan, Pataxó Hãhãhãe in Brazil, and Gallo in France. The afterword, by Wesley L. Leonard, provides theoretical and on-the-ground context as well as a forward-looking focus on metalinguistic futurities. This book will be of interest to interdisciplinary students and scholars in applied linguistics, linguistic anthropology and migration studies.

*The Translator's Handbook* Morry Sofer 2006 Since 1997, this translator's guide has been the worldwide leader in its field and has elicited high praise from some of the world's best translators. It has been fully updated in the 2006 edition.

Introduction to Court Interpreting Holly Mikkelson 2016-12-08 An Introduction to Court Interpreting has been carefully designed to be comprehensive, accessible and globally applicable. Starting with the history of the profession and covering the key topics from the role of the interpreter in the judiciary setting to ethical principles and techniques of interpreting, this text has been thoroughly revised. The new material covers: remote interpreting and police interpreting; role-playing scenarios including the Postville case of 2008; updated and expanded resources. In addition, the extensive practical exercises and suggestions for further reading help to ensure this remains the essential introductory textbook for all courses on court interpreting

**Research Questions in Language Education and Applied Linguistics** Hassan Mohebbi 2022-02-14 This volume encompasses the range of research questions on language-related problems that arise in language teaching, learning and assessment. The

[150] chapters are written by experts in the field who each offer their insights into current and future directions of research, and who suggest several highly relevant research questions. Topics include, but are not limited to: language skills teaching, language skills assessment and testing, measurement, feedback, discourse analysis, pragmatics, semantics, language learning through technology, CALL, MALL, ESP, EAP, ERPP, TBLT, materials development, genre analysis, needs analysis, corpus, content-based language teaching, language teaching and learning strategies, individual differences, research methods, classroom research, form-focused instruction, age effects, literacy, proficiency, and teacher education and teacher development. The book serves as a reference and offers inspiration to researchers and students in language education. An important skill in reviewing the research literature is following a study's "plan of attack." Broadly, this means that before accepting and acting upon the findings, one considers a) the research question (Is it clear and focused? Measurable?), b) the subjects examined, the methods deployed, and the measures chosen (Do they fit the study's goal and have the potential to yield useful results?), and c) the analysis of the data (Do the data lead to the discussion presented? Has the author reasonably interpreted results to reach the conclusion?). Mohebbi and Coombe's book, *Research Questions in Language Education and Applied Linguistics: A Reference Guide*, helps budding researchers take the first step and develop a solid research question. As the field of language education evolves, we need continual research to improve our instructional and assessment practices and our understanding of the learners' language learning processes. This book with its remarkable 150 topics and 10 times the number of potential research questions provides a wealth of ideas that will help early career researchers conduct studies that move our field forward and grow our knowledge base. Deborah J. Short, Ph.D., Director, Academic Language Research & Training, Past President, TESOL International Association (2021-22) As a teacher in graduate programs in TESOL I frequently come across the frustration of students at centering their research interests on a particular topic and developing research questions which are worth pursuing so as to make a contribution to the field. This frustration stems from the fact that our field is so vast and interrelated, that it is often impossible to properly address all that interests them. Hence, I wholeheartedly welcome this most relevant and innovative addition to the research literature in the field of TESOL and Applied Linguistics. Coombe and Mohebbi have created a real tour de force that stands to inform budding researchers in the field for many years to come. Additionally, the cutting-edge depiction of the field and all it has to offer will no doubt update the research agendas of many seasoned researchers around the world. The 150 chapters are organized in a most powerful, yet, deceptively simple way offering a positioning within the topic, suggesting questions that might direct inquiry and offering a basic set of bibliographic tools to start the reader in the path towards research. What is more, the nine sections in which the chapters are organized leave no area of the field unexplored. Dr. Gabriel Díaz Maggioli, Academic Advisor, Institute of Education, Universidad ORT del Uruguay, President, IATEFL

The Global Translator's Handbook Morry Sofer 2013 A practical guide to translation as a profession, this book provides everything translators need to know, from digital equipment to translation techniques, dictionaries in over seventy languages, and sources of translation work. It is the premier sourcebook for all linguists, used by both beginners and veterans, and its predecessor, *The Translator's Handbook*, has been praised by some of the world's leading translators, such as Gregory Rabassa and Marina Orellana.

