España Años 50 Carlos Saura 2016-03-29 When the great filmmaker Carlos Saura was a young man, he desired to create a book about his native Spain that would transgress the propaganda imagery of the Franco regime. He strove to depict his country as seen through his camera when he set out on a journey through Andalusia and central Spain in his Fiat 600 in the late 1950s. The trip left a deep impression on his first documentary film, "Cuenca" (1958). Since his youth Saura has been fascinated not only by the process of photographing but also by its technology, as demonstrated by his museum-quality collection of hundreds of historical and self-made cameras. Torn between the two media at the beginning of his career, Saura eventually chose to become a filmmaker but has continued to take photographs. Vanished Spain offers a comprehensive insight into Saura's photography with a focus on his black-and-white work of the 1950s: compelling images of landscapes, villages, bullfights and people of another era. Photographs of Saura's diploma film project, "La Tarde de Domingo" (1957), are also present in the book, making it the definitive representation of his photographic oeuvre.

Handbook of Nanocomposite Supercapacitor Materials III Kamal K. Kar 2021-05-27 This book covers the selection of nanocomposite supercapacitor materials. It describes the most important criteria behind the selection of materials for the electrode, electrolytes, separator and current collectors, which comprise the key components of supercapacitors for advanced energy storage. Athens Riviera Assouline 2020-05-28 Overlooking the Aegean Sea, a charming string of coastal neighborhoods form the Athens Riviera, a serene escape from the constant activity in the city's center. A selection of high-end hotels lines the pristine stretch of beaches down to the southernmost point of the Attica Peninsula. The revamped Four Seasons Astir Palace, with a history of housing foreign dignitaries and film stars of the 1960s, is the most luxurious hotel in Athens, perhaps even in all of Greece. The night club, Island, is bringing back the glamour and excitement of the twentieth century bouzouki clubs reminiscent of names such as Melina Mercouri and Stavros Niarchos. Athens is experiencing a revival--in art, night life and design. For a metropolis

constantly associated with the past, the modern strides in development and culture are sometimes overlooked in favor of the ruins and artifacts from antiquity. When in fact, the juxtaposition only enhances the beauty of both. Athens Riviera puts the old-world beside the new-world and a deeper understanding of this ancient capital emerges. With one foot in the past and one foot in the future; access to both the electricity of city life and the tranquility of a beach side resort, Athens cannot be defined in simple terms. One just has to experience it for themselves.

Consumer Behavior over the Life Course George P. Moschis 2019-01-31 This book examines consumer behavior using the "life course" paradigm, a multidisciplinary framework for studying people's lives, structural contexts, and social change. It contributes to marketing research by providing new insights into the study of consumer behavior and illustrating how to apply the life course paradigm's concepts and theoretical perspectives to study consumer topics in an innovative way. Although a growing number of marketing researchers, either implicitly or explicitly, subscribe to life course perspectives for studying a variety of consumer behaviors, their efforts have been limited due to a lack of theories and methods that would help them study consumers over the lifecycle. When studying consumers over their lifespan, researchers examine differences in the consumer behaviors of various age groups (e.g., children, baby boomers, elderly, etc.) or family life stages (e.g., bachelors, full nesters, empty nesters, etc.), inferring that consumer behavior changes over time or linking consumption behaviors to previous experiences and future expectations. Such efforts, however, have yet to benefit from an interdisciplinary research approach. This book fills this gap in consumer research by informing readers about the differences between some of the most commonly used models for studying consumers over their lifespan and the life

course paradigm, and providing implications for research, public policy, and marketing practice. Presenting applications of the life course approach in such research topics as decision making, maladaptive behaviors (e.g., compulsive buying, binge eating), consumer well-being, and cognitive decline, this book is beneficial for students, scholars, professors, practitioners, and policy makers in consumer behavior, consumer research, consumer psychology, and marketing research.

