Lewis Carroll's Alice's Adventures in Wonderland and Through the Looking-Glass
Zoe Jaques 2016-05-06 Emerging in several different versions during the author's lifetime, Lewis Carroll's Alice novels have a publishing history almost as magical and mysterious as the stories themselves. Zoe Jaques and Eugene Giddens offer a detailed and nuanced account of the initial publication of Alice's Adventures in Wonderland and Through the Looking-Glass and investigate how their subsequent transformations through print, illustration, film, song, music videos, and even stamp-cases and biscuit tins affected the reception of these childhood favourites. The authors consider issues related to the orality of the original tale and its impact on subsequent transmission, the differences between the manuscripts and printed editions, and the politics of writing and publishing for children in the 1860s. In addition, they take account of Carroll's own responses to the books' popularity, including his writing of major adaptations and a significant body of meta-textual commentary, and his reactions to the staging of Alice in Wonderland. Attentive to the child reader, how changing notions of childhood identity and needs affected shifting narratives of the story, and the representation of the child's body by various illustrators, the authors also make a significant contribution to childhood studies.

Balkan Identities Maria Todorova 2004-04 Balkan Identities brings together historians, anthropologists, and literary scholars all working under the shared conviction that the only way to overcome history is to intimately understand it. The contributors of Balkan Identities focus on historical memory, collective national memory, and the political manipulation of national identities. They refine our understanding of memory and identity in general and explore and assess the significance of particular manifestations of Balkan national identities and national memories in the region. The essays in Balkan

Identities grapple with three major problems: the construction of historical memory, sites of national memory, and the mobilization of national identities. While most essays focus on a single country (e.g. Croatia, Romania, Turkey, Cyprus, Albania, Serbia, Bulgaria, Greece, Macedonia), they are in dialogue with each other and share an opposition to rigid isolationist identities. Illuminating and challenging, *Balkan Identities* demonstrates the ever-changing nature of a troubled and culturally vibrant region.

Performatism, Or the End of Postmodernism Raoul Eshelman 2009 The author suggests that in this era following the postmodern we have entered a new, monist epoch in which aesthetically mediated belief replaces endless irony as the dominant force in culture. The book documents the "new monism" through an examination of popular films and novels such as American beauty, Life of Pi, and Middlesex as well as in the work of major architects and artists such as Sir Norman Foster, Andreas Gursky, and Vanessa Beecroft. --book cover.

Women in World Religions Arvind Sharma 1987-04-15 This is a book by women about women in the religions of the world. It presents all the basic facts and ideological issues concerning the position of women in the major religious traditions of humanity: Buddhism, Christianity, Confucianism, Hinduism, Islam, Judaism, Taoism, and tribal religions. A special feature of the book is its phenomenological approach, wherein scholars examine sacred textual materials. Each contributor not only studies her religion from within, but also studies it from her own feminine perspective. Each is an adept historian of religions, who grounds her analysis in publicly verifiable facts. The book strikes a delicate balance between hard fact and delicate perception, the best tradition of phenomenology and the history of religions. It also demonstrates how much

religions may vary over time. Contributors are Katherine K. Young, Associate Professor of Religious Studies at McGill University; Nancy Schuster Barnes, whose Ph.D. is in Sanskrit and Indian Studies; M. Theresa Kelleher, Assistant Professor of Religion and Asian Studies at Manhattanville College; Barbara Reed, Assistant Professor of Religion at St. Olaf College; Denise L. Carmody, Professor and Chair, Department of Religion, The University of Tulsa. Also Jane I. Smith, Associate Dean for Academic Affairs and Lecturer in Islamic Studies at Harvard Divinity School; Rosemary Radford Ruether, Georgia Harkness Professor of Applied Theology at the Garrett-Evangelical Theological Seminary; Rita M. Gross, Associate Professor of Comparative Religions at the University of Wisconsin, Eau Claire. Arvind Sharma is Senior Lecturer in the Department of Religious Studies at the University of Sydney, New South Wales, Australia.

The Future of Freedom: Illiberal Democracy at Home and Abroad (Revised Edition) Fareed Zakaria 2007-10-09 A modern classic that uses historical analysis to shed light on the present, *The Future of Freedom* is, as the Chicago Tribune put it, "essential reading for anyone worried about the promotion and preservation of liberty." Hailed by the New York Times as "brave and ambitious...updated Tocqueville," it enjoyed extended stays on the New York Times, Wall Street Journal, and Washington Post bestseller lists and has been translated into eighteen languages. Prescient in laying out the distinction between democracy and liberty, the book now contains a new afterword on the United States's occupation of Iraq. "Intensely provocative and valuable," according to BusinessWeek, with an easy command of history, philosophy, and current affairs, *The Future of Freedom* calls for a restoration of the balance between liberty and democracy and shows how politics and government can be made effective and relevant for our time. This new edition includes a new afterword on America in Iraq.