**Consecutive Notetaking and Interpreter Training** Yasumasa Someya 2016-12-19 This book focuses on the theoretical foundation of notetaking (NT), an essential skill of consecutive interpreting. Explaining the "whys" pertaining to the cognitive, linguistic, and pedagogical issues surrounding NT, this book addresses this neglected aspect of notetaking discourse and brings together most updated and different, if not opposing, theoretical perspectives by leading researchers and practitioners from both the West and the East: France, Germany, Taiwan, and Japan. The book, although primarily focused on the theoretical aspects of consecutive notetaking, also covers other issues pertaining to interpreter training and pedagogy in general, and provides instructors with useful guidelines and empirically-tested pieces of advice for good pedagogical practices.

**Chinese Literature in the World** Junfeng Zhao 2022 This book features a collection of articles on comparative literature from a translational perspective, with a special reference to translation of contemporary Chinese literature. Issues of translation, dissemination, and reception of translated literature in the context of world literature are the foci of the book. Given its scope, the book appeals particularly to teachers and students of Chinese literature, translation, and Sinology.

**Translation Research Projects 2** 2007

**The Routledge Handbook of Translation Studies** Carmen Millán 2013-03-05 The Routledge Handbook of Translation Studies provides a comprehensive, state-of-the-art account of the complex field of translation studies. Written by leading specialists from around the world, this volume brings together authoritative original articles on pressing issues including: the current status of the field and its interdisciplinary nature the problematic definition of the object of study the various theoretical frameworks the research methodologies available. The handbook also includes discussion of the most recent theoretical, descriptive and applied research, as well as glimpses of future directions within the field and an extensive up-to-date bibliography. The Routledge Handbook of Translation Studies is an indispensable resource for postgraduate students of translation studies.

Notable American Women with Czechoslovak Roots Miloslav Rechcigl Jr. 2019-09-16  
Even though there exist only a few general studies on the subject of Czechoslovak American women, this is not, at all, a reflection of the paucity of work done by these women, as this publication demonstrates. This monograph is a compendium of notable American women with Czechoslovak roots, who distinguished themselves in a particular field or area, from the time they first immigrated to America to date. Included are, not only individuals born on the territory of former Czechoslovakia, but also their descendants. This project has been approached strictly geographically, irrespective of the language or ethnicity. Because of the lack of bibliographical information, most of the monograph comprises biobibliographical information, in which area a plethora of information exists. As the reader will discover, these women have been involved, practically, in every field of human endeavor, in numbers that surprise. On the whole, they have been noted for their independent spirit and nonconforming role.

An Encyclopedia of Practical Translation and Interpreting Chan Sinwai 2019-01-15  
As a sequel to *An Encyclopedia of Translation: Chinese-English English-Chinese*, which was published in 1995, this volume, *An Encyclopedia of Practical Translation and Interpreting*, focuses on practical translation and interpreting, the two emerging areas of increasing importance in recent decades. Some chapters in this volume are illustrated with examples in translation between Chinese and English. Scholars and experts from China, France, Hong Kong, Spain, Taiwan, the United Kingdom, and the United States share with us their experiences in translation or interpreting practice. This encyclopedia should be of great interest to both specialists and general readers.

**Interpreting** David Bowen 1990-01-01  
This volume is concerned with the profession and discipline of interpretation. The range of perspectives presented in this collection of essays exemplifies the rich diversity of the profession as we know it today. Interpreting has been known to exist through the ages, though it was not necessarily considered a profession as such. We can attribute the current standing of the practice, in large part, to the historical circumstances which determined it and the efforts of those who responded to the need for communication within these circumstances. In the same way, our anticipation of future needs and the measures we are taking to prepare our next generation of interpreters to meet them will undoubtedly shape the direction our profession takes in the 21st century. The contributors to this volume are practicing interpreters, teachers of interpretation, and administrators.

Handbook of Research on Medical Interpreting Souza, Izabel E.T. de V. 2019-12-13  
Providing efficient and safe healthcare services is tenuous even at the best of times. Hospital staff who must also circumnavigate language barriers are placed in problematic, perhaps disastrous, situations if they have not received the proper training. The *Handbook of Research on Medical Interpreting* is a compendium of essential reference material discussing the educational, ethical, pedagogical, and specialized aspects of medical interpreting. Featuring research on topics such as patient care, competent healthcare, and specialized training, this book is ideally designed for

hospital staff, healthcare administrators, medical specialists, professional interpreters, industry professionals, academicians, researchers, and students seeking coverage on a new, international perspective to the medical sciences.