El Greco Paints the Grand Inquisitor Stefan Andres 1989 El Greco, the absolute artist, whose paintings afford a glimpse of the human soul, is summoned to paint a portrait of Cardinal Nino de Guevara, the despised Grand Inquisitor of Spain, an inordinately cruel man - with deeply held convictions. The painter from Greece faces the choices open to all those who live and work in an age of despotic suppression: to flee, to capitulate, or to be a witness for truth, regardless of the consequences. El Greco and his friend Dr. Cazalla do what they must to retain their personal freedom while living in virtual bondage. Stefan Andres wrote *El Greco Paints the Grand Inquisitor* in 1935 as new restraints were being imposed by the Nazis on the artistic community in Germany. Upon its publication in 1936 it was recognized immediately as a veiled document of resistance to Nazi tyranny. It depicts the struggle of the indomitable painter to record, for ages yet to come, the viper in the eye of the feared cardinal.

Digging for Words Angela Burke Kunkel 2020 A gorgeous and inspiring picture book based on the life of José Alberto Gutiérrez, a garbage collector in Bogotá, Colombia who started a library with a single discarded book found on his route. In the city of Bogota, in the barrio of La Nueva Gloria, there live two Josés. One is a boy who dreams of Saturdays-- that's the day he gets to visit Paradise, the library. The second José is a garbage collector. From dusk until dawn, he scans the sidewalks as he drives, squinting in the dim light, searching household trash for hidden treasure . . . books! Some are stacked in neat piles, as if waiting for José . Others take a bit more digging. Ever since he found his first book, *Anna Karenina*, years earlier, he's been collecting books--thick ones and thin ones, worn ones and almost new ones-- to add to the collection in his home. And on Saturdays, kids like little José run to the steps of Paradise to discover a world filled with books and wonder. With an evocative text by a debut author, and rich, stunning illustrations from an up-and-coming Colombian illustrator, here is a celebration of perseverance, community, and the power of books.

With its cities like Bruges, Antwerp & Ghent, Flanders has been one of the most important centers of Western art and culture since the middle Ages. The traces of Flemish masters such as Rubens or Van Eyck are much a part of Flanders as the desire for pleasure and good food. The Boy and the Gorilla Jackie Azúa Kramer 2020-10-13 This profoundly moving tale about a grieving boy and an imaginary gorilla makes real the power of talking about loss. On the day of his mother's funeral, a young boy conjures the very visitor he needs to see: a gorilla. Wise and gentle, the gorilla stays on to answer the heart-heavy questions the boy hesitates to ask his father: Where did his mother go? Will she come back home? Will we all die? Yet with the gorilla's friendship, the boy slowly begins to discover moments of comfort in tending flowers, playing catch, and climbing trees. Most of all, the gorilla knows that it helps to simply talk about the loss--especially with those who share your grief and who may feel alone, too. Author Jackie Azúa Kramer's quietly thoughtful text and illustrator Cindy Derby's beautiful impressionistic artwork depict how this tender relationship leads the boy to open up to his father and find a path forward. Told entirely in dialogue, this direct and deeply affecting picture book will inspire conversations about grief, empathy, and healing beyond the final hope-filled scene.

Komodo Dragons James B. Murphy 2015-03-31 More than twenty years have passed since Walter Auffenberg's monumental *The Behavioral Ecology of the Komodo Monitor*. In the intervening years the populations of Komodo dragons--native only to a handful of islands in southeast Indonesia--have dwindled, sparking intensive conservation efforts. During the last two decades new information about these formidable predators has emerged, and the most important findings are clearly presented here. A memoir from Walter Auffenberg and his son Kurt is followed by the latest information on Komodo dragon biology, ecology, population distribution, and behavior. The second part of the book is dedicated to step-by-step management and conservation techniques, both for wild and captive dragons. This successful model is a useful template for the conservation of other endangered species as well, for, as Kurt and Walter

Auffenberg note, "The species may well indeed survive in the wild for generations to come while countless other organisms are lost."

Gardens of Mallorca Charlotte Seeling 2003 Gardens of Mallorca surprises readers with its depiction of magnificent Mediterranean gardens. Riveting texts, which convey much more than just factual knowledge, are a harmonious counter-part to the opulent visual component. Charlotte Seeling explains what is meant by a "Mallorcan-style garden" and which plants are original to the island and which have been imported. Along with the gorgeous foliage, the history of the island and its people are also treated in depth, and anecdotes about the gardens' owners give this luxurious illustrated book a particular, and very personal, Mallorcan charm.