History in the Plural Niklas Olsen 2012-01-30 Reinhart Koselleck (1923–2006) was one of most imposing and influential European intellectual historians in the twentieth century. Constantly probing and transgressing the boundaries of mainstream historical writing, he created numerous highly innovative approaches, absorbing influences from other academic disciplines as represented in the work of philosophers and political thinkers like Hans Georg Gadamer and Carl Schmitt and that of internationally renowned scholars such as Hayden White, Michel Foucault, and Quentin Skinner. An advocate of "grand theory," Koselleck was an inspiration to many scholars and helped move the discipline into new directions (such as conceptual history, theories of historical times and memory) and across disciplinary and national boundaries. He thus achieved a degree of international fame that was unusual for a German historian after 1945. This book not only presents the life and work of a "great thinker" and European intellectual, it also contributes to our understanding of complex theoretical and methodological issues in the cultural sciences and to our knowledge of the history of political, historical, and cultural thought in Germany from the 1950s to the present.

The Siege Ismail Kadare 2008-08-04 It is the early fifteenth century and as winter falls away the people of Albania know their fate is sealed. Their refusal to negotiate with the Ottoman Empire means war is now inevitable. Soon, dust kicked up by Turkish horses is spotted from a citadel. Tens of thousands of men begin to fill the plain below. The Siege tells the enthralling story of the weeks and months that follow—of the exhilaration and despair of the battlefield, the shifting strategies of war, and those whose lives are held in the balance. For those trapped inside the citadel, and for the Pasha, the artillerymen, astrologer, blind poet and his harem of women outside, the siege is inescapable and increasingly oppressive. From this dramatic setting Kadare has created one of his masterpieces, a profound novel that is as moving as it is compelling. It is an unforgettable account of the clash of two civilisations and a timeless depiction of individual pain, uncertainty and fear. Kadare is one of our most significant writers.

The Mystery of Lewis Carroll Jenny Woolf 2010-02-02 A new biography of Lewis Carroll, just in time for the release of Tim Burton's all-star Alice in Wonderland Lewis Carroll was brilliant, secretive and self contradictory. He reveled in double meanings and puzzles, in his fiction and his life. Jenny Woolf's *The Mystery of Lewis Carroll* shines a new light on the creator of Alice In Wonderland and brings to life this fascinating, but sometimes exasperating human being whom some have tried to hide. Using rarely-seen and recently discovered sources, such as Carroll's accounts ledger and unpublished correspondence with the "real" Alice's family, Woolf sets Lewis Carroll firmly in the context of the English Victorian age and answers many intriguing questions about the man who wrote the Alice books, such as:

- Was it Alice or

her older sister that caused him to break with the Liddell family? • How true is the gossip about pedophilia and certain adult women that followed him? • How true is the "romantic secret" which many think ruined Carroll's personal life? • Who caused Carroll major financial trouble and why did Carroll successfully conceal that person's identity and actions? Woolf answers these and other questions to bring readers yet another look at one of the most elusive English writers the world has known.

Ethnonationalism Walker Connor 2018-06-05 Walker Connor, perhaps the leading student of the origins and dynamics of ethnonationalism, has consistently stressed the importance of its political implications. In these essays, which have appeared over the course of the last three decades, he argues that Western scholars and policymakers have almost invariably underrated the influence of ethnonationalism and misinterpreted its passionate and nonrational qualities. Several of the essays have become classics: together they represent a rigorous and stimulating attempt to establish a secure methodological foundation for the study of a complicated phenomenon increasingly, if belatedly, recognized as the major cause of global political instability. The book opens by reviewing a wide range of scholarship on ethnonationalism. Connor examines nineteenth- and early twentieth-century debate among British scholars on the viability and desirability of the multinational state, the American "nation-building" school of thought that dominated the literature on political development in the post-World War II era, and the recent explosion of literature on ethnonationalism. In the second part of the book, he shows how progress in the study of ethnonationalism has been hampered by terminological confusion, an inclination to perceive homogeneity even where heterogeneity thrives, an unwarranted tendency to seek explanation for ethnic conflict in economic differentials, and lack of historical perspective. The book closes with a consideration of the inherent limitations of rational inquiry into the realm of group-identity.