**Doing Justice to Court Interpreting** Miriam Shlesinger 2010-10-21 First published as a Special Issue of *Interpreting* (10:1, 2008) and complemented with two articles published in *Interpreting* (12:1, 2010), this volume provides a panoramic view of the complex and uniquely constrained practice of court interpreting. In an array of empirical papers, the nine authors explore the potential of court interpreters to make or break the proceedings, from the perspectives of the minority language speaker and of the other participants. The volume offers thoughtful overviews of the tensions and conflicts typically associated with the practice of court interpreting. It looks at the attitudes of judicial authorities towards interpreting, and of interpreters towards the concept of a code of ethics. With further themes such as the interplay of different groups of "linguists" at the Tokyo War Crimes Tribunal and the language rights of indigenous communities, it opens novel perspectives on the study of interpreting at the interface between the letter of the law and its implementation.

*The Routledge Handbook of Conference Interpreting* Michaela Albl-Mikasa 2021-11-30 Providing comprehensive coverage of both current research and practice in conference interpreting, *The Routledge Handbook of Conference Interpreting* covers core areas and cutting-edge developments, which have sprung up due to the spread of modern technologies and global English. Consisting of 40 chapters divided into seven parts—Fundamentals, Settings, Regions, Professional issues, Training and education, Research perspectives and Recent developments—the Handbook focuses on the key areas of conference interpreting. This volume is unique in its approach to the field of conference interpreting as it covers not only research and teaching practice but also practical issues of the profession on all continents. Bringing together over 70 researchers in the field from all over the world and with an introduction by the editors, this is essential reading for all researchers, trainers, students and professionals of conference interpreting.

*Fundamental Aspects of Interpreter Education* David Sawyer 2004 The author offers an overview of the *Interpreting Studies* literature on curriculum and assessment. A discussion of curriculum definitions, foundations, and guidelines suggests a framework based upon scientific and humanistic approaches to curriculum as process and as interaction. Language testing concepts are introduced and related to interpreting. By exploring means of integrating valid and reliable assessment into the curriculum, the author breaks new ground in this under-researched area. Case studies of degree examinations provide sample data on pass/fail rates, test criteria, and text selection. A curriculum model is outlined as a practical example of synthesis, flexibility, and streamlining. This volume will appeal to interpretation and translation instructors, program administrators, and language industry professionals seeking a discussion of the theoretical and practical aspects of curriculum and assessment theory. This book also presents a new area of application for curriculum and language testing specialists.

*The Order of the Day* Éric Vuillard 2018-09-25 An NPR Best Book of the Year Winner of the 2017 Prix Goncourt, this behind-the-scenes account of the manipulation, hubris, and greed that together led to Nazi Germany's annexation of Austria brilliantly dismantles the myth of an effortless victory and offers

a dire warning for our current political crisis. February 20, 1933, an unremarkable day during a harsh Berlin winter: A meeting of twenty-four German captains of industry and senior Nazi officials is being held in secret in the plush lounge of the Reichstag. They are there to extract funds for the accession to power of the National Socialist Party and its Chancellor. This opening scene sets a tone of consent that will lead to the worst possible repercussions. March 12, 1938, the annexation of Austria is on the agenda: A grotesque day intended to make history—the newsreels capture a motorized army on the move, a terrible, inexorable power. But behind Goebbels's splendid propaganda, an ersatz Blitzkrieg unfolds, the Panzers breaking down en masse on the roads into Austria. The true behind-the-scenes account of the Anschluss—a patchwork of minor flourishes of strength and fine words, fevered telephone calls, and vulgar threats—all reveal a starkly different picture. It is not strength of character or the determination of a people that wins the day, but rather a combination of intimidation and bluff. With this vivid, compelling history, Éric Vuillard warns against the peril of willfully blind acquiescence, and offers a reminder that, ultimately, the worst is not inescapable.

### **Graduate Programs in the Humanities, Arts & Social Sciences 2015 (Grad 2)**

Peterson's 2014-11-25 Peterson's Graduate Programs in the Humanities, Arts & Social Sciences 2015 contains details on more than 11,000 graduate programs of study across all relevant disciplines—including the arts and architecture, communications and media, psychology and counseling, political science and international affairs, economics, and sociology, anthropology, archaeology, and more. Informative data profiles include facts and figures on accreditation, degree requirements, application deadlines and contact information, financial support, faculty, and student body profiles. Two-page in-depth descriptions, written by featured institutions, offer complete details on specific graduate programs, schools, or departments as well as information on faculty research. Comprehensive directories list programs in this volume, as well as others in the graduate series.

**Speaking in Tongues: Language Across Contexts and Users** Luis Pérez González 2003 Speaking in Tongues, the second volume of the English in the World series, places the reader at the heart of investigations into the nature and process of translation in an internationalized scenario where: the consolidation of multilateral institutions and multinational corporations struggle between globalization and localization; the information and communication technologies are both the means to enhance translation productivity and the main source of jobs for professional translators; the new media and communication technologies provide a whole range of ways to interact with other, both in leisure and academic settings. The scope of the book ranges from Systemic Functional Linguistics to Discourse Analysis, from Intercultural Rhetoric to Poststructuralism. The collection of articles has been edited to recognise the range of perspectives looking to this field and is of direct interest both to any linguist, translator or other social scientist working in the study of interlingual communication and to those designing and buying translation technologies for professional purposes.

**Bridging the Gap** Sylvie Lambert 1994-07-01 Interpreting has been a neglected area since the late 1970s. Sylvie Lambert and Barbara Moser-Mercer have attempted to give a new impulse to academic research in print with this collection of 30 articles discussing various aspects of interpreting grouped in 3 sections: I. Pedagogical issues, II. Simultaneous interpretation, III. Neuropsychological research. Being a professional interpreter may not be

sufficient to explain what interpretation is all about and how it should be practised and taught. The purpose of this collection of reports on non-arbitrary, empirical research of simultaneous and sign-language interpretation, designed to bridge the gap between vocational and scientific aspects of an interpreter's skills, is to show that the study of conference interpretation, by way of scientific experimental methods, as tedious and speculative as they may often appear, is bound to contribute significantly to general knowledge in this field and have tangible and practical repercussions. The contributors are specialists from all over the world. Introduction by Barbara Moser-Mercer.

**Peterson's Graduate Programs in the Humanities 2011** Peterson's 2011-07-01 Peterson's Graduate Programs in the Humanities contains a wealth of information on colleges and universities that offer graduate work in History, Humanities, Language & Literature, Linguistic Studies, Philosophy & Ethics, Religious Studies, and Writing. Institutions listed include those in the United States, Canada, and abroad that are accredited by U.S. accrediting agencies. Up-to-date data, collected through Peterson's Annual Survey of Graduate and Professional Institutions, provides valuable information on degree offerings, professional accreditation, jointly offered degrees, part-time and evening/weekend programs, postbaccalaureate distance degrees, faculty, students, degree requirements, entrance requirements, expenses, financial support, faculty research, and unit head and application contact information. Readers will find helpful links to in-depth descriptions that offer additional detailed information about a specific program or department, faculty members and their research, and much more. In addition, there are valuable articles on financial assistance, the graduate admissions process, advice for international and minority students, and facts about accreditation, with a current list of accrediting agencies.

**Redefining Translation and Interpretation in Cultural Evolution** Seel, Olaf Immanuel 2017-10-31 Culture has a significant influence on the emerging trends in translation and interpretation. By studying language from a diverse perspective, deeper insights and understanding can be gained. Redefining Translation and Interpretation in Cultural Evolution is a pivotal reference source for the latest scholarly research on culture-oriented translation and interpretation studies in the contemporary globalized society. Featuring coverage on a range of topics such as sociopolitical factors, gender considerations, and intercultural communication, this book is ideally designed for linguistics, educators, researchers, academics, professionals, and students interested in cultural discourse in translation studies.

**Languages in the Crossfire** Jesús Baigorri-Jalón 2021-07-07 This book sheds light on the important role played by interpreters during the Spanish Civil War, offering a historical overview of the ways in which interpreters on both sides mediated the myriad linguistic, cultural, and ethical difficulties of wartime communication. Drawing on archives, interpreters' memoirs, and testimonies from their own children, the volume extends beyond traditional historiographic accounts to demonstrate the significance of interpreters' work in facilitating communication during the war across a range of settings, including in combat, hospitals, interrogations, detention camps, and propaganda. Baigorri-Jalón showcases the diverse backgrounds of these interpreters through individual and collective portraits, paying special attention to the work of the many women working as interpreters during the conflict. In turning its attention to lessons from the past, the book reaffirms the work of interpreters in present-day international conflicts toward better understanding the ethical dilemmas they face, in wars, humanitarian aid,

demobilization tasks, and multilingual criminal proceedings. This volume, the first book in the Routledge Research on Translation and Interpreting History series, will be of interest to scholars in translation and interpreting studies, particularly those interested in historical and sociological approaches as well as Spanish Civil War scholarship.

*The Routledge Handbook of Interpreting* Holly Mikkelsen 2015-02-20 The Routledge Handbook of Interpreting provides a comprehensive survey of the field of interpreting for a global readership. The handbook includes an introduction and four sections with thirty one chapters by leading international contributors. The four sections cover: The history and evolution of the field The core areas of interpreting studies from conference interpreting to interpreting in conflict zones and voiceover Current issues and debates from ethics and the role of the interpreter to the impact of globalization A look to the future Suggestions for further reading are provided with every chapter. The Routledge Handbook of Interpreting is an essential reference for researchers and advanced students of interpreting.

**Why Translation Studies Matters** Daniel Gile 2010-01-01 Whether Translation Studies really matters is an important and challenging question which practitioners of translation and interpreting raise repeatedly. TS scholars, many of whom are translators and interpreters themselves, are not indifferent to it either. The twenty papers of this thematic volume, contributed by authors from various parts of Europe, from Brazil and from Israel, address it in a positive spirit. Some do so through direct critical reflection and analysis, arguing in particular that the engagement of TS with society should be strengthened so that the latter could benefit more from the former. Others illustrate the relevance and contribution of TS to society and to other disciplines from various angles. Topics broached include the cultural mediation role of translators, issues in literary translation, knowledge as intellectual capital, globalization through English and risks associated with it, bridging languages, mass media, corpora, training, the use of modern technology, interdisciplinarity with psycholinguistics and neurophysiology.

*Crossing Borders in Community Interpreting* Carmen Valero Garcés 2008 At conferences and in the literature on community interpreting there is one burning issue that reappears constantly: the interpreter's role. What are the norms by which the facilitators of communication shape their role? Is there indeed only one role for the community interpreter or are there several? Is community interpreting aimed at facilitating communication, empowering individuals by giving them a voice or, in wider terms, at redressing the power balance in society? In this volume scholars and practitioners from different countries address these questions, offering a representative sample of ongoing research into community interpreting in the Western world, of interest to all who have a stake in this form of interpreting. The opening chapter establishes

the wider contextual and theoretical framework for the debate. It is followed by a section dealing with codes and standards and then moves on to explore the interpreter's role in various different settings: courts and police, healthcare, schools, occupational settings and social services.

**The Routledge Handbook of Translation and Ethics** Kaisa Koskinen 2020-12-16 The Routledge Handbook of Translation and Ethics offers a comprehensive overview of issues surrounding ethics in translating and interpreting. The chapters chart the philosophical and theoretical underpinnings of ethical thinking in Translation Studies and analyze the ethical dilemmas of various translatorial actors, including translation trainers and researchers. Authored by leading scholars and new voices in the field, the 31 chapters present a wide coverage of emerging issues such as increasing technologization of translation, posthumanism, volunteering and activism, accessibility and linguistic human rights. Many chapters provide the first extensive overview of the topic or present new takes on established areas. The book is divided into four parts, with the first covering the most influential ethical theories. Part II takes the perspective of agents in different contexts and the ethical dilemmas they face, while Part III takes a critical look at central institutions structuring and controlling ethical behaviour. Finally, Part IV focuses on special issues and new challenges, and signals new directions for further study. This handbook is an indispensable resource for all students and researchers of translation and ethics within translation and interpreting studies, multilingualism and comparative literature.
